nyu hospitality major: *NYU'S Stern School of Business* Abraham L Gitlow, 1995-06-01

American business schools from their inception in the 1880's, have grown dramatically both in quality and in numbers. Regarded as late as the 1950's as essentially vocational schools whose role in academia was still to be resolved, they are now among the most respected professional schools in the university community. In recent decades, this increase in prestige has been matched by the growth of both Bachelor's and MBA programs. The forces and events shaping this dramatic rise in importance have been recounted by Dean Emeritus of New York University's Stern School of Business, Abraham L. Gitlow. He brings his 45 years of experience as a faculty member at the Stern School to bear as he analyzes the educational and philosophical issues and tensions that marked the history of the school, and of American higher education in general, in the twentieth century.

nyu hospitality major: ENTERTAINMENT MANAGEMENT Prabhu TL, In all areas of business, there are some terms you're never truly sure you know the definition of. However, when it comes to event management, the definition is easy. At its core, event management is the process of planning an event. This is any type of event, whether hosted in-person, virtually or hybrid. It's synonymous with event planning and meeting planning. Just like those other terms, the scope of each project and the nitty-gritty details vary depending on the industry, company size, and more. So, what is event management? Event Management is Event Planning Event planning goes by many different names. Some event planners are called administrative assistants, some are called event coordinators, and others are called event technologists. What do all of these titles have in common? The individuals have some hand in planning an event. Whether the events are internal or external, large or small, in-person or virtual, they all have to be planned. Virtual Event Management In today's new environment, we have had to learn how to manage not only our in-person events but our virtual programs as well. Virtual event management requires the same steps as managing your in-person event, but with the added challenge of making sure that your content is twice as captivating. While in-person events have the added bonus of travel, networking, and free food, a virtual event largely relies on its content to keep attendees engaged. When managing a virtual event, make sure that your speakers are prepared to present their content virtually, and that your content is interesting and succinct. Different Aspects of Event Management Building the Perfect Event It starts simply. A theme. A plan. A goal. Your event has a purpose from the beginning, which will drive content, speakers, and the venue. Next, it's time to set up the basics. You have to build a branded event website that entices visitors to attend your event. Nowadays, it's easier than ever to build a beautifully designed website, just by understanding Event Website Basics. Then, you'll need secure payment processing so attendees can pay for events easily. Promotion Across Channels with Automation If no one knows about your event, how will they register? That's why promotion is so important. Check out The Best Ways to Promote Your Event for inspiration. Targeted email marketing is a great way to promote your events when you have a vast database. Other ways to promote? Social media continues to be one of the best free promotional channels. Managing Attendee Information and Communication The purpose of the event is always to make connections. Event management doesn't just involve choosing linens or the right virtual technology provider but also managing contacts as well as you can. During the event, you'll gather leads that will go to sales. These leads will be critical when it comes to proving your Event ROI. Measuring Your Success to Prove Event ROI Event management doesn't end when the event does. Over the course of the entire event, it's important to prove success and identify areas of improvement. Data gained throughout the process will help you do this. Live polling is a great way to find out how attendees felt about the event. There's Tech for That Event management is about pulling together an incredible experience, facilitating connections, adding leads to sales pipeline, and proving success. It's a difficult job that involves spinning an endless number of plates and working around the clock to create an unforgettable moment for attendees. And, it's one that can be made a little easier by taking advantage of technology, especially when you look to plan a virtual event or a hybrid event. While many planners rely on sticky notes and spreadsheets, there's tech out there that will save hours and take events to the next level. Find out what event tech can help you succeed in How to Select the Right Event Management Technology.

nyu hospitality major: Future Tourism in a Robonomic World Stanislav Ivanov, Craig Webster,

2024-08-05 This book envisions the future of tourism in an economy that is largely automated. 'Robonomics' is the term given to this economic system that relies on robots, artificial intelligence and automation technologies for the production of goods and delivery of services instead of human labour. The volume examines the unique technological, socioeconomic and political situation that such an economy will create, and reflects on how tourism is then produced, consumed and paid for. The chapters explore some controversial solutions to the challenges of the robonomic economic system, such as redefinition of human rights, robot rights and universal basic income schemes. The chapters also consider the transition to a robonomic tourism ecosystem and the adjustments and innovations that will be required of consumers, industry and society.

