latto relationship: Suspect Relations Kirsten Fischer, 2002 Over the course of the eighteenth century, race came to seem as corporeal as sex. Kirsten Fischer has mined unpublished court records and travel literature from colonial North Carolina to reveal how early notions of racial difference were shaped by illicit sexual relationships and the sanctions imposed on those who conducted them. Fischer shows how the personal and yet often very public sexual lives of Native American, African American, and European American women and men contributed to the new racial order in this developing slave society. Liaisons between European men and native women, among white and black servants, and between servants and masters, as well as sexual slander among whites and acts of sexualized violence against slaves, were debated, denied, and recorded in the courtrooms of colonial North Carolina. Indentured servants, slaves, Cherokee and Catawba women, and other members of less privileged groups sometimes resisted colonial norms, making sexual choices that irritated neighbors, juries, and magistrates and resulted in legal penalties and other

acts of retribution. The sexual practices of ordinary people vividly bring to light the little-known but significant ways in which notions of racial difference were alternately contested and affirmed before the American Revolution. Fischer makes an innovative contribution to the history of race, class, and gender in early America by uncovering a detailed record of illicit sexual exchanges in colonial North Carolina and showing how acts of resistance to sexual rules complicated ideas about inherent racial difference.

latto relationship: *Art, Aesthetics, and the Brain* Joseph P. Huston, Marcos Nadal, Francisco Mora, Luigi F. Agnati, Camilo José Cela Conde, 2015-06-25 Humans have engaged in artistic and aesthetic activities since the appearance of our species. Our ancestors have decorated their bodies, tools, and utensils for over 100,000 years. The expression of meaning using color, line, sound, rhythm, or movement, among other means, constitutes a fundamental aspect of our species' biological and cultural heritage. Art and aesthetics, therefore, contribute to our species identity and distinguish it from its living and extinct relatives. Science is faced with the challenge of explaining the natural foundations of such a unique trait, and the way cultural processes nurture it into magnificent expressions, historically and ethnically unique. How does the human brain bring about these sorts of behaviors? What neural processes underlie the appreciation of painting, music, and dance? How does training modulate these processes? How are they impaired by brain lesions and neurodegenerative diseases? How did such neural underpinnings evolve? Are humans the only species capable of aesthetic appreciation, or are other species endowed with the rudiments of this capacity? This volume brings together the work on such questions by leading experts in genetics, psychology, neuroimaging, neuropsychology, art history, and philosophy. It sets the stage for a cognitive neuroscience of art and aesthetics, understood in the broadest possible terms. With sections on visual art, dance, music, neuropsychology, and evolution, the breadth of this volume's scope reflects the richness and variety of topics and methods currently used today by scientists to understand the way our brain endows us with the faculty to produce and appreciate art and aesthetics.

latto relationship: **Loving** Sheryll Cashin, 2017-06-06 The landmark story of how interracial love and marriage changed American history—and continues to alter the landscape of American politics When Mildred and Richard Loving wed in 1958, they were ripped from their shared bed and taken to court. Their crime: miscegenation, punished by exile from their home state of Virginia. The resulting landmark decision of *Loving v. Virginia* ended bans on interracial marriage and remains a signature case—the first to use the words “white supremacy” to describe such racism. Drawing from the earliest chapters in US history, legal scholar Sheryll Cashin reveals the enduring legacy of America’s original sin, tracing how we transformed from a country without an entrenched construction of race to a nation where one drop of nonwhite blood merited exclusion from full citizenship. In vivid detail, she illustrates how the idea of whiteness was created by the planter class of yesterday and is reinforced by today’s power-hungry dog-whistlers to divide struggling whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, *Loving* challenges the notion that trickle-down progressive politics is our only hope for a more inclusive society. Accessible and sharp, Cashin reanimates the possibility of a future where interracial understanding serves as a catalyst of a social revolution ending not in artificial color blindness but in a culture where acceptance and difference are celebrated.

latto relationship: **Voices Out of Africa in Twentieth-century Spanish Caribbean Literature** Julia Cuervo Hewitt, 2009 Hewitt (Spanish and Portuguese, Pennsylvania State U.) explores the representation of Africa and Afro-Caribbean-ness in Spanish Caribbean literature of the 20th century. Her main argument is that the literary representation of Africa and Africanness, meaning practices, belief systems, music, art, myths, popular knowledge, in Spanish-speaking Caribbean societies, constructs a self-referential discourse in which Africa and African things shift to a Caribbean landscape as the site of the (M)Other. Or, in other words, these representations imaginatively rescue and simultaneously construct a Caribbean cultural imaginary conceived as the Other within that associates Africa with a cultural womb. Among the texts she explores are Fernando Ortiz's interpretations of the Black Carnival in Cuba, the early Afro-Cuban poems of Alejo Carpentier, the Afro-Cuban stories of Lydia Cabrera, a number of literary representations of the figure of the runaway slave, and two works by Puerto Rican novelist Edgardo Rodríguez Julia.

