museum of missouri military history jefferson city: Jefferson City at War Jeremy P. Amick, 2014-05-05 Jefferson City has a unique and enduring legacy of brave individuals banding together to answer the nation's call to arms. The Missouri National Guards Company L, 2nd Infantry mobilized in support of the Mexican Border War in 1916 and later federalized for deployment during the Great War. Local youth scrambled to recruiting stations for a chance to join in the fray against Germany and Japan during World War II. Later, brave residents found themselves in the Korea peninsula or

the jungles of Vietnam. It is clear that the Jefferson City community has a history of embracing the groundswell of patriotic pride that emerges in support of those who chose to fight and sometimes lay down their lives for a cause they view as greater than themselves.

museum of missouri military history jefferson city: Missouri in World War I Jeremy Paul Amick, 2020-08-03 The state of Missouri played a unique role in World War I--as the birthplace of Gen. John J. Pershing, the commanding officer of the American Expeditionary Forces, and Maj. Gen. Enoch Crowder, the primary author of the military draft--and it is an impressive legacy featuring a colorful cast of characters, events, and communities. Missouri was home to two flying aces of the war as well as Bennett Champ Clark, the youngest colonel in the American Expeditionary Forces and the first national commander of the American Legion. During the war, the state was home to farms and ranches that provided an army of mules that assisted Allied forces in hauling critical materials and equipment in the harshest of conditions. Additionally, 156,000 of the state's citizens served in the military with approximately 10,000 wounded or killed in action.

museum of missouri military history jefferson city: Missouri Veterans: Monuments and Memorials Jeremy Paul Amick, 2018 Missouri veterans continue to demonstrate their unwavering dedication to both the state and the nation. Theirs is a legacy that stretches forth from the Revolutionary War service of frontiersman Daniel Boone to William Clark, of the famed Lewis and Clark Expedition. During the Civil War, the state became a hotbed of opposing views, as men--such as the notorious Jesse James--joined bands of guerilla fighters who fought to further the cause of the Confederacy. Years later, famed generals, such as William Tecumseh Sherman, chose the state as their final resting site following their dedicated service to the Union during the Civil War. It is a tradition emphasized by the military service of a future president, Harry S. Truman, who enlisted to serve his nation as an artillery officer in the First World War. Found in this book are the images that demonstrate many of the memorials and monuments situated throughout Missouri, highlighting the plentiful and impressive military legacy of the Show-Me State.

museum of missouri military history jefferson city: Columbus, Georgia, 1865 Charles A. Misulia, 2019-09-10 A thoroughly researched account of a memorable Civil War battle Columbus, Georgia, 1865 is a comprehensive study of the Easter Sunday, April 16, 1865, conflict, which occurred in the dark of night and extended over a mile and half through a series of forts and earthworks and was finally decided in an encounter on a bridge a thousand feet in length. This volume offers the first complete account of this battle, examining and recounting in depth not only the composition and actions of the contending forces, which numbered some three thousand men on each side, but meticulously detailing the effect of the engagement on the city of Columbus and its environs. Misulia's study fills in an omission in the grand account of our cataclysmic national struggle and adds a significant chapter to the history of an important regional city. In addition, Misulia takes on the long-vexing question of which encounter should be recognized as the last battle of the Civil War and argues persuasively that Columbus, Georgia, qualifies for this distinction on a number of counts.

museum of missouri military history jefferson city: The United States in World War I James T. Controvich, 2023-05-08 With the centennial of the First World War rapidly approaching, historian and bibliographer James T. Controvich offers in *The United States in World War I: A Bibliographic Guide* the most comprehensive, up-to-date reference bibliography yet published. Organized by subject, this bibliography includes the full range of sources: vintage publications of the time, books, pamphlets, periodical titles, theses, dissertations, and archival sources held by federal and state organizations, as well as those in public and private hands, including historical societies and museums. As Controvich's bibliographic accounting makes clear, there were many facets of World War I that remain virtually unknown to this day. Throughout, Controvich's bibliography tracks the primary sources that tell each of these stories—and many others besides—during this tense period in American history. Each entry lists the author, title, place of publication, publisher, date of publication, and page count as well as descriptive information concerning illustrations, plates, ports, maps, diagrams, and plans. The armed forces section carries additional information on rosters, awards, citations, and killed and wounded in action lists. *The United States in World War I: A Bibliographic Guide* is an ideal research tool for students and scholars of World War I and American history.

