

Is Real Clear Politics Conservative

Is RealClearPolitics Conservative? Deconstructing the Political Leanings of a Leading News Aggregator

Introduction:

RealClearPolitics (RCP) is a prominent news aggregator that enjoys widespread readership, influencing the perception of current events for many. But the question often arises: Is RealClearPolitics conservative? This isn't a simple yes or no answer. This in-depth analysis delves into RCP's editorial stance, its aggregation methods, and the potential biases embedded within its presentation to provide a nuanced understanding of its political leanings. We'll examine its content, analyze its sources, and explore how its structure might subtly shape reader perception. Prepare to move beyond simplistic labels and gain a deeper appreciation for the complexities of news aggregation and its impact on political discourse.

1. Understanding RealClearPolitics' Business Model and Target Audience:

RCP's primary function is aggregation, not original reporting. It curates articles from a wide range of sources, including left-leaning, right-leaning, and centrist outlets. This approach is, on the surface, designed to offer a balanced perspective. However, the selection of articles and the order in which they appear can significantly influence the reader's interpretation. RCP's target audience is generally politically engaged, suggesting a pre-existing level of political awareness and potential bias within its readership. This inherent predisposition among readers may further shape how they perceive the aggregated content. Understanding this self-selecting audience is crucial to analyzing the site's perceived conservatism.

2. Examining RCP's Content: A Case Study Approach:

To objectively assess RCP's leanings, let's examine specific content categories. Their polling averages, for instance, present a seemingly neutral aggregation of data. However, the choice of which polls to include and exclude, even subtly, can affect the overall average and the narrative it suggests. Similarly, their analysis pieces, while often featuring diverse perspectives, frequently feature authors known for their conservative viewpoints. This isn't inherently problematic, but it contributes to a discernible right-of-center tilt in the overall tone and perspective presented. A careful analysis of the frequency of articles favoring one side versus another, especially across various topics, provides a more nuanced picture.

3. The Role of Source Selection in Shaping Perceived Bias:

RCP's selection of sources is arguably its most influential factor in shaping its perceived political leanings. While including sources from across the political spectrum, a disproportionate representation of conservative outlets, or the consistent highlighting of articles from these sources, can create a subtle, yet pervasive, conservative bias. Furthermore, the absence of certain progressive or left-leaning voices, even if unintentional, contributes to an unbalanced narrative. This isn't necessarily a deliberate act of manipulation but a consequence of editorial decisions that inadvertently favor a particular viewpoint.

4. The Impact of Algorithmic Curation (If Applicable):

While RCP primarily relies on human curation, the possibility of algorithmic influence in content selection or ranking should be considered. Even seemingly neutral algorithms can reflect underlying biases in the data they process. An algorithm trained on a dataset with a predominantly conservative slant could unintentionally prioritize or promote articles from conservative sources. Transparency regarding any algorithmic involvement in content curation is critical for understanding potential biases.

5. Beyond the Headlines: Analyzing the Nuance of Presented Information:

The way RCP presents information, even beyond source selection, can subtly influence perception. Headlines, summaries, and the order of articles presented all play a role in framing the overall narrative. A conservative framing of otherwise neutral information can skew the reader's interpretation, even if the underlying facts remain unbiased. A critical examination of these subtle framing devices is crucial for a comprehensive understanding of RCP's perceived political leanings.

6. Conclusion: Is RCP Conservative? A Qualified "Yes," With Nuances:

While RealClearPolitics attempts to present a balanced view by aggregating from various sources, a comprehensive analysis reveals a subtle but discernible conservative leaning. This isn't necessarily due to overt bias but rather a confluence of factors, including source selection, the prominence given to certain voices, and subtle framing choices. It's essential to approach RCP's content with critical awareness, acknowledging the potential for a conservative skew to shape its overall presentation. The site remains a valuable resource for understanding diverse viewpoints, but its inherent leanings should be factored into the interpretation of its content.

Article Outline:

Title: Is RealClearPolitics Conservative? A Deep Dive into Political Leanings

- I. Introduction: Hooking the reader, overview of the analysis.
- II. RCP's Business Model and Target Audience: Analyzing their approach and readership bias.
- III. Content Analysis: A Case Study: Examining specific sections and their potential biases.
- IV. Source Selection and its Impact: Discussing the influence of chosen sources.
- V. Algorithmic Influence (If Applicable): Exploring the role of algorithms in curation.
- VI. Beyond Headlines: Subtler Biases: Analyzing framing devices and presentation style.
- VII. Conclusion: Summary and nuanced answer to the main question.
- VIII. FAQs: Addressing common reader questions.
- IX. Related Articles: Listing and briefly describing relevant articles.

(The detailed explanation of each point in the outline is provided in the main body of the article above.)

FAQs:

- 1. Is RealClearPolitics a news source? No, it's a news aggregator, curating articles from various

sources.

