john leguizamo san antonio: **Moon, Sun, and Witches** Irene Marsha Silverblatt, 2021-07-13

When the Spanish arrived in Peru in 1532, men of the Inca Umpire worshipped the Sun as Father and their dead kings as ancestor heroes, while women venerated the Moon and her daughters, the Inca queens, as founders of female dynasties. In the pre-Inca period such notions of parallel descent were expressions of complementarity between men and women. Examining the interplay between gender ideologies and political hierarchy, Irene Silverblatt shows how Inca rulers used their Sun and Moon traditions as methods of controlling women and the Andean peoples the Incas conquered. She then explores the process by which the Spaniards employed European male and female imageries to establish their own rule in Peru and to make new inroads on the power of native women, particularly poor peasant women. Harassed economically and abused sexually, Andean women fought back, earning in the process the Spaniards' condemnation as witches. Fresh from the European witch hunts that damned women for susceptibility to heresy and diabolic influence, Spanish clerics were predisposed to charge politically disruptive poor women with witchcraft. Silverblatt shows that these very accusations provided women with an ideology of rebellion and a method for defending their culture.

Rivera-Servera, Geraldo L. Cadava, Claire F. Fox, 2022-07-12 Latina/o/x places exist as both tangible physical phenomena and gatherings created and maintained by creative cultural practices. In this collection, an interdisciplinary group of contributors critically examines the many ways that varied Latina/o/x communities cohere through cultural expression. Authors consider how our embodied experiences of place, together with our histories and knowledge, inform our imagination and reimagination of our surroundings in acts of placemaking. This placemaking often considers environmental sustainability as it helps to sustain communities in the face of xenophobia and racism through cultural expression ranging from festivals to zines to sanctuary movements. It emerges not only in specific locations but as movement within and between sites; not only as part of a built environment, but also as an aesthetic practice; and not only because of efforts by cultural, political, and institutional leaders, but through mass media and countless human interactions. A rare and crucial perspective on Latina/o/x people in the Midwest, *Building Sustainable Worlds* reveals how expressive culture contributes to, and sustains, a sense of place in an uncertain era.
