JTF2 Longest Sniper Shot: Unraveling the Myths and Realities

Introduction:

The Canadian Joint Task Force 2 (JTF2) is renowned for its elite counter-terrorism capabilities and highly secretive operations. Whispers of incredible feats of marksmanship, particularly long-range sniper shots, frequently circulate among military enthusiasts and online forums. But separating fact from fiction when it comes to JTF2's longest confirmed sniper shot is challenging due to the inherent secrecy surrounding the unit's activities. This article delves into the available information, separating verifiable claims from speculation, to provide a clear and comprehensive understanding of JTF2's sniper capabilities and the challenges in verifying long-range shots. We will explore the technological advancements enabling such shots, the rigorous training required, and the ethical considerations involved in these extreme-range engagements.

Chapter 1: Understanding the Challenges of Extreme-Range Sniping

Extreme-range sniping, often defined as shots exceeding 1,500 meters, presents a unique set of challenges. Factors such as environmental conditions (wind speed and direction, temperature, humidity, air pressure), bullet drop, and the shooter's skill all play a critical role in achieving an accurate hit. At these distances, even minor variations in these factors can significantly affect the trajectory of the bullet, leading to a miss. Advanced ballistics calculators and sophisticated spotting scopes are essential tools for extreme-range engagements, requiring extensive training and experience to use effectively. The role of advanced ammunition, such as specialized long-range cartridges, also needs consideration.

Chapter 2: The Myth and Reality of JTF2's Longest Confirmed Shot

While impressive feats of long-range sniping are attributed to JTF2 online, concrete, verified evidence of a specific "longest shot" remains elusive. The Canadian government, for obvious security reasons, does not publicly confirm or deny specific operational details related to JTF2. Many claimed records lack verifiable sources or are based on unsubstantiated reports. This secrecy often fuels speculation, leading to inflated claims and the spread of misinformation. This lack of official confirmation doesn't diminish JTF2's capabilities; it underscores the secretive nature of their operations and the importance of protecting sensitive information.

Chapter 3: The Technology and Training Behind JTF2's Sniping Prowess

Regardless of the precise length of their longest confirmed shot, JTF2's sniping capabilities are undoubtedly world-class. This expertise is built upon rigorous training, advanced equipment, and a deep understanding of ballistics. JTF2 operators likely utilize advanced sniper rifles chambered in high-powered cartridges, equipped with state-of-the-art scopes featuring advanced rangefinding and ballistic compensation capabilities. Training involves extensive practice in various environmental conditions, including wind tunnels and specialized firing ranges, simulating real-world scenarios to perfect accuracy at extreme ranges. The training also emphasizes marksmanship, fieldcraft, and

reconnaissance techniques, which are crucial for successfully planning and executing long-range shots.

Chapter 4: Ethical Considerations in Extreme-Range Sniping

The ethical considerations surrounding extreme-range sniping are complex. The increased margin for error at these distances raises questions about the accuracy of target identification and the potential for collateral damage. The challenges in confirming positive identification and assessing the potential risk to non-combatants necessitate stringent protocols and a high level of operational planning. Discussions around the ethical implications of these operations are vital for ensuring responsible use of lethal force in warfare and counter-terrorism operations.

Chapter 5: The Future of Long-Range Sniping

Technological advancements in firearms, ammunition, and optics continually push the boundaries of what's possible in long-range sniping. The development of more accurate ballistic calculators, improved rangefinding technology, and more stable, high-powered cartridges will continue to improve the capabilities of snipers. However, these advancements should be coupled with ongoing ethical consideration and a continued emphasis on rigorous training and safety protocols to mitigate risk and maintain accountability.

Conclusion:

While the exact details of JTF2's longest sniper shot remain shrouded in secrecy, the unit's capabilities are undeniably impressive. The combination of rigorous training, advanced technology, and a deep understanding of ballistics allows JTF2 snipers to engage targets at extreme ranges. However, it's crucial to approach claims of record-breaking shots with a critical eye, acknowledging the lack of publicly available verification and prioritizing responsible discussions around the ethics of long-range sniping.

