**larchmont race week 2023:** *Kenneth Whiting* Felix Haynes, 2023-08-10 BLURB Kenneth Whiting was well-known in the Navy of his day. During his early years after graduating from the Naval Academy, he commanded several early submarines and was known as the first man to escape from a downed submarine. After being trained to fly by Orville Wright, he was the first naval officer to conceptualize a ship that was to become the most important in the US Navy--the aircraft carrier. After submitting his first three unsuccessful proposals to build such a ship, his creativity and aggressiveness were recognized at the start of World War I when he was asked to lead the Navy's First Aeronautical Detachment to France. The FAD was the first American unit to travel to Europe, and within a few months, he negotiated a plan with the French Navy for a system to build naval air stations and train his men in anti-submarine warfare from the air. When the US Navy Department

approved the plan, he was transferred to the command of NAS Killingholme on England's North Sea Coast. He built Killingholme into the largest naval air station in Britain. Returning to the US at the end of the war, he found the Navy Department much more willing to talk about building aircraft carriers. Upon the approval of this new ship type, he was placed in charge of converting or building the first six. Along the way, he developed the new systems for the operation of launching and landing aircraft on the new flat flight decks. For his developmental work with the first six carriers and commanding two of them, he is frequently called the Father of the Aircraft Carrier in books and publications about the ship, which was to take the place of the battleship as the king of the seas. Along the way, naval aviation took advantage of his ability to effectively and smoothly advocate for many of the then-fledgling naval aviation's important goals in the public arena. Because he had publicly spearheaded much of those goals, the battleship admirals who ran the Navy of that era were able to take revenge on him and prevent him from being promoted to admiral rank. His tragic death in the middle of World War II became part of the reason his name has been largely forgotten outside the Navy, but naval aviators know him because the field where they are all trained, Whiting Field NAS in Pensacola, is named for him. The military exploits of this American sailor are worth recounting, but the victories of Whiting and his family racing yachts on Long Island Sound make him even more interesting. The goal of this first biography of Kenneth Whiting is to enable those who empower one of today's most important functions--naval aviation--and the Americans who have benefitted from Whiting's work, to remember this hero of naval aviation and submarines.

**larchmont race week 2023: Temple to the Wind** Christopher L. Pastore, 2023-12-21 In 1903, racing for the America's Cup was no longer a gentleman's game - it had become a race entangled with political tension and awesome, dangerous stakes. In this pivotal year, the two great rivals Britain and America raced head to head, with Britain determined to win with their privately funded Shamrock III, and America's bravado backed up by Reliance. Reliance was a yacht like no other - a work of beauty carrying more sail than any single-masted boat before. Some believed that the boat towering 190 feet above the water was simply too dangerous, but the race called for such staggering risk. Pastore brings life to this strikingly astounding vessel from conception, to construction, to the hair-raising trials at sea. It is simply one of the most exciting sea tales ever told.

She doesn't miss a beat in either the characterization or action, scattering clues with a delicate, precise hand. This is, in the end, the story of the anatomy of the human heart. - Booklist (starred review) Dana Schwartz's *Anatomy: A Love Story* is a gothic tale full of mystery and romance. Hazel Sinnett is a lady who wants to be a surgeon more than she wants to marry. Jack Curren is a resurrection man who's just trying to survive in a city where it's too easy to die. When the two of them have a chance encounter outside the Edinburgh Anatomist's Society, Hazel thinks nothing of it at first. But after she gets kicked out of renowned surgeon Dr. Beecham's lectures for being the wrong gender, she realizes that her new acquaintance might be more helpful than she first thought. Because Hazel has made a deal with Dr. Beecham: if she can pass the medical examination on her own, Beecham will allow her to continue her medical career. Without official lessons, though, Hazel will need more than just her books—she'll need corpses to study. Lucky that she's made the acquaintance of someone who digs them up for a living. But Jack has his own problems: strange men have been seen skulking around cemeteries, his friends are disappearing off the streets, and the dreaded Roman Fever, which wiped out thousands a few years ago, is back with a vengeance. Nobody important cares—until Hazel. Now, Hazel and Jack must work together to uncover the secrets buried not just in unmarked graves, but in the very heart of Edinburgh society.

