let s build a predictable selling system ryan deiss course: *Fighting Nature* Peta Tait, 2016-08-10 Throughout the 19th century animals were integrated into staged scenarios of confrontation, ranging from lion acts in small cages to large-scale re-enactments of war. Initially presenting a handful of exotic animals, travelling menageries grew to contain multiple species in their thousands. These 19th-century menageries entrenched beliefs about the human right to exploit nature through war-like practices against other animal species. Animal shows became a stimulus for antisocial behaviour as locals taunted animals, caused fights, and even turned into violent mobs. Human societal problems were difficult to separate from issues of cruelty to animals. Apart from reflecting human capacity for fighting and aggression, and the belief in human dominance over nature, these animal performances also echoed cultural fascination with conflict, war and colonial expansion, as the grand spectacles of imperial power reinforced state authority and enhanced public displays of nationhood and nationalistic evocations of colonial empires. *Fighting nature* is an insightful analysis of the historical legacy of 19th-century colonialism, war, animal acquisition and transportation. This legacy of entrenched beliefs about the human right to exploit other animal species is yet to be defeated. Peta Tait brings to the book an impressive scholarly command of the documentary material, from which she draws a range of vivid examples and revealing analyses of human-animal confrontation in popular entertainments ... The book is written with verve and clarity, and will be of interest to a wide readership in performance studies and cultural history. Professor Jane R. Goodall, Western Sydney University Peta Tait FAHA is Professor of Theatre and Drama at La Trobe University and Visiting Professor at the University of Wollongong, and author of *Wild and dangerous performances: animals, emotions, circus* (2012).

let s build a predictable selling system ryan deiss course: Jab, Jab, Jab, Right Hook Gary Vaynerchuk, 2013-11-26 New York Times bestselling author and social media expert Gary Vaynerchuk shares hard-won advice on how to connect with customers and beat the competition. A mash-up of the best elements of *Crush It!* and *The Thank You Economy* with a fresh spin, *Jab, Jab, Jab, Right Hook* is a blueprint to social media marketing strategies that really works. When managers and marketers outline their social media strategies, they plan for the "right hook"—their next sale or campaign that's going to knock out the competition. Even companies committed to jabbing—patiently engaging with customers to build the relationships crucial to successful social media campaigns—want to land the punch that will take down their opponent or their customer's resistance in one blow. Right hooks convert traffic to sales and easily show results. Except when they don't. Thanks to massive change and proliferation in social media platforms, the winning combination of jabs and right hooks is different now. Vaynerchuk shows that while communication is still key, context matters more than ever. It's not just about developing high-quality content, but

developing high-quality content perfectly adapted to specific social media platforms and mobile devices—content tailor-made for Facebook, Instagram, Pinterest, Twitter, and Tumblr.

A Radical New Approach to Selling Your Customers What They Really Want—No Matter What Business You're In Sydney Biddle Barrows, Dan S. Kennedy, 2008-12-02 Sex Sells... With a gift for sales, Sydney Biddle Barrows, once known infamously as the Mayflower Madam, found wealth in selling her customers exactly what they wanted - and shockingly, it wasn't sex! Yes, ultimately a sure thing was involved, but if that was really her clients' main objective, they could have gone elsewhere for a lot less. The business she was really in? Selling a fantasies. Fantasies inspire, excite and motivate - they make us feel good about ourselves. We all buy fantasies everyday - from a car dealership, a spa, a realtor. The salesman that masters the art of selling fantasies can write his own check. Now the Mayflower Madam shows you how - in a way you've never dreamed of. This one-of-a-kind sales guide works for any business and any salesperson. Through racy examples and entertaining anecdotes, discover how to: Unearth your prospects' unspoken expectations so you can create a sales design that delivers the goods Figure out what business your customers want you to be in - and how to reverse engineer it so your customer actually receives that experience Be selective and attract affluent customers where price is not a barrier Reverse the sales process, creating a sales choreography to take control of your prospect Quickly establish your clients' trust - lessons from a business where trust is hard to come by Plus get Sydney's 25 XXX-Rated Sales Secrets! Provocative and clever, Biddle Barrows brilliantly addresses hidden, overlooked and neglected aspects of selling. Through her own experiences, she takes you where no other sales expert has ever taken you and equips you to fine-tune your own sales process providing the ultimate payoff! [REVIEW:] The fast-talking, closing-obsessed salesperson of the past is dead and doesn't know it. Potential customers hate being bullied; though they may cave in the face of such old-style aggression, they won't be back and they won't send referrals. Barrows and Kennedy make an irrefutable case that people are more beguiled by an approach centered on providing an experience consistent with inner desires than a pressure-sell. Barrows urges listening first, then selling clients what they yearn for. "What problem are they trying to solve, what pain are they seeking to alleviate or avoid? What pleasure or gain are they hoping to experience? What do they see as the ideal outcome and how will that make them feel?" This approach meets less sales resistance than trying to convince people to want what is already on hand. The author and co-author are an absolutely unique duo in the sphere of marketing. Sydney Biddle Barrows first came to the public's notice when labeled by the press as the "Mayflower Madam,"—mistress of a highly lucrative out-call service, called Cachet. She is now a highly in demand public speaker, business mentor, and management consultant. Dan Kennedy is a consulting guru whose daily fee (which folks line up to pay) is about the same as the average annual per capita income in the U.S.. His eleven previous books include The No B.S. series of specialized sales guides. According to Barrows and Kennedy, the smart seller should shift focus from products and pricing, to the minds of customers, and put their energy into building honest relationships. Those who aren't sure exactly what business they're really in (answer: whatever legal business the clients want you to be in) will soon be out of business. Niche businesses are lucrative, but sub-niches serving a very particularized segment are even more successful because the seller can tailor their approach to more closely match expectations. One proviso: the techniques detailed here apply without modification only to those serving clients with plenty of