FAQs:

1. What is JTF2's official stance on their longest sniper shot? JTF2 does not publicly release information regarding specific operational details for security reasons.
2. What kind of rifles do JTF2 snipers typically use? The specific rifles used by JTF2 are classified, but they are likely high-powered bolt-action rifles designed for long-range precision.
3. How far is considered "extreme-range" sniping? Generally, shots exceeding 1500 meters are considered extreme-range.
4. What are the biggest challenges in extreme-range sniping? Environmental factors (wind, temperature, humidity), bullet drop, and target identification are major challenges.
5. What role does technology play in long-range sniping? Advanced scopes, rangefinders, ballistic computers, and specialized ammunition are crucial.
6. How long does it take to train a JTF2 sniper? JTF2 training is incredibly rigorous, and the timeframe varies depending on the individual and specific skills being developed.
7. Are there ethical concerns surrounding long-range sniping? Yes, the potential for collateral damage and challenges in target identification raise significant ethical concerns.
8. What is the future of long-range sniping technology? Continued advancements in technology are expected to further increase the range and accuracy of sniper rifles.
9. Are there any other elite military units known for their long-range sniping capabilities? Yes, many other special forces units around the world possess highly skilled snipers capable of engaging targets at extended ranges.

jtf2 longest sniper shot: *The Longest Kill* Craig Harrison, 2015-05-21 Through conflicts in the Balkans, Iraq and Afghanistan, this is the vivid memoir of British sniper Craig Harrison. It takes a tough mindset to be a successful sniper, to be able to dig in for days on your own as you wait for your target, to stay calm on a battlefield when you yourself have become the target the enemy most want to take out. Craig Harrison has what it takes and in November 2009 in Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill – 2,475 metres, the length of twenty-five football pitches. In *The Longest Kill*, his unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to cope with Al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high.

jtf2 longest sniper shot: Unflinching Jody Mitic, 2015-09-08 Elite sniper Jody Mitic loved being a soldier. His raw, candid, and engrossing memoir follows his personal journey into the Canadian military, through sniper training, and firefights in Afghanistan, culminating on the fateful night when he stepped on a landmine and lost both of his legs below the knees. *Afghanistan, 2007. I was a Master Corporal, part of an elite sniper team sent on a mission to flush out Taliban in an Afghan village. I had just turned thirty, after three tours of duty overseas. I'd been shot at by mortars, eyed the enemy through my scope, survived through stealth and stamina. I'd been training for war my entire adult life. But nothing prepared me for what happened next. A twenty-year veteran of the Canadian Armed Forces, Jody Mitic served as a Master Corporal and Sniper Team Leader on three active tours of duty over the course of seven years. Known for his deadly marksmanship, his fearlessness in the face of danger, and his "never quit" attitude, he was a key player on the front in Afghanistan. As a sniper, he secured strongholds from rooftops, engaged in perilous ground combat, and joined classified night operations to sniff out the enemy. One day in 2007, when he was on a mission in a small Afghan village, he stepped on a landmine and the course of his life was forever changed. After losing both of his legs below the knees, Jody was forced to confront the loss of the only identity he had ever known—that of a soldier. Determined to be of service to his family and to his country, he refused to let injury defeat him. Within three years after the explosion, he was not only walking again, he was running. By 2013, he was a star on the blockbuster reality TV show *Amazing Race*. In 2014, Jody reinvented himself yet again, winning a seat as a city councillor for Ottawa. *Unflinching* is a powerful chronicle of the honour and sacrifice of an ordinary Canadian fighting for his country, and an authentic portrait of military life. It's also an inspirational memoir about living your dreams, even in the face of overwhelming adversity, and having the courage to soldier on.*

jtf2 longest sniper shot: **American Sniper** Chris Kyle, Scott McEwen, Jim DeFelice, 2012-01-03 The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review Jaw-dropping...Undeniably riveting. —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

jtf2 longest sniper shot: **Marine Sniper** Charles Henderson, 2001-10-01 The explosive true

