msu library denver: The Science of Sci-Fi Cinema Vincent Piturro, 2021-08-09 Science fiction films present hypothetical futures, featuring imagined technological advancements--not yet realized but perhaps (more or less) plausible. Originating from an annual Science Fiction Film Series in Denver, Colorado, this volume of essays examines 10 films, with a focus on discerning the possible, the unlikely, and the purely science fictional. With essays by scientists in relevant fields, chapters provide analyses of the movies themselves, along with examination of the actual science (or lack thereof) in each film.

msu library denver: Library Technical Services Stacey Marien, 2020-08-15 Libraries are experiencing major changes concerning the role of technical services. Technical services librarians also are being challenged about their relevance and role, sometimes revealed by a lack of understanding of the contribution technical services librarians make to building and curating library and archival collections. As a result, technical services departments are reinventing themselves to respond to these and similar challenges while embracing innovative methods and opportunities to advance librarianship in the twenty-first century. Library Technical Services provides case studies that highlight difficult realities, yet embrace exciting opportunities, such as space reclamation, evolving vendor partnerships, metadata, retraining and managing personnel, special collections, and distance education. Written for catalog and metadata librarians and managers of technical services units, this book will inspire and provide practical advice and examples for solving issues many libraries are facing today.

msu library denver: Lieutenant Sonia Vagliano Sonia Vagliano Eloy, 2022-03-15 Following the German occupation of France in 1940, French women moved deftly into the jobs and roles left by their male compatriots—even the role of soldier. In *Lieutenant Sonia Vagliano: A Memoir of the World War II Refugee Crisis*, Vagliano provides a gripping and compelling account of how her team of young French women was attached to a US First Army unit that arrived in Normandy two weeks after D-Day. From 1943 to 1945, Vagliano followed her unit from Normandy to Paris, through Belgium, and finally into Germany, where they cared for 41,000 total displaced persons and prisoners of war. Vagliano not only describes her experiences in rich detail—from caring for thousands of refugees in the worst possible conditions to defusing landmines and being kidnapped, shot at, torpedoed, and bombed—she also recounts the major events of the war in Europe, including the liberation of Paris, the Battle of the Bulge, and finally, the liberation of the concentration camps. Having spent five weeks at Buchenwald repatriating the 21,000 remaining prisoners, she is a unique witness to the transition period between the camp's liberation and its transferal to Russian oversight in July 1945. She saw firsthand to what extremes the human imagination can go in its search for the most cruel methods of torture. Striking a balance between daredevil escapades and the sobering reality of a wartime account, this book won the Prix Saint Simon for best memoir under its original title, *Les demoiselles de Gaulle*. Now, translator and editor Martha Noel Evans brings the young French lieutenant's story to readers in English for the first time.

msu library denver: *Sabrina & Corina* Kali Fajardo-Anstine, 2019-04-02 NATIONAL BOOK AWARD FINALIST • Latinas of Indigenous descent living in the American West take center stage in this haunting debut story collection—a powerful meditation on friendship, mothers and daughters, and the deep-rooted truths of our homelands. “Here are stories that blaze like wildfires, with characters who made me laugh and broke my heart.”—Sandra Cisneros WINNER OF THE AMERICAN BOOK AWARD • FINALIST FOR THE STORY PRIZE • FINALIST FOR THE PEN/ROBERT W. BINGHAM PRIZE FOR DEBUT SHORT STORY COLLECTION Kali Fajardo-Anstine’s magnetic story collection breathes life into her Latina characters of indigenous ancestry and the land they inhabit in the American West. Against the remarkable backdrop of Denver, Colorado—a place that is as fierce as it is exquisite—these women navigate the land the way they navigate their lives: with caution, grace, and quiet force. In “Sugar Babies,” ancestry and heritage are hidden inside the earth but tend to rise during land disputes. “Any Further West” follows a sex worker and her daughter as they leave their ancestral home in southern Colorado only to find a foreign and hostile land in California. In “Tomi,” a woman leaves prison and finds herself in a gentrified city that is a shadow of the one she remembers from her childhood. And in the title story, “Sabrina & Corina,” a Denver family falls into a cycle of violence against women, coming together only through ritual. *Sabrina & Corina* is a moving narrative of unrelenting feminine power and an exploration of the universal experiences of abandonment, heritage, and an eternal sense of home. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Public Library • Kirkus Reviews • Library Journal “Sabrina & Corina isn’t just good, it’s masterful storytelling.

