alexander dreyfoos obituary: Bhutan Michael Hawley, Jr., 2004-01 BHUTAN is a smaller companion volume to the world's largest published book, the 5x7' photographic book called BHUTAN. This book opens to nearly three feet, and offers an eyeful of imagery from several expeditions across the legendary mountain kingdom. Teams from MIT and Friendly Planet traveled extensively with two young people, Choki Lhamo (age 14, a girl from Trongsa who aspires to be a doctor) and Gyelsey Loday (also 14, son of the head lama in far-off Phongmey). This book shares a bit of their beautiful corner of the world. Proceeds are largely tax-deductible and are donated to help

Bhutan's schools and scholars.

alexander dreyfoos obituary: Alexander M. Dreyfoos Lise Steinhauer, David Allen, 2015-01-15 The great achievements of a man's life do not occur in a single moment, but are the result of his experiences to that point. For Alex Dreyfoos - called a visionary, a Renaissance man, and the smartest man I know by long-time friends and colleagues - the achievements are many. All reflect his PASSION for living and his tenacious sense of PURPOSE in everything he does. Dreyfoos was born in 1932 New York to distinctively different parents. His father, a photographer in the Golden Age of Movies, came from Swiss-German Jewish ancestry (no longer observed), while his mother was a celebrated cellist whose Protestant pedigree dated to 1642 emigration from England. Passion & Purpose reaches back to these roots, then forward to show how one man developed through relationships and events. Combining the arts and science in the 1950s when that concept was new, Dreyfoos studied photography and electronics at MIT and business at Harvard Business School. He founded Photo Electronics Corporation (PEC) in 1963, moving it to Palm Beach County, Florida, in 1969. One of their inventions is part of a permanent exhibit at the Smithsonian Institution; another won them an Academy Award. After purchasing the local ABC-TV affiliate (later CBS) from John D. MacArthur, Dreyfoos gained a voice in the community. He founded the Cultural Council of Palm Beach County and for twelve years led the efforts, documented here in detail, which resulted in the world-class Raymond F. Kravis Center for the Performing Arts. His philanthropy, always hands-on, has also included MIT, The Scripps Research Institute, Max Planck Florida Institute, and the public arts magnet high school in Palm Beach County, renamed for him. Passion & Purpose recounts Dreyfoos's adventures above and below the water, in the pilot's seat and behind a camera. It is also a love story of his greatest passion, Renate, now his wife. For her cruising comfort, Dreyfoos helped design their 134-foot Silver Cloud to minimize wave motion, the first SWATH design built as a pleasure yacht. Between these covers is a trip back in time and around the world.

alexander dreyfoos obituary: High Technology and Low-income Communities Donald A. Schön, Bishwapriya Sanyal, William John Mitchell, 1999 How will low-income communities be affected by the waves of social, economic, political, and cultural change that surround the new information technologies? How can we influence the outcome? This action-oriented book identifies the key issues, explores the evidence, and suggests some answers. Avoiding both utopianism and despair, the book presents the voices of technology enthusiasts and skeptics, as well as social activists. The book is organized into three parts. Part I examines the issues in their socio-technical, economic, and historical contexts. Part II--the core of the book--proposes five initiatives for using computers and electronic communications to benefit low-income urban communities: - to provide access to the new technologies in ways that enable low-income people to become active producers rather than passive users;- to use the new technologies to improve the dialogue between public agencies and low-income neighborhoods;- to help low-income youth to exploit the entrepreneurial potential of information technologies;- to develop approaches to education that take advantage of the educational capabilities of the computer;- to promote the community computer: applications of computers and communications technology that foster community development. Part III presents a synthesis of the various topics. Its main questions are, What are the prospects and problems of initiatives to enable the poor to benefit from the new technologies? and What federal, state, and municipal policies would enhance the prospects for success? Bamberger, Anne Beamish, Manuel Castells, Joseph Ferreira, Peter Hall, Leo Marx, William J. Mitchell, Mitchel Resnick, Bish Sanyal, Donald A. Schön, Alan and Michelle Shaw, Michael Shiffer, Bruno Tardieu, Sherry Turkle, Julian Wolpert

alexander dreyfoos obituary: A Raisin in the Sun Lorraine Hansberry, 2011-11-02 Never before, in the entire history of the American theater, has so much of the truth of Black people's lives been seen on the stage, observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. This edition presents the fully restored, uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff. Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of Black America—and changed American theater forever. The play's title comes from a line in Langston Hughes's poem *Harlem*, which warns that a dream deferred might dry up/like a raisin in the sun. The events of every passing year add resonance to *A Raisin in the Sun*, said The New York Times. It is as if history is conspiring to make the play a classic.

