Remember to obtain necessary permissions and ensure safety precautions are in place.

B. "Acts of Kindness" Challenge: Launch a month-long challenge encouraging acts of kindness, both big and small. Young women can document their acts and share them during a closing meeting, fostering reflection and appreciation for the impact of selfless service. Examples include writing encouraging notes, helping neighbors, or donating to a food bank.

B. Scripture Study & Sharing: Dedicate a meeting to in-depth scripture study on a chosen topic relevant to the girls' lives. Use creative methods like role-playing, discussions, or artwork to engage

participants and encourage personal insights. Prioritize creating a safe space for sharing testimonies and personal experiences.

C. "Come, Follow Me" Focused Activity: Tie your activity directly to the current "Come, Follow Me" curriculum. This creates a natural connection between Sunday lessons and the Young Women's program, reinforcing spiritual learning. Examples include creating a visual representation of a scripture story, or a presentation on a gospel principle from the lessons.

III. Fun & Fellowship Activities: Building Sisterhood & Memories

A. Themed Movie Night: Choose a faith-promoting or uplifting movie and host a movie night with popcorn, treats, and comfortable seating. Following the movie, engage in a discussion about the themes and messages presented.

B. Game Night or Talent Show: Organize a fun-filled game night with classic board games, card games, or even create your own YW-themed games. Alternatively, host a talent show to showcase individual talents and foster creativity. This promotes teamwork, friendly competition, and self-expression.

C. Outdoor Adventure: Plan a hike, camping trip, or other outdoor adventure to encourage physical activity, teamwork, and appreciation for nature. Ensure safety precautions are in place, appropriate permits are obtained, and all participants are properly prepared for the chosen activity.

IV. Skill-Building & Personal Development Activities

A. Cooking or Crafting Class: Organize a cooking class focusing on healthy recipes or a crafting class to teach a new skill. This promotes personal growth, fosters creativity, and provides practical life skills. Invite a skilled member of the ward or a local professional to lead the class.

B. Self-Defense Workshop: Arrange a self-defense workshop to empower young women with practical skills for personal safety. This is a valuable life skill and promotes confidence and self-reliance. Ensure the instructor is qualified and experienced.

Ids yw activity ideas 2023: *The Next Mormons* Jana Riess, 2019-02-01 *American Millennials--the generation born in the 1980s and 1990s--have been leaving organized religion in unprecedented numbers. For a long time, the Church of Jesus Christ of Latter-day Saints was an exception: nearly three-quarters of people who grew up Mormon stayed that way into adulthood. In *The Next Mormons*, Jana Riess demonstrates that things are starting to change. Drawing on a large-scale national study of four generations of current and former Mormons as well as dozens of in-depth personal interviews, Riess explores the religious beliefs and behaviors of young adult Mormons, finding that while their levels of belief remain strong, their institutional loyalties are less certain than their parents' and grandparents'. For a growing number of Millennials, the tensions between the Church's conservative ideals and their generation's commitment to individualism and pluralism prove too high, causing them to leave the faith--often experiencing deep personal anguish in the process. Those who remain within the fold are attempting to carefully balance the Church's strong emphasis on the traditional family with their generation's more inclusive definition that celebrates same-sex couples and women's equality. Mormon families are changing too. More*

Mormons are remaining single, parents are having fewer children, and more women are working outside the home than a generation ago. *The Next Mormons* offers a portrait of a generation navigating between traditional religion and a rapidly changing culture.

lds yw activity ideas 2023: Find Names for the Temple Nicole Dyer, 2018-07-06 Whether your family tree is partially filled out, mostly complete, or full with many LDS relatives, this step-by-step method will help you discover new relatives and reserve their temple ordinances. You will review the accuracy of your tree, analyze your pedigree, and make a list of ancestors to research. Those with many LDS relatives will locate research opportunities by diving deeper into tree analysis and listing ancestors who were not members of the LDS Church. Using descendant research to find cousins will open doors for those with full family trees. Instead of selecting random ancestors, you will systematically view descendant trees for each of the ancestors in your list. By evaluating each descendant tree, you can determine which branches are most likely to contain candidates for further research likely to be found in available records. Once you have chosen a relative to focus on, you'll begin a research project. Research begins by choosing a research question. Next you will create a simple research plan and research log. When you have completed your searches, you will then record what you found in FamilySearch, including adding sources and new relatives to the tree, and then write a summary of your research. After merging duplicates you will be ready to reserve temple ordinances. After you've successfully found names for the temple, you can repeat the process by going back to your list of candidates for further research and begin again with a new research question. Now you won't run out of research opportunities! As you research each relative one by one, you will grow to love them and think of them as friends. As President Eyring said, your heart will be bound to theirs forever.

lds yw activity ideas 2023: The Randstad Daniela PISOIU, Sandra HAIN, 2020-12-30 The Randstad metropolitan region encompassing Amsterdam, The Hague, Rotterdam and Utrecht in the western Netherlands is regarded worldwide as a model of a 'successful' polycentric metropolis. It is widely cited as an example of how a region of interconnected small cities can effectively compete globally by providing complementary functions which together match the power of large monocentric cities. The methods of strategic spatial planning, regional design and strategic projects that are said to underpin this polycentric metropolis are used as models for practitioners and students around the world. But is this high reputation deserved? Does the Randstad really function as a polycentric metropolis? The operation of the Randstad as a polycentric networked region is controversial both in terms of the actual strength of relations between its component parts, and the value of promoting polycentricity in policy. What are the costs and benefits of a Randstad metropolis? Does polycentricity improve the performance of the region in economic, social and environmental terms? How has the polycentric metropolis evolved and what part is played by its delta location? Has spatial planning made a difference in the form and operation of the region today? How will this spatial configuration fare in the face of the climate crisis and need to create healthy cities and regions? Is there benefit in pursuing the idea of a polycentric metropolis in government policy and action, and how? These questions are of critical interest within the Netherlands but experience in the Randstad offers valuable insights to many other complex urban regions around the world. This book will provide a critical analysis of the Randstad and lessons for strategic planning in other metropolitan regions--