2. Who owns RealClearPolitics? John McIntyre is the founder and editor-in-chief.
3. Does RealClearPolitics have a liberal counterpart? There isn't a direct, identically structured liberal counterpart with the same scale and reach.
4. How does RCP's polling average work? It aggregates data from multiple polling organizations, weighting them based on methodology and historical accuracy.
5. Are there any known biases in RCP's polling averages? Potential biases can arise from the selection of which polls to include and exclude.
6. Does RCP endorse any political candidates? No, it primarily focuses on news aggregation and analysis.
7. How does RCP compare to other news aggregators? Other aggregators might have different biases and approaches to curation.
8. Is RealClearPolitics credible? Its credibility hinges on the credibility of its sources and the transparency of its curation process. Critical engagement with its content is recommended.
9. Where can I find more information about RealClearPolitics? Visit their official website and review independent media analyses.

is real clear politics conservative: Election 2012: A Time for Choosing (The RealClearPolitics Political Download) Tom Bevan, Carl M. Cannon, 2012-06-04 Real Clear Politics' in-depth account of the 2012 primary battles of the Republican Party and the look ahead to the race between Mitt Romney and Barack Obama With intimate access to the White House, GOP candidates, and their campaign staffs, Real Clear Politics is the latest in a series of e-originals written by veteran RCP journalists Tom Bevan and Carl Cannon. With up-to-the-minute newsbreaking material, Real Clear Politics gives an insider's perspective on the many struggles the candidates had over the course of the primaries, including Romney's inability to put away his competition; how Gingrich, a great counterpuncher in debates, ultimately was done in by an inability to defend himself; the unlikely success of Rick Santorum, who later became a lightning rod for critics over social issues; and the "kitchen sink" approach that Obama's message team is adopting for attacking Romney. All of these

key moments and issues, as well as a careful survey of the terrain ahead for the general election (the challenges and strategies for both candidates and the latest insights into Romney's possible vice presidential nominee), are sure to make Real Clear Politics the must-read ebook for understanding the 2012 campaign.

is real clear politics conservative: Messengers of the Right Nicole Hemmer, 2016-09-22 Messengers of the Right tells the story of the media activists who built the American conservative movement and transformed it into one of the most significant and successful movements of the twentieth century—and in the process remade the Republican Party and the American media landscape.

is real clear politics conservative: The Dying Citizen Victor Davis Hanson, 2021-10-05 The New York Times bestselling author of *The Case for Trump* explains the decline and fall of the once cherished idea of American citizenship. Human history is full of the stories of peasants, subjects, and tribes. Yet the concept of the "citizen" is historically rare—and was among America's most valued ideals for over two centuries. But without shock treatment, warns historian Victor Davis Hanson, American citizenship as we have known it may soon vanish. In *The Dying Citizen*, Hanson outlines the historical forces that led to this crisis. The evisceration of the middle class over the last fifty years has made many Americans dependent on the federal government. Open borders have undermined the idea of allegiance to a particular place. Identity politics have eradicated our collective civic sense of self. And a top-heavy administrative state has endangered personal liberty, along with formal efforts to weaken the Constitution. As in the revolutionary years of 1848, 1917, and 1968, 2020 ripped away our complacency about the future. But in the aftermath, we as Americans can rebuild and recover what we have lost. The choice is ours.

is real clear politics conservative: Against Trump National National Review, Rich Lowry, 2016-06-02 The election of 2016 represents a defining moment for the conservative movement and the Republican party. Over six decades of work toward building a conservative majority in America is being imperiled by the rise of a liberal reality-show carnival barker who disguises himself as a conservative. Using an unparalleled command of marketing techniques, and assisted by a compliant, ratings-hungry media, Donald Trump has swayed millions of average Americans who are rightly fed up with the relentless attacks of multicultural leftists, the America-last tone and practices of the Obama administration, and rank incompetence from promise-breaking Republican lawmakers who had allegedly come to their political rescue. But what is a justified revolt has found an undeserving leader. It thus falls to honest conservatives to explain to our erstwhile companions why the choice they are making, out of anger and despair, is badly mistaken, for the sake of politics and, more so, for the sake of conservative principles. This book represents the ongoing efforts of the staff and editors of National Review to pull back the curtain on the Trump Show, and expose him as an ultimately dangerous demagogue and narcissist who cares more about his bank account and ego than he ever has for America's greatness.

is real clear politics conservative: *Conscience of a Conservative* Jeff Flake, 2017-08-01 NEW YORK TIMES BESTSELLER • "A thoughtful defense of traditional conservatism and a thorough assault on the way Donald Trump is betraying it."—David Brooks, in his New York Times column In a bold act of conscience, Republican Senator Jeff Flake takes his party to task for embracing nationalism, populism, xenophobia, and the anomalous Trump presidency. The book is an urgent call for a return to bedrock conservative principle and a cry to once again put country before party. Dear Reader, I am a conservative. I believe that there are limits to what government can and should do, that there are some problems that government cannot solve, and that human initiative is best when left unfettered, free from government interference or coercion. I believe that these ideas, tested by time, offer the most freedom and best outcomes in the lives of the most people. But today, the American conservative movement has lost its way. Given the state of our politics, it is no exaggeration to say that this is an urgent matter. The Republican party used to play to a broader audience, one that demanded that we accomplish something. But in this era of dysfunction, our primary accomplishment has been constructing the argument that we're not to blame. We have

decided that it is better to build and maintain a majority by using the levers of power rather than the art of persuasion and the battle of ideas. We've decided that putting party over country is okay. There are many on both sides of the aisle who think this a good model on which to build a political career—destroying, not building. And all the while, our country burns, our institutions are undermined, and our values are compromised. We have become so estranged from our principles that we no longer know what principle is. America is not just a collection of transactions. America is also a collection of ideas and values. And these are our values. These are our principles. They are not subject to change, owing to political fashion or cult of personality. I believe that we desperately need to get back to the rigorous, fact-based arguments that made us conservatives in the first place. We need to realize that the stakes are simply too high to remain silent and fall in line. That is why I have written this book and am taking this stand. —Jeff Flake

is real clear politics conservative: Election 2012: The Battle Begins (The RealClearPolitics Political Download) Tom Bevan, Carl M. Cannon, 2011-11-11 Real Clear Politics' first in a series of in-depth looks at the 2012 campaign. With unsurpassed access to the White House, Republican candidates, and their respective staffs, Election 2012: The Battle Begins will give readers a riveting behind the scenes, real time look at the 2012 campaign, providing in-depth reporting and analysis of the candidacies of President Barack Obama, Rick Perry, Mitt Romney, Newt Gingrich, and Michele Bachmann among others. With up-to-the-minute newsbreaking material, this first in a series of three e-originals will be written by veteran RCP journalists Tom Bevan and Carl Cannon, and is sure to make the Real Clear Politics Political Download the authoritative must-read account for understanding the 2012 campaign.

