The Elusive Interview: Delving into the Search for a Michael Parkinson and Meg Ryan Interview

Finding a specific interview featuring Michael Parkinson and Meg Ryan can feel like searching for a needle in a haystack. While both are iconic figures with extensive interview histories, a joint appearance isn't readily available online. This comprehensive article explores the reasons behind this scarcity, investigates potential avenues for uncovering such an interview (if one exists), and delves into their individual interview styles and career highlights, providing a rich substitute for the elusive joint interview.

Why Finding a Michael Parkinson and Parkinson Meg Ryan Interview is So Difficult

The lack of readily accessible evidence of a Michael Parkinson and Meg Ryan interview points to several possibilities:

Timing and Career Overlap: While both had prolific careers spanning decades, their peak interview periods and film releases might not have perfectly aligned. Parkinson's show, while long-running, had specific guest booking practices. Meg Ryan's career trajectory might have meant she appeared on different interview shows during the times Parkinson was broadcasting.

Archival Limitations: Many older interviews aren't digitized or readily accessible online. Broadcast archives are often fragmented, and securing rights to redistribute older footage can be complex and expensive. Even if an interview existed, it might be locked away in a physical archive.

Focus on Individual Careers: Both Parkinson and Ryan have extensive interview catalogues focused on their individual achievements and perspectives. Their individual interviews offer a wealth of insights that might supersede the need for a joint appearance.

The Nature of Talk Show Bookings: Talk show bookings are carefully planned. Guest pairings are considered strategically, often based on current projects or shared thematic relevance. A combination of Parkinson and Ryan might not have been deemed strategically beneficial at any point.

broadcast dates, and related keywords like "British talk show," "Hollywood actress interview," and "romantic comedy star."

Contacting Archives: Reach out to the BBC archives (for Parkinson's show) and other relevant media organizations that might hold older broadcast recordings. This often requires official requests and may involve fees.

Fan Forums and Communities: Engage with fan communities dedicated to Michael Parkinson and Meg Ryan. Someone within these groups might possess knowledge or recordings of a forgotten interview.

Analyzing Parkinson's Guest Lists: A detailed examination of Parkinson's extensive guest lists across his various shows could reveal a possible overlap with Meg Ryan, providing a starting point for further investigation.

Exploring Ryan's Filmography and Promotional Tours: Analyze the dates of Ryan's major film releases and promotional tours. This could help pinpoint periods where a Parkinson interview might have been plausible.

michael parkinson and meg ryan interview: *Like Father, Like Son* Michael Parkinson, 2020-11-05 'a quietly impressive book, which does something most celebrity autobiographies shy away from: it seeks the truth and, more often than not, finds it.' - THE MAIL A look at the life and times of the man Sir Michael most looked up to. It started in the shadow of the pithead in a South Yorkshire mining village and ended up in tears before an audience of millions. Michael Parkinson's relationship with his late father John William was, and remains, a family love story overflowing with tenderness and tall tales of sporting valour, usually involving Yorkshire cricket or Barnsley FC. However, it was the overwhelming grief which poured out of Michael when Piers Morgan pressed him about John William in a television interview - four decades after the death of the father he encapsulated as 'Yorkshireman, miner, humorist and fast bowler' - that convinced one of the outstanding broadcasters and journalists of our time to delve deeper into the dynamics of their lives together. Co-written with his son Mike, this affectionate and revealing memoir explores the influences which shaped John William, Michael and succeeding generations of Parkinsons. The journey leads them from the depths of a Yorkshire coal mine, via the chapel, pub and picture-house, to a spot behind the bowler's arm at Lord's and the sands at Scarborough. While *Like Father, Like Son* conveys a powerful sense of time and place, it is wit, insight and, above all, enduring love which shine through its pages.

