

Is Ballotpedia Credible

Is Ballotpedia Credible? A Comprehensive Evaluation of its Accuracy and Usefulness

Introduction:

In today's increasingly polarized political climate, access to reliable and unbiased information is crucial. Ballotpedia, a non-profit encyclopedia of American politics, aims to provide just that. But is it truly credible? This in-depth analysis will delve into Ballotpedia's methodology, sources, and potential biases to help you determine whether it's a trustworthy source for your political research and understanding. We'll examine its strengths and weaknesses, offering you a clear picture of its reliability and how best to use its vast resource of information.

I. Understanding Ballotpedia's Mission and Methodology:

Ballotpedia's stated mission is to provide comprehensive, non-partisan information about American politics. This includes detailed profiles of candidates, summaries of legislation, and analyses of election results. Their methodology emphasizes fact-checking and sourcing, aiming for accuracy and neutrality. They utilize a collaborative model, allowing users to contribute and edit entries, similar to Wikipedia. However, this collaborative nature presents both advantages and potential drawbacks, which we will explore later. The core of their approach relies on publicly available data, official government documents, and news reports from reputable sources. This transparent approach contributes to their perceived credibility, though it doesn't eliminate the possibility of errors or biases.

II. Strengths of Ballotpedia: Transparency and Breadth of Coverage:

One of Ballotpedia's significant strengths lies in its transparency. Most entries include a clear list of sources, allowing users to verify the information independently. This level of transparency is far superior to many other online political resources. Furthermore, Ballotpedia boasts an incredibly broad coverage of American politics, encompassing elections at all levels – from local school board races to national presidential elections. Their database extends beyond candidate profiles; it includes detailed information on legislation, ballot measures, political organizations, and even campaign finance data. This comprehensive scope makes it a valuable resource for anyone seeking a holistic understanding of American politics. The depth of information available on individual candidates, often including voting records, financial disclosures, and public statements, significantly enhances its utility.

III. Potential Weaknesses and Biases: The Collaborative Model and Data Interpretation:

While the collaborative model allows for community contributions and updates, it also introduces potential vulnerabilities. Despite Ballotpedia's rigorous fact-checking mechanisms and editorial oversight, the possibility of bias or inaccuracies slipping through remains. Furthermore, the interpretation of data can be subjective. For instance, summarizing a complex piece of legislation requires careful analysis, and different interpretations may arise. While Ballotpedia strives for

neutrality, the nuanced nature of political issues makes absolute objectivity a challenging goal. The potential for subtle biases, even unintentionally introduced through the phrasing of entries or the selection of emphasized facts, necessitates critical engagement with the information presented.

IV. Comparison to Other Political Information Sources:

Compared to other online political sources, Ballotpedia generally stands out for its comprehensiveness and commitment to transparency. Many news websites offer partisan viewpoints, while social media platforms are often rife with misinformation. Ballotpedia, though not perfect, presents a significantly more reliable and well-sourced alternative. While other encyclopedias may cover political topics, Ballotpedia's focus on American politics, coupled with its detailed election-centric data, sets it apart. This allows for a direct comparison of candidates' stances on key issues, creating a valuable resource for informed voting decisions.

V. Best Practices for Utilizing Ballotpedia:

To maximize the benefit and mitigate potential drawbacks, it's essential to utilize Ballotpedia responsibly. Always cross-reference the information with other reputable sources. Don't rely solely on one source, especially on controversial topics. Scrutinize the sources listed within each entry to assess their reliability and potential biases. Consider the context and potential interpretations of the provided information, remembering that even factual information can be presented in a way that subtly influences perceptions. Treat Ballotpedia as a valuable starting point for research rather than the definitive final word on any given political issue.

VI. Conclusion: A Valuable Resource with Limitations:

In conclusion, Ballotpedia is a generally credible resource for information on American politics. Its comprehensive coverage, transparent sourcing, and commitment to fact-checking are commendable strengths. However, users should be aware of potential limitations, including the possibility of bias, errors, and the subjective nature of data interpretation. By employing critical thinking and cross-referencing information from multiple reliable sources, you can significantly enhance the value and reliability of the data provided by Ballotpedia. It's a strong starting point, but not a substitute for comprehensive and independent research.

Article Outline:

Title: Is Ballotpedia Credible? A Comprehensive Evaluation

Introduction: Hooking the reader and providing an overview of the article's purpose.

Ballotpedia's Methodology and Mission: Detailed explanation of how Ballotpedia operates and its stated goals.

Strengths of Ballotpedia: Highlighting its strengths, such as transparency and breadth of coverage.

Potential Weaknesses and Biases: Analyzing potential biases and limitations of the platform.

Comparison with Other Sources: Comparing Ballotpedia to similar resources.

Best Practices for Using Ballotpedia: Guiding readers on how to effectively utilize the platform.

Conclusion: Summarizing the findings and offering a final assessment of Ballotpedia's credibility.

FAQs: Answering frequently asked questions about Ballotpedia.

Related Articles: Providing links to other relevant articles.

(The above sections represent the detailed explanation of each point in the outline.)