is real clear politics conservative: Typing Politics Richard Davis, 2009-05-26 Examines the growing role of blogs in United States politics and the relationship between blogs and the mainstream media, discussing the content and audience of political blogs and the general perception of their role in journalism.

is real clear politics conservative: Listening to Women on the Right Rachel Friedman, Nichelle D. McNabb, Kristen L. McCauliff, 2017-06-23 For much of the past century, public discourse about gender and politics has been driven largely by progressive women--those voices on the left that support policies widely considered to be pro-women. Little scholarly attention has been paid to the dialogue of conservative women, and what literature there is tends to focus on specific issues rather than fundamentals like social and political identity. The authors focus on this under-studied yet rhetorically interesting group and their approach to political speech. The narratives and policy positions of Condoleezza Rice, Nikki Haley, Teri Lynn Land, Susana Martinez, Joni Ernst and others are examined for the ways in which they frame their political images as women in the GOP.

is real clear politics conservative: Next Generation Netroots Matthew R. Kerbel, Christopher J. Bowers, 2016-04-14 From the early demise of Trent Lott at the hands of bloggers to the agonized scream of Howard Dean; from Daily Kos and the blogosphere to the rise of Twitter and Facebook, politics and new media have co-existed and evolved in rapid succession. Here, an academic and practitioner team up to consider how new and old media technologies mix with combustible politics to determine, in real time, the shape of the emerging political order. Our political moment shares with other realigning periods the sense that political parties are failing to address the public interest. In an era defined by the collapse of the political center, extreme income inequality, rapidly changing demography, and new methods of communicating and organizing, a second-generation online progressive movement fueled by email and social media is coming into its own. In this highly readable text, the authors - one a scholar of Internet politics, the other a leading voice of the first generation netroots - draw on unique data and on-the-ground experience to answer key questions at the core of our tumultuous politics: How has Internet activism changed in form and function? How have the left and right changed with it? How does this affect American political power?

is real clear politics conservative: America the Strong William John Bennett, John T. E.

Cribb, 2015 Summarizes the five fundamental principles of conservatism, discussing why they are worth preserving and the role they have played in the formation of the United States.

is real clear politics conservative: The Conservative Sensibility George F. Will, 2019-06-04 The Pulitzer Prize-winning columnist's astonishing and enthralling New York Times bestseller and Notable Book about how the Founders' belief in natural rights created a great American political tradition (Booklist) -- easily one of the best books on American Conservatism ever written (Jonah Goldberg). For more than four decades, George F. Will has attempted to discern the principles of the Western political tradition and apply them to America's civic life. Today, the stakes could hardly be higher. Vital questions about the nature of man, of rights, of equality, of majority rule are bubbling just beneath the surface of daily events in America. The Founders' vision, articulated first in the Declaration of Independence and carried out in the Constitution, gave the new republic a framework for government unique in world history. Their beliefs in natural rights, limited government, religious freedom, and in human virtue and dignity ushered in two centuries of American prosperity. Now, as Will shows, conservatism is under threat -- both from progressives and elements inside the Republican Party. America has become an administrative state, while destructive trends have overtaken family life and higher education. Semi-autonomous executive agencies wield essentially unaccountable power. Congress has failed in its duty to exercise its legislative powers. And the executive branch has slipped the Constitution's leash. In the intellectual battle between the vision of Founding Fathers like James Madison, who advanced the notion of natural rights that pre-exist government, and the progressivism advanced by Woodrow Wilson, the Founders have been losing. It's time to reverse America's political fortunes. Expansive, intellectually thrilling, and written with the erudite wit that has made Will beloved by millions of readers, *The Conservative Sensibility* is an extraordinary new book from one of America's most celebrated political writers.

is real clear politics conservative: They're Not Listening Ryan James Girdusky, Harlan Hill, 2020-06-16 The election of Donald Trump in America and the referendum on European Union membership in the United Kingdom, otherwise known as Brexit, sent shockwaves throughout the world. Cosmopolitan elites across the globe never saw this populist uprising coming and still do not understand it. People across the globe have been increasingly voting for national-populist politicians over the last twenty years. The current nationalist-populist revolt started long before Donald Trump came down his golden escalator, and even before Prime Minister David Cameron agreed to hold a referendum vote on the EU. It wasn't isolated to rundown towns in Northern England or the Midwest, and it wasn't solely because of demographic changes, ignorance, intolerance, or a "whitelash." It was occurring because the elites chose to ignore voters' concerns when it came to globalism and neoliberalism. Issues like mass immigration, war, economic inequality, and national sovereignty were sacrosanct to neoliberals, and ultimately, their unwillingness to concede on these issues built discontent among millions of people.

is real clear politics conservative: Devouring Freedom W. James Antle, 2013-03-18 Government keeps growing, while our freedoms—and pocketbooks—keep shrinking. As America faces another four years of radical government expansion, columnist James Antle asks in *Devouring Freedom*, "Can big government ever be stopped?" It's a problem that's been fed from both sides of the aisle as politicians for generations have tried to buy their own job security with hand-outs and programs, platitudes and government-subsidized loans. James Antle examines the addition both parties have to bigger spending, bigger government programs, bigger intrusion into our lives and bigger dependency on the nanny state, as he examines how an ever-expanding government inevitably leads to less prosperity, less independence, less ingenuity, less growth, and far less liberty. *Devouring Freedom* is the book for anyone who believes that Obama's second term is just the latest installment in the long obituary for American liberty. And it's the book for anyone who's ever asked, "Is it too late to turn the ship around?"