story of Sergeant Carlos Hathcock, a legendary Marine sniper in the Vietnam War. There have been many Marines. There have been many marksmen. But there has only been one Sergeant Carlos Hathcock. He stalked the Viet Cong behind enemy lines—on their own ground. And each time, he emerged from the jungle having done his duty. His record is one of the finest in military history, with ninety-three confirmed kills. This is the story of a simple man who endured incredible dangers and hardships for his country and his Corps. These are the missions that have made Carlos Hathcock a legend in the brotherhood of Marines. They are exciting, powerful, chilling—and all true. INCLUDES PHOTOGRAPHS

jtf2 longest sniper shot: World War II Infantry Tactics Stephen Bull, 2021-05-27 Despite all technological advances, final mastery of any battlefield depends upon the tight-knit group of footsoldiers trained to manoeuvre, shoot and dig in. This first of a two-part study examines the methods by which the Western infantry of World War II - the German, British and US armies - actually brought their firepower to bear. Drawing upon period training manuals for the evolving theory, and on personal memoirs for the individual practice, this first book covers the organization and tactics of the squad of ten or a dozen men, and the platoon of three or four squads. The text is illustrated with contemporary photographs and diagrams, and with colour plates bringing to life the movement of soldiers on the battlefield.

jtf2 longest sniper shot: Red Star Rogue Kenneth Sewell, Clint Richmond, 2006-09-26 The Hunt for Red October meets Blind Man's Bluff in this chilling, true story of a rogue Soviet submarine that sank while trying to provoke a war between the U.S. and China.

jtf2 longest sniper shot: The Stalingrad Cauldron Frank Ellis, 2013-06-27 The encirclement of the German 6th Army at Stalingrad in mid-November 1942 and its final collapse in February 1943 was a signature defeat for Hitler, as more than 100,000 of his soldiers were marched off into captivity. Frank Ellis tackles this oft-told tale from the unique perspective of the German officers and men trapped inside the Red Army's ever-closing ring of forces. This approach makes palpable the growing desperation of an army that began its campaign confident of victory but that long before the end could see how hopeless their situation had become. Highlighting these pages are three previously unpublished German army division accounts, translated here for the first time by Ellis. Each of these translations follows the combat experiences of a specific division—the 76th Infantry, the 94th Infantry, and the 16th Panzer—and take readers into the cauldron (or Kessel) that was Stalingrad. Together they provide a ground-level view of the horrific fighting and yield insights into everything from tactics and weapons to internal disputes, the debilitating effects of extreme cold and hunger, and the Germans' astonishing sense of duty and the abilities of their junior leaders. Along with these first-hand accounts, Ellis himself takes a new and closer look at a number of fascinating but somewhat neglected or misunderstood aspects of the Stalingrad cauldron including sniping, desertion, spying, and the fate of German prisoners. His coverage of sniping is especially notable for new insights concerning the duel that allegedly took place between Soviet sniper Vasili Zaitsev and a German sniper, Major Konings, a story told in the film *Enemy at the Gates* (2001). Ellis also includes an incisive reading of Oberst Arthur Boje's published account of his capture, interrogation, and conviction for war crimes, and explores the theme of reconciliation in the works of two Stalingrad veterans, Kurt Reuber and Vasili Grossman. Rich in anecdotal detail and revealing moments, Ellis's historical mosaic showcases an army that managed to display a vital resilience and professionalism in the face of inevitable defeat brought on by its leaders. It makes for compelling reading for anyone interested in one of the Eastern Front's monumental battles.

jtf2 longest sniper shot: One Shot Kills Glenn Wahlert, Russell Linwood, 2014-05-05 A sniper is not just a good shot. While marksmanship is crucial, it is not this alone that defines the sniper. Snipers must also be superb bushmen, possess limitless patience, iron discipline, rat cunning, extraordinary stamina and attract more than their share of luck. The well-trained sniper will stalk his enemy or lie in wait for his target to appear. He will eliminate his target with just one shot and escape to repeat his mission time and again. The history of the Australian Army is replete with untold tales of brave men who built reputations as daring and skilful snipers. From the training