FAQs:

1. Is Ballotpedia biased towards a specific political party? While Ballotpedia strives for neutrality, subtle biases can unintentionally emerge due to the collaborative nature of the platform and interpretation of information. Cross-referencing with other sources is always advisable.
2. How accurate is the information on Ballotpedia? Ballotpedia employs fact-checking and sourcing; however, like any collaborative platform, errors can occur. Critical evaluation and cross-referencing are crucial.
3. Can I contribute to Ballotpedia? Yes, Ballotpedia encourages user contributions, but all submissions undergo a review process.
4. Is all the information on Ballotpedia free to access? Yes, Ballotpedia provides its information free of charge.
5. How does Ballotpedia compare to Wikipedia for political information? Both are collaborative, but Ballotpedia focuses specifically on American politics and elections, providing more detailed information on candidates and elections.
6. What types of information can I find on Ballotpedia? Candidate profiles, legislation summaries, election results, ballot measures, and campaign finance data.
7. Is Ballotpedia a reliable source for academic research? While useful, it's best used as a starting point, supplemented by peer-reviewed academic sources.
8. How often is Ballotpedia updated? Ballotpedia is regularly updated, with information often changing in real-time, particularly during election seasons.
9. Can I trust the election results reported on Ballotpedia? Ballotpedia generally reports official election results from certified sources, but it's always advisable to verify the data with official election authorities.

is ballotpedia credible: The Politics Industry Katherine M. Gehl, Michael E. Porter, 2020-06-23 Leading political innovation activist Katherine Gehl and world-renowned business strategist Michael Porter bring fresh perspective, deep scholarship, and a real and actionable solution, Final Five Voting, to the grand challenge of our broken political and democratic system. Final Five Voting has already been adopted in Alaska and is being advanced in states across the country. The truth is, the American political system is working exactly how it is designed to work, and it isn't designed or optimized today to work for us—for ordinary citizens. Most people believe that our political system is a public institution with high-minded principles and impartial rules derived from the Constitution. In reality, it has become a private industry dominated by a textbook duopoly—the Democrats and the Republicans—and plagued and perverted by unhealthy competition between the players. Tragically, it has therefore become incapable of delivering solutions to America's key economic and social challenges. In fact, there's virtually no connection between our political leaders solving problems and getting reelected. In *The Politics Industry*, business leader and path-breaking political innovator Katherine Gehl and world-renowned business strategist Michael Porter take a radical new approach. They ingeniously apply the tools of business analysis—and Porter's distinctive Five Forces framework—to show how the political system functions just as every other competitive industry does, and how the duopoly has led to the devastating outcomes we see today. Using this competition lens, Gehl and Porter identify the most powerful lever for change—a strategy comprised of a clear set of choices in two key areas: how our elections work and how we make our laws. Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes, such as term limits and campaign finance reform. The result: true political innovation. *The Politics Industry* is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all. THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation.

is ballotpedia credible: WarriorRage KickBoxing Masters Edition Scott Bolinger, 2018-02-13 WarriorRage KickBoxing Masters Edition by Scott Bolinger (kickboxing master with over 30 years experience in martial arts) This is a instruction manual for the WarriorRage KickBoxing system, also know as Bolinger Kickboxing. Published in 2016. This has 394 pages and over 1000 pictures. This book goes threw many aspects of martial arts: Business building and fund raising, stretching, stances, punches and strikes, kicking, combinations, blocks, bridging the gap, exercise routines, how to make your own equipment, weight lifting, the 4 levels of boxing, medicine ball routines, speed drills, heavy bag drills, a self-defense course, rules and regulations for several combat sports, how to wrap your hands.

is ballotpedia credible: The Dictatorship of Woke Capital Stephen R. Soukup, 2021-02-23 For the better part of a century, the Left has been waging a slow, methodical battle for control of the institutions of Western civilization. During most of that time, “business”— and American Big Business, in particular — remained the last redoubt for those who believe in free people, free markets, and the criticality of private property. Over the past two decades, however, that has changed, and the Left has taken its long march to the last remaining non-Leftist institution. Over the

course of the past two years or so, a small handful of politicians on the Right — Senators Tom Cotton, Marco Rubio, and Josh Hawley, to name three — have begun to sense that something is wrong with American business and have sought to identify the problem and offer solutions to rectify it. While the attention of high-profile politicians to the issue is welcome, to date the solutions they have proposed are inadequate, for a variety of reasons, including a failure to grasp the scope of the problem, failure to understand the mechanisms of corporate governance, and an overreliance on state-imposed, top-down solutions. This book provides a comprehensive overview of the problem and the players involved, both on the aggressive, hardcharging Left and in the nascent conservative resistance. It explains what the Left is doing and how and why the Right must be prepared and willing to fight back to save this critical aspect of American culture from becoming another, more economically powerful version of the “woke” college campus.

is ballotpedia credible: *Rights and Retrenchment* Stephen B. Burbank, Sean Farhang, 2017-04-18 This groundbreaking book contributes to an emerging literature that examines responses to the rights revolution that unfolded in the United States during the 1960s and 1970s. Using original archival evidence and data, Stephen B. Burbank and Sean Farhang identify the origins of the counterrevolution against private enforcement of federal law in the first Reagan Administration. They then measure the counterrevolution's trajectory in the elected branches, court rulemaking, and the Supreme Court, evaluate its success in those different lawmaking sites, and test key elements of their argument. Finally, the authors leverage an institutional perspective to explain a striking variation in their results: although the counterrevolution largely failed in more democratic lawmaking sites, in a long series of cases little noticed by the public, an increasingly conservative and ideologically polarized Supreme Court has transformed federal law, making it less friendly, if not hostile, to the enforcement of rights through lawsuits.

