One of the most recognisable, respected and inspirational men on earth, Muhammad Ali is the world's most famous boxing hero. Ali brought unprecedented speed and grace to the sport, and his charm and wit changed forever what the world expects of a champion athlete. In the words of over two hundred of Ali's family members, associates, opponents, friends and enemies, this comprehensive and honest portrait relates his legendary sporting accomplishments, as well as the high drama of life outside the boxing ring. From Olympic gold in Rome, to stunning victory over George Foreman in Zaire, every historic victory and defeat of Ali's career is covered. His controversial embrace of the Nation of Islam - with the renunciation of his 'slave name', Cassius Clay - and the historic refusal to be inducted into the US Army makes for compelling reading. Ali became America's first national conscientious objector, and with a willingness to stage his fights in Third World locales, he continued his advocacy for people in need which was honoured in 2000 when he became a United Nations Messenger of Peace. Charismatic, dedicated and a skilful self-publicist, Ali is the living embodiment of the American Dream. This is the biography to match his achievements.

ja morant hunter Biden: Superpower Ian Bremmer, 2015-05-19 America will remain the world's only superpower for the foreseeable future. But what sort of superpower? What role should America play in the world? What role do you want America to play? Ian Bremmer argues that Washington's directionless foreign policy has become prohibitively expensive and increasingly dangerous. Since the end of the Cold War, U.S. policymakers have stumbled from crisis to crisis in Afghanistan, Iraq, Iran, Libya, Syria, and Ukraine without a clear strategy. Ordinary Americans too often base their foreign policy choices on allegiance or opposition to the party in power. We can no longer afford this complacency, especially now that both parties are deeply divided about America's role in the world. The next presidential election could easily pit an interventionist Democrat against an isolationist Republican—or the exact opposite. As 2016 rapidly approaches, Bremmer urges every American to think more deeply about what sort of country America should be and how it should use its superpower status. He explores three options: Independent America asserts that it's time for America to declare independence from the responsibility to solve other people's problems. Instead, Americans should lead by example—in part, by investing in the country's vast untapped potential. Moneyball America acknowledges that Washington can't meet every international challenge. With a clear-eyed assessment of U.S. strengths and limitations, we must look beyond empty arguments over exceptionalism and American values. The priorities must be to focus on opportunities and to defend U.S. interests where they're threatened. Indispensable America argues that only America can defend the values on which global stability increasingly depends. In today's interdependent, hyperconnected world, a turn inward would undermine America's own security and prosperity. We will never live in a stable world while others are denied their most basic freedoms—from China to Russia to the Middle East and beyond. There are sound arguments for and against each of these choices, but we must choose. Washington can no longer improvise a foreign policy without a lasting commitment to a coherent strategy. As Bremmer notes, “When I began writing this book, I didn't know which of these three choices I would favor. It's easy to be swayed by pundits and politicians with a story to sell or an ax to grind. My attempt to make the most honest and forceful case I could make for each of these three arguments helped me understand what I believe and why I believe it. I hope it will do the same for you. I don't ask you to agree with me. I ask only that you choose.”

ja morant hunter biden: **Coronavirus Criminals and Pandemic Profiteers** John Nichols, 2022-01-25 A furious denunciation of America’s coronavirus criminals Hundreds of thousands of deaths were caused not by the vicissitudes of nature but by the callous and opportunistic decisions of powerful people, as revealed here by John Nichols. On March 10, 2020, president Donald Trump told a nation worried about a novel coronavirus, “We’re prepared, and we’re doing a great job with it. And it will go away. Just stay calm. It will go away.” It has since been estimated that had Trump simply taken the same steps as other G7 countries, 40 percent fewer Americans would have died. And it was not just the president. His inner circle, including Mike Pence and Jared Kushner, downplayed the crisis and mishandled the response. Cabinet members such as Betsy DeVos and Mike Pompeo undermined public safety at home and abroad to advance their agendas. Senators Ron Johnson and Mitch McConnell, governors Kristi Noem and Andrew Cuomo, judges such as Wisconsin Supreme Court justice Rebecca Bradley all promulgated public policies that led to suffering and death. Meanwhile, profiteer Pfizer (and anti-government propagandists such as Grover Norquist) fed at the public trough, while the billionaire Jeff Bezos added pandemic profits to a grotesquely bloated fortune. John Nichols closes with a call for a version of the Pecora Commission, which took aim at what Franklin Delano Roosevelt called the “speculation, reckless banking, class antagonism, and profiteering” that stoked the Depression. There must be accountability.