Fajardo-Anstine is a fearless writer: her women are strong and scarred witnesses of the violations of their homelands, their culture, their bodies; her plots turn and surprise, unerring and organic in their comprehensiveness; her characters break your heart, but you keep on going because you know you are in the hands of a master. Her stories move through the heart of darkness and illuminate it with the soul of truth.”—Julia Alvarez, author of *How the García Girls Lost Their Accents* “[A] powerhouse debut . . . stylistically superb, with crisp dialogue and unforgettable characters, *Sabrina & Corina* introduces an impressive new talent to American letters.”—Rigoberto González, NBC News

msu library denver: *Social Responsibilities of the Businessman* Howard R. Bowen, 2013-12
Corporate social responsibility (CSR) expresses a fundamental morality in the way a company behaves toward society. It follows ethical behavior toward stakeholders and recognizes the spirit of the legal and regulatory environment. The idea of CSR gained momentum in the late 1950s and 1960s with the expansion of large conglomerate corporations and became a popular subject in the 1980s with R. Edward Freeman's *Strategic Management: A Stakeholder Approach* and the many key works of Archie B. Carroll, Peter F. Drucker, and others. In the wake of the financial crisis of 2008-2010, CSR has again become a focus for evaluating corporate behavior. First published in 1953, Howard R. Bowen's *Social Responsibilities of the Businessman* was the first comprehensive discussion of business ethics and social responsibility. It created a foundation by which business executives and academics could consider the subjects as part of strategic planning and managerial decision-making. Though written in another era, it is regularly and increasingly cited because of its relevance to the current ethical issues of business operations in the United States. Many experts believe it to be the seminal book on corporate social responsibility. This new edition of the book includes an introduction by Jean-Pascal Gond, Professor of Corporate Social Responsibility at Cass Business School, City University of London, and a foreword by Peter Geoffrey Bowen, Daniels College of Business, University of Denver, who is Howard R. Bowen's eldest son.

msu library denver: Petticoats and Prejudice - Women's Press Classics Constance Backhouse, 2015-02-01 Drawing on historical records of women's varying experiences as litigants, accused criminals, or witnesses, this book offers critical insight into women's legal status in nineteenth-century Canada. In an effort to recover the social and political conditions under which women lobbied, rebelled, and in some cases influenced change, *Petticoats and Prejudice* weaves together forgotten stories of achievement and defeat in the Canadian legal system. Expanding the concept of "heroism" beyond its traditional limitations, this text gives life to some of Canada's lost heroines. Euphemia Rabbitt, who resisted an attempted rape, and Clara Brett Martin, who valiantly secured entry into the all-male legal profession, were admired by their contemporaries for their successful pursuits of justice. But Ellen Rogers, a prostitute who believed all women should be legally protected against sexual assault, and Nellie Armstrong, a battered wife and mother who sought child custody, were ostracized for their ideas and demands. Well aware of the limitations placed upon women advocating for reform in a patriarchal legal system, Constance Backhouse recreates vivid and textured snapshots of these and other women's courageous struggles against gender discrimination and oppression. Employing social history to illuminate the reproductive, sexual, racial, and occupational inequalities that continue to shape women's encounters with the law, *Petticoats and Prejudice* is an essential entry point into the gendered treatment of feminized bodies in Canadian legal institutions. This book was co-published with The Osgoode Society for Canadian Legal History.