is ballotpedia credible: *Network Propaganda* Yochai Benkler, Robert Faris, Hal Roberts, 2018-09-17 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Is social media destroying democracy? Are Russian propaganda or Fake news entrepreneurs on Facebook undermining our sense of a shared reality? A conventional wisdom has emerged since the election of Donald Trump in 2016 that new technologies and their manipulation by foreign actors played a decisive role in his victory and are responsible for the sense of a post-truth moment in which disinformation and propaganda thrives. *Network Propaganda* challenges that received wisdom through the most comprehensive study yet published on media coverage of American presidential politics from the start of the election cycle in April 2015 to the one year anniversary of the Trump presidency. Analysing millions of news stories together with Twitter and Facebook shares, broadcast television and YouTube, the book provides a comprehensive overview of the architecture of contemporary American political communications. Through data analysis and detailed qualitative case studies of coverage of immigration, Clinton scandals, and the Trump Russia investigation, the book finds that the right-wing media ecosystem operates fundamentally differently than the rest of the media environment. The authors argue that longstanding institutional, political, and cultural patterns in American politics interacted with technological change since the 1970s to create a propaganda feedback loop in American conservative media. This dynamic has marginalized centre-right media and politicians, radicalized the right wing ecosystem, and rendered it susceptible to propaganda efforts, foreign and domestic. For readers outside the United States, the book offers a new perspective and methods for diagnosing the sources of, and potential solutions for, the perceived global crisis of democratic politics.

is ballotpedia credible: *Leadership Standpoints* Don Waisanen, 2021-10-07 This project offers a new leadership framework for the next generation of nonprofit professionals. Based on five years of data collected from the New York Community Trust Leadership Fellowship - designed to address leadership development gaps in the nonprofit sector - it constructs three dimensions and eleven themes for the theory and practice of leadership standpoints. Leadership standpoints are a framework for practicing inclusion, building spaces for performance, and thinking and acting with

range. Those using leadership standpoints continuously interact with diverse stakeholders, constantly verify others' views and interests, and remain keenly attentive to power distributions, material constraints, and hidden or unacknowledged voices that need surfaced, while expanding their personal and social outlooks to elevate performance and meet pressing demands best addressed through broadly informed decisions. This title is also available as Open Access on Cambridge Core.

is ballotpedia credible: What a City Is For Matt Hern, 2016-09-23 An investigation into gentrification and displacement, focusing on the case of Portland, Oregon's systematic dispersal of black residents from its Albina neighborhood. Portland, Oregon, is one of the most beautiful, livable cities in the United States. It has walkable neighborhoods, bike lanes, low-density housing, public transportation, and significant green space—not to mention craft-beer bars and locavore food trucks. But liberal Portland is also the whitest city in the country. This is not circumstance; the city has a long history of officially sanctioned racialized displacement that continues today. Over the last two and half decades, Albina—the one major Black neighborhood in Portland—has been systematically uprooted by market-driven gentrification and city-renewal policies. African Americans in Portland were first pushed into Albina and then contained there through exclusionary zoning, predatory lending, and racist real estate practices. Since the 1990s, they've been aggressively displaced—by rising housing costs, developers eager to get rid of low-income residents, and overt city policies of gentrification. Displacement and disposessions are convulsing cities across the globe, becoming the dominant urban narratives of our time. In *What a City Is For*, Matt Hern uses the case of Albina, as well as similar instances in New Orleans and Vancouver, to investigate gentrification in the twenty-first century. In an engaging narrative, effortlessly mixing anecdote and theory, Hern questions the notions of development, private property, and ownership. Arguing that home ownership drives inequality, he wants us to disown ownership. How can we reimagine the city as a post-ownership, post-sovereign space? Drawing on solidarity economics, cooperative movements, community land trusts, indigenous conceptions of alternative sovereignty, the global commons movement, and much else, Hern suggests repudiating development in favor of an incrementalist, non-market-driven unfolding of the city.

is ballotpedia credible: IT Security Risk Control Management Raymond Pompon, 2016-09-14 Follow step-by-step guidance to craft a successful security program. You will identify with the paradoxes of information security and discover handy tools that hook security controls into business processes. Information security is more than configuring firewalls, removing viruses, hacking machines, or setting passwords. Creating and promoting a successful security program requires skills in organizational consulting, diplomacy, change management, risk analysis, and out-of-the-box thinking. What You Will Learn: Build a security program that will fit neatly into an organization and change dynamically to suit both the needs of the organization and survive constantly changing threats Prepare for and pass such common audits as PCI-DSS, SSAE-16, and ISO 27001 Calibrate the scope, and customize security controls to fit into an organization's culture Implement the most challenging processes, pointing out common pitfalls and distractions Frame security and risk issues to be clear and actionable so that decision makers, technical personnel, and users will listen and value your advice Who This Book Is For: IT professionals moving into the security field; new security managers, directors, project heads, and would-be CISOs; and security specialists from other disciplines moving into information security (e.g., former military security professionals, law enforcement professionals, and physical security professionals)

is ballotpedia credible: Betrayal Dr. Carolyn LaDelle Bennett, 2020-04-13 Betrayal goes to the heart of US officials' (and their partners') self-serving injury to the health and welfare of the United States and the world. US public officials' abandonment of public health for private wealth leaves the world and nation reeling from one USA-made (deliberate) crisis—of violence and disease, hunger and homelessness, deterioration and diminishment of quality conditions in workplaces and public education—to another. Their all-round acts of “legalized” corruption, their international crimes with impunity, and their deregulation-driven denial of essential needs such as clean water

and air, food and work safety, shelter, and life itself constitute ultimate and everlasting betrayal. The nonfiction account in the areas of US politics, domestic affairs and foreign relations, leadership, law and democracy, and war and peace cites examples of callous, crisis-driven betrayal.