is real clear politics conservative: The Liberty Amendments Mark R. Levin, 2013-08-13 Mark R. Levin has made the case, in numerous bestselling books that the principles undergirding our society and governmental system are unraveling. In *The Liberty Amendments*, he turns to the

founding fathers and the constitution itself for guidance in restoring the American republic. The delegates to the 1787 Constitutional Convention and the delegates to each state's ratification convention foresaw a time when the Federal government might breach the Constitution's limits and begin oppressing the people. Agencies such as the IRS and EPA and programs such as Obamacare demonstrate that the Framers' fear was prescient. Therefore, the Framers provided two methods for amending the Constitution. The second was intended for our current circumstances—empowering the states to bypass Congress and call a convention for the purpose of amending the Constitution. Levin argues that we, the people, can avoid a perilous outcome by seeking recourse, using the method called for in the Constitution itself. The Framers adopted ten constitutional amendments, called the Bill of Rights, that would preserve individual rights and state authority. Levin lays forth eleven specific prescriptions for restoring our founding principles, ones that are consistent with the Framers' design. His proposals—such as term limits for members of Congress and Supreme Court justices and limits on federal taxing and spending—are pure common sense, ideas shared by many. They draw on the wisdom of the Founding Fathers—including James Madison, Benjamin Franklin, Thomas Jefferson, and numerous lesser-known but crucially important men—in their content and in the method for applying them to the current state of the nation. Now is the time for the American people to take the first step toward reclaiming what belongs to them. The task is daunting, but it is imperative if we are to be truly free.

is real clear politics conservative: The Right Matthew Continetti, 2022-04-19 A magisterial intellectual history of the last century of American conservatism When most people think of the history of modern conservatism, they think of Ronald Reagan. Yet this narrow view leaves many to question: How did Donald Trump win the presidency? And what is the future of the Republican Party? In *The Right*, Matthew Continetti gives a sweeping account of movement conservatism's evolution, from the Progressive Era through the present. He tells the story of how conservatism began as networks of intellectuals, developing and institutionalizing a vision that grew over time, until they began to buckle under new pressures, resembling national populist movements. Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism, Continetti argues that the more one studies conservatism's past, the more one becomes convinced of its future. Deeply researched and brilliantly told, *The Right* is essential reading for anyone looking to understand American conservatism.

is real clear politics conservative: Conservative Political Communication Sharon E. Jarvis, 2021-04-14 *Conservative Political Communication* examines the evolution of appeals, media, and tactics in right-wing media and political communication, tracking trends and shifts from the early days of contemporary conservatism in the 1950s to the Trump administration. The chapters in this edited volume feature the work of senior and junior scholars from the fields of communication, journalism, and political science employing content analytic, experimental, survey, historical, and rhetorical research methodologies. Analyses of the rise of the 24-hour news cycle, the range of partisan news sources, and the role of social media algorithms in political campaigns yield insights for our media and information ecosystems. A key theme across these chapters is how right-wing channels and communications help and hinder partisan fragmentation, a condition whereby novice elected officials create personal conservative brands, appeal to the base through partisan media, and complicate senior leadership's ability to engage in bargaining, compromise, and deal-making. This volume interrogates conservative media and messaging to track where these processes came from, how they functioned in the 2016 U.S. presidential campaign, and where they may be going in the future. This book will interest scholars and upper-level students of political communication, media and politics, and political science, as well as readers invested in today's political media landscape in the United States.

is real clear politics conservative: Party On! John Kenneth White, Matthew R. Kerbel, 2017-08-07 Alexander Hamilton and Thomas Jefferson laid the foundations for today's political debates between Democrats and Republicans. Hamilton believed that freedom must be married with a strong central government and especially an energetic president, while Jefferson believed freedom

derived from local civic virtues. Throughout history, Democrats and Republicans have chosen sides in this eternal debate—and sometimes even changed sides. Today, those debates have become sharper and more polarized, as the two parties square off on major issues such as healthcare, taxes, regulation, the role of the federal government, and what discretion should be given to local authorities. The debate can be loud and shrill, even as the public yearns for some accommodation between these two schools of thought. People may generally desire an active government to deal with acute problems, but localism still has widespread appeal, and political dysfunction often results when these outcomes are presented as polar opposites and elections are reduced to zero sum contests. Social media adds to the polarization, as Americans gravitate to websites that often ratify their preexisting points of view. The parties struggle to function in this environment as they try to adapt to the political realities of the social media age and the Trump era.

is real clear politics conservative: Troll Nation Amanda Marcotte, 2018-04-24 “Amanda Marcotte drains the swamp and reveals a Republican Party hijacked by grifters and frauds.” ?David Daley The election of Donald Trump in 2016, like most of his campaign, came as a shock to many Americans. How could a man so lacking in capacity, so void of any intellectual heft, become the president of the United States? How did Trump, a man with no detectable personal qualities outside of resentment and the will to dominate, appeal to millions of Americans and win the highest office in the land? The American right has spent decades turning away from reasoned discourse toward a rhetoric of pure resentment—it’s this shift that laid the groundwork for Trump’s ascendancy. In *Troll Nation*, journalist Amanda Marcotte outlines how Trump was the inevitable result of American conservatism’s degradation into an ideology of blind resentment. For years now, the purpose of right wing media, particularly Fox News, has not been to argue for traditional conservative ideals, such as small government or even family values, so much as to stoke bitterness and paranoia in its audience. Traditionalist white people have lost control over the culture, and they know it, and the only option they feel they have left is to rage at a broad swath of supposed enemies ? journalists, activists, feminists, city dwellers, college professors ? that they blame for stealing “their” country from them. Conservative pundits, politicians, and activists have abandoned any hope of winning the argument through reasoned discourse, and instead have adopted a series of bad faith claims, conspiracy theories, and culture war hysterics. Decades of these antics created a conservative voting base that was ready to elect a mindless bully like Donald Trump.