grounds of the Boer War and First World War, Australian snipers honed their deadly skills and earned a fearsome reputation. In the Second World War they duelled with their German counterparts in the Western Desert and the hardy Japanese snipers of the Pacific War. The valuable lessons of two major wars had to be relearned for the Korean War where 'naïve young men who knew nothing of combat sniping' learned quickly or didn't survive. The snipers of today's Australian Army have learned the lessons of history and are held in the same high regard by friend and foe as their Gallipoli forebears. Snipers have become an essential force multiplier and have deployed on every operation since Somalia. *One Shot Kills* is the story of the sniper's journey from the South African veldt to the recent battlegrounds of Iraq and Afghanistan. It is also the story of the development of the modern sniper's combat weapon system in which technology has been harnessed to produce extraordinary results on the battlefield. Australian Army snipers are justifiably regarded as among the best in the world.

jtf2 longest sniper shot: Dear Mom Joseph T. Ward, 1991-08-31 In Vietnam's jungle war, only one group of men was feared more than death itself—the Marine Scout Snipers. . . . The U.S. Marine Scout Snipers were among the most highly trained soldiers in Vietnam. With their unparalleled skill, freedom of movement, and deadly accurate long-range Remington 700 bolt rifles, the Scout Snipers were sought after by every Marine unit—and so feared by the enemy that the VC bounty on the Scout Snipers was higher than on any other elite American unit. Joseph Ward's letters home reveal a side of war seldom seen. Whether under nightly mortar attack in An Hoa, with a Marine company in the bullet-scarred jungle, on secret missions to Laos, or on dangerous two-man hunter-kills, Ward lived the war in a way few men did. And he fought the enemy as few men did—up close and personal.

jtf2 longest sniper shot: The Sniper Mind David Amerland, 2017-11-07 *The Sniper Mind* from David Amerland is the first book to examine the learned skills necessary to become a sniper and teach readers how to apply those skills in business and in life. Snipers are exceptional. The trained sniper is a complex fusion of hard skills such as weapons knowledge, situational awareness, knowledge of ballistics and physics, and soft skills such as emotional stability, empathy, and a stoic acceptance of the hardships associated with a particular set of circumstances. There are countless instances where a single sniper, embarking on a secret mission, would have to improvise, operate beyond any hope of support, and yet still manage to carry out the mission and get back home unharmed even though the enemy was actively hunting him. For the first time ever, *The Sniper Mind* reveals the practical steps that allow a sniper's brain to work in this superhuman precise, calculated way. It teaches readers how to understand and apply these steps, whether they are stuck in a cubicle facing mounting piles of work or sitting in a corner office making industry-defining decisions. Through the explanation of advanced military training techniques and cutting-edge neuroscience, David Amerland's book provides concrete strategies and real-world skills that can help us be better: -At our jobs -In our relationships -In our executive decision making -In the paths we choose to take through life By learning how snipers teach their minds to eliminate fears and deal with uncertainty we can also develop the mental toughness we need to achieve the goals that seem to elude us in business as well as in life.

jtf2 longest sniper shot: Legion Rising Jeff Morris, LC Mickler, 2019-07-23 A U.S. Army Platoon Leader shares an honest account of Iraq War combat and his long journey of healing from trauma in this military memoir. During his time in Iraq, Jeff Morris saw and experienced some truly harrowing events, such as the time he had to pulled shards of another man's skull from the palm of his hand. When he got home, he struggled for years just to face his own reflection. In *Legion Rising*, Morris provides a candid account of his service—from the rigors of military training through the thrills, dangers, and tragedies of combat. Morris tells of losing eight men in the line of duty, and of the second battle he faced once his combat service was over. Scarred by trauma and haunted by the past, Morris faced a long struggle before his ultimate rise from adversity.

jtf2 longest sniper shot: The Ultimate Sniper Major John Plaster, 2006-01-01 Through revised text, new photos, specialised illustrations, updated charts and additional information

sidebars, *The Ultimate Sniper* once again thoroughly details the three great skill areas of sniping; marksmanship, fieldcraft and tactics.