nyu hospitality major: *Climate Finance* Richard B. Stewart, Benedict Kingsbury, Bryce Rudyk, 2009-11-01 Preventing risks of severe damage from climate change not only requires deep cuts in developed country greenhouse gas emissions, but enormous amounts of public and private investment to limit emissions while promoting green growth in developing countries. While attention has focused on emissions limitations commitments and architectures, the crucial issue of what must be done to mobilize and govern the necessary financial resources has received too little consideration. In *Climate Finance*, a leading group of policy experts and scholars shows how effective mitigation of climate change will depend on a complex mix of public funds, private investment through carbon markets, and structured incentives that leave room for developing country innovations. This requires sophisticated national and global regulation of cap-and-trade and offset markets, forest and energy policy, international development funding, international trade law, and coordinated tax policy. Thirty-six targeted policy essays present a succinct overview of the emerging field of climate finance, defining the issues, setting the stakes, and making new and comprehensive proposals for financial, regulatory, and governance mechanisms that will enrich political and policy debate for many years to come. The complex challenges of climate finance will continue to demand fresh insights and creative approaches. The ideas in this volume mark out starting points for essential institutional and policy innovations.

nyu hospitality major: *Routledge Handbook of Hospitality Marketing* Dogan Gursoy,

2017-10-02 This handbook analyzes the main issues in the field of hospitality marketing by focusing on past, present and future challenges and trends from a multidisciplinary global perspective. The book uniquely combines both theoretical and practical approaches in debating some of the most important marketing issues faced by the hospitality industry. Parts I and II define and examine the main hospitality marketing concepts and methodologies. Part III offers a comprehensive review of the development of hospitality marketing over the years. The remaining parts (IV-IX) address key cutting-edge marketing issues such as innovation in hospitality, sustainability, social media, peer-to-peer applications, Web 3.0 etc. in a wide variety of hospitality settings. In addition, this book provides a platform for debate and critical evaluation that enables the reader to learn from the industry's past mistakes as well as future opportunities. The handbook is international in its constitution as it attempts to examine marketing issues, challenges and trends globally, drawing on the knowledge of experts from around the world. Because of the nature of hospitality, which often makes it inseparable from other industries such as tourism, events, sports and even retail, the book has a multidisciplinary approach that will appeal to these disciplines as well as others including management, human resources, technology, consumer behavior and anthropology.

nyu hospitality major: They Eat That? Jonathan Deutsch, Natalya Murakhver, 2012-01-16 This thoroughly engaging encyclopedia considers the rich diversity of unfamiliar foods eaten around the world. The title They Eat That?: A Cultural Encyclopedia of Weird and Exotic Food from around the World says it all. This fun encyclopedia, organized A-Z, describes and offers cultural context for foodstuffs people eat today that might be described as weird—at least to the American palate. Entries also include American regional standards, such as scrapple and chitterlings, that other regions might find distasteful, as well as a few mainstream American foods, like honey, that are equally odd when one considers their derivation. A long narrative entry on insects, for example, discusses the fact that insects are enjoyed as a regular part of the diet in some Asian, South and Central American, and African countries. It then looks at the kinds of insects eaten, where and how they are eaten, cultural uses, nutrition, and preparation. Each of the encyclopedia's 100 entries includes a representative recipe or, for a food already prepared like maggoty cheese, describes how it is eaten. Each entry ends with suggested readings.

nyu hospitality major: Under Pressure Hina Jamelle, 2021-09-29 Under Pressure is about instigation and design in urban housing. Urban housing is a bellwether for economic, social, and political change. It varies widely in quality, typology, and audience and lies between the formal systems of urban infrastructure and the informal systems of daily life. Housing's complexity offers unique and exciting opportunities to architects. Its entwinement with private equity and public agencies presents important challenges amplified by urbanization. This book gathers and contextualizes relevant conversations in urban housing unfolding today across architecture through four topics: Learning from History, Changing Domesticities, Housing Finance and Policy, and Design and Material Innovation. The result is a multi-disciplinary amalgam of research and design intelligence from thought leaders in the fields of architecture, real estate, economics, policy, material design, and finance.

nyu hospitality major: The Routledge Handbook of Hospitality Studies Conrad Lashley, 2016-11-10 In recent years there has been a growing interest in the study of hospitality as a social phenomenon. This interest has tended to arrive from two communities. The first comprises hospitality academics interested in exploring the wider meanings of hospitality as a way of better understanding guest and host relations and its implications for commercial settings. The second comprises social scientists using hosts and guests as a metaphor for understanding the relationship between host communities and guests as people from outside the community - migrants, asylum seekers and illegal immigrants. The Routledge Handbook of Hospitality Studies encourages both the study of hospitality as a human phenomenon and the study for hospitality as an industrial activity embracing the service of food, drink and accommodation. Developed from specifically commissioned

original contributions from recognised authors in the field, it is the most up-to-date and definitive resource on the subject. The volume is divided into four parts: the first looks at ways of seeing hospitality from an array of social science disciplines; the second highlights the experiences of hospitality from different guest perspectives; the third explores the need to be hospitable through various time periods and social structures, and across the globe; while the final section deals with the notions of sustainability and hospitality. This handbook is interdisciplinary in coverage and is also international in scope through authorship and content. The 'state-of-the-art' orientation of the book is achieved through a critical view of current debates and controversies in the field as well as future research issues and trends. It is designed to be a benchmark for any future assessment of the field and its development. This handbook offers the reader a comprehensive synthesis of this discipline, conveying the latest thinking, issues and research. It will be an invaluable resource for all those with an interest in hospitality, encouraging dialogue across disciplinary boundaries and areas of study. Chapters: Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