is ballotpedia credible: *Donald Trump and American Populism* Conley Richard S. Conley, 2020-06-18 Dissecting the populist leadership style of President Donald Trump Places Trump's presidential leadership style within a comparatively historical and political development theoretical framework Considers Trump's use of social media as a form of public politics that represents an adaptation of presidential communication style to new technology while rebuffing the traditional bully pulpit Assesses the impact of Trump's negative rhetoric and efforts to challenge if not delegitimize other national institutions (Courts, Congress), question media truthfulness, and his personalization of political opponents Employs case studies to weigh Trump's political strategy, from mobilizing grassroots support to foreign diplomacy This book evaluates the presidency of Donald Trump from a comparative, historical approach to connect his populist style to his predecessors. Trump's method of communication through social media obviously differs from previous candidates and presidents with populist platforms, but his themes - a disdain for elites, grassroots support, majoritarianism, anti-intellectual discourse, and nativism-borrow variably from such figures as Andrew Jackson, Huey Long, Barry Goldwater, and Ross Perot. As such, Trump's approach to governance falls within a long tradition of populism dating to the 19th Century.

is ballotpedia credible: Statement of Vote , 2008-02

is ballotpedia credible: Hard Call John McCain, Mark Salter, 2007-08-14 America's most inspiring politician pays tribute to men and woman who have exhibited composure, wisdom and intellect in the face of tough decisions. John McCain draws from experiences of both extraordinary people and people in extraordinary circumstances, culling lessons about the process and nature of judicious and effective decision-making. Acclaimed authors John McCain and Mark Salter describe the anatomy of great decisions in history by telling the remarkable stories of men and women who have exemplified composure, wisdom, and intellect in the face of life's toughest decisions. They identify six qualities typically represented in the best decisions: Awareness. Timing. Foresight. Confidence. Humility. Inspiration. These qualities are personified by the exceptional individuals in this book, each of whom made a hard call, including: Henry Ford's decision to sacrifice his company's competitive edge by reducing the work day and guaranteeing a minimum wage; Branch Rickey's decision to offer Jackie Robinson a contract to play for the Brooklyn Dodgers in the face of public opposition; Ellen Johnson-Sirleaf 's decision to return to wartorn Liberia after receiving an economics degree from Harvard; General Fred Weyand's decision to redeploy fifteen of his battalions despite resistance from senior American military commanders in Vietnam. Woven into these stories are John McCain's own views on the process and art of decision-making and examples of the hard calls we face in our lives. When I assess a decision, McCain writes, I want to know all I can about the character of the decision maker before I examine the properties of the decision, its outcome or how it was arrived at. Hard Call is a testament to the people whose choices serve as a beacon for us all.

is ballotpedia credible: Messengers of the Right Nicole Hemmer, 2016-09-22 Messengers of the Right tells the story of the media activists who built the American conservative movement and transformed it into one of the most significant and successful movements of the twentieth century—and in the process remade the Republican Party and the American media landscape.

is ballotpedia credible: *Leadership in the U.S. Senate* Colton C. Campbell, 2018-08-06 Unlike leadership in the House of Representatives, the nature of Senate leadership continues to remain a mystery to so many. Due to the absence of an operator's manual, leaders have had to use their individual skills, intelligence, and personalities to lead the Senate, which means they each have had their own unique leadership style. How have Senate majority leaders advanced their agendas in this traditionally egalitarian institution, a chamber like no other legislative body, where they must balance the rights of 99 independent senators with the collective needs of their party? Featuring a foreword by Senate Majority Leader Mitch McConnell, Leadership in the U.S. Senate offers students

a comprehensive and contemporary examination of three different eras in the evolution of the Senate. Collectively, contributions written by those who have served the senators offer insight into how different Senate leaders have operated, chronicle changes in Senate life over the past four decades, and describe how they have changed the institution. The chapters cover: How leadership styles are shaped by both individualism and party goals Eight biographical perspectives from Senator Howard Baker (R-TN) to Senator Harry Reid (D-NV) The political context of the Senate during which the respective majority leader served Individual leadership style and performance in office Contributions individuals made to the institution while serving as majority leaders This book paves the way for political scientists and others to examine the topic of Senate leadership.

is ballotpedia credible: *Nonprofits in Policy Advocacy* Sheldon Gen, Amy Conley Wright, 2020-08-01 Policy advocacy is an increasingly important function of many nonprofit organizations, as they seek broad social changes in their concerning issues. Their advocacy practices, however, have often been guided by their own past experiences, anecdotes from peer networks, and consultant advice. Most of their practices have largely escaped empirical and theoretical grounding that could better root their work in established theories of policy change. The first book of its kind, *Nonprofits in Policy Advocacy* bridges this gap by connecting real practices of on-the-ground policy advocates with the burgeoning academic literature in policy studies. In the process, it empirically identifies six distinct policy advocacy strategies, and their accompanying tactics, used by nonprofits. Case studies tell the stories of how advocates apply these strategies in a wide variety of issues including civil rights, criminal justice, education, energy, environment, public health, public infrastructure, and youth. This book will appeal to both practitioners and academicians, as each gains insights into the other's views of policy change and the actions that produce it.