**larchmont race week 2023: Incarceration Nations** Baz Dreisinger, 2016-02-09 In this crucial study, named one of the Washington Post's Notable Nonfiction Books of 2016 and now in paperback, Baz Dreisinger goes behind bars in nine countries to investigate the current conditions in prisons worldwide. Beginning in Africa and ending in Europe, *Incarceration Nations* is a first-person odyssey through the prison systems of the world. Professor, journalist, and founder of the Prison-to-College-Pipeline program, Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect. She journeys to Jamaica to visit a prison music program, to Singapore to learn about approaches to prisoner reentry, to Australia to grapple with the bottom line of private prisons, to a federal supermax in Brazil to confront the horrors of solitary confinement, and finally to the so-called model prisons of Norway. *Incarceration Nations* concludes with climactic lessons about the past, present, and future of justice.

**larchmont race week 2023: Finding Latinx** Paola Ramos, 2020-10-20 Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how "Latinx" has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we

are.

**larchmont race week 2023: Rowdy** Christopher Madsen (Boater), 2015-08-15 When Christopher Madsen made the snap decision--perhaps a rash decision--to buy and renovate the 1916 yacht for which this story is named, he could scarcely have imagined the consequences that were to follow. Unexpectedly, during the course of the renovation, a window into Rowdy's past was opened, metaphorically whisking Christopher back in time. Seduced by tantalizing clues and glimpses into the personal life of the original owner, he was steadily drawn deeper into the investigation. In 2002, ninety-three-year-old Hanny, Holland Duell's only surviving child, came aboard her father's boat for the first time in 83 years, and from that moment forward, the fading memories of a most amazing cast of characters were slowly and magically brought back to life. The emerging story, bringing to life the era of Hemingway and Gatsby, progressively grew, becoming more and more complex and sensational--at times to the point of disbelief. The incredible life journey of Holland Duell, decorated World War I major, celebrated New York state senator, powerful patent attorney, and highly accomplished sailor, is told here from an intimately personal perspective as he is immersed in the Great War, politics at the highest level, the birth of Hollywood, fortunes and mansions, love and romance, and scandalous affairs. The epic tale, far from being a story exclusively for sailors, is a gripping, fast-paced adventure and love story, made all the more amazing by the fact that it is completely true, historically significant, and meticulously documented. A newly unearthed gem in American history, Rowdy will enjoyably transport the reader back in time to the Golden Age of Yachting--AND EVER SO MUCH MORE!

**larchmont race week 2023: Black Software** Charlton D. McIlwain, 2020 Black Software, for the first time, chronicles the long relationship between African Americans, computing technology, and the Internet. Through new archival sources and the voices of many of those who lived and made this history, the book centralizes African Americans' role in the Internet's creation and evolution, illuminating both the limits and possibilities for using digital technology to push for racial justice in the United States and across the globe.

**larchmont race week 2023: A Wider Type of Freedom** Daniel Martinez HoSang, 2023-07-04 In *Where Do We Go From Here?* (1967), Dr. Martin Luther King, Jr., described racism as 'a philosophy based on a contempt for life,' a totalizing social theory that could only be confronted with an equally massive response, by 'restructuring the whole of American society.' This book provides a survey of the truly transformative visions of racial justice in the United States, an often-hidden history that has produced conceptions of freedom and interdependence never envisioned in the nation's dominant political framework. This book brings together the stories of the social movements, intellectuals, artists, and cultural formations that have centered racial justice and the abolition of white supremacy as the foundation for a universal liberation. Daniel Martinez HoSang taps into moments across time and place to reveal the long driving force toward this vision of universal emancipation. From the abolition democracy of the nineteenth century and the struggle to end forced sterilizations, to domestic worker organizing campaigns and the twenty-first century's environmental justice movement, we see a desire to realize the antithesis of 'a philosophy based on a contempt for life.' These movements emphasized transformations that would liberate everyone from the violence of militarism, labor exploitation, degradations of the body, and elite-dominated governance. Rather than seeking 'equal rights' within such failed systems, they generated new visions that embraced human difference, vulnerability, and interdependence as central and productive facets of our collective experience--