is real clear politics conservative: Constitutional Conservatism Peter Berkowitz, 2013-09-01 Peter Berkowitz identifies the political principles social conservatives and libertarians share, or should share, and sketches the common ground on which they can and should join forces. Drawing on the writings of Edmund Burke, *The Federalist*, and the high points of post-World War II American conservatism, he argues that the top political priority for social conservatives and libertarians should be to rally around the principles of liberty embodied in the US Constitution and pursue reform in light of them.

is real clear politics conservative: Unmasking Obama Jack Cashill, 2020-08-18 During the Obama years, an asymmetrical media war was waged to control the critical first draft of American history. There is no fair way to record that history without first acknowledging the war. The field of battle shaped up as follows: on the right, the alternative conservative media and the “responsible” right, occasionally working together, often working at odds; on the left, the mainstream media, the social media giants, Hollywood, Broadway, the federal bureaucracies, the national security apparatus, and what Ray Bradbury would call “firemen”—the virtual book burners, amateur and professional. Rarely at odds, these forces routinely worked together to amplify what Obama adviser Ben Rhodes famously called the White House’s “messaging campaign.” Money, resources, and power overwhelmingly favored the left, but the right had the equalizer on its side—the truth.

is real clear politics conservative: Our Broken Elections John Fund, Hans von Spakovsky, 2021-11-02 Behind the deeply contentious 2020 election stands a real story of a broken election process. Election fraud that alters election outcomes and dilutes legitimate votes occurs all too often, as is the bungling of election bureaucrats. Our election process is full of vulnerabilities that

can be — and are — taken advantage of, raising questions about, and damaging public confidence in, the legitimacy of the outcome of elections. This book explores the reality of the fraud and bureaucratic errors and mistakes that should concern all Americans and offers recommendations and solutions to fix those problems.

is real clear politics conservative: US Government and Politics Annual Update 2013

Anthony J Bennett, 2013-02-08 Featuring information and analysis of recent events in US politics, with full coverage of the 2012 presidential election, this book provides you with topical source material to draw on for tasks throughout your course, and for answering examination questions. Written by an experienced and acknowledged expert in the field of US politics, this is the book you need if you are aiming for the highest grades at A2. The key developments of 2012 you need to know including the Presidential Election Up-to-date examples and data to help you achieve the highest grades Written by experienced authors and senior examiners who know what you need to know to get those top grades The perfect update for your textbook, bringing you right up to date with all the topical material you need to succeed in your exams

is real clear politics conservative: *White Voters in 21st Century America* George Hawley, 2014-08-21 The United States is experiencing remarkable demographic changes that are having an important impact on the American electorate. As the minority share of the voting-eligible population continues to grow, the political clout of non-Hispanic whites will further decline. The 2012 election demonstrated that the Democratic Party can secure an Electoral College victory even when it loses badly, in the aggregate, among non-Hispanic whites. This does not mean that white voters are unimportant, however. The political behavior of whites in the decades ahead will largely determine the direction of American politics. This book examines the political behavior of non-Hispanic whites. It considers the trends within the white vote, how white voters differ geographically, and the primary fault lines among white voters. It also examines how white political behavior changes in response to diversity. It considers whether or not the day is approaching when whites consolidate into a largely homogenous voting bloc, or whether whites will remain politically heterogeneous in the decades ahead Whereas other books have examined the political behavior of specific social classes within the non-Hispanic white community (working class whites, for example), this is the first book to examine whites as a whole, and provide a useful summary of recent trends within this group and thoughtful speculation about its future.

is real clear politics conservative: *How the Right Lost Its Mind* Charles J. Sykes, 2017-10-03 Bracing and immediate. - The Washington Post Once at the center of the American conservative movement, bestselling author and radio host Charles Sykes is a fierce opponent of Donald Trump and the right-wing media that enabled his rise. In *How the Right Lost Its Mind*, Sykes presents an impassioned, regretful, and deeply thoughtful account of how the American conservative movement came to lose its values. How did a movement that was defined by its belief in limited government, individual liberty, free markets, traditional values, and civility find itself embracing bigotry, political intransigence, demagoguery, and outright falsehood? *How the Right Lost its Mind* addresses: *Why are so many voters so credulous and immune to factual information reported by responsible media? *Why did conservatives decide to overlook, even embrace, so many of Trump's outrages, gaffes, conspiracy theories, falsehoods, and smears? *Can conservatives govern? Or are they content merely to rage? *How can the right recover its traditional values and persuade a new generation of their worth?

is real clear politics conservative: *Dark Money, Super PACs, and the 2012 Election*

Melissa M. Smith, Larry Powell, 2014-02-27 More than two billion dollars. That's how much money was spent in the 2012 presidential campaign—the most expensive campaign in history. Each party raised and spent more than one billion dollars as the traditional boundaries of campaign financing were ignored. Both parties could do so because they were playing in a game with new rules—rules that largely developed after the 2010 Supreme Court ruling known as *Citizens United*. That case removed many restrictions on donation limits, particularly for corporations and unions. The result was the development of a new set of political players called “Super PACs” that were allowed to enter

the political arena and spend an unlimited amount of money on behalf of clients. This book looks at how Super PACs raised and spent money and influenced the 2012 election. It provides an insightful look at how both right- and left-leaning groups approached the election and impacted the political process.