is ballotpedia credible: *Mismatch* Richard Sander, Stuart Taylor Jr, 2012-10-09 The debate over affirmative action has raged for over four decades, with little give on either side. Most agree that it began as noble effort to jump-start racial integration; many believe it devolved into a patently unfair system of quotas and concealment. Now, with the Supreme Court set to rule on a case that could sharply curtail the use of racial preferences in American universities, law professor Richard Sander and legal journalist Stuart Taylor offer a definitive account of what affirmative action has become, showing that while the objective is laudable, the effects have been anything but. Sander and Taylor have long admired affirmative action's original goals, but after many years of studying racial preferences, they have reached a controversial but undeniable conclusion: that preferences hurt underrepresented minorities far more than they help them. At the heart of affirmative action's failure is a simple phenomenon called mismatch. Using dramatic new data and numerous interviews with affected former students and university officials of color, the authors show how racial preferences often put students in competition with far better-prepared classmates, dooming many to fall so far behind that they can never catch up. *Mismatch* largely explains why, even though black applicants are more likely to enter college than whites with similar backgrounds, they are far less likely to finish; why there are so few black and Hispanic professionals with science and engineering degrees and doctorates; why black law graduates fail bar exams at four times the rate of whites; and why universities accept relatively affluent minorities over working class and poor people of all races. Sander and Taylor believe it is possible to achieve the goal of racial equality in higher education, but they argue that alternative policies -- such as full public disclosure of all preferential admission policies, a focused commitment to improving socioeconomic diversity on campuses, outreach to minority communities, and a renewed focus on K-12 schooling -- will go farther in achieving that goal than preferences, while also allowing applicants to make informed decisions. Bold, controversial, and deeply researched, *Mismatch* calls for a renewed examination of this most divisive of social programs -- and for reforms that will help realize the ultimate goal of racial equality.

is ballotpedia credible: *By Order of the President* Phillip J. Cooper, 2002 Cooper defines the different forms these powers take--executive orders, presidential memoranda, proclamations, national security directives, and signing statements--demonstrates their uses, critiques their strengths and dangers, and shows how they have changed over time. Here are Washington's

Neutrality Proclamation, Lincoln's Emancipation Proclamation, and the more than 1,700 executive orders issued by Woodrow Wilson in World War I. FDR issued many executive orders to implement his National Industrial Recovery Act--but also issued one that led to the incarceration of Japanese Americans during World War II. Truman issued orders to desegregate the military and compel loyalty oaths for federal employees. Eisenhower issued numerous national security directives. JFK launched the Peace Corps and issued an order to control racial violence in Alabama. All through executive action.

is ballotpedia credible: The Long Fuse Election Integrity Partnership, 2021-06-16

is ballotpedia credible: **Getting Primaried** Robert G Boatright, 2013-03-19 The recent rise of "primarizing" corresponds to the rise of national fundraising bases and new types of partisan organizations supporting candidates around the country

is ballotpedia credible: Neighborhood Watch Shawn E. Fields, 2022-06-09 Although racism has plagued the American justice system since the nation's colonial beginnings, private White Americans are taking matters into their own hands. From racist 911 calls and hoaxes to grassroots voter suppression and vigilante 'self-defense,' concerted efforts are made every day by private citizens to exclude Black Americans from schools, neighborhoods, and positions of power. Neighborhood Watch examines the specific ways people police America's color line to protect 'White spaces.' The book charts how these actions too often result in harassment, arrest, injury, or death, yet typically go unchecked. Instead, these actions are promoted and encouraged by legislatures looking to expand racially discriminatory laws, a police system designed to respond with force to any frivolous report of Black 'mischief,' and a Supreme Court that has abdicated its role in rejecting police abuse. To combat these realities, Neighborhood Watch offers preliminary recommendations for reform, including changes to the 'maximum policing' state, increased accountability for civilians who abuse emergency response systems, and proposals to demilitarize the color line.

is ballotpedia credible: **Deliberative Mini-Publics** Maija Setälä, 2014-07-01 The first comprehensive account of the booming phenomenon of deliberative mini-publics, this book offers a systematic review of their variety, discusses their weaknesses, and recommends ways to make them a viable component of democracy. The book takes stock of the diverse practices of deliberative mini-publics and, more concretely, looks at preconditions, processes, and outcomes. It provides a critical assessment of the experience with mini-publics; in particular their lack of policy impact. Bringing together leading scholars in the field, notably James S Fishkin and Mark E Warren, Deliberative Mini-Publics will speak to anyone with an interest in democracy and democratic innovations.

is ballotpedia credible: **Electronic Elections** R. Michael Alvarez, Thad E. Hall, 2010-01-25 Since the 2000 presidential election, the United States has been embroiled in debates about electronic voting. Critics say the new technologies invite tampering and fraud. Advocates say they enhance the accuracy of vote counts and make casting ballots easier--and ultimately foster greater political participation. Electronic Elections cuts through the media spin to assess the advantages and risks associated with different ways of casting ballots--and shows how e-voting can be the future of American democracy. Elections by nature are fraught with risk. Michael Alvarez and Thad Hall fully examine the range of past methods and the new technologies that have been created to try to minimize risk and accurately reflect the will of voters. Drawing upon a wealth of new data on how different kinds of electronic voting machines have performed in recent elections nationwide, they evaluate the security issues that have been the subject of so much media attention, and examine the impacts the new computer-based solutions is having on voter participation. Alvarez and Hall explain why the benefits of e-voting can outweigh the challenges, and they argue that media coverage of the new technologies has emphasized their problems while virtually ignoring their enormous potential for empowering more citizens to vote. The authors also offer ways to improve voting technologies and to develop more effective means of implementing and evaluating these systems. Electronic Elections makes a case for how e-voting can work in the United States, showing why making it work right is essential to the future vibrancy of the democratic process.