However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

msu library denver: Women Leading Change in Academia (First Edition) Callie Rennison, Amy Bonomi, 2019-09-16 In *Women Leading Change in Academia: Breaking the Glass Ceiling*, Cliff, and Slipper, a groundbreaking collection, Callie Rennison and Amy Bonomi convene the perspectives of diverse women academic leaders who discuss their rise to key leadership positions and effective change-making in higher education, despite underlying structural barriers and bias that

disadvantage women. Contributors underscore the revolutionary power and innovation that women leaders bring to bear to improve upon business as usual in the academy--even in the glass cliff scenario when their risk of failure should be highest. Women across leadership positions--presidents, provosts, deans, and department chairs--discuss leading strategic planning, culture change, and navigating the double bind, along with strategies for successful negotiation, networking, mentoring, and work-life balance. Contributors also underscore strategies for leading powerful innovation and change in the academy early in their careers when they do not hold formal leadership roles and experience marginalization due to their identity. Opening chapters examine institutional power structures, intersectionality, bias, along with enacting change-making leadership in spite of these barriers. Additional chapters offer insight on the power of mentorship, strategic networking for women in the academy, negotiation strategies, professional development and work-life. The collection addresses moving on, up or out of formal leadership in the academy, how to create institutional change, and strategies for rising, revolutionizing, and redoubling efforts to support women leaders. *Women Leading Change in Academia* is intended for women, allies, and institutions committed to equitable conditions for women leaders to be maximally impactful. msu library denver: *Translating Blackness* Lorgia García Peña, 2022-08-29 In *Translating Blackness* Lorgia García Peña considers Black Latinidad in a global perspective in order to chart colonialism as an ongoing sociopolitical force. Drawing from archives and cultural productions from the United States, the Caribbean, and Europe, García Peña argues that Black Latinidad is a social, cultural, and political formation—rather than solely a site of identity—through which we can understand both oppression and resistance. She takes up the intellectual and political genealogy of Black Latinidad in the works of Frederick Douglass, Gregorio Luperón, and Arthur Schomburg. She also considers the lives of Black Latina women living in the diaspora, such as Black Dominicana guerrillas who migrated throughout the diaspora after the 1965 civil war and Black immigrant and second-generation women like Mercedes Frías and Milagros Guzmán organizing in Italy with other oppressed communities. In demonstrating that analyses of Black Latinidad must include Latinx people and cultures throughout the diaspora, García Peña shows how the vaivén—or, coming and going—at the heart of migrant life reveals that the nation is not a sufficient rubric from which to understand human lived experiences.

Diane Guerrero, the television actress from the megahit *Orange Is the New Black* and *Jane the Virgin*, was just fourteen years old on the day her parents were detained and deported while she was at school. Born in the U.S., Guerrero was able to remain in the country and continue her education, depending on the kindness of family friends who took her in and helped her build a life and a successful acting career for herself, without the support system of her family. *In the Country We Love* is a moving, heartbreaking story of one woman's extraordinary resilience in the face of the nightmarish struggles of undocumented residents in this country. There are over 11 million undocumented immigrants living in the US, many of whom have citizen children, whose lives here are just as precarious, and whose stories haven't been told. Written with bestselling author Michelle Burford, this memoir is a tale of personal triumph that also casts a much-needed light on the fears that haunt the daily existence of families like the author's and on a system that fails them over and over.

Exploring it afresh in this way, John Kasson shows Coney Island no longer as the object of nostalgia but as a harbinger of modernity--and the many photographs, lithographs, engravings, and other reproductions with which he amplifies his text support this lively thesis.