disposable cash. Individuals on limited budgets might like to be catered to, but they still check the price tag. Several additional sales specialists contribute short sections that reinforce Barrows' and Kennedy's priorities through examples of their own successes and learning experiences. The general approach is concerned with ending overt coercion in the sales process; it's about deeply understanding the movies playing in clients' heads. That's the direction of the future for the entire occupation. Don't discount the advice of the madam and the madman; they might know more about your business than you do. (January) Review by: Todd Mercer, Foreword magazine, January/February 2009

Traditional sales and marketing methods have failed to keep pace with the way modern, internet-savvy consumers purchase goods and services. Modern messaging apps, which allow for real-time conversations and instant feedback, have transformed the way we interact in our personal and professional lives, yet most businesses still rely on 20th century technology to communicate with 21st century customers. Online forms, email inquiries, and follow-up sales calls don't provide the immediacy that modern consumers expect. Conversational marketing and sales are part of a new methodology centered around real-time, one-on-one conversations with customers via chatbots and messaging. By allowing your business to communicate with customers in real time—when it's most convenient for them—conversational marketing improves the customer experience, generates more leads, and helps you convert more leads into customers. *Conversational Marketing* pioneers David Cancel and Dave Gerhardt explain how to: Merge inbound and outbound tactics into a more productive dialog with customers Integrate conversational marketing techniques into your existing sales and marketing workflow Face-to-face meetings, phone calls, and email exchanges remain important to customer relations, but adding a layer of immediate, individual conversation drives the customer experience—and sales—sky-high.

Pushpendra Mehta has written a must-read book for anyone on a quest to understand people better, including themselves, and benefit from these insights for a happier and more fulfilling life...Read this book - and learn from one of the best. - Stacey Chillemi, Founder of The Complete Herbal Guide, Writer, Huff Post and Thrive Global Pushpendra Mehta, writer, marketer, and mentor, has been an observer of human behavior all his life. Inspired by Sir Arthur Conan Doyle's memorable fictional detective character, Sherlock Holmes, Pushpendra realized people drop subtle clues to their true nature, which is often hidden behind masks. The more he watched and studied, the better able he was to discern who people truly were. In 2019, he answered a question-What small thing can tell you a lot about a person?-that was posted on Quora, a popular question-and-answer website. His answer received over 1 million views. This unexpected response led him to write *Observe to Unmask*, in which he explains what we can learn about people based on their conversations (including social media posts), interests, behavior, emotions, thoughts, and more. Packed with intriguing insights, *Observe to Unmask* is useful in understanding not only the people in our personal and professional lives, but can act as a guide for self-reflection and improvement. Short and easy to read, it is a book you will turn to again and again, always finding something new and worthwhile. *Observe to Unmask* will sharpen your ability to draw conclusions quickly and accurately from the smallest observations. It will help you develop positive relationships or harmonious associations that work for you and make you happier; assist you in comprehending an individual's backstory; prevent you from being exploited, abused, manipulated, or lied to; aid you in distancing yourself from negative or toxic people, or avoiding them as much as possible.

What failed startups don't have are enough customers. Traction Book changes that. We provide startup founders and employees with the framework successful companies use to get traction. It helps you determine which marketing channel will be your key to growth. If you can get even a single distribution channel to work, you have a great business. -- Peter Thiel, billionaire PayPal founder The number one traction mistake founders and employees make is not dedicating as much time to traction as they do to developing a product. This shortsighted approach has startups trying random tactics -- some ads, a blog post or two -- in an unstructured way that will likely fail. We developed our traction framework called Bullseye with the help of the founders behind several of the biggest companies and organizations in the world like Jimmy Wales (Wikipedia), Alexis Ohanian (Reddit), Paul English (Kayak.com), Alex Pachikov (Evernote) and more. We interviewed over forty successful founders and researched countless more traction stories -- pulling out the repeatable tactics and strategies they used to get traction. Many entrepreneurs who build great products simply don't have a good distribution strategy. -- Mark Andreessen, venture capitalist Traction will show you how some of the biggest internet companies have grown, and give you the same tools and framework to get traction.

In fact, raising money should be the #1 job of any good entrepreneur. In his new book, Perry Belcher helps small business owners and entrepreneurs alike to overcome the start-up funding roadblock once and for all. Perry covers every aspect of business startup funding, including: Finding hidden assets that you already have that can be turned to cash to seed your venture. How to have friends and family begging to give you money or get in on your business idea. How to get FREE and almost free money from State and Federal agencies that already have these stimulus funds set aside for those who start new businesses. You'll learn how to attract interest-free funding from Angel investors who will give you funding for a small stake in your company. You'll even learn how to deal with venture capitalists like those on TV's Shark Tank Interest rates suck and the markets are all shaky. Because of these facts Perry says there is FAR more money out there right now than there are good ideas to invest in. If your idea is sound, it's a bull market for entrepreneurs.
