**maple lake academy death: Japanese Death Poems** , 1998-04-15 A wonderful introduction the Japanese tradition of jisei, this volume is crammed with exquisite, spontaneous verse and pithy, often hilarious, descriptions of the eccentric and committed monastics who wrote the poems. --Tricycle: The Buddhist Review Although the consciousness of death is, in most cultures, very much a part of life, this is perhaps nowhere more true than in Japan, where the approach of death has given rise to a centuries-old tradition of writing jisei, or the death poem. Such a poem is often written in the very last moments of the poet's life. Hundreds of Japanese death poems, many with a commentary describing the circumstances of the poet's death, have been translated into English here, the vast majority of them for the first time. Yoel Hoffmann explores the attitudes and customs surrounding death in historical and present-day Japan and gives examples of how these have been

reflected in the nation's literature in general. The development of writing jisei is then examined--from the longing poems of the early nobility and the more masculine verses of the samurai to the satirical death poems of later centuries. Zen Buddhist ideas about death are also described as a preface to the collection of Chinese death poems by Zen monks that are also included. Finally, the last section contains three hundred twenty haiku, some of which have never been assembled before, in English translation and romanized in Japanese.

**maple lake academy death: The Hand on the Wall** Maureen Johnson, 2020-01-21 New York Times and USA Today bestseller! New York Times bestselling author Maureen Johnson delivers the witty and pulse-pounding conclusion to the Truly Devious series as Stevie Bell solves the mystery that has haunted Ellingham Academy for over 75 years. Ellingham Academy must be cursed. Three people are now dead. One, a victim of either a prank gone wrong or a murder. Another, dead by misadventure. And now, an accident in Burlington has claimed another life. All three in the wrong place at the wrong time. All at the exact moment of Stevie's greatest triumph . . . She knows who Truly Devious is. She's solved it. The greatest case of the century. At least, she thinks she has. With this latest tragedy, it's hard to concentrate on the past. Not only has someone died in town, but David disappeared of his own free will and is up to something. Stevie is sure that somehow—somehow—all these things connect. The three deaths in the present. The deaths in the past. The missing Alice Ellingham and the missing David Eastman. Somewhere in this place of riddles and puzzles there must be answers. Then another accident occurs as a massive storm heads toward Vermont. This is too much for the parents and administrators. Ellingham Academy is evacuated. Obviously, it's time for Stevie to do something stupid. It's time to stay on the mountain and face the storm—and a murderer. In the tantalizing finale to the Truly Devious trilogy, New York Times bestselling author Maureen Johnson expertly tangles her dual narrative threads and ignites an explosive end for all who've walked through Ellingham Academy. Praise for the Truly Devious series: "Readers, hang tight: there's one more round to come, and if the signs are right, it'll be to die for." —Publishers Weekly (starred review) "The Agatha Christie-like ecosystem pairs with lacerating contemporary wit, and alternating past and present scenes makes for a multilayered, modern detective story." —New York Times Book Review "Remember the first time reading Harry Potter and knowing it was special? There's that same sense of magic in the introduction of teen Sherlock-in-training Stevie Bell." —USA Today (four stars) "Be still, my Agatha-Christie-loving beating heart." —Bustle

**maple lake academy death:** *The Canadian Encyclopedia* James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED: the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work - many years in the making, and the equivalent of forty average-sized books - is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian Home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada; in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium, in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations, this *Canadian Encyclopedia* is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants, the roughly 4,000 Contributors (all experts in the field they describe) and the scores of researchers, editors, typesetters, proofreaders and others who contributed their skills to this massive project. The 2,640 pages incorporate over 10,000 articles and over 4,000,000 words, making it the largest - some might say the greatest - Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the 23 major Canadian cities, maps of our cities, a variety of tables and photographs, and finely detailed illustrations of our wildlife, not to mention the colourful, informative endpapers. But above all the book is encyclopedic - which the *Canadian Oxford Dictionary* describes as embracing all branches of learning. This means that (with rare exceptions) there is satisfaction for the reader who seeks information on any Canadian subject. From the first entry *A mari usque ad mare* - from sea to sea (which is Canada's motto, and a good description of this volume's range) to the Zouaves (who mustered in Quebec to fight for the beleaguered Papacy) there is the required summary of information, clearly and accurately presented. For the browser the constant variety of entries and the lure of regular cross-references will provide hours of fascination. The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge. Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known. Yet now Canada's finest scientists, academics and specialists have distilled their knowledge of our country between the covers of one volume. The result is a book for every Canadian who values learning, and values Canada.

**maple lake academy death:** Gazetteer of the State of New York John Homer French, 1860

**maple lake academy death:** Gazetteer of the State of New York John Homer French, 1995 French's unsurpassed Gazetteer of the State of New York is a complete history & description of every county, city, town, village, & locality in New York. But more than that it is a record of the founders & early settlers of practically every locality in the state-an astonishing achievement & the reason that the book has remained among the top genealogical reference works for New York State. Of course, no single person could have generated all this information on his own, so under the supervision of J.H. French surveyors & agents were instructed to visit every city, town, & village, to search records, examine documents, consult the best living, printed, & manuscript authorities, & to make returns to the general office of all the reliable matter & information obtained. Thus was created an accurate & comprehensive gazetteer, with descriptions of each county, city, town, & village arranged according to a uniform plan (of more value today to the genealogist than ever

before). Information provided for each locality includes founding (& founders), early settlements (& settlers), historical sketch to the time of writing, leading institutions, schools, & churches, prominent & representative citizens, stories of general & local interest, statistics from state censuses, & names of every natural & man made topographical feature. Preceding this core part of the Gazetteer is a full 150-page survey of the government, topography, & institutions of the state of New York. Outstanding as the Gazetteer is, its usefulness as a research tool is severely limited by the lack of an index to the thousands of names that appear in the text & footnotes. But this reprint edition puts an end to this unfortunate situation, as it incorporates Frank Place's Index of Names, a 16000-name index first published in 1962 by the Cortland County Historical Society. In 1969 the Society issued a second printing of the Index incorporating a Supplement of additions & corrections, & a third printing in 1983 included a Supplementary Index to Place Names. With the Society's permission, we have incorporated the final index edition of 1983 with our reprint of the Gazetteer, making it the most complete & the most useful edition ever published.