alexander dreyfoos obituary: Imagining MIT William J. Mitchell, 2011-02-25 The story of the decade long, billion-dollar building boom at MIT and how it produced major works of architecture by Charles Correa, Frank Gehry, Steven Holl, Fumihiko Maki, and Kevin Roche. In the 1990s, MIT began a billion-dollar building program that transformed its outdated, run-down campus into an architectural showplace. Funded by the high-tech boom of the 1990s and driven by a pent-up demand for new space, MIT's ambitious rebuilding produced five major works of architecture: Kevin Roche's Zesiger Sports and Fitness Center, Steven Holl's Simmons Hall, Frank Gehry's Stata Center, Charles Correa's Brain and Cognitive Science Complex, and Fumihiko Maki's still-unrealized project for the Media Laboratory. In *Imagining MIT*, William Mitchell (who served as architectural adviser to MIT president Charles Vest) offers a critical, behind-the-scenes view of MIT's new buildings and the complex processes that produced them. The story is not simply one of commissions, projects, CAD, and hardhats; it is about all the forces that come into play—including money, politics, institutional dynamics, and ideology—when a major university campus is imagined, designed, and built. Lavishly illustrated with architectural photographs, drawings, plans, and models, with color images throughout, *Imagining MIT* shows both the opportunities and the obstacles facing architectural production and city building at the dawn of a new millennium. Mitchell challenges and subverts the standard form of architectural narrative—the mythic tale of heroic designers and enlightened patrons who overcome adversity to realize their visions. Instead, he offers a Rashomon-like construction of multiple voices and viewpoints. He sets the scene by recounting the history of MIT campus architecture, from its early synthesis of classicism and pragmatism to the daring mid-twentieth-century modernism of Alvar Aalto and Eero Saarinen. The descriptions and illustrations of the new projects show not only the evolution of each building, but the relationship of the techniques of architectural representation—themselves evolving, from sketching and modeling to three-dimensional computer modeling and rendering—to the conception and development of architectural ideas.

alexander dreyfoos obituary: African American Sites in Florida Kevin M McCarthy, 2019-07-24 African Americans have risen from the slave plantations of nineteenth-century Florida to become the heads of corporations and members of Congress in the twenty-first century. They have played an important role in making Florida the successful state it is today. This book takes you on a tour, through the 67 counties, of the sites that commemorate the role of African Americans in Florida's history. If we can learn more about our past, both the good and the not-so-good, we can make better decisions in the future. Behind the hundreds of sites in this book are the courageous African Americans like Brevard County's Malissa Moore, who hosted many Saturday night dinners to

raise money to build a church, and Miami-Dade's Gedar Walker, who built the first-rate Lyric Theater for black performers. And of course also featured are the more famous black Floridians like Zora Neale Hurston, Jackie Robinson, Mary McCleod Bethune, and Ray Charles.

alexander dreyfoos obituary: *Top 40 Democracy* Eric Weisbard, 2014-11-27 A capacious and stimulating tour de force of the mainstream music industry that reveals the cultural import of even the most deliberately banal performers and songs. Weisbard finds depths in our culture's shallows as he investigates and articulates the cultural construction of such phenomena as Dolly Parton, Elton John, the Isley Brothers, A&M Records, and the rise of radio populism. He further sheds new light on the upheavals in the music industry over the last fifteen years and the implications of them for the audiences the industry has shaped. Each chapter brings us to see afresh precisely that music and those musicians that have become the most familiar and overexposed, by delving into the minutiae of how pop stars and their music were made and framed for repeated consumption in the era dominated by radio.