is ballotpedia credible: The Emerging Populist Majority Troy M. Olson, Gavin M. Wax, 2024-01-23 The Emerging Populist Majority analyzes America's political future and changing coalitions through long-term and emerging trends across demography, geography, and ideology. America is on a new rendezvous with destiny...at least that's what co-authors Troy M. Olson and Gavin M. Wax explore in The Emerging Populist Majority. With confounding consensus narratives in our media and culture, and building on Donald Trump's historical upset in the 2016 presidential election, Olson and Wax make the case that the populist revolt remaking American politics is merely at the midfield point. Furthermore, they argue that this revolt is poised to continue long-term, and more recent trends predict that populism will become the major political movement in America for the remainder of the twenty-first century. Building on the late 1960s tradition when Kevin P. Phillips accurately predicted the next generation of Republican dominance at the presidential level, and considering the forecasted coalition of the ascendent that found its way through the electoral process in the 2006 midterm wave and election of Barack Obama in 2008, The Emerging Populist Majority exists both in that tradition and sets itself apart. Casting doubt and scrutiny on realignments and the traditionally agreed-upon narrative about them, this book is an exploration of the elite corridors of American society. Leaving no stone unturned, this analytical dive into the past, present, and future of America's changing electorate and emerging coalitional makeup running through its two major parties has something for the politically obsessed across the divide, at home, and abroad.

is ballotpedia credible: The Persuasive Power of Campaign Advertising Travis N. Ridout, Michael M. Franz, 2011-03-25 The Persuasive Power of Campaign Advertising offers a comprehensive overview of political advertisements and their changing role in the Internet age. Travis Ridout and Michael Franz examine how these ads function in various kinds of campaigns and how voters are influenced by them. The authors particularly study where ads are placed, asserting that television advertising will still be relevant despite the growth of advertising on the Internet. The authors also explore the recent phenomenon of outrageous ads that go viral on the web-which often leads to their replaying as television news stories, generating additional attention. It also features the first analysis of the impact on voters of media coverage of political advertising and shows that televised political advertising continues to have widespread influence on the choices that voters make at the ballot box.

is ballotpedia credible: Presidential Leadership George C. Edwards, Kenneth R. Mayer, Stephen J. Wayne, 2020-01-03 PUBLISHING JANUARY 3, 2020! This book is about the leadership dilemma that all presidents face. First they must win election. Once in office, they need to obtain the public's support, win Congress's backing for legislation, make wise decisions, and implement a vast array of policies. The authors examine how presidents attempt to fulfill their responsibilities, exercise their powers, and utilize their organizational structures to affect the output of government. To do so, they posit two models of presidential leadership: one in which a strong president dominates his environment as a director of change, and one in which the president has a more limited role as facilitator of change. These models provide students with a framework with which to better understand leadership in the modern presidency, and evaluate the performance of individual presidents. The eleventh edition is richly illustrated with timely examples and wide-ranging coverage of the Trump presidency in every chapter. Moreover, separate chapters are devoted to essential aspects of President Trump's approach to governing such as on media relations, leading the public, and decision making. New to this Edition Expanded treatment of the president's constitutional authority and the development of presidential powers Explanation of political science research on the 2016 presidential election Extensive discussions of unilateral action Historical development of presidential staff and White House Organization Donald Trump's challenge to longstanding norms and practices

is ballotpedia credible: Obama's Legacy The Washington Post, 2016-12-20 In this timely retrospective, leading voices from The Washington Post come together to discuss Barack Obama's historic presidency. When President Obama was elected, he was a figure of hope for many

Americans. Throughout his presidency, he has become far more than a symbol of change; he has enacted countless programs and policies that have made an impact on the country. As his term comes to an end, we look back on what has defined Obama as an American leader. Providing insight into everything from his politics to his family, this collection of articles examines the highlights of the Obama administration. The award-winning journalists at The Washington Post have brought together stories from the last eight years to commemorate the indelible mark our most recent president has made on the United States. Featuring over a hundred historic photos and articles from eight Pulitzer Prize winners, *Obama's Legacy* is the perfect way to close out the first family's years in the White House.

is ballotpedia credible: *Community Colleges and New Universities under Neoliberal Pressures* John S. Levin, 2017-02-08 This book examines seven higher education organizations, exploring their interconnected lines: organizational change and organizational stability. These lines are nested within historical, social, cultural, and political contexts of two nations—the US and Canada—two provinces and three states: Alberta, British Columbia, California, Hawai'i, and Washington. The author studies the development of the community college and the development of the university from community college origins, bringing to the forefront these seven individual stories. Addressing continuity and discontinuity and identity preservation and identity change, as well as individual organizations' responses to government policy, Levin analyzes and illuminates those policies with neoliberal assumptions and values.

is ballotpedia credible: *It's Time to Fight Dirty* David Faris, 2018-04-10 An accessible, actionable blueprint for how Democrats can build lasting, durable change—without having to amend the Constitution. “American democracy could disappear altogether within our own lifetimes. Everyone who wants to avoid that catastrophe must read his book.” —Guardian The American electoral system is clearly falling apart—more than one recent presidential race has resulted in the clear winner of the popular vote losing the electoral college vote, and Trump's refusal to concede in 2020 broke with all precedents...at least for now. Practical solutions need to be implemented as soon as possible. And so in *It's Time to Fight Dirty*, political scientist David Faris outlines accessible, actionable strategies for American institutional reform which don't require a constitutional amendment, and would have a lasting impact on our future. With equal amounts of playful irreverence and persuasive reasoning, Faris describes how the Constitution's deep democratic flaws constantly put progressives at a disadvantage, and lays out strategies for “fighting dirty” though obstructionism and procedural warfare: establishing statehood for DC and Puerto Rico; breaking California into several states; creating a larger House of Representatives; passing a new voting rights act; and expanding the Supreme Court. The Constitution may be the world's most difficult document to amend, but Faris argues that many of America's democratic failures can be fixed within its rigid confines—and, at a time when the stakes have never been higher, he outlines a path for long-term, progressive change in the United States so that the electoral gains of 2020 aren't lost again.