is real clear politics conservative: Covering American Politics in the 21st Century [2 volumes] Lee Banville, 2016-12-12 This encyclopedia provides a real-world guide to American political journalism and news coverage in the 21st century, from the most influential media organizations and pundits to the controversies and practices shaping modern-day political journalism. Over the last 20 years, political campaigns and the media that cover them have been fundamentally altered by a mix of technology and money. This timely work surveys the legal, financial, and technological changes that have swept through the political process, putting those changes in context to help readers appreciate how they affect what the public learns—and doesn't learn—about the candidates and lawmakers at the local, state, and federal levels. The encyclopedia offers a critical examination of a broad range of topics organized in a narrative, A-to-Z format. Written by journalists and political experts, the two volumes cover the major issues, organizations, and trends affecting both politics and the coverage of political campaigns. Some 200 entries treat everything from news organizations, think tanks, and significant individuals to questions concerning money, advertising, and campaign tactics. Objective, unbiased, and comprehensive, the encyclopedia is an unequalled resource for anyone seeking to understand American political journalism and news coverage in the 21st century.

is real clear politics conservative: *The Rise of Contemporary Conservatism in the United States* Kenneth J. Heineman, 2018-10-25 The Rise of Contemporary Conservatism in the United States offers students an accessible introduction to the history of modern American conservatism. The author provides a concise but substantial discussion of modern conservatism from its origins in opposition to Franklin D. Roosevelt's New Deal up until the 2016 election of Donald J. Trump. The text examines electoral coalitions and politics as connected to economic and foreign policy as well as ideology. Conservative ideas and values are addressed directly, both on their own terms and in the context of contemporary political applications. A robust collection of primary documents offers students and instructors the opportunity to examine directly the views of both conservatives and their critics. Supported by range of study tools including a glossary of key figures and terms, a detailed chronology, and ample suggestions for further reading, The Rise of Contemporary Conservatism in the United States is the ideal introduction for students interested in the forging and fracturing of modern conservative coalitions and ideologies.

is real clear politics conservative: **Politics Is for Power** Eitan Hersh, 2020-01-14 A brilliant condemnation of political hobbyism—treating politics like entertainment—and a call to arms for well-meaning, well-informed citizens who consume political news, but do not take political action. Who is to blame for our broken politics? The uncomfortable answer to this question starts with ordinary citizens with good intentions. We vote (sometimes) and occasionally sign a petition or attend a rally. But we mainly “engage” by consuming politics as if it's a sport or a hobby. We soak in daily political gossip and eat up statistics about who's up and who's down. We tweet and post and share. We crave outrage. The hours we spend on politics are used mainly as pastime. Instead, we should be spending the same number of hours building political organizations, implementing a long-term vision for our city or town, and getting to know our neighbors, whose votes will be needed for solving hard problems. We could be accumulating power so that when there are opportunities to make a difference—to lobby, to advocate, to mobilize—we will be ready. But most of us who are spending time on politics today are focused inward, choosing roles and activities designed for our short-term pleasure. We are repelled by the slow-and-steady activities that characterize service to the common good. In *Politics Is for Power*, pioneering and brilliant data analyst Eitan Hersh shows us a way toward more effective political participation. Aided by political theory, history, cutting-edge social science, as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously, this book shows us how to channel our energy away from political hobbyism and toward empowering our values.

is real clear politics conservative: The Corrosion of Conservatism: Why I Left the Right Max Boot, 2018-10-09 A “must read” (Joe Scarborough) by a New York Times– best- selling author, *The Corrosion of Conservatism* presents a necessary defense of American democracy. Praised on publication as “one of the most impressive and unflinching diagnoses of the pathologies in Republican politics that led to Trump’s rise” (Jonathan Chait, New York), *The Corrosion of Conservatism* documents a president who has traduced every norm and the rise of a nascent centrist movement to counter his assault on democracy. In this “admirably succinct and trenchant” (Charles Reichman, San Francisco Chronicle) exhumation of conservatism, Max Boot tells the story of an ideological dislocation so shattering that it caused his courageous transformation from Republican foreign policy advisor to celebrated anti- Trump columnist. From recording his political coming- of- age as a young émigré from the Soviet Union to describing the vitriol he endured from his erstwhile conservative colleagues, Boot mixes “lively memoir with sharp analysis” (William Kristol) from its Reagan-era apogee to its corrosion under Donald Trump.

is real clear politics conservative: The Monstrous Discourse in the Donald Trump Campaign Debbie Jay Williams, Kalyn L. Prince, 2017-11-15 *The Monstrous Discourse in the Donald Trump Campaign: Implications for National Discourse* provides a lens through which to explore the implications of the monster metaphor as applied to Trump during the 2016 presidential election. Analyzing the overt and buried usages of the monster metaphor in the media’s and Trump’s discourse, as well as the structure of the monster narrative generally, offers connections between the metaphor and the actions incited by its narrative. This book explores the ways in which this language also serves as a metaphor to understand the ecology of Trump’s candidacy and the polarized responses drawn by his campaign, and considers its troubling implications for the future direction of national discourse.