alexander dreyfoos obituary: *Placing Words* William John Mitchell, 2005 Reflections on architecture and the exchange of information in the spaces and places of the city, from the necessity of skyscrapers in an age of Web sites to cities as talent magnets, from architectural bling to the neo-minimalism of the new MoMA. The meaning of a message, says William Mitchell, depends on the context of its reception. Shouting 'fire' in a crowded theater produces a dramatically different effect from barking the same word to a squad of soldiers with guns, he observes. In *Placing Words*, Mitchell looks at the ways in which urban spaces and places provide settings for communication and at how they conduct complex flows of information through the twenty-first century city. Cities participate in the production of meaning by providing places populated with objects for words to refer to. Inscriptions on these objects (labels, billboards, newspapers, graffiti) provide another layer of meaning. And today, the flow of digital information -- from one device to another in the urban scene -- creates a digital network that also exists in physical space. *Placing Words* examines this emerging system of spaces, flows, and practices in a series of short essays -- snapshots of the city in the twenty-first century. Mitchell questions the necessity of flashy downtown office towers in an age of corporate Web sites. He casts the shocked-and-awed Baghdad as a contemporary Guernica. He describes architectural makeovers throughout history, listing Le Corbusier's Fab Five Points of difference between new and old architecture, and he discusses the architecture of Manolo Blahniks. He pens an open letter to the Secretary of Defense recommending architectural features to include in torture chambers. He compares Baudelaire, the Parisian flaneur, to Spiderman, the Manhattan traceur. He describes the iPod-like galleries of the renovated MoMA and he recognizes the camera phone as the latest step in a process of image mobilization that began when artists stopped painting on walls and began making pictures on small pieces of wood, canvas, or paper. The endless flow of information, he makes clear, is not only more pervasive and efficient than ever, it is also generating new cultural complexities.

alexander dreyfoos obituary: *What a Great Word!* Karen Moore, 2018-12-04 What a Great Word! is a new kind of devotional. With Scripture and fresh insights from author Karen Moore, readers are able to focus on one word each day to strengthen their faith and see God's hand at work. These are simple words, words we use every day that we often gloss over when reading God's Word. If, for example, the word for the day is protect, the reading from Psalm 121:6-8 declares: The Lord will protect you from all dangers; He will guard your life. Readers will then see how the Lord protects our lives. He is the One who defends us, guards us, and keeps us safe. With one simple word, readers will move from hoping the Lord will protect us, to believing He will act on our behalf. Now that's a Great Word! What a Great Word! is a beautiful way to spend a few minutes each day focusing on what is really important and growing into the person God created us to become. -- Jean Ziglar, wife of Zig Ziglar

But Grace Park and Shawn Matthews have their own problems. Grace is sheltered and largely oblivious, living in the Valley with her Korean-immigrant parents, working long hours at the family pharmacy. She’s distraught that her sister hasn’t spoken to their mother in two years, for reasons beyond Grace’s understanding. Shawn has already had enough of politics and protest after an act of violence shattered his family years ago. He just wants to be left alone to enjoy his quiet life in Palmdale. But when another shocking crime hits LA, both the Park and Matthews families are forced to face down their history while navigating the tumult of a city on the brink of more violence.

Meet prominent physician Dr. Harry Stites, Justice of the Peace Squire John C. Hoagland, hermit Michael Merkel and other neighbors through their struggles, successes, disputes and fast friendships.

alexander dreyfoos obituary: *World's Greatest Architect* William J. Mitchell, 2008-08-01 Function and meaning in architecture and elsewhere, from tongue-in-cheek instructions for creating a surveillance state to reflections on the architecture of the potato chip. *World's Greatest Architect: Making, Meaning, and Network Culture Artifacts* (including works of architecture) play dual roles; they simultaneously perform functions and carry meaning. Columns support roofs, but while the sturdy Tuscan and Doric types traditionally signify masculinity, the slim and elegant Ionic and Corinthian kinds read as feminine. Words are often inscribed on objects. (On a door: “push” or “pull.”) Today, information is digitally encoded (dematerialized) and displayed (rematerialized) to become part of many different objects, at one moment appearing on a laptop screen and at another, perhaps, on a building facade (as in Times Square). Well-designed artifacts succeed in being both useful and meaningful. In *World's Greatest Architect*, William Mitchell offers a series of snapshots—short essays and analyses—that examine the systems of function and meaning currently operating in our buildings, cities, and global networks. In his writing, Mitchell makes connections that aren't necessarily obvious but are always illuminating, moving in one essay from Bush-Cheney's abuse of language to Robert Venturi's argument against rigid ideology and in favor of graceful pragmatism. He traces the evolution of Las Vegas from Sin/Sign City to family-friendly resort and residential real estate boomtown. A purchase of chips leads not only to a complementary purchase of beer but to thoughts of Eames chairs (like Pringles) and Gehry (fun to imitate with tortilla chips in refried beans). As for who the world's greatest architect might be, here's a hint: he's also the oldest.