**larchmont race week 2023: Running to the Edge** Matthew Futterman, 2020-04-14 The story of visionary American running coach Bob Larsen's mismatched team of elite California runners who would win championships and Olympic glory in a decades-long pursuit of the epic run. In the dusty hills above San Diego, Bob Larsen became America's greatest running coach. *Running to the Edge* is a riveting account of Larsen's journey, and his quest to discover the unorthodox training secrets that would lead American runners to breakthroughs never imagined. Futterman interweaves the dramatic stories of Larsen's runners with a fascinating discourse on the science behind human

running, as well as a personal running narrative that follows Futterman's own checkered love-affair with the sport. The result is a narrative that will speak to every runner, a story of Larsen's triumphs--from high school cross-country meets to the founding of the cult-favorite, 70's running group, the Jamul Toads; from his long tenure as head coach at UCLA to the secret training regimen of world champion athletes like Larsen's protégé, Meb Keflezighi. *Running to the Edge* is a page-turner . . . a relentless crusade to run faster, farther.

**larchmont race week 2023: The New York Nobody Knows** William B. Helmreich, 2015-08-25 As a kid growing up in Manhattan, William Helmreich played a game with his father they called Last Stop. They would pick a subway line and ride it to its final destination, and explore the neighborhood there. Decades later, Helmreich teaches university courses about New York, and his love for exploring the city is as strong as ever. Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs--an astonishing 6,000 miles. His epic journey lasted four years and took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life, including Mayor Michael Bloomberg and former mayors Rudolph Giuliani, David Dinkins, and Edward Koch. Their stories and his are the subject of this captivating and highly original book. We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind, the Brooklyn-raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery-store sign, and many, many others. Helmreich draws on firsthand insights to examine essential aspects of urban social life such as ethnicity, gentrification, and the use of space. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan.--Publisher's description.

**larchmont race week 2023: *Larchmont*** Patricia Lombard, 2015 Larchmont Boulevard is more than a street; it is the soul and spine of the surrounding neighborhoods created in the early 1900s when Los Angeles was just coming into its own. Located in the heart of Los Angeles, Larchmont Boulevard is a charming, walkable street running north and south from Third Street to Melrose Avenue that gives residents and visitors the feeling of a small town tucked inside the vast, car-centric city of Los Angeles. This book tells the story of Larchmont's beginnings in 1921 when the Los Angeles Times reported that developers Julius La Bonte and Charles Ramson had purchased seven lots on Larchmont Boulevard to create a business district of 30 stores between First Street and Beverly Boulevard. The one-block stretch, where a trolley line once ran, is affectionately known as the village by locals in the surrounding neighborhoods of Brookside, Citrus Square, Country Club Heights, Fremont Place, Hancock Park, La Brea-Hancock, Larchmont Village, Melrose, Oakwood-Maplewood-St. Andrews, Ridgewood-Wilton/St. Andrews Square, Sycamore Square, Western-Wilton, Wilshire Park, Windsor Square, and Windsor Village.

**larchmont race week 2023: *The Breakthrough*** Gwen Ifill, 2009-10-27 In *The Breakthrough*, veteran journalist Gwen Ifill surveys the American political landscape, shedding new light on the impact of Barack Obama's stunning presidential victory and introducing the emerging young African American politicians forging a bold new path to political power. Ifill argues that the Black political structure formed during the Civil Rights movement is giving way to a generation of men and women who are the direct beneficiaries of the struggles of the 1960s. She offers incisive, detailed profiles of such prominent leaders as Newark Mayor Cory Booker, Massachusetts Governor Deval Patrick, and U.S. Congressman Artur Davis of Alabama (all interviewed for this book), and also covers numerous

up-and-coming figures from across the nation. Drawing on exclusive interviews with power brokers such as President Obama, former Secretary of State Colin Powell, Vernon Jordan, the Reverend Jesse Jackson, his son Congressman Jesse Jackson Jr., and many others, as well as her own razor-sharp observations and analysis of such issues as generational conflict, the race/ gender clash, and the black enough conundrum, *Ifill* shows why this is a pivotal moment in American history. The Breakthrough is a remarkable look at contemporary politics and an essential foundation for understanding the future of American democracy in the age of Obama.