is ballotpedia credible: *Challengers to Duopoly* J. David Gillespie, 2012-12-07 Building on the foundational importance of its predecessor (*Politics at the Periphery*, 1993), *Challengers to Duopoly* offers an up-to-date overview of the important history of America's third parties and the challenge they represent to the hegemony of the major parties. J. David Gillespie introduces readers to minor partisan actors of three types: short-lived national parties, continuing doctrinal and issue parties, and the state and local significant others. Woven into these accounts are profiles of some of the individuals who have taken the initiative to found and lead these parties. Ross Perot, Ralph Nader, Jesse Ventura, and other recent and contemporary electoral insurgents are featured, along with the most significant current national and state parties challenging the primacy of the two major parties. Gillespie maintains that despite the infirmities they often bear, third parties do matter, and they have mattered throughout American public life. Many of our nation's most important policies and institutional innovations—including abolition, women's suffrage, government transparency, child labor laws, and national healthcare—were third-party ideas before either major party embraced

them. Additionally, third parties were the first to break every single de facto gender, race, and sexual orientation bar on nomination for the highest offices in the land. As Gillespie illustrates in this engaging narrative, with the deck so stacked against them, it's impressive that third-party candidates ever win at all. That they sometimes do is a testament to the power of democratic ideals and the growing disdain of the voting public with politics as usual.

is ballotpedia credible: *Politics and the Media* Jane Hall, 2021-08-04 The book is well versed in the scholarly literature as well as pop-culture references found in contemporary television shows and movies. But what stands out in the volume's research is its utilization of interviews conducted by the author that provide a range of perspectives on the media and politics from the vantage points of U.S. senators, journalists, critics, and activists. —Kirkus Reviews Jane Hall has written a brilliant analysis that is educational, entertaining and important. Her comprehensive and timely book will be required reading for scholars, and will be invaluable for general readers and anyone interested in the relationship between politics and the media. - Kenneth T. Walsh, veteran White House correspondent, adjunct professorial lecturer in communication, and author of 10 books on the presidency including *Presidential Leadership in Crisis*. Finally, as current a book as possible incorporating scholarly work on the media and politics and up-to-date examples and suggested exercises that are sure to rivet student interest. From its coverage of a tweeting President constantly assailing the media to trenchant analyses of coverage of the BLM movement, immigration and how the media treats women candidates this book is a must- adopt for Media and Politics classes. It is also an excellent add on for classes on American Politics and Campaigns and Elections. - Karen O'Connor, Jonathan N. Helfat Distinguished Professor of Politics, Founder Women and Politics Institute, American University. The book is very timely and it has good case studies for students to discuss in class. It has chapters on race- and gender-related issues. You can use it as the main textbook, or you can assign it as supplementary reading material. —Ivy Shen, PhD. Southeast Missouri State University *Politics and the Media: Intersections and New Directions* examines how media and political institutions interact to shape public thinking and debates around social problems, cultural norms, and policies. From the roles of race and gender in American politics to the 2020 elections and the global coronavirus pandemic, this is an extraordinary moment for politicians, the news media, and democracy itself. Drawing from years of experience as an active political media analyst, an award-winning journalist and professor of politics and the media, Jane Hall explores how media technologies, practices, and formats shape political decision-making; how political forces influence media institutions; and how public opinion and media audiences are formed. Students will gain an understanding of these issues through a combination of scholarship, in-depth interviews, and contemporary case-studies that will help them develop their own views and learn to express them constructively.

is ballotpedia credible: *Two Decades of Legislative Politics and Governance in Nigeria's National Assembly* Fatai Ayinde Aremu, Adebola Rafiu Bakare, 2021-05-20 This book unpacks two decades of Nigeria's National Assembly spanning 4th–8th legislative sessions. It focuses on the core areas of legislative functions – lawmaking, appropriation, oversight and representation – in examining the achievements, challenges and prospects of the legislature. This is particularly important because Nigeria being the most populous country in Africa is a crucial bastion of democratic governance in the region. Therefore, conducting deep diagnostics of the federal legislature as the custodian of popular mandate and the anchor of accountability offered immense opportunity for learning that would catalyze further institutional reforms and democratic consolidation.

is ballotpedia credible: *Fiscal Administration* John L. Mikesell, 1986

is ballotpedia credible: *The Orphan Master's Son* Adam Johnson, 2012 The son of a singer mother whose career forcibly separated her from her family and an influential father who runs an orphan work camp, Pak Jun Do rises to prominence using instinctive talents and eventually becomes a professional kidnapper and romantic rival to Kim Jong Il. By the author of *Parasites Like Us*.

is ballotpedia credible: *The Education Trap* Cristina Viviana Groeger, 2021-03-09

Why—contrary to much expert and popular opinion—more education may not be the answer to skyrocketing inequality. For generations, Americans have looked to education as the solution to economic disadvantage. Yet, although more people are earning degrees, the gap between rich and poor is widening. Cristina Groeger delves into the history of this seeming contradiction, explaining how education came to be seen as a panacea even as it paved the way for deepening inequality. The Education Trap returns to the first decades of the twentieth century, when Americans were grappling with the unprecedented inequities of the Gilded Age. Groeger's test case is the city of Boston, which spent heavily on public schools. She examines how workplaces came to depend on an army of white-collar staff, largely women and second-generation immigrants, trained in secondary schools. But Groeger finds that the shift to more educated labor had negative consequences—both intended and unintended—for many workers. Employers supported training in schools in order to undermine the influence of craft unions, and so shift workplace power toward management. And advanced educational credentials became a means of controlling access to high-paying professional and business jobs, concentrating power and wealth. Formal education thus became a central force in maintaining inequality. The idea that more education should be the primary means of reducing inequality may be appealing to politicians and voters, but Groeger warns that it may be a dangerous policy trap. If we want a more equitable society, we should not just prescribe more time in the classroom, but fight for justice in the workplace.