alexander dreyfoos obituary: #kollerism Helmut Koller, 2019-08-05 HELMUT KOLLER, Austrian-born artist and photographer, is well known for his colorful, bold and festive paintings of animals, which are collected throughout the world. After Koller completed his training as a photographer, he became the official photographer for the Vienna State Opera, capturing legends such as Luciano Pavarotti, Placido Domingo, Leonard Bernstein and Rudolf Nureyev. He has published several books of his work, including *Opera Live*, about the Vienna State Opera. In the 1980s, Koller came to America and transitioned from photography to painting. Since 1987, Koller has been creating super-realistic colorful pop animal paintings. His paintings are currently exhibited in the United States, Europe, Russia and Asia. Koller lives and works in Palm Beach, Florida and Vienna, Austria.

alexander dreyfoos obituary: Bless Your Heart, Tramp! Celia Rivenbark, 2006-05-30 From the wickedly hilarious pen of Southern humorist Celia Rivenbark comes a collection of essays that brings to mind Dave Barry (in high heels) or Jeff Foxworthy (in a prom dress). Step into the wacky world of womanless wedding fund-raisers, in which Bubbas wear boas. Meet two sisters who fight rural boredom by washing Budweiser cans and cutting them into pieces to make clothing. Learn why the word snow sends any right-thinking Southerner careening to the Food Lion for extra loaves of bread and little else. Humor columnist and slightly crazed belle-by-birth Celia Rivenbark tackles these and other lard-laden subjects in *Bless Your Heart, Tramp*, a hilarious look at Southern---and just plain human---foibles, up-close and personal. So pour yourself a glass of sweet tea and curl up on the pie-azza with *Bless Your Heart, Tramp*.

alexander dreyfoos obituary: Wild Harmonies Hélène Grimaud, 2007 A celebrated French pianist's poignant story of her journey from her early days as a student in Paris to her life as the founder of a wolf conservation center in upstate New York. A gifted pianist from a young age, Hilhne Grimaud made her first recording at the age of fifteen and won the French equivalent of a Grammy at sixteen. She is a classical music star whose concerts continue to draw sellout crowds all over Europe and North America. But it wasn't until she met her first wolf that she discovered there was something missing in her life. Late one night in 1991, Grimaud encountered a wolf-dog hybrid in Florida and felt an immediate, instinctual connection to the animal—one that the wolf also seemed to share. Determined to do what she could to protect this threatened species, she committed her time and resources to becoming certified to found her own wolf preserve on the grounds of her home in New York State. Today, the master pianist acts as a tireless advocate for wolves, a species she believes has been unfairly demonized throughout history. In turn, the animals have given her a sense of freedom that she has never before experienced, even as an artist. In a beautifully rendered personal story that weaves the tale of a musical prodigy's rise to stardom with one of an animal lover learning to communicate on a level as primal as music, Hilhne Grimaud touches, astonishes, and delights with her remarkable insight and passion.

alexander dreyfoos obituary: *A Chance to Make History* Wendy Kopp, 2011-01-25 Since 1990, Teach For America has been building a movement to end educational inequity in America. Now its founder, Wendy Kopp, shares the lessons learned from the experiences of more than 25,000 teachers

and alumni who have taught and led schools in low-income communities during those years. *A Chance to Make History* cuts through the noise of today's debates to describe precisely what it will take to provide transformational education -- education that changes the academic and life trajectories predicted by children's socioeconomic backgrounds. Sharing her experiences in some of the country's most underserved communities, Kopp introduces leaders at the classroom, school, and system levels who, driven by passionate belief in their students' potential, have set out to accomplish what most think impossible. Their inspiring stories show how we can provide children facing all the challenges of poverty with an excellent education, and that doing so involves the same ingredients that account for success in any endeavor: visionary leadership that sets ambitious goals and puts forth the energy and discipline to reach them. Kopp's experiences and insights also shine light on why we have not made more progress against educational inequity -- how and why the intense but misguided quest for easy answers actually distracts from the hard work of expanding on the growing pockets of success in low-income communities -- and on what we need to do now to increase the pace of change. America's failure to educate millions of children to fulfill their potential is a crisis that strikes at our fundamental ideals and health as a nation. *A Chance to Make History* offers tangible evidence that we can change direction and provide all children the opportunity to attain an excellent education.