museum of missouri military history jefferson city: Vietnam War Army Helicopter Nose Art - Volume 2 John Brennan, 2021-07-11 Historian John D. Marshall wrote, History is shaped by the memories of those who witness it, and the intentions of those who record it. Vietnam veteran Hiawatha Oakes wrote, I can't thank you enough for your efforts in obtaining a photo of my H-21, the 'Blue Angel', and having it in your book. My family calls your book, lost pieces of treasures found. These two quotations represent all that is relevant to the author in history gathering: the hard

work and its rewards. Here in Volume 2 one will find equally astonishing photos on par with Volume 1, together with some self-help and researched info for sure to tease and delight the aficionado or veteran to unknown degrees. Besides the 165 images, there are search aids for locating one's former in-country Army helicopter. A listing is available of American sites where Huey & Cobra rides are available. The Army museum in Alabama offers a listing they have compiled of two-dozen recommended Huey photo-books. A tabulation of 300 AH-1 Cobra war survivors, their former units, and present location. museum of missouri military history jefferson city: *The Missouri Home Guard* Petra DeWitt, 2022-12-26 Missouri was one of many states that established a defense organization to take over the duties of the National Guard that had been federalized for military service when the United States declared war on Germany in 1917. The tasks of this volunteer Home Guard included traditional National Guard responsibilities such as providing introductory military training for draftable men, protecting crucial infrastructure from potential enemy activities, and maintaining law and order during labor activism. The Home Guard also functioned to preserve patriotism and reduce opposition to the war. Service in the Guard was a way to show loyalty to one's country, particularly for German Americans, who were frequently under suspicion as untrustworthy. Many German Americans in Missouri enthusiastically signed up to dispel any whispers of treason, while others found themselves torn between the motherland and their new homeland. Men too old or exempt from the draft for other reasons found meaning in helping with the war effort through the Home Guard while also garnering respect from the community. For similar reasons, women attempted to join the organization as did African Americans, some of whom formed units of a "Negro Home Guard." Informed by the dynamics of race, gender, and ethnicity, DeWitt's consideration of this understudied but important organization examines the fluctuating definition of patriotism and the very real question of who did and who did not have the privilege of citizenship and acceptance in society.

museum of missouri military history jefferson city: *Sound the Trumpet, Beat the Drums* Bruce P. Gleason, 2016-10-13 Stemming from the tradition of rallying troops and frightening enemies, mounted bands played a unique and distinctive role in American military history. Their fascinating story within the U.S. Army unfolds in this latest book from noted music historian and former army musician Bruce P. Gleason. *Sound the Trumpet, Beat the Drums* follows American horse-mounted bands from the nation's military infancy through its emergence as a world power during World War II and the corresponding shift from horse-powered to mechanized cavalry. Gleason traces these bands to their origins, including the horn-blowing Celtic and Roman cavalries of antiquity and the mounted Middle Eastern musicians whom European Crusaders encountered in the Holy Land. He describes the performance, musical selections, composition, and duties of American mounted bands that have served regular, militia, volunteer, and National Guard regiments

in military and civil parades and concerts, in ceremonies, and on the battlefield. Over time the composition of the bands has changed—beginning with trumpets and drums and expanding to full-fledged concert bands on horseback. Woven throughout the book are often-surprising strands of American military history from the War of 1812 through the Civil War, action on the western frontier, and the two world wars. Touching on anthropology, musicology, and the history of the United States and its military, *Sound the Trumpet, Beat the Drums* is an unparalleled account of mounted military bands and their cultural significance.

museum of missouri military history jefferson city: Portraits of Conflict William Garrett Piston, Thomas P. Sweeney, 2009-11-01 A deeply divided border state, heir to the “Bleeding Kansas” era, Missouri became the third most fought-over state in the war, following Virginia and Tennessee. Rich in resources and manpower, critical politically to both the Union and the Confederacy, it was the scene of conventional battles, river warfare, and cavalry raids. It saw the first combat by organized units of Native Americans and African Americans. It was also marked by guerrilla warfare of unparalleled viciousness. This volume, the ninth in the series, includes hundreds of photographs, many of them never before published. The authors provide text and commentary, organizing the photographs into chapters covering the origins of the war, its conventional and guerrilla phases, the war on the rivers, medicine (Sweeney’s medical knowledge adds a great deal to this chapter and expands our knowledge of its practice in the west), the experiences of Missourians who served out of state, and the process of reunion in the postwar years.