is ballotpedia credible: Why Presidents Fail And How They Can Succeed Again Elaine C. Kamarck, 2016-07-26 Failure should not be an option in the presidency, but for too long it has been the norm. From the botched attempt to rescue the U.S. diplomats held hostage by Iran in 1980 under President Jimmy Carter and the missed intelligence on Al Qaeda before 9-11 under George W. Bush to, most recently, the computer meltdown that marked the arrival of health care reform under Barack Obama, the American presidency has been a profile in failure. In *Why Presidents Fail and How They Can Succeed Again*, Elaine Kamarck surveys these and other recent presidential failures to understand why Americans have lost faith in their leaders—and how they can get it back. Kamarck argues that presidents today spend too much time talking and not enough time governing, and that they have allowed themselves to become more and more distant from the federal bureaucracy that is supposed to implement policy. After decades of imperial and rhetorical presidencies, we are in need of a managerial president. This White House insider and former Harvard academic explains the difficulties of governing in our modern political landscape, and offers examples and recommendations of how our next president can not only recreate faith in leadership but also run a competent, successful administration.

is ballotpedia credible: *Racial Discrimination* Tanya Katerí Hernández, 2019-03-19 This fifth volume in the Brill Research Perspectives in Comparative Discrimination Law surveys the field of comparative race discrimination law for the purpose of providing an introduction to the nature of comparing systems of discrimination and the transnational search for effective equality laws and policies. This volume includes the perspectives of racialized subjects (subalterns) in the examination of the reach of the laws on the ground. It engages a variety of legal and social science resources in order to compare systems across a number of contexts (such as the United States, Canada, France, South Africa, Brazil, Colombia, Peru, Hong Kong, Japan, Korea, Israel, India, and others). The goal is to analyze the strengths and weaknesses of various kinds of anti-discrimination legal devices to aid in the study of law reform efforts across the globe centered on racial equality. Other titles published in this series: - *Comparative Discrimination Law: Historical and Theoretical Frameworks*, Laura Carlson; isbn 9789004345447 - *International Human Rights Law and Discrimination Protections; A Comparison of Regional and National Responses*, Mpoki Mwakagali; isbn 9789004345461 - *Comparative Discrimination Law; Age as a Protected Ground*, Lucy Vickers; isbn 9789004345539 - *Sexual Orientation and Gender Identity Discrimination*, Holning Lau; isbn 9789004345485

is ballotpedia credible: **Migration and Health** Nadia El-Shaarawi, Stéphanie Larchanché, 2022-06-10 Despite the centrality of migration in our contemporary world, scholarship on mobility and health frequently separates migrants according to legal status, country of origin, destination, or

health concern. Yet people on the move and health systems face challenges and opportunities that transcend these boundaries, including border fortification, neoliberal agendas, and climate change. This volume explores these epistemic borders, recognizing the necessity of a new conversation about migration and health. Each of the empirically grounded chapters introduces readers to pressing questions of migration and health in diverse social, political, and geographical settings.

is ballotpedia credible: Collective Efficacy Jenni Donohoo, 2016-10-21 Improve student outcomes with collective teacher efficacy. If educators' realities are filtered through the belief that they can do very little to influence student achievement, then it is likely these beliefs will manifest in their practice. The solution? Collective efficacy (CE)—the belief that, through collective actions, educators can influence student outcomes and increase achievement. Educators with high efficacy show greater effort and persistence, willingness to try new teaching approaches, and attend more closely to struggling students' needs. This book presents practical strategies and tools for increasing student achievement by sharing: Rationale and sources for establishing CE Conditions and leadership practices for CE to flourish Professional learning structures/protocols

is ballotpedia credible: I Can't Believe I'm Sitting Next to a Republican Harry Stein, 2010 With biting wit and amusing personal anecdotes, Harry Stein's I Can't Believe I'm Sitting Next to a Republican chronicles the everyday travails and triumphs of the plucky conservatives marooned in the liberal bastions that loathe them, from Manhattan to Hollywood, to all the noxious places in between. Surrounded by the insufferably smug and self righteous -- from the angry old lady with the anti-war sign affixed to her walker to the random jerk at a dinner party quoting George Soros - these intrepid souls live in a hostile world; knowing that anytime a neighbor chances to learn their views on affirmative action, big government, feminism, the environment, abortion, multi-culturalism, sex education, the reliability of The New York Times, the scariness of evangelicals or (fill in the blank), his/her face will register stunned surprise and deep confusion. Or worse. Stein gives special attention to those conservatives working in professions dominated by the liberal elite--journalism, publishing, entertainment, and academia--celebrating their guts and sharing in their disdain for the dogmatism of the self-appointed creative and intellectual class. The result is a conservative's guide to love, work, friendship, dinner party mischief, and staying happy and un-smearred in liberal America.

Is Ballotpedia Credible Introduction

In today's digital age, the availability of Is Ballotpedia Credible books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Is Ballotpedia Credible books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Is Ballotpedia Credible books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Is Ballotpedia Credible versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Is Ballotpedia Credible books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Is Ballotpedia Credible books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Is Ballotpedia Credible books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Is Ballotpedia Credible books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Is Ballotpedia Credible books and manuals for download and embark on your journey of knowledge?
