northern light eye care presque isle maine: Heirs of General Practice John McPhee, 2011-04-01 Heirs of General Practice is a frieze of glimpses of young doctors with patients of every age—about a dozen physicians in all, who belong to the new medical specialty called family practice. They are people who have addressed themselves to a need for a unifying generalism in a world that has become greatly subdivided by specialization, physicians who work with the unquantifiable idea that a doctor who treats your grandmother, your father, your niece, and your daughter will be more adroit in treating you. These young men and women are seen in their examining rooms in various rural communities in Maine, but Maine is only the example. Their medical objectives, their successes, the professional obstacles they do and do not overcome are representative of any place family practitioners are working. While essential medical background is provided, McPhee's masterful approach to a trend significant to all of us is replete with affecting, and often amusing, stories about both doctors and their charges.

northern light eye care presque isle maine: *In the Vanguard* Diana Greenwold, M. Rachael Arauz, 2019-05-24 In the Vanguard: Haystack Mountain School of Crafts, 1950–1969 traces the first two decades of the Haystack Mountain School of Craft's history and its pivotal impact on the world of art and craft practice in the United States during the mid-twentieth century. The first scholarly investigation of this internationally renowned school, the exhibition, and the accompanying catalogue will feature work made at Haystack or influenced by time spent there by some of the most highly recognized names in the fields of fiber, glass, ceramics, jewelry, and graphic arts to demonstrate the school's significant role in debates about art, craft, industry, and pedagogy in the United States during the 1950s and 1960s. Haystack's model of brief summer sessions and changing instructors offered new ways of thinking about the status of craft as art and the nature of accessible design in the context of communally based, process-oriented learning. Anni Albers, Toshiko Takaezu, Jack Lenor Larsen, Kay Sekimachi, Arline Fisch, Robert Arneson, Harvey Littleton, Wolf Kahn, and

Dale Chihuly are just a few of the artists who taught at the school between 1950 and 1969 and who helped define Haystack's radically open-ended approach towards art and craft. With approximately eighty objects assembled from public and private collections and archives, many rarely or never before exhibited in a museum, In the Vanguard will establish the substantial legacy of this remote community of makers in the art and education world at large. Archival material installed throughout the exhibition will include original correspondence, photographs, brochures, architectural models, posters, and early ephemera. Published in association with the Portland Museum of Art. Exhibition dates: Portland Museum of Art, Maine: May 24–September 8, 2019 Cranbrook Academy of Art, Michigan: November 15, 2019–March 8, 2020

It is the story of four generations of a singular family, living in a house that is many houses on the magical border of an otherworld. It is a story of fantastic love and heartrending loss; of impossible things and unshakable destinies; and of the great Tale that envelops us all. It is a wonder.

But in a world of rivals and charmers, fate has a different plan.... After their victory in Aurënen, Alec and Seregil have returned home to Rhíminee. But with most of their allies dead or exiled, it is difficult for them to settle in. Hoping for diversion, they accept an assignment that will take them back to Seregil's homeland. En route, however, they are ambushed and separated, and both are sold into slavery. Clinging to life, Seregil is sustained only by the hope that Alec is alive. But it is not Alec's life his strange master wants—it is his blood. For his

unique lineage is capable of producing a rare treasure, but only through a harrowing process that will test him body and soul and unwittingly entangle him and Seregil in the realm of alchemists and madmen—and an enigmatic creature that may hold their very destiny in its inhuman hands.... But will it prove to be savior or monster?

northern light eye care presque isle maine: Précis of the Lectures on Architecture

Jean-Nicolas-Louis Durand, 2000-01-01 Jean-Nicolas-Louis Durand (1760–1834) regarded the *Précis of the Lectures on Architecture* (1802–5) and its companion volume, the *Graphic Portion* (1821), as both a basic course for future civil engineers and a treatise. Focusing the practice of architecture on utilitarian and economic values, he assailed the rationale behind classical architectural training: beauty, proportionality, and symbolism. His formal systematization of plans, elevations, and sections transformed architectural design into a selective modular typology in which symmetry and simple geometrical forms prevailed. His emphasis on pragmatic values, to the exclusion of metaphysical concerns, represented architecture as a closed system that subjected its own formal language to logical processes. Now published in English for the first time, the *Précis* and the *Graphic Portion* are classics of architectural education.