is real clear politics conservative: Typing Politics Richard Davis, 2009-05-26 The power of political blogs in American politics is now evident to anyone who follows it. In *Typing Politics*, Richard Davis provides a comprehensive yet concise assessment of the growing role played by political blogs and their relationship with the mainstream media. Through a detailed content analysis of the most popular political blogs--Daily Kos, Instapundit, Michelle Malkin, and Wonkette--he shows the degree to which blogs influence the traditional news media. Specifically, he compares the content of these blogs to four leading newspapers noted for their political coverage: The Washington Post, The New York Times, The Wall Street Journal, and The Washington Times. He explains how political journalists at these papers use blogs to inform their reportage and analyzes general attitudes about the role of blogs in journalism. Drawing on a national survey of political blog readers, Davis concludes with a novel assessment of the blog audience. Compact, accessible, and well-researched, *Typing Politics* will be an invaluable contribution to the literature on a phenomenon that has reshaped the landscape of political communication.

is real clear politics conservative: Hard White Richard C. Fording, Sanford F. Schram, 2020-07-20 The white nationalist movement in the United States is nothing new. Yet, prior to the 2017 Unite the Right rally in Charlottesville, Virginia, many Americans assumed that it existed only on the fringes of our political system, a dark cultural relic pushed out of the mainstream by the victories of the Civil Rights Movement. The events in Charlottesville made clear that we had underestimated the scale of the white nationalist movement; Donald Trump's reaction to it brought home the reality that the movement had gained political clout in the White House. Yet, as this book argues, the mainstreaming of white nationalism did not begin with Trump, but began during the Obama era. *Hard White* explains how the mainstreaming of white nationalism occurred, pointing to two major shifts in the movement. First, Barack Obama's presidential tenure, along with increases in minority representation, fostered white anxiety about Muslims, Latinx immigrants, and black Americans. While anti-Semitic sentiments remained somewhat on the fringes, hostility toward Muslims, Latinos, and African Americans bubbled up into mainstream conservative views. At the same time, white nationalist leaders shifted their focus and resources from protest to electoral politics, and the book traces the evolution of the movement's political forays from David Duke to the

American Freedom Party, the Tea Party, and, finally, the emergence of the Alt-Right. Interestingly it also shows that white hostility peaked in 2012--not 2016. Richard C. Fording and Sanford F. Schram also show that the key to Trump's win was not persuading economically anxious voters to become racially conservative. Rather, Trump mobilized racially hostile voters in the key swing states that flipped from blue to red in 2016. In fact, the authors show that voter turnout among white racial conservatives in the six states that Trump flipped was significantly higher in 2016 compared to 2012. They also show that white racial conservatives were far more likely to participate in the election beyond voting in 2016. However, the rise of white nationalism has also mobilized racial progressives. While the book argues that white extremism will have enduring effects on American electoral politics for some time to come, it suggests that the way forward is to refocus the conversation on social solidarity, concluding with ideas for how to build this solidarity.

is real clear politics conservative: Strangers in Their Own Land Arlie Russell Hochschild, 2018-02-20 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book. —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to *Strangers in Their Own Land* to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the *New Republic*, Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite. Already a favorite common read book in communities and on campuses across the country and called humble and important by David Brooks and masterly by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

is real clear politics conservative: No Right Turn David T. Courtwright, 2011-02-01 Few question the "right turn" America took after 1966, when liberal political power began to wane. But if they did, *No Right Turn* suggests, they might discover that all was not really "right" with the conservative golden age. A provocative overview of a half century of American politics, the book takes a hard look at the counterrevolutionary dreams of liberalism's enemies—to overturn people's reliance on expanding government, reverse the moral and sexual revolutions, and win the Culture War—and finds them largely unfulfilled. David Courtwright deftly profiles celebrated and controversial figures, from Clare Boothe Luce, Barry Goldwater, and the Kennedy brothers to Jerry Falwell, David Stockman, and Lee Atwater. He shows us Richard Nixon's keen talent for turning popular anxieties about morality and federal meddling to Republican advantage—and his inability to translate this advantage into reactionary policies. Corporate interests, boomer lifestyles, and the media weighed heavily against Nixon and his successors, who placated their base with high-profile attacks on crime, drugs, and welfare dependency. Meanwhile, religious conservatives floundered on abortion and school prayer, obscenity, gay rights, and legalized vices like gambling, and fiscal conservatives watched in dismay as the bills mounted. We see how President Reagan's mélange of big government, strong defense, lower taxes, higher deficits, mass imprisonment, and patriotic symbolism proved an illusory form of conservatism. Ultimately, conservatives themselves rebelled against George W. Bush's profligate brand of Reaganism. Courtwright's account is both surprising and compelling, a bracing argument against some of our most cherished clichés about recent American history.

is real clear politics conservative: The Rise of Trump Matthew C MacWilliams, 2016-09-28 The ascendance of Donald Trump to the presidential candidacy of the Republican Party has been both remarkable and, to most commentators, unlikely. In *The Rise of Trump: America's*

Authoritarian Spring, Matthew MacWilliams argues that Trump's rapid rise through a bewildered Republican Party hierarchy is no anomaly; rather, MacWilliams argues, it is the most recent expression of a long-standing theme in American political life, the tendency and temptation to an ascriptive politics—a political view that builds its basic case on ascribing to any relatively disempowered group (whether defined by race, ethnicity, gender, sexual orientation, religious belief, or other identifying category) a certain set of qualities that justify discriminatory treatment. The ascriptive tradition in American politics, though longstanding, has generally been kept to a relatively small minority—a minority whose rights, perhaps paradoxically, have been protected by the principles of Madisonian democracy, even though central to its worldview is the need and urgency of limiting the rights of some. It has found champions in years past in such figures as Andrew Jackson, Huey Long, Joseph McCarthy, and Pat Buchanan. But in Donald Trump this tradition has found a significant new voice, one emboldened by deeper shifts in the American political landscape. Trump's swift and unsettling rise to the pinnacle of presidential politics may point toward the emergence of more significant and substantial questions about the future course of a democratic government committed to principles of equality and the freedom of expression, association, and conscience.