**larchmont race week 2023: Frozen Voices** Lynne Heinzmann, 2016 Fiction. In her debut novel, FROZEN VOICES, Lynne Heinzmann has performed magic beyond even the skills of Harry Houdini, one of her most delightful characters. Heinzmann pulls off an astonishing feat of literary legerdemain, resurrecting real people who, in February 1907, were passengers on the steamship Larchmont, a vessel which sank off the coast of Rhode Island, taking 137 souls down with her: 'drowned, frozen, or scalded to death.' In giving voice and vitality to a group of these passengers, Heinzmann combines meticulous historical research with a humane and generous imagination. Readers will live and breathe with the four narrators of the novel, as we see them before, during and--for some--after the disaster. FROZEN VOICES weaves the characters and events aboard this doomed ship into a complex and spellbinding tale. In the end, readers are left with exactly the reactions that should follow such an act of wondrous conjuration: we are amazed and deeply touched. --Hollis Seamon

**larchmont race week 2023: Center Church** Timothy Keller, 2012-09-04 Practical and Gospel-centered thoughts on how to have a fruitful ministry by one of America's leading and most beloved pastor. Many church leaders are struggling to adapt to a culture that values individuality above loyalty to a group or institution. There have been so many church growth and effective ministry books in the past few decades that it's hard to know where to start or which ones will provide useful and honest insight. Based on over twenty years of ministry in New York City, Timothy Keller takes a unique approach that measures a ministry's success neither by numbers nor purely by the faithfulness of its leaders, but on the biblical grounds of fruitfulness. Center Church outlines a balanced theological vision for ministry organized around three core commitments: Gospel-centered: The gospel of grace in Jesus Christ changes everything, from our hearts to our community to the world. It completely reshapes the content, tone, and strategy of all that we do. City-centered: With a positive approach toward our culture, we learn to affirm that cities are wonderful, strategic, and under-served places for gospel ministry. Movement-centered: Instead of building our own tribe, we seek the prosperity and peace of our community as we are led by the Holy Spirit. Between a pastor's doctrinal beliefs and ministry practices should be a well-conceived vision for how to bring the gospel to bear on the particular cultural setting and historical moment. This is something more practical than just doctrine but much more theological than how-to steps for carrying out a ministry. Once this vision is in place, it leads church leaders to make good decisions on how to worship, disciple, evangelize, serve, and engage culture in their field of ministry—whether in a city, suburb, or small town. — Tim Keller, Core Church

**larchmont race week 2023: The Blackademic Life** Lavelle Porter, 2019-10-15 The

Blackademic Life critically examines academic fiction produced by black writers. Lavelle Porter evaluates the depiction of academic and campus life in literature as a space for black writers to produce counternarratives that celebrate black intelligence and argue for the importance of higher education, particularly in the humanistic tradition. Beginning with an examination of W. E. B. Du Bois's creative writing as the source of the first black academic novels, Porter looks at the fictional representations of black intellectual life and the expectations that are placed on faculty and students to be racial representatives and spokespersons, whether or not they ever intended to be. The final chapter examines blackacademics on stage and screen, including in the 2014 film *Dear White People* and the groundbreaking television series *A Different World*.

Her voice is FIRE!—NYT bestselling and award-winning author Jacqueline Woodson An unforgettable, torrential, and hopeful debut young adult novel-in-verse that redefines what it means to make it," for readers of Nicholasa Mohr and Elizabeth Acevedo. **larchmont race week 2023: Voices from the Valley** Ben Tarnoff, Moira Weigel, 2020-10-13 From FSGO x Logic: anonymous interviews with tech workers at all levels, providing a bird's-eye view of the industry In *Voices from the Valley*, the celebrated writers and Logic cofounders Moira Weigel and Ben Tarnoff take an unprecedented dive into the tech industry, conducting unfiltered, in-depth, anonymous interviews with tech workers at all levels, including a data scientist, a start-up founder, a cook who serves their lunch, and a PR wizard. In the process, Weigel and Tarnoff open the conversation about the tech industry at large, a conversation that has previously been dominated by the voices of CEOs. Deeply illuminating, revealing, and at times lurid, *Voices from the Valley* is a vital and comprehensive view of an industry that governs our lives. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.