museum of missouri military history jefferson city: The Homefront in Civil War Missouri James W. Erwin, 2014-07-08 Over one thousand Civil War engagements were fought in Missouri, and the conflict could not be quarantined from civilian life. In the countryside, the wives and mothers of absent soldiers had to cope with marauders from both sides. Children saw their fathers and brothers beaten, hanged or shot. In the cities, a cheer for Jeff Davis could land a young boy in jail, and a letter to a sweetheart in the Confederate army could get a girl banished from the state. Women volunteered to care for the flood of wounded and sick soldiers. Slavery crumbled and created new opportunities for black men to serve in the Union army but left their families vulnerable to retaliation at home. The turbulence and bitterness of guerrilla war was everywhere.

museum of missouri military history jefferson city: Camp Clark Jeremy P. Amick, 2023-02-20 In 1908, Camp Clark came into existence when it was established as the State Rifle Range in Nevada, Missouri, and quickly progressed into the primary marksmanship training and encampment site for the Missouri National Guard. On August 5, 1917, when the entire National Guard of the United States was drafted into federal service for World War I, the camp became a mobilization and early training site for more than 10,000 Missouri National Guard soldiers. With the passing of Brig. Gen. Harvey C. Clark, a beloved adjutant general, the location was officially renamed Camp Clark in his honor. Aviator Charles Lindbergh, who acquired worldwide fame for his transatlantic flight in 1927, spent time training at Camp Clark in the 1920s. During World War II, the camp fell under federal control and became an internment site for Italian and German prisoners of war. In the years after the war, the camp underwent various expansions but continues to serve as

a training location for various Missouri National Guard units and, in recent years, has even been utilized for pre-mobilization training.

museum of missouri military history jefferson city: A Burned Land Robert R. Laven, 2019-01-31 Often neglected by historians, actions in Missouri and Kansas had an important influence on the course of the Civil War, with profound effects for the communities and people in the region. Outside of Virginia and Tennessee, Missouri was perhaps the most hotly contested territory during the war. The fighting in Missouri culminated with an expedition that re-wrote the books on tactics and the use of mounted infantry. This book focuses on the experiences of the soldiers, officers and civilians on both sides. The author brings to life the events in the region that contributed to the internecine strife in the Western Theater.

museum of missouri military history jefferson city: War Monuments, Museums and Library Collections of 20th Century Conflicts Steve Rajtar, Frances Elizabeth Franks, 2015-07-11 This unique state-by-state directory covers monuments, memorials, museums, markers, statues and library collections that relate to the veterans, weapons, vehicles, airplanes, victims or any other aspect of war in which the United States participated. While a site may have been created before 1900 (such as a fort), there must be some operational or historical tie to a twentieth century conflict to be included here. General collections, such as museums of aviation, are included if they house materials related to a twentieth century conflict. The coverage is so thorough that statues honoring veterans of the Civil War appear if veterans of later wars are on their rosters of honorees. Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston, Texas. For each site, the following information is given: street address, phone number, website and email address (if applicable), days and hours of operation, admission fees, other necessary information, and a brief description of the site.

museum of missouri military history jefferson city: Confederate Courage on Other Fields Mark Crawford, 2017-04-19 *Confederate Courage on Other Fields: Overlooked Episodes of Leadership, Cruelty, Character, and Kindness* offers four valuable but little-studied events of the Civil War. Each story explores the hardships of battle, and demonstrations of courage and other human attributes, away from the glare of well-known battlefields like Gettysburg and Shiloh. These previously untold or little-known stories compiled by Mark Crawford expand our understanding of this dreadful conflict—and of the human spirit. “Rebel Resort of the Dead” introduces readers to General Hospital Number One in Kittrell Springs, North Carolina, where hospital chaplain Rev. M.