is real clear politics conservative: Politics: Another Perspective Wilmer J. Leon III Ph.D., 2016-08-31 Over the past 8 years there have been significant shifts in the American political landscape. The election of Senator Barack Obama as America's 44th and first African American president signaled a giant leap forward in the American social, cultural, and political landscape. It has taken America 219 years to reach this point. Based upon Senator Obama's campaign promises many people looked forward to a more transparent and inclusive government. Others saw this election as a signal of a new post-racial America, but America has always been a country in conflict. As many basked in the comfort of Obama's historic election, others feared its backlash. History tells us that white supremacy dies hard in America and its proponents would not take America's victory lying down. The bigoted rants of the Tea Party and the ultra-right wing's obstructionist agenda have resulted in a political stalemate unlike any other in recent American history. These reactionary politics coupled with the Democratic Party and Obama Administration's inability to articulate an effective counter-narrative and employ effective countermeasures has left America in a political abyss. Politics Another Perspective: Analysis of Race, War, Ethics and the American Political Landscape in the Age of Obama is a collection of Op Ed's written by Wilmer J. Leon, III, Ph.D. As a collection, these writings provide cutting edge analysis of the various issues that influenced the American geopolitical landscape since 2006 and insight into the direction that the country is headed. "Wilmer Leon is one of the few Black prophetic voices in the age of Obama. This book confirms this status - courageous, visionary and consistent!" —Dr. Cornel West Dr. Wilmer Leon has assembled a collection that asks the right questions about race and democracy. In an era when too many are silenced for fear of rocking the boat of the status quo, Wilmer Leon has signaled his willingness to go out on a limb and speak truth to power. Bravo! —Dr. Julianne Malveaux, Economist and Author Are We Better Off: Race, Obama and Public Policy.

is real clear politics conservative: Politics Online Richard Davis, 2013-05-13 Despite the growth of various forms of online discussion, their impact on American political life is only beginning to be examined systematically. In Politics Online Richard Davis provides a thorough analysis detailing the political attitudes, behavior, and demographic nature of the electronic discussion community contrasting that community with the general public.

is real clear politics conservative: South Park Conservatives Brian C. Anderson, 2013-02-05 For the better part of 30 years, liberal bias has dominated mainstream media. But author and political journalist Brian Anderson reveals in his new book that the era of liberal dominance is going the way of the dodo bird.

is real clear politics conservative: Teaching for Apocalypse Meg Gorzycki, 2020-12-16 If the coronavirus does not get us, our ignorance might. The COVID-19 pandemic exposed serious gaps in Americans' education. Did education cause the outbreak? No. Did our assumptions, false narratives about the world, and our willingness to blindly accept whatever our partisan poohbahs said

contribute to our woes? Perhaps. Could education be improved so we can better understand the world, nature, public health, economics, and our own government? Absolutely. During the pandemic, thousands of teachers flocked to the silicon sanctuary as shelter-in-place mandates forced schools and universities into the digital classroom. Instructors urgently wanted to know which boxes to click in their learning management systems. The “how to” literature proliferated, and much of it walked a fine line between reasonable adjustments and outright abdication of high standards of academic achievement and intellectual development. A case is made here that education was in trouble long before COVID-19 appeared, and that if we do not make substantial reforms in our schools and colleges—whether online or not—we will be at the mercy of our own ignorance, as the problems of the twenty-first century crash into our lives.

is real clear politics conservative: Decision Points (Enhanced Edition) George W. Bush, 2010-11-09 With more than 200 photographs, videos, letters, and speeches, this Deluxe eBook edition of *Decision Points* brings to life the critical decisions of George W. Bush’s presidency. George W. Bush served as president of the United States during eight of the most consequential years in American history. The decisions that reached his desk impacted people around the world and defined the times in which we live. *Decision Points* takes readers inside the Texas governor’s mansion on the night of the 2000 election, aboard Air Force One during the harrowing hours after the attacks of September 11, 2001, into the Situation Room moments before the start of the war in Iraq, and behind the scenes at the White House for many other historic presidential decisions on the financial crisis, Hurricane Katrina, Afghanistan, and Iran. In addition, it offers intimate new details on his quitting drinking, his discovery of faith, and his relationship with his family. The Deluxe eBook edition also includes: • Videos from the defining moments of the presidency, including Bush’s inspiring Ground Zero speech to the 9/11 rescue workers, intimate family home movies, and a special introduction to the edition from the president himself • Full texts of his most important speeches, including his addresses to the nation about 9/11, Afghanistan and Iraq, and his second Inaugural • Handwritten letters from the president’s personal correspondence • And more than 50 new photos not contained in the print version of *Decision Points* A groundbreaking first in bringing multimedia to presidential memoir, the Deluxe eBook edition of *Decision Points* will captivate supporters, surprise critics, and change perspectives on eight remarkable years in American history—and on the man at the center of events.

Is Real Clear Politics Conservative Introduction

In the digital age, access to information has become easier than ever before. The ability to download Is Real Clear Politics Conservative has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Is Real Clear Politics Conservative has opened up a world of possibilities. Downloading Is Real Clear Politics Conservative provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Is Real Clear Politics Conservative has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Is Real Clear Politics Conservative. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Is Real Clear Politics Conservative. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Is Real Clear Politics Conservative, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Is Real Clear Politics Conservative has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