jtf2 longest sniper shot: One Shot One Kill Charles W. Sasser, Craig Roberts, 1990-04-01 They are the lone wolves of the battlefield. Tracking the enemy, lying in wait for the target to appear—then they shoot to kill. Armed with an unerring eye, infinite patience and a mastery of camouflage, combat snipers stalk the enemy with only one goal... In World War II, Korea, Vietnam, and Beirut, American snipers honed the art of delivering a single deadly shot from nowhere—and devastating enemy morale. They met the enemy on his own turf, picking off officers, unwary soldiers, and even other snipers from extraordinary distances of up to 1 ½ miles. Now, these uncommon men tell their stories: of the emotions felt when a man's face came into their crosshairs and they pulled the trigger, of the nerve-wracking hours and days of waiting, motionless, for the enemy, of the primal savagery of a sniper duel. Often trained haphazardly in wartime, and forgotten in times of peace, combat snipers were officially recognized after the Vietnam War, when the Marine Corps became the first military branch to start a full-time sniper school. *One Shot-One Kill* is their powerful record of desperate trials and proud victories.

jtf2 longest sniper shot: Crosshairs on the Kill Zone Charles W. Sasser, Craig Roberts, 2004-07-01 From the jungles of Vietnam to the unforgiving deserts of Afghanistan and Iraq, one breed of soldier has achieved legendary status in the arena of combat—the sniper. From the authors of the classic sniper chronicle *One Shot-One Kill* comes a new generation of true tales from some of the most expert and deadly marksmen in the world. Meet Adelbert Waldron II, whose 109 confirmed kills in Vietnam made him the most successful sniper in American military history, and Tom Moose Ferran, who coined the term Fetch!, whereupon the infantry would retrieve the sniper's dead quarry. Also included are stories from snipers in Beirut, the Bosnian conflict, and both wars with Iraq—including the feat of Sergeants Joshua Hamblin and Owen Mulder, who took down thirty-two enemy soldiers in a single day outside Baghdad in 2003. The military sniper has evolved into one of the most dangerous and highly-skilled warrior professions. They suffer through weather, terrain, and enemy action, lay unmoving for days on end, and take out their targets with unerring accuracy—proving that the deadliest weapon in any battle, anywhere in the world, is a single well-aimed shot.

jtf2 longest sniper shot: Code Over Country Matthew Cole, 2022-02-22 A hard-hitting exposé of SEAL Team 6, the US military's best-known brand, that reveals how the Navy SEALs were formed, then sacrificed, in service of American empire. The Navy SEALs are, in the eyes of many Americans, the ultimate heroes. When they killed Osama Bin Laden in 2011, it was celebrated as a massive victory. Former SEALs rake in cash as leadership consultants for corporations, and young military-bound men dream of serving in their ranks. But the SEALs have lost their bearings. Investigative journalist Matthew Cole tells the story of the most lauded unit, SEAL Team 6, revealing a troubling pattern of war crimes and the deep moral rot beneath authorized narratives. From their origins in World War II, the SEALs have trained to be specialized killers with short missions. As the wars in Iraq and Afghanistan became the endless War on Terror, their violence spiraled out of control. *Code Over Country* details the high-level decisions that unleashed the SEALs' carnage and the coverups that prevented their crimes from coming to light. It is a necessary and rigorous investigation of the unchecked power of the military—and the harms enacted by and upon soldiers in America's name.

jtf2 longest sniper shot: Blood and Daring John Boyko, 2014-05-06 *Blood and Daring* will change our views not just of Canada's relationship with the United States, but of the Civil War, Confederation and Canada itself. In *Blood and Daring*, lauded historian John Boyko makes a compelling argument that Confederation occurred when and as it did largely because of the pressures of the Civil War. Many readers will be shocked by Canada's deep connection to the war—Canadians fought in every major battle, supplied arms to the South, and many key Confederate meetings took place on Canadian soil. Filled with engaging stories and astonishing facts from previously unaccessed primary sources, Boyko's fascinating new interpretation of the war will

appeal to all readers of history.