nyu hospitality major: Sustainable Disposal Methods of Food Wastes in Hospitality Operations Singh, Amrik, Tyagi, Pankaj Kumar, Garg, Anshul, 2024-03-06 Food waste has evolved into a global crisis, casting a long shadow over nations and the interconnected fabric of our world. The repercussions of this excess reverberate through environmental and socio-economic landscapes, demanding immediate attention. Globally, the challenge of reducing food waste is acknowledged as a linchpin in achieving a sustainable future. The book *Sustainable Disposal Methods of Food Wastes in Hospitality Operations* confronts this escalating issue head-on. It contends that the time is ripe for a change in waste disposal practices, advocating for sustainable methods to alleviate environmental strain, combat climate change, and safeguard public health. This book delves into the heart of waste management principles and strategies. Beyond identifying the severity of the issue, the book ventures into uncharted territories, exploring emergent debates surrounding systemic causes and solutions. In a world where information and communication technology empower organizations, a gap persists in translating these advancements into effective waste management initiatives. The book urges a holistic understanding of the issue, drawing attention to the need for collaborative efforts between governments and private industry players to bridge this divide. As it provides a global perspective, the handbook becomes a tool for those seeking to comprehend the intricate web of challenges posed by food waste and navigate towards a sustainable future.

nyu hospitality major: **Service Failures and Recovery in Tourism and Hospitality** Erdogan Koc, 2017-10-20 Tourism and hospitality services are highly prone to service-failure due to a high level of customer-employee contact and the inseparable, intangible, heterogeneous and perishable nature of these services. *Service Failures and Recovery in Tourism and Hospitality*, with its extensive coverage of the literature, presents an invaluable source of information for academics, students, researchers and practitioners. In addition to its extensive coverage of the literature in terms of recent research published in top tier journals, chapters in the book contain student aids, real-life examples, case studies, links to websites and activities alongside discussion questions and presentation slides for in-class use by teaching staff. This book is enhanced with supplementary resources. The customizable lecture slides can be found at: www.cabi.org/openresources/90677

nyu hospitality major: *Social Entrepreneurship in Hospitality* Willy Legrand, Miguel Angel Gardetti, Robert Schønrock Nielsen, Colin Johnson, Mehmet Ergul, 2020-11-16 This innovative book is the first to explore social entrepreneurship in the field of hospitality, introducing students to the principles of social entrepreneurship motivation, finance, sustainability, issues and challenges, and how these can be successfully implemented in a range of hospitality settings. The hospitality industry offers a particularly fruitful framework for social entrepreneurs, partly due to the low barriers of entry and opportunities to enhance social and environmental wealth. A variety of international case studies are integrated throughout to showcase the challenges and successes of social entrepreneurship in the hospitality industry in a wide range of settings. Discussion questions,

further reading suggestions and exercises at the end of each chapter help the student to explore these concepts further. Insights into the industry's role during and potentially beyond the COVID-19 crisis are offered in the concluding chapter. This is a timely addition to the literature, written by a team of highly regarded professionals and academics, and will be essential reading for all current and future entrepreneurs in the field of Hospitality Management.

nyu hospitality major: The Core Business Web Gary W White, 2013-04-15 The best Business Web sites at your fingertips—24/7! The Core Business Web: A Guide to Key Information Resources is an essential resource that saves you from spending hours searching through thousands of Web sites for the business information you need. A distinguished panel of authors, all active in business librarianship, explores Web sites in their subject areas, selecting the very best from 25 functional areas of business. Each site was chosen based on the timeliness, relevance and reliability of its content, the site's ease of navigation and use, and the authority of the site's author or publisher. The rapid growth of the Internet has resulted in an ever-increasing number of Web sites offering potentially useful business information. The Core Business Web identifies, evaluates, and summarizes the most significant sites, including gateways or portals, directories, and meta-sites, to organize online resources into easy-to-follow links that allow you to access information quickly. Sites are categorized and listed for 25 areas of business, including: banking—commercial banking, regulators, trade associations, international links business law—statutes, regulations, decisions, antitrust, corporations, international transactions, labor and employment, tax and taxation, uniform commercial code career information and salary surveys—labor statistics, job hunters, career planning e-commerce—e-business news, statistics, “how-to” sites, technology sites, business-to-business sites finance and investments—market analysis and commentary, market news, stock screeners, brokers hospitality and tourism—lodging and gaming, restaurant and foodservice small business and entrepreneurship—startup information, counseling, funding and venture capital, and sites for women and minority-owned businesses, and much more! The Core Business Web is an invaluable resource for saving valuable time that's intended for information professionals but can be used by anyone seeking business information online.