michael parkinson and meg ryan interview: Jane Campion Deb Verhoeven, 2009-01-08 Jane Campion is one of the most celebrated auteurs of modern cinema and was the first female director to be awarded the prestigious Palme d'Or. Throughout her relatively short career, Campion has received extraordinary attention from the media and scholars alike and has provoked fierce debates on issues such as feminism, colonialism, and nationalism. In this detailed account of Jane Campion's career as a filmmaker, Deb Verhoeven examines specifically how contemporary film directors 'fashion' themselves as auteurs – through their personal interactions with the media, in their choice of projects, in their emphasis on particular filmmaking techniques and finally in the promotion of their films. Through analysis of key approaches to Campion's films, such as *The Piano*; *In the Cut*; *Sweetie*; *An Angel at My Table*; and *Holy Smoke* Deb Verhoeven introduces students to the passionate debates surrounding this controversial and often experimental director. Featuring a career overview, a filmography, scene by scene analysis and an extended interview with Campion on her approach to creativity, this is a great introduction to one of the most important directors of contemporary cinema.

michael parkinson and meg ryan interview: Savoring Gotham , 2015-11-11 When it comes to food, there has never been another city quite like New York. The Big Apple--a telling nickname--is the city of 50,000 eateries, of fish wriggling in Chinatown baskets, huge pastrami sandwiches on rye, fizzy egg creams, and frosted black and whites. It is home to possibly the densest concentration of ethnic and regional food establishments in the world, from German and Jewish delis to Greek diners, Brazilian steakhouses, Puerto Rican and Dominican bodegas, halal food carts, Irish pubs, Little Italy, and two Koreatowns (Flushing and Manhattan). This is the city where, if you choose to have Thai for dinner, you might also choose exactly which region of Thailand you wish to dine in. *Savoring Gotham* weaves the full tapestry of the city's rich gastronomy in nearly 570 accessible, informative A-to-Z entries. Written by nearly 180 of the most notable food experts--most of them New Yorkers--*Savoring Gotham* addresses the food, people, places, and institutions that have made New York cuisine so wildly diverse and immensely appealing. Reach only a little ways back into the city's ever-changing culinary kaleidoscope and discover automats, the precursor to fast food restaurants, where diners in a hurry dropped nickels into slots to unlock their premade meal of choice. Or travel to the nineteenth century, when oysters cost a few cents and were pulled by the bucketful from the Hudson River. Back then the city was one of the major centers of sugar refining, and of brewing, too--48 breweries once existed in Brooklyn alone, accounting for roughly 10% of all the beer brewed in the United States. Travel further back still and learn of the Native Americans who arrived in the area 5,000 years before New York was New York, and who planted the maize, squash, and beans that European and other settlers to the New World embraced centuries later. *Savoring Gotham* covers

New York's culinary history, but also some of the most recognizable restaurants, eateries, and culinary personalities today. And it delves into more esoteric culinary realities, such as urban farming, beekeeping, the Three Martini Lunch and the Power Lunch, and novels, movies, and paintings that memorably depict Gotham's foodscapes. From hot dog stands to haute cuisine, each borough is represented. A foreword by Brooklyn Brewery Brewmaster Garrett Oliver and an extensive bibliography round out this sweeping new collection.

michael parkinson and meg ryan interview: The 71F Advantage National Defense University Press, 2010-09 Includes a foreword by Major General David A. Rubenstein. From the editor: 71F, or 71 Foxtrot, is the AOC (area of concentration) code assigned by the U.S. Army to the

specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways and in many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists do for a living. In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the grey-beards of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health, well being, and performance of Soldiers and their families.

michael parkinson and meg ryan interview: Foxcatcher Mark Schultz, David Thomas, 2015-10-13 On January 26, 1996, Dave Schultz, Olympic gold medal winner and wrestling champion, was shot in the back by du Pont heir John E. du Pont at the family's famed Foxcatcher Farm estate in Pennsylvania. Following the murder, du Pont barricaded himself in his home for two days before he was finally captured. How did the so-called best friend of amateur wrestling come to commit such a horrifying, senseless murder? For the first time ever, Dave's brother, Mark--another Olympic gold medal-winning wrestler under du Pont's patronage--tells the full story. Fascinating, powerful, and deeply personal, Foxcatcher is a riveting account as told by the only person close enough to know the mind of the murderer. -- Page [4] cover.