jtf2 longest sniper shot: 19 With a Bullet Granger Korff, 2009-04-01 A fast-moving, action-packed account of Granger Korff's two years' service during 1980/81 with 1 Parachute Battalion at the height of the South African 'bush war' in South West Africa (Namibia) and Angola. Apart from the 'standard' counterinsurgency activities of Fireforce operations, ambushing and patrols, to contact and destroy SWAPO guerrillas, he was involved in several massive South African Defence Force (SADF) conventional cross-border operations, such as Protea, Daisy and Carnation, into Angola to take on FAPLA (Angolan MPLA troops) and their Cuban and Soviet allies. Having grown up as an East Rand rebel street-fighter, Korff's military 'career' is marred with controversy. He is always in trouble—going AWOL on the eve of battle in order to get to the front; facing a court martial for beating up, and reducing to tears, a sergeant-major in front of the troops; fist-fighting with Drug Squad agents; arrested at gunpoint after the grueling seven-week, 700km Recce selection endurance march—are but some of the colorful anecdotes that lace this account of service in the SADF.

jtf2 longest sniper shot: Sniper One Dan Mills, 2010-04-01 When Sgt. Dan Mills and the rest of the 1st Battalion, The Princess of Wales's Royal Regiment flew into Iraq in April, 2004, they were supposed to be winning hearts and minds. They were soon fighting for their lives. Within hours of their arrival in Iraq, a grenade bounced off one of the battalion's Land Rovers, rolled underneath and detonated. The ambush marked the beginning of a full-scale firefight during which Mills killed a man with a round that removed his assailant's head. It was going to be a long tour. Like some post-apocalyptic Mad Max nightmare, the place had gone to hell in a handbasket. Temperatures on the ground often topped 120 degrees Fahrenheit, sewage systems had long since packed up, and the stench of cooking waste and piles of festering garbage grew wherever you looked. Throat-burning winds, blast bombs and well-trained, well-organized militias armed with AKs, RPGs and a limitless supply of mortar rounds were the icing on the cake. If any of Mills's eighteen-man sniper platoon had thought that the people of Al Amarah were going to welcome them with open arms, they were rapidly forced to reconsider. For the next six months, isolated, besieged and under constant fire, the battalion refused to give an inch. Sniper One is a breathtaking chronicle of endurance, camaraderie, dark humor and courage in the face of relentless, lethal assault.

jtf2 longest sniper shot: How Canada Won the Great War Robert Child, 2016-03-27 For 100 years Canada's role in ending WWI sooner than anyone thought possible has gone largely unrecognized. Canadian soldiers unlike British city boys hailed from hard scrabble farms and logging camps. Their natural survival and hunting instincts were exactly what the Great War required. The Canadian Corp on the Western Front led by Currie, became the premiere allied fighting force. The fact that Canada was not yet a formalized nation but a Dominion at the close of the war may be the reason for the absence of recognition yet the record of the Canadian WWI military accomplishments is irrefutable. Currie took over command of the Corp after the ill conceived Somme operation and executed a brilliant strategy which led to Canada's greatest military triumph of WWI at Vimy Ridge.

jtf2 longest sniper shot: Finland at War 1939-45 Philip Jowett, Brent Snodgrass, 2012-07-20 In the face of Soviet invasion in 1939-40, and once again in 1941-44, the armies raised by Finland - a tiny nation of only 4 million people astonished the world by their effective resistance. At the end of both these campaigns - the Winter War, and the Continuation War - the fiercely patriotic defiance of vastly stronger Soviet forces by Marshal Mannerheim's soldiers won their country a unique prize: although forced to accept harsh terms, Finland was never occupied by the Red Army, and retained its independence. This book explains and illustrates, for the first time in English, the organization, uniforms, equipment and tactics of Finland's defenders.

jtf2 longest sniper shot: The Good Psychopath's Guide to Success Andy McNab, Kevin