latto relationship: **Woman of Color, Daughter of Privilege** Kent Anderson Leslie, 2010-04-15 This fascinating story of Amanda America Dickson, born the privileged daughter of a white planter and an unconsenting slave in antebellum Georgia, shows how strong-willed individuals defied racial strictures for the sake of family. Kent Anderson Leslie uses the events of Dickson's life to explore the forces driving southern race and gender relations from the days of King Cotton through the Civil War, Reconstruction, and New South eras. Although legally a slave herself well into her adolescence, Dickson was much favored by her father and lived comfortably in his house, receiving a genteel upbringing and education. After her father died in 1885 Dickson inherited most of his half-million dollar estate, sparking off two years of legal battles with white relatives. When the Georgia Supreme Court upheld the will, Dickson became the largest landowner in Hancock County, Georgia, and the wealthiest black woman in the post-Civil War South. Kent Anderson Leslie's portrayal of Dickson is enhanced by a wealth of details about plantation life; the elaborate codes of behavior for men and women, blacks and whites in the South; and the equally complicated circumstances under which racial transgressions were sometimes ignored, tolerated, or even accepted.

Kennedy, 2005-11-24 [A] stunning, deeply researched, and gracefully written social history. -- Leslie Schwalm, University of Iowa This study of women in antebellum Charleston, South Carolina, looks at the roles of women in an urban slave society. Cynthia M. Kennedy takes up issues of gender, race, condition (slave or free), and class and examines the ways each contributed to conveying and replicating power. She analyses what it meant to be a woman in a world where historically specific social classifications determined personal destiny and where at the same time people of color and white people mingled daily. Kennedy's study examines the lives of the women of Charleston and the variety of their attempts to negotiate the web of social relations that ensnared them.

latto relationship: Barriers between Us Cassandra Jackson, 2004-11-08 This provocative book examines the representation of characters of mixed African and European descent in the works of African American and European American writers of the 19th century. The importance of mulatto figures as agents of ideological exchange in the American literary tradition has yet to receive sustained critical attention. Going beyond Sterling Brown's melodramatic stereotype of the mulatto as tragic figure, Cassandra Jackson's close study of nine works of fiction shows how the mulatto trope reveals the social, cultural, and political ideas of the period. Jackson uncovers a vigorous

discussion in 19th-century fiction about the role of racial ideology in the creation of an American identity. She analyzes the themes of race-mixing, the mulatto, nation building, and the social fluidity of race (and its imagined biological rigidity) in novels by James Fenimore Cooper, Richard Hildreth, Lydia Maria Child, Frances E. W. Harper, Thomas Detter, George Washington Cable, and Charles Chesnutt. Blacks in the Diaspora -- Claude A. latto relationship: The Humean Mind Angela Coventry, Alexander Sager, 2018-10-26 David Hume (1711-1776) is widely acknowledged as one of the most important philosophers in the English language, with his work continuing to exert major influence on philosophy today. His empiricism, naturalism, and psychology of the mind and the passions shape many positions and approaches in the sciences and social sciences. The Humean Mind seeks to provide a comprehensive survey of his work, not only placing it in its historical context but also exploring its contemporary significance. Comprising 38 chapters by a team of international contributors the Handbook is divided into four sections: · Intellectual context · Hume's thought · Hume's reception · Hume's legacy This handbook includes coverage of all major aspects of Hume's thought with essays spanning the full scope of Hume's philosophy. Topics explored include Hume's reception in the eighteenth and nineteenth centuries; Hume's legacy in the twentieth and twenty-first centuries; Hume's history, including an essay on Hume as historian, as well as essays on the relevance of history to Hume's philosophy and his politics, and an updated treatment of Hume's Legal Philosophy. Also included are essays on race, gender, and animal ethics. Essential reading for students and researchers in philosophy, Hume's work is central to epistemology, metaphysics, philosophy of mind, philosophy of science, ethics, legal philosophy and philosophy of religion.