michael parkinson and meg ryan interview: The Undersea Network Nicole Starosielski, 2015-03-02 In our wireless world it is easy to take the importance of the undersea cable systems for granted, but the stakes of their successful operation are huge, as they are responsible for carrying almost all transoceanic Internet traffic. In *The Undersea Network* Nicole Starosielski follows these cables from the ocean depths to their landing zones on the sandy beaches of the South Pacific, bringing them to the surface of media scholarship and making visible the materiality of the wired network. In doing so, she charts the cable network's cultural, historical, geographic and environmental dimensions. Starosielski argues that the environments the cables occupy are historical and political realms, where the network and the connections it enables are made possible by the deliberate negotiation and manipulation of technology, culture, politics and geography. Accompanying the book is an interactive digital mapping project, where readers can trace cable routes, view photographs and archival materials, and read stories about the island cable hubs.

michael parkinson and meg ryan interview: Movement Disorder Emergencies Steven J. Frucht, Stanley Fahn, 2008-02-10 Movement Disorder Emergencies: Diagnosis and Treatment

provides a fresh and unique approach to what is already a high-profile subspecialty area in clinical neurology. The disorders covered in this volume are standard fare in the field but emphasize the urgencies and emergencies that can occur. One of the very attractive features of the field of movement disorders is that diagnosis is often based on unique visible and sometimes audible phenomenological symptoms and signs. Therefore, in this era of highly sophisticated laboratory and radiological diagnostic tools, the diagnosis of many movement disorders is still largely made in the clinic where pattern recognition is key. Crucial to astute clinical diagnosis is broad clinical experience. In short, you have to have seen one to recognize one! Patients with movement disorders nearly always present as outpatients but, as aptly recognized by Drs. Frucht and Fahn, this may include acute manifestations leading to emergency presentations, often in an emergency room setting, where they are very likely to be unrecognized and therefore poorly managed. The authors define an “emergency” movement disorder as one in which failure to promptly diagnose and treat may result in significant morbidity or mortality. However, they also stress the importance of certain “can’t miss” diagnoses such as Wilson’s disease, dopa-responsive dystonia, and Whipple’s disease in which delayed diagnosis in less emergent situations can lead to slowly evolving and often irreversible neurological damage with tragic consequences.

michael parkinson and meg ryan interview: Stone Upon Stone Wieslaw Mysliwski, 2013-11-04 Winner of the PEN Translation Prize A “sweeping . . . irreverent” masterpiece of postwar Polish literature that “chronicles the modernization of Poland and celebrates the persistence of desire” (The New Yorker) Hailed as one of the best ever books in translation, Stone Upon Stone is Wieslaw Mysliwski’s grand epic in the rural tradition—a profound and irreverent stream of memory cutting through the rich and varied terrain of one man’s connection to the land, to his family and community, to women, to tradition, to God, to death, and to what it means to be alive. Wise and impetuous, plainspoken and compassionate, Szymek recalls his youth in their village, his time as a guerrilla soldier, as a wedding official, barber, policeman, lover, drinker, and caretaker for his invalid brother. Filled with interwoven stories and voices, by turns hilarious and moving, Szymek’s narrative exudes the profound wisdom of one who has suffered, yet who loves life to the very core.

michael parkinson and meg ryan interview: *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* National Research Council, Institute of Medicine, Committee on Law and Justice, Board on Children, Youth, and Families, Committee on the Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States, 2013-11-12 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

michael parkinson and meg ryan interview: *Film and Female Consciousness* L. Bolton, 2011-07-28 *Film and Female Consciousness* analyses three contemporary films that offer complex and original representations of women's thoughtfulness and individuality: *In the Cut* (2003), *Lost in Translation* (2003) and *Morvern Callar* (2002). Lucy Bolton compares these recent works with well-known and influential films that offer more familiar treatments of female subjectivity: *Klute* (1971), *The Seven Year Itch* (1955) and *Marnie* (1964). Considering each of the older, celebrated films alongside the recent, unconventional works illustrates how contemporary filmmaking techniques and critical practices can work together to create provocative depictions of on-screen female consciousness. Bolton's approach demonstrates how the encounter between the philosophy of Luce Irigaray and cinema can yield a fuller understanding of the fundamental relationship between film and philosophy. Furthermore, the book explores the implications of this approach for filmmakers and spectators, and suggests Irigarayan models of authorship and spectatorship that reinvigorate the notion of women's cinema.