M. Marshall did his best to tend to the religious needs of severely wounded men. Marshall's recently discovered recollections are threaded throughout this moving narrative and include many of the last words of dying soldiers. "I'll Live Yet to Dance on That Foot!" offers the letters of Charles Blacknall, a wealthy plantation owner-turned-Confederate officer who penned candid letters back home that reveal not only an educated and passionate man, but one who is slowly being consumed by war. The astonishing tale of a personal conflict between a Union major and a Confederate colonel unfolds in "An Eye for an Eye." The quarrel, which quickly became deeply personal, resulted in a series of vicious retaliatory killings, guerrilla warfare, the eventual intervention of president Abraham Lincoln—and the murder of one of the officers. The story of the Battle of Dinwiddie Courthouse, a bitter battle during the closing days of the war in Virginia, is told through many first-person accounts in "The South's 'Sunset Charge.'" In this fight, the prelude to the better-known battle of Five Forks, Federal troops put up a stout fight, despite being heavily outnumbered, with the help of their deadly repeating carbines. Few know that many Confederate soldiers were swept away and drowned there in a valiant charge across a muddy rain-swollen river.

museum of missouri military history jefferson city: The 11th Missouri Volunteer Infantry in the Civil War Dennis W. Belcher, 2011-09-29 The 11th Missouri Infantry distinguished itself as just the type of regiment the Union needed in the Civil War. Hard as nails and loyal to a fault, the men of the Eagle Brigade would follow their commanders into hell if they ordered. They battled two Confederate regiments at Iuka, turned the tide at Battery Robinett at Corinth, assaulted the impossible Stockade Redan at Vicksburg as whole ranks of soldiers were cut down, and broke Hood's line at Nashville. Although the 11th Missouri ranks among the 300 top regiments of the Civil War, little of its history has been formally recorded. This study provides a detailed account of the regiment's four-and-a-half years of outstanding service and a roster.

museum of missouri military history jefferson city: Massacre at St. Louis Kenneth E. Burchett, 2024-08-08 In 1861, Union Brigadier General Nathaniel Lyon marched through the divided slave state Missouri en route to St. Louis. Lyon was to arrest a state militia unit at Camp Jackson that planned to raid a federal arsenal in the city. Upon capturing the men, Lyon's troops encountered crowds of hostile citizens and, after a gun shot, they fired on the mob, killing at least 28 civilians in what is now known as the Camp Jackson affair, or the St. Louis massacre. In this book, the author describes partisan activities leading to hostilities, promotes awareness about the history of slavery in America, and explores political divisions still evident in American culture. Previously unpublished materials about Governor Claiborne Jackson are included, as well as the role of Montgomery Blair in the fight for Missouri, an analysis of the number of arms in the St. Louis Arsenal and the unknown total number of casualties of the St. Louis massacre.

museum of missouri military history jefferson city: The Last Hurrah Kyle Sinisi, 2015-07-16 In the late summer of 1864, Confederate General Sterling Price led a last ditch attempt to liberate Missouri from Union occupation and brutal guerrilla warfare. Price's invading army was like few others seen during the Civil War. It was an army of cavalry that lacked men, horses, weapons, and discipline. Its success depended entirely upon a native uprising of pro-Confederate Missourians. When that uprising never occurred, Price's rag-tag army marched through the state seeking

revenge, supplies and conscripts. It was a march that took too long and ultimately allowed Union forces to converge on Price and badly defeat him in a series of battles that ran from Kansas City to the Arkansas border. Three months and 1,400 miles after it had started, the longest sustained cavalry operation of the war had ended in disaster. The Last Hurrah is the story of Price's invasion from its politically charged planning to its starving retreat. The Last Hurrah is also the story of what happened after the shooting stopped. Even as hundreds of Missourians followed Price out of the state and tried desperately to join his army, elements of the Union army visited retribution upon Confederate sympathizers while still others showed little regard for the lives of the prisoners they had captured. Many more would have to suffer and die long after Sterling Price had fled Missouri.

museum of missouri military history jefferson city: *A Naturalist in Indian Territory* S. W. Woodhouse, 1996-03-01 In the spring of 1849 young Philadelphia physician S. W. Woodhouse, an avid ornithologist, was appointed surgeon-naturalist of two expeditions, one in 1849 and another in 1850, to survey the Creek-Cherokee boundary in Indian Territory. A keen observer of frontier life and society, Woodhouse wrote down in three journals detailed entries on his travels, including information on the flora and fauna as well as his impressions of the places he passed and their people, notably early Indian Territory personalities such as the McIntoshes and the Perrymans of the Creek Indians; Elijah Hicks of the Cherokees; Tallee and Clermont III of the Osages; and Oh-ha-wah-kee of the Comanches. To aid the modern reader, editors John S. Tomer and Michael J. Brodhead have supplied a detailed introduction and extensive, clarifying notes.