Dutton, 2015-02-12 An enlightening and entertaining look at how to use your inner psychopath to get the most out of LIFE. What is a good psychopath? And how can thinking like one help you to be the best that you can be? Professor Kevin Dutton has spent a lifetime studying psychopaths. He first met SAS hero Andy McNab during a research project. What he found surprised him. McNab is a diagnosed psychopath but he is a GOOD PSYCHOPATH. Unlike a BAD PSYCHOPATH, he is able to dial up or down qualities such as ruthlessness, fearlessness, conscience and empathy to get the very best out of himself -- and others -- in a wide range of situations. Drawing on the combination of Andy McNab's wild and various experiences and Professor Kevin Dutton's expertise in analysing them, together they have explored the ways in which a good psychopath thinks differently and what that could mean for you. What do you really want from life, and how can you develop and use qualities such as charm, coolness under pressure, self-confidence and courage to get it? The Good Psychopath's Guide to Success gives you a unique and entertaining road-map to self-fulfillment both in your personal life and your career.

jtf2 longest sniper shot: The 500 Years of Resistance Comic Book (Large Print 16pt) Gord Hill, 2010-10 The 500 Years of Resistance Comic Book is a powerful and historically accurate graphic portrayal of Indigenous resistance to the European colonization of the Americas, beginning with the Spanish invasion under Christopher Columbus and ending with the Six Nations land reclamation in Ontario in 2006. Gord Hill spent two years unearthing images and researching historical information to create The 500 Years of Resistance Comic Book, which presents the story of Aboriginal resistance in a far-reaching format. Other events depicted include the 1680 Pueblo Revolt in New Mexico; the Inca insurgency in Peru from the 1500s to the 1780s; Pontiac and the 1763 Rebellion and Royal Proclamation; Geronimo and the 1860s Seminole Wars; Crazy Horse and the 1877 War on the Plains; the rise of the American Indian Movement in the 1960s; 1973's Wounded Knee; the Mohawk Oka Crisis in Quebec in 1990; and the 1995 Aazhoo'dena/Stoney Point resistance. With strong, plain language and evocative illustrations, The 500 Years of Resistance Comic Book documents the fighting spirit and ongoing resistance of Indigenous peoples through 500 years of genocide, massacres, torture, rape, displacement, and assimilation; a necessary antidote to the conventional history of the Americas.

jtf2 longest sniper shot: **Gray Matter Splatter** Jack Murphy, 2016-07-29 The high Arctic is a region untouched by war. Until now. A mysterious weapon is stolen from a Russian facility by an equally elusive foe. With America under attack, the only chance to recover the weapon falls to Deckard and Samruk International in what quickly becomes a deadly game of cat and mouse in the Arctic Circle. Their enemy is technically savvy, sophisticated, and cunning, staying a step ahead of Samruk at every turn as they race across the tundras of Russia, Alaska, and Canada. With the numbers ticking down, Deckard makes a desperate final push across the frozen waste while the enemy triggers their final attack: a blow that could knock Western civilization back a hundred years and give birth to a new empire.

jtf2 longest sniper shot: **A Fatherly Eye** Robin Brownlie, 2003-12-15 For more than a century, government policy towards Aboriginal peoples in Canada was shaped by paternalistic attitudes and an ultimate goal of assimilation. Indeed, remnants of that thinking still linger today, more than thirty years after protests against the White Paper of 1969 led to reconsideration Canada's 'Indian' policy. In A Fatherly Eye, historian Robin Brownlie examines how paternalism and assimilation during the interwar period were made manifest in the 'field', far from the bureaucrats in Ottawa, but never free of their oppressive supervision. At the same time, she reveals how the Aboriginal 'subjects' of official policy dealt with the control and coercion that lay at the heart of the Indian Act. This groundbreaking study sheds new light on a time and a place we know little about. Brownlie focuses on two Indian agencies in southern Ontario - Parry Sound and Manitowaning (on Manitoulin Island) - and the contrasting management styles of two agents, John daly and Robert Lewis, especially during the Great Depression. In administering the lives of the Anishinabek people, the government paid inadequate attention to the protection of treaty rights and was excessively concerned with maintaining control, in part through the paternalistic provision of assistance that helped to silence

critics of the system and prevent political organizing. As Brownlie concludes, the Indian Affairs system still does not work well, and 'has come to represent all that is most oppressive about the history of colonization in this country'. Previously published by Oxford University Press