michael parkinson and meg ryan interview: *In the Cut* Susanna Moore, 2007-08-14 Frannie Thorstin is a divorced English professor, living in a two room New York apartment. She spends much

of her time alone, working on a book about dialects and idiomatic language. One evening at a bar, Frannie stumbles upon a man and a woman engaged in a sexual act. A week later a detective shows up at her door. The woman's body has been discovered in the park across the street. What follows is a chilling tale of lust and murder as Frannie finds herself drawn to the detective. In the Cut is a masterpiece of literary suspense and sexual exploration.

michael parkinson and meg ryan interview: Cognition, Language and Aging Heather Harris Wright, 2016-03-16 Age-related changes in cognitive and language functions have been extensively researched over the past half-century. The older adult represents a unique population for studying cognition and language because of the many challenges that are presented with investigating this population, including individual differences in education, life experiences, health issues, social identity, as well as gender. The purpose of this book is to provide an advanced text that considers these unique challenges and assembles in one source current information regarding (a) language in the aging population and (b) current theories accounting for age-related changes in language function. A thoughtful and comprehensive review of current research spanning different disciplines that study aging will achieve this purpose. Such disciplines include linguistics, psychology, sociolinguistics, neurosciences, cognitive sciences, and communication sciences. As of January 2019, this e-book is freely available, thanks to the support of libraries working with Knowledge Unlatched.

michael parkinson and meg ryan interview: Cultural Politics of Emotion Sara Ahmed, 2014-06-11 Emotions work to define who we are as well as shape what we do and this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power, and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation, are explored through topical case studies. In this book the difficult issues are confronted head on. The Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Throughout the book, Ahmed develops a theory of how emotions work, and the effects they have on our day-to-day lives. New for this edition A substantial 15,000-word Afterword on 'Emotions and Their Objects' which provides an original contribution to the burgeoning field of affect studies A revised Bibliography Updated throughout.

michael parkinson and meg ryan interview: This Is My Life Eamonn Holmes, 2008-09-18

The candid and highly entertaining autobiography of one of the UK's most popular TV presenters Eamonn Holmes is one of the most popular TV presenters in the UK. For twelve years he was the main anchor at GMTV drawing daily audiences of six million viewers. His humour, easy presenting style and ability to think on his feet have earned him not only millions of fans but several industry awards. But success has come at a cost... Both Eamonn's TV career and his life have been roller coasters of highs and lows. At the age of 21 Eamonn became the youngest ever anchorman in Irish television but when his show was axed, he faced an uncertain future. No home, no job and mounting debts prompted crippling panic attacks. And when his beloved father died, Eamonn made a clean break and decided to take a job on a brand new morning show, GMTV. The rest is history. From having a gun held to his head in Belfast to the breakdown of his marriage; from the TV guests he has loved and loathed to the rows with co-presenter Anthea Turner and his burning ambition to make it as a TV presenter, Eamonn reveals the highs and lows of his life as he has never done before.

michael parkinson and meg ryan interview: *Mustn't Grumble* Terry Wogan, 2008-09-18 THE SUNDAY TIMES BESTSELLER The definitive autobiography from the nation's best-loved broadcaster. Written in the style familiar to his millions of listeners, rich with warmth and irony, *Mustn't Grumble* is Terry's definitive autobiography. Not only does he introduce the reader to his life in Ireland, his chain-smoking maiden aunts, his quick-witted mother and hard-working father and the (not so) Christian Fathers who tried to knock his hands off, he explains how he managed to avoid a hard day's work from childhood to knighthood, and entertained a few million people along the way. Terry talks in full about his past 35 years with the BBC: his hugely popular Radio 2 show, his TV shows Wogan (Now & Then and Blankety Blank, the Eurovision Song Contest, working on the BBC's Children in Need programmes, and where he learnt to breakdance so brilliantly. *Mustn't Grumble* is fresh, honest and a must-read for any fan of this extraordinary TV and Radio figure.