latto relationship: Ties That Bind Tiya Miles, 2015-06-23 This beautifully written book, now in its second edition, tells the haunting saga of a quintessentially American family. In the late 1790s, Shoe Boots, a famed Cherokee warrior and successful farmer, acquired an African slave named Doll. Over the next thirty years, Shoe Boots and Doll lived together as master and slave and also as lifelong partners who, with their children and grandchildren, experienced key events in American history—including slavery, the Creek War, the founding of the Cherokee Nation and subsequent removal of Native Americans along the Trail of Tears, and the Civil War. This is the gripping story of their lives, in slavery and in freedom. Meticulously crafted from historical and literary sources, *Ties That Bind* vividly portrays the members of the Shoeboots family. Doll emerges as an especially poignant character, whose life is mostly known through the records of things done to her—her purchase, her marriage, the loss of her children—but also through her moving petition to the federal government for the pension owed to her as Shoe Boots's widow. A sensitive rendition of the hard realities of black slavery within Native American nations, the book provides the fullest picture we have of the myriad complexities, ironies, and tensions among African Americans, Native Americans, and whites in the first half of the nineteenth century. Updated with a new preface and an appendix of key primary sources, this remains an essential book for students of Native American history, African American history, and the history of race and ethnicity in the United States.

latto relationship: Wavelet Applications in Chemical Engineering Rodolphe L. Motard, Babu Joseph, 2013-11-27 Increasing emphasis on safety, productivity and quality control has provided an impetus to research on better methodologies for fault diagnosis, modeling, identification, control and optimization of chemical process systems. One of the biggest challenges facing the research community is the processing of raw sensor data into meaningful information. Wavelet analysis is an emerging field of mathematics that has provided new tools and algorithms suited for the type of problems encountered in process monitoring and control. The concept emerged in the geophysical field as a result of the need for time-frequency analytical techniques. It has since been picked up by mathematicians and recognized as a unifying theory for many of the methodologies employed in the past in physics and signal processing. I Meyer states: Wavelets are without doubt an exciting and intuitive concept. The concept brings with it a new way of thinking, which is absolutely essential and was entirely missing in previously existing algorithms. The unification of the theory from these disciplines has led to applications of wavelet transforms in many areas of science and engineering including: • pattern recognition • signal analysis • time-frequency decomposition • process signal characterization and representation • process system modeling and identification • control system design, analysis and implementation • numerical solution of differential equations • matrix manipulation About a year ago, in talking to various colleagues and co-workers, it became clear that

a number of chemical engineers were fascinated with this new concept.

latto relationship: Domestic Allegories of Political Desire Claudia Tate, 1993-01-07 Why did African-American women novelists use idealized stories of bourgeois courtship and marriage to mount arguments on social reform during the last decade of the nineteenth century, during a time when resurgent racism conditioned the lives of all black Americans? Such stories now seem like apolitical fantasies to contemporary readers. This is the question at the center of Tate's examination of the novels of Pauline Hopkins, Emma Kelley, Amelia Johnson, Katherine Tillman, and Frances Harper. *Domestic Allegories of Political Desire* is more than a literary study; it is also a social and intellectual history--a cultural critique of a period that historian Rayford W. Logan called the Dark Ages of recent American history. Against a rich contextual framework, extending from abolitionist protest to the Black Aesthetic, Tate argues that the idealized marriage plot in these novels does not merely depict the heroine's happiness and economic prosperity. More importantly, that plot encodes a resonant cultural narrative--a domestic allegory--about the political ambitions of an emancipated people. Once this domestic allegory of political desire is unmasked in these novels, it can be seen as a significant discourse of the post-Reconstruction era for representing African-Americans' collective dreams about freedom and for reconstructing those contested dreams into consummations of civil liberty.

latto relationship: Race Relations at the Margins Jeff Forret, 2006-07-01 Covering a broad geographic scope from Virginia to South Carolina between 1820 and 1860, Jeff Forret scrutinizes relations among rural poor whites and slaves, a subject previously unexplored and certainly under-reported. Forret's findings challenge historians' long-held assumption that mutual violence and animosity characterized the two groups' interactions; he reveals that while poor whites and slaves sometimes experienced bouts of hostility, often they worked or played in harmony and camaraderie. *Race Relations at the Margins* is remarkable for its focus on lower-class whites and their dealings with slaves outside the purview of the master. Race and class, Forret demonstrates, intersected in unique ways for those at the margins of southern society, challenging the belief that race created a social cohesion among whites regardless of economic status. As Forret makes apparent, colonial-era flexibility in race relations never entirely disappeared despite the institutionalization of slavery and the growing rigidity of color lines. His book offers a complex and nuanced picture of the shadowy world of slave-poor white interactions, demanding a refined understanding and new appreciation of the range of interracial associations in the Old South.