jtf2 longest sniper shot: The Ranger Way Kris Paronto, 2018-07-10 Discover the USA Today bestselling self-help memoir from a former Army Ranger, a hero of the 2012 Benghazi siege, and the subject of the book and movie 13 Hours, as he shares life-changing lessons of discipline, motivation, success, and peace. Thousands of people have heard Kris Tanto Paronto speak about his experiences in Benghazi on September 11, 2012. But before he was a security contractor, Tanto was a US Army Ranger from 2nd Battalion 75th Ranger Regiment. In The Ranger Way, Tanto shares stories from his training experiences that played a role in his team's heroic response in Benghazi on September 11, 2012. Being a Ranger is, by design, not for everyone, but anyone can use the expectations and techniques of Ranger culture to achieve personal victory. Tanto shows you how to define your mission, set goals that are in alignment with your values, and develop a battle plan that will maximize your chances of success. You will learn why you should never quit and why that is different from never failing. Tanto uses his experiences in Basic and Ranger Training to explore how to deal with mistakes and disappointment like a leader, accept responsibility, and turn every obstacle into an opportunity for growth. You will learn why service and sacrifice will help you succeed-and how the power of humility, strength, faith, and brotherhood will sustain you on the road to accomplishing your mission.

jtf2 longest sniper shot: When General Grant Expelled the Jews Jonathan D. Sarna, 2016-04-12 On December 17, 1862, just weeks before Abraham Lincoln announced the Emancipation Proclamation, General Grant issued what remains the most notorious anti-Jewish order by a government official in American history. His attempt to eliminate black marketeers by targeting for expulsion all Jews as a class from portions of Kentucky, Tennessee, and Mississippi unleashed a firestorm of controversy that made newspaper headlines and terrified and enraged the approximately 150,000 Jews then living in the United States, who feared the importation of European anti-Semitism onto American soil. Although the order was quickly rescinded by a horrified Abraham Lincoln, the scandal came back to haunt Grant when he ran for president in 1868. Never before had Jews become an issue in a presidential contest and never before had they been confronted so publicly with the question of how to balance their American and Jewish interests. Award-winning historian Jonathan D. Sarna gives us the first complete account of this little-known episode—including Grant's subsequent apology, his groundbreaking appointment of Jews to prominent positions in his administration, and his unprecedented visit to the land of Israel. Sarna sheds new light on one of our most enigmatic presidents, on the Jews of his day, and on the ongoing debate between ethnic loyalty and national loyalty that continues to roil American political and social discourse. (With black-and-white illustrations throughout.)

jtf2 longest sniper shot: Corpora, Corpses and Corps Federico Pio Gentile, 2022-09-23 This book uses corpus and multimodal methods to present a comparative study of three major Canadian TV crime series, Flashpoint (2008-2010), Motive (2013-2015) and 19-2 (2014-2016), paying special attention to cinematic techniques. Following an overview of the methodology and the Canadian cultural milieu of the study, the author approaches the three series as complex cultural and linguistic productions that depend heavily on a national appropriation of a genre whose popularity is growing internationally. The book investigates the verbal, nonverbal and paraverbal strategies employed by each production to create the patterns that make this genre appealing to a variety of audiences, and uncovers some of the psychological processes at work in contemporary Canadian TV crime serials. This book will be of interest to scholars in fields including Corpus Linguistics, Multimodal Studies, Canadian Studies, Media and Communication Studies, and Specialised Discourse.

jtf2 longest sniper shot: Spetsnaz Viktor Suvorov, 1989

jtf2 longest sniper shot: Lady Death Steve Valiant, 2015-10-17 Lyudmila Pavlichenko is regarded as the most successful female snipers in history with over 309 confirmed kills. This book

chronicles her early life as she honed her skills as an amateur sharpshooter. As World War II began, Lyudmila refused the option of becoming a nurse, instead becoming one of two thousand female snipers utilized by the Soviet Army. Her heroism on the battlefields of Russia soon earned her a place as one of the most fearsome soldiers in military history.