michael parkinson and meg ryan interview: *Teeth 'n' Smiles* David Hare, 1976

michael parkinson and meg ryan interview: *Working* Robert A. Caro, 2019-04-09 "One of the great reporters of our time and probably the greatest biographer." —The Sunday Times (London) From the two-time Pulitzer Prize-winning author of *The Power Broker* and *The Years of Lyndon Johnson*: an unprecedented gathering of vivid, candid, deeply moving recollections about his experiences researching and writing his acclaimed books. Now in paperback, Robert Caro gives us a glimpse into his own life and work in these evocatively written, personal pieces. He describes what it was like to interview the mighty Robert Moses and to begin discovering the extent of the political power Moses wielded; the combination of discouragement and exhilaration he felt confronting the vast holdings of the Lyndon B. Johnson Library in Austin, Texas; his encounters with witnesses, including longtime residents wrenchingly displaced by the construction of Moses' Cross-Bronx Expressway and Lady Bird Johnson acknowledging the beauty and influence of one of LBJ's mistresses. He gratefully remembers how, after years of working in solitude, he found a writers' community at the New York Public Library, and details the ways he goes about planning and composing his books. Caro recalls the moments at which he came to understand that he wanted to write not just about the men who wielded power but about the people and the politics that were shaped by that power. And he talks about the importance to him of the writing itself, of how he tries to infuse it with a sense of place and mood to bring characters and situations to life on the page. Taken together, these reminiscences—some previously published, some written expressly for this book—bring into focus the passion, the wry self-deprecation, and the integrity with which this brilliant historian has always approached his work. To understand more about Robert Caro's research, see the Sony Pictures Classic documentary "Turn Every Page."

honest simplicity of a Shanxi farmer to one by Ma Yuan exposing the seamy underside of contemporary urban society, they are infused with both rural dialect and urban slang and feature a wide range of styles and points of view. Complete with notes, the stories make excellent reading in either language. Note: For each short story in this eBook edition, the full English translation is followed by its original Chinese text.

michael parkinson and meg ryan interview: CHOREOGRAPHER'S HANDBOOK Jonathan Burrows, 2010-06-10 Internationally renowned dancer, choreographer and teacher Jonathan Burrows explains how to navigate a course through the complex process of creating dance. He provides choreographers with an active manifesto and shares his wealth of experience of choreographic practice to allow each artist and dance-maker to find his or her own aesthetic process.

michael parkinson and meg ryan interview: I Must Say Martin Short, 2014-11-04 "Short's endearing memoir is, of course, funny, but it's also a rare thing: the tale of a genuine human being who's thrived on planet Hollywood." — Washington Post In this engagingly witty, wise, and heartfelt memoir, Martin Short tells the tale of how a showbiz-obsessed kid from Canada transformed himself into one of Hollywood's favorite funnymen, known to his famous peers as the comedian's comedian. Short takes the reader on a rich, hilarious, and occasionally heartbreaking ride through his life and times, from his early years in Toronto as a member of the fabled improvisational troupe Second City to the all-American comic big time of Saturday Night Live, and from memorable roles in such movies as *Three Amigos!* and *Father of the Bride* to Broadway stardom in *Fame Becomes Me* and the Tony-winning *Little Me*. He reveals how he created his most indelible comedic characters, among them the manic man-child Ed Grimley, the slimy corporate lawyer Nathan Thurman, and the bizarrely insensitive interviewer Jiminy Glick. Throughout, Short freely shares the spotlight with friends, colleagues, and collaborators, among them Steve Martin, Tom Hanks, Gilda Radner, Mel Brooks, Nora Ephron, Eugene Levy, Catherine O'Hara, Paul Shaffer, and David Letterman. But there is another side to Short's life that he has long kept private. He lost his eldest brother and both parents by the time he turned twenty, and, more recently, he lost his wife of thirty years to cancer. In *I Must Say*, Short talks for the first time about the pain that these losses inflicted and the upbeat life philosophy that has kept him resilient and carried him through. In the grand tradition of comedy legends, Martin Short offers a show-business memoir densely populated with boldface names and rife with retellable tales: a hugely entertaining yet surprisingly moving self-portrait that will keep you laughing—and crying—from the first page to the last.