LeFrançois, Robert Menzies, Geoffrey Reaume, 2013 In 1981, Toronto activist Mel Starkman wrote: An important new movement is sweeping through the western world.... The 'mad,' the oppressed, the ex-inmates of society's asylums are coming together and speaking for themselves. *Mad Matters* is the first Canadian book to bring together the writings of this vital movement, which has grown explosively in the years since. With contributions from scholars in numerous disciplines, as well as activists and psychiatric survivors, it presents diverse critical voices that convey the lived experiences of the psychiatrized and challenges dominant understandings of mental illness. The connections between mad activism and other liberation struggles are stressed throughout, making the book a major contribution to the literature on human rights and anti-oppression.

msu library denver: Reference and Information Services Melissa A. Wong, Laura Saunders, 2020-05-04 This revised and updated sixth edition of *Reference and Information Services* continues the book's rich tradition, covering all phases of reference and information services with less emphasis on print and more emphasis on strategies and scenarios. *Reference and Information Services* is the go-to textbook for MSLIS and i-School courses on reference services and related topics. It is also a helpful handbook for practitioners. Authors include LIS faculty and professionals who have relevant degrees in their areas and who have published extensively on their topics. The first half of the book provides an overview of reference services and techniques for service provision, including the reference interview, ethics, instruction, reader's advisory, and services to diverse populations including children. This part of the book establishes a foundation of knowledge on reference service and frames each topic with ethical and social justice perspectives. The second part of the book offers an overview of the information life cycle and dissemination of information, followed by an in-depth examination of information sources by type—including dictionaries, encyclopedias, indexes, and abstracts—as well as by broad subject areas including government, statistics and data, health, and legal information. This second section introduces the tools and resources that reference professionals use to provide the services described in the first half of the text.

msu library denver: An Indigenous Peoples' History of the United States (10th Anniversary Edition) Roxanne Dunbar-Ortiz, 2023-10-03 New York Times Bestseller Now part of the HBO docuseries *Exterminate All the Brutes*, written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

msu library denver: *Twentieth-Century Sprawl* Owen D. Gutfreund, 2004-05-01 Here, Owen Gutfreund offers a fascinating look at how highways have dramatically transformed American communities nationwide, aiding growth and development in unsettled areas and undermining existing urban centers. Gutfreund uses a follow the money approach, showing how government policies subsidized suburban development and fueled a chronic nationwide dependence on cars and roadbuilding, with little regard for expense, efficiency, ecological damage, or social equity. The consequence was a combination of unstoppable suburban sprawl, along with ballooning municipal debt burdens, deteriorating center cities, and profound changes in American society and culture. Gutfreund tells the story via case studies of three communities--Denver, Colorado; Middlebury, Vermont; and Smyrna, Tennessee. Different as these places are, they all show the ways that government-sponsored highway development radically transformed America's cities and towns. Based on original research and vividly written, *Twentieth-Century Sprawl* brings to light the benefits and consequences of the spread of American highways and makes a major contribution to our understanding of issues that still plague our cities and suburbs today.

msu library denver: Determinants of Indigenous Peoples' Health, Second Edition Margo Greenwood, Sarah de Leeuw, Nicole Marie Lindsay, 2018-04-25 Now in its second edition, *Determinants of Indigenous Peoples' Health* adds current issues in environmental politics to the groundbreaking materials from the first edition. The text is a vibrant compilation of scholarly papers by research experts in the field, reflective essays by Indigenous leaders, and poetry that functions as a creative outlet for healing. This timely edited collection addresses the knowledge gap of the health inequalities unique to Indigenous peoples as a result of geography, colonialism, economy, and biology. In this revised edition, new pieces explore the relationship between Indigenous bodies and the land on which they reside, the impact of resource extraction on landscapes and livelihoods, and death and the complexities of intergenerational family relationships. This volume also offers an updated structure and a foreword by Dr. Evan Adams, Chief Medical Officer of the First Nations Health Authority. This is a vital resource for students in the disciplines of health studies, Indigenous studies, public and population health, community health sciences, medicine, nursing, and social work who want to broaden their understanding of the social determinants of health. Ultimately, this is a hopeful text that aspires to a future in which Indigenous peoples no longer embody health inequality.