alexander dreyfoos obituary: The Folly and the Glory Tim Weiner, 2020-09-22 From Tim Weiner, winner of the Pulitzer Prize and the National Book Award, an urgent and gripping account of the 75-year battle between the US and Russia that led to the election and impeachment of an American president With vivid storytelling and riveting insider accounts, Weiner traces the roots of political warfare—the conflict America and Russia have waged with espionage, sabotage, diplomacy and disinformation—from 1945 until 2020. America won the cold war, but Russia is winning today. Vladimir Putin helped to put his chosen candidate in the White House with a covert campaign that continues to this moment. Putin's Russia has revived Soviet-era intelligence operations gaining ever more potent information from—and influence over—the American people and government. Yet the US has put little power into its defense. This has put American democracy in peril. Weiner takes us behind closed doors, illuminating Russian and American intelligence operations and their consequences. To get to the heart of what is at stake and find potential solutions, he examines long-running 20th-century CIA operations, the global political machinations of the Soviet KGB, the erosion of American political warfare after the cold war, and how 21st-century Russia has kept the cold war alive. *The Folly and the Glory* is an urgent call to our leaders and citizens to understand the nature of political warfare—and to change course before it's too late.

alexander dreyfoos obituary: Lost in the City of Flowers Maria C Trujillo, 2014-03-25 Viola has always felt like she doesn't belong. With her mother halfway around the world, her sister away at school, and her father as her only friend, she keeps to herself and only dreams of becoming an artist. The last thing a lonely fourteen-year-old girl wants for her birthday is to spend time with an old woman she doesn't even know. And she certainly doesn't want to travel 544 years back in time to a place she's only read about in books. Armed with Idan, a mysterious pocket watch, she must navigate the perilous city to find a way home before she falls victim to the threats of Lorenzo the Magnificent. For a girl that has a hard time meeting people, Viola manages to befriend the famous artist Leonardo da Vinci and gain the affections of the handsome Giuliano de' Medici. To get back home Viola must find her voice and tap into her artistic abilities while she works in an artist's workshop and encounters the enchanting work of some of the Renaissance's most amazing artists.

alexander dreyfoos obituary: Suki Schorer on Balanchine Technique Suki Schorer, Carol Rosegg, Russell Lee, 2006 When still a young dancer in the New York City Ballet, Suki Schorer was chosen by George Balanchine to lecture, demonstrate, and teach--he recognized in her that rare dancer who not only performs superbly but can also successfully pass along what she knows to others. In *Suki Schorer on Balanchine Technique*, she commits to paper the fruit of her twenty-four-year collaboration with Balanchine in a close examination of his technique for teachers, scholars, and advanced students of the ballet. Schorer discusses the crucial work at the barre as

well as center work, port de bras, pointework, jumps, partnering, and more. Her recollections of her own tutelage under Balanchine and her brilliant use of scores of his remarks about dancing and dancers lend both authority and intimacy to this extraordinary analysis of Balanchine's legacy to the future of dance. Abundantly illustrated throughout with instructional photographs featuring members of the New York City Ballet, this book will serve as an indispensable testament to Balanchine's ideas on technique and performance.

alexander dreyfoos obituary: A Comfortable Alliance Catherine Kullman, 2021-03-25 When Will, Earl of Rastleigh meets Helena Swift, he is intrigued by her composure, her kindness and her intelligence. As their friendship develops, he realises he has found his ideal wife, if only he can slip past her guard and overcome her well-known aversion to matrimony. Tempted by the thought of children of her own, and encouraged by her mother to leave the shallows where she has lingered since her fiancé died of the wounds he received at Waterloo, Helena accepts Will's offer of a marriage based not on dangerous love but affectionate companionship and mutual respect. But is this enough? As Will gets to know his wife better, and the secrets of her past unfold, he realises that they have settled for second-best. Can he change the basis of their marriage? Will Helena risk her heart and dare to love again?