michael parkinson and meg ryan interview: Regime of Obstruction William K. Carroll, 2021-04-23 Rapidly rising carbon emissions from the intense development of Western Canada's fossil fuels continue to aggravate the global climate emergency and destabilize democratic structures. The urgency of the situation demands not only scholarly understanding, but effective action. *Regime of Obstruction* aims to make visible the complex connections between corporate power and the extraction and use of carbon energy. Edited by William Carroll, this rigorous collection presents research findings from the first three years of the seven-year, SSHRC-funded partnership, the Corporate Mapping Project. Anchored in sociological and political theory, this comprehensive volume provides hard data and empirical research that traces the power and influence of the fossil fuel industry through economics, politics, media, and higher education. Contributors demonstrate how corporations secure popular consent, and coopt, disorganize, or marginalize dissenting perspectives to position the fossil fuel industry as a national public good. They also investigate the difficult position of Indigenous communities who, while suffering the worst environmental and health impacts from carbon extraction, must fight for their land or participate in fossil capitalism to secure income and jobs. The volume concludes with a look at emergent forms of activism and resistance, spurred by the fact that a just energy transition is still feasible. This book provides essential context to the climate crisis and will transform discussions of energy democracy. Contributions by Laurie Adkin, Angele Alook, Clifford Atleo, Emilia Belliveau-Thompson, John Birmingham, Paul Bowles, Gwendolyn Blue, Shannon Daub, Jessica Dempsey, Emily Eaton, Chuka

Ejeckam, Simon Enoch, Nick Graham, Shane Gunster, Mark Hudson, Jouke Huizer, Ian Hussey, Emma Jackson, Michael Lang, James Lawson, Marc Lee, Fiona MacPhail, Alicia Massie, Kevin McCartney, Bob Neubauer, Eric Pineault, Lise Margaux Rajewicz, James Rowe, JP Sapinsky, Karena Shaw, and Zoe Yunker.

michael parkinson and meg ryan interview: *Decolonising Blue Spaces in the Anthropocene* Meg Parsons, 2021 This open access book crosses disciplinary boundaries to connect theories of environmental justice with Indigenous people's experiences of freshwater management and governance. It traces the history of one freshwater crisis - the degradation of Aotearoa New Zealand's Waipā River- to the settler-colonial acts of ecological dispossession resulting in intergenerational injustices for Indigenous Māori iwi (tribes). The authors draw on a rich empirical base to document the negative consequences of imposing Western knowledge, worldviews, laws, governance and management approaches onto Māori and their ancestral landscapes and waterscapes. Importantly, this book demonstrates how degraded freshwater systems can and are being addressed by Māori seeking to reassert their knowledge, authority, and practices of kaitiakitanga (environmental guardianship). Co-governance and co-management agreements between iwi and the New Zealand Government, over the Waipā River, highlight how Māori are envisioning and enacting more sustainable freshwater management and governance, thus seeking to achieve Indigenous environmental justice (IEJ). The book provides an accessible way for readers coming from a diversity of different backgrounds, be they academics, students, practitioners or decision-makers, to develop an understanding of IEJ and its applicability to freshwater management and governance in the context of changing socio-economic, political, and environmental conditions that characterise the Anthropocene. Meg Parsons is senior lecturer at the University of Auckland, New Zealand who specialises in historical geography and Indigenous peoples' experiences of environmental changes. Of Indigenous and non-Indigenous heritage (Ngāpuhi, Pākehā, Lebanese), Parsons is a contributing author to IPCC's Sixth Assessment of Working Group II report and the author of 34 publications. Karen Fisher (Ngāti Maniapoto, Waikato-Tainui, Pākehā) is an associate professor in the School Environment, University of Auckland, New Zealand. Aotearoa New Zealand. She is a human geographer with research interests in environmental governance and the politics of resource use in freshwater and marine environments. Roa Petra Crease (Ngāti Maniapoto, Filipino, Pākehā) is an early career researcher who employs theorising from feminist political ecology to examine climate change adaptation for Indigenous and marginalised peoples. Recent publications explore the intersections of gender justice and climate justice in the Philippines, and māturanga Māori (knowledge) of flooding.--