Based on one of the most popular plays of the last decade, John Cariani's *Almost, Maine* is a heartwarming and heartbreaking story that will have you thinking about love in an entirely new way. Welcome to *Almost, Maine*, a town that's so far north, it's almost not in the United States—it's almost in Canada. And it almost doesn't exist, because its residents never got around to getting organized. So it's just . . . *Almost*. One cold, clear Friday night in the middle of winter, while the northern lights hover in the sky above, *Almost's* residents find themselves falling in and out of love in the strangest ways. Knees are bruised. Hearts are broken. Love is lost and found. And life for the people of *Almost, Maine* will never be the same. With characters you'll adore in a setting you'll never forget, *Almost, Maine* is a love story like no other, for fans of *Dear Evan Hansen*.

northern light eye care presque isle maine: Ka John Crowley, 2017-10-24

"Ka is a beautiful, often dreamlike late masterpiece." —Los Angeles Times "One of our country's absolutely finest novelists." —Peter Straub, New York Times bestselling author of *Interior Darkness* and *Ghost Story* From award-winning author John Crowley comes an exquisite fantasy novel about a man who tells the story of a crow named Dar Oakley and his impossible lives and deaths in the land of Ka. A Crow alone is no Crow. Dar Oakley—the first Crow in all of history with a name of his own—was born two thousand years ago. When a man learns his language, Dar finally gets the chance to tell his story. He begins his tale as a young man, and how he went down to the human underworld and got hold of the immortality meant for humans, long before Julius Caesar came into the Celtic lands; how he sailed West to America with the Irish monks searching for the Paradise of the Saints; and how he continuously went down into the land of the dead and returned. Through his adventures in Ka, the realm of Crows, and around the world, he found secrets that could change the humans' entire way of

life—and now may be the time to finally reveal them.

northern light eye care presque isle maine: *Good Medicine* Philip Hebert, 2016-04-19 Award-winning physician Philip C. Hébert creates a brave and intimate portrait of the complex ethical imperatives at the heart of good medicine: doctors do not have all the answers; patients must be heard; and their needs, desires, fears, and experiences must be reflected in how practitioners look after them. Medical science continues to advance to previously unimagined heights in its diagnostic and treatment capabilities. With these advances, however, come unexpected ethical dilemmas for practitioners, patients, and families. In *Good Medicine*, Dr. Hébert approaches these questions of pressing and fundamental importance from the dual point of view of acclaimed physician and long-time patient. With remarkable balance and sensitivity, he explores a range of politically, constitutionally, and ethically contentious matters, including assisted suicide, treatment refusal and suspension, and the overall allocation of medical resources. Hébert pairs his artful analysis with the real-life, often deeply moving stories of those who have lived these challenges. Hébert offers piercing and compassionate insight into the relationship between patients and medical professionals, and guides readers towards the open and empathetic communication needed to ensure good medicine for everyone.

northern light eye care presque isle maine: *Exploring Inclusive Educational Practices Through Professional Inquiry* Gordon L. Porter, Déirdre Smith, 2012-01-01 Practitioners, scholars, and teacher education students alike can celebrate reading *Exploring Inclusive Educational Practices through Professional Inquiry*. This rich array of case scenarios both illuminates and elaborates the meaning of inclusion in today's schools and tomorrow's visions. Twenty-five stories from parents, teachers, school principals, and specialists highlight the kind of experiential knowledge that won't be found in typical research reports and district documents about inclusive education. What happens to real people—students and their families—doesn't always resemble policies that can look so good on paper. This book makes a wonderful contribution to better understandings of the challenges of inclusion as well as the commitments positioned alongside values in order to meet those challenges. There are brave and spirited people in these pages—not the least of whom are the children themselves. Professor Luanna H. Meyer, PhD Director, Jessie Hetherington Centre for Educational Research Victoria University, New Zealand This is a book on inclusive education that leaves you with hope and ideas for action. It takes a very difficult and highly charged topic and demonstrates that it is possible to see both the trees and the forest. Michael Fullan Professor Emeritus OISE/University of Toronto We are reminded in the commentaries parents share in this book of how their passionate commitment to good education and their ideas make inclusion work. The case-study approach reveals the critical importance of their,

and many other perspectives in finding solutions to what are so often dismissed as irresolvable dilemmas. They aren't, and this book models exactly the kinds of conversations we need in schools across the country to challenge all of us to stay the course. It's a must-read for anyone who wants to make diversity and inclusion a reality in public education today. Michael Bach Executive Vice-President Canadian Association for Community Living

northern light eye care presque isle maine: Gravel Roads Ken Skorseth, 2000 The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been more of an art than a science and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

northern light eye care presque isle maine: Flint and Mirror John Crowley, 2022-04-19 Crowley is generous, obsessed, fascinating, gripping. Really, I think Crowley is so good that he has left everybody else in the dust.—Peter Straub From award-winning author John Crowley comes a novel that masterfully blends history and magic in *Flint and Mirror*. As ancient Irish clans fought to preserve their lands and their way of life, the Queen and her generals fought to tame the wild land and make it English. Hugh O'Neill, lord of the North, dubbed Earl of Tyrone by the Queen, is a divided man: the Queen gives to Hugh her love, and her commandments, through a little mirror of obsidian which he can never discard; and the ancient peoples of Ireland arise from their underworld to make Hugh their champion, the token of their vow a chip of flint. From the masterful author of *Little, Big* comes an exquisite fantasy of heartbreaking proportion. northern light eye care presque isle maine: *American Military History Volume 1* Army Center of Military History, 2016-06-05 American Military History provides the United States Army-in-particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But

world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.
