**paddy the baddy transformation:** *The Last Foundling* Tom Mackenzie, 2014-03-13 A deeply moving memoir from one of the last children to be taken in by the Foundling Hospital, London. When she fell pregnant in London in 1938, Jean knew that she couldn't keep her baby. The unmarried daughter of an elder in the Church of Scotland, she would shame her family if she returned to the north in such a condition. Scared and alone in a city on the brink of war, she begged the Foundling Hospital to give her baby the start in life that she could not. The institution, which had been providing care for deserted infants since the eighteenth century, allowed Jean to nurse her son for nine weeks, leaving her heartbroken when the time came to let him go. But little Tom knew nothing of her love as he grew up in the Foundling Hospital - which, during years of the Second World War, was more like a prison than a children's home. Locked in and subject to public canings and the sadistic whims of the older boys, there was no one to give him a hug, no one to wipe away his tears. A true story of desertion and neglect, this is also a moving account of survival from one of the very last foundlings. It stands as a testament to the love that ultimately led a family back together.

**paddy the baddy transformation: The Old Weird Albion** Justin Hopper, 2017 A woman stands at the edge of a cliff, looking out to sea and the horizon. Dancers welcome the sun in a circle of stones. A dowsing rod turns without warning. A church bell. Footsteps. Old Weird Albion is America writer Justin Hopper's dark love song to the English South; a poetic essay interrogating the high, haunted landscape of the South Downs Way; the memories, myths and forgotten histories from Winchester to Beachy Head. When someone disappears, when someone leaps from a cliff and is all-but-erased from memory, what traces might we find in the crumbling chalk of the cliff face; in the wind that buffets the edge of this Albion? A skewed alternative to Bill Bryson, Hopper casts himself as the outsider as he wanders the English countryside in pursuit of mystical encounters. His journey sees him joining New Age eccentrics and accidental visionaries on the hunt for crop circles and druidic stones, discussing the power of nature with ecotherapists and pagans, tracing the ruins of abandoned settlements and walking the streets of eerie suburbs. Through a startling revelation of his own family history, Hopper turns part detective, part memoirist, tracking the footsteps of his grandfather's first wife, Doris; piecing together her forgotten history.

**paddy the baddy transformation: Managing People is Like Herding Cats** Warren Bennis, 1999 Cats of course, won't be herded. And the most successful organizations in the 21st Century won't be managed -- they'll be led. The answer to America's current leadership crisis is leaders (not managers) who recognize that the only capital that really counts is human capital And whether readers are looking for a leader or looking to be a better one, Warren knows what it takes. In answer to the leadership crisis, Bennis offers insight into developing leaders and their competencies, by explaining ten traits of dynamic leaders, and how these leaders constantly reinvent themselves. The 21st century will require leaders who can inspire and orchestrate change rather than impose it or simply react to it. The section on Leading Change will, in itself, make this a must-have book.

**paddy the baddy transformation: The Sociology of Housework** Oakley, Ann, 2019-09-11 In this ground-breaking book, acclaimed sociologist Ann Oakley undertook one of the first serious sociological studies to examine women's work in the home. She interviewed 40 urban housewives and analysed their perceptions of housework, their feelings of monotony and fragmentation, the length of their working week, the importance of standards and routines, and their attitudes to different household tasks. Most women, irrespective of social class, were dissatisfied with housework - an important finding which contrasted with prevailing views. Importantly, too, she showed how the neglect of research on domestic work was linked to the inbuilt sexism of sociology. This classic book challenged the hitherto neglect of housework as a topic worthy of study and paved the way for the sociological study of many more aspects of women's lives.

**paddy the baddy transformation: The Endangered Sex** Barbara D. Miller, 1997 The preponderance of males over females in the population of India has been a subject of concern and controversy since the late eighteenth century. This book addresses the fact of, and the reasons for, unbalanced sex ratios among children in present-day rural India and considers some of the cultural links between the present and the past. Barbara Miller examines sex ratios throughout the world to explore how culture affects these ratios, specially among juveniles, and then focuses on India to demonstrate how the practice of female infanticide has altered the proportions of the sexes. A regional and social pattern of infanticide is then uncovered to show that this practice is most prevalent in north-west India and among the higher castes there. The book illustrates the powerful relationship between culture and mortality. Culture often plays an important role in determining those targeted for death; in this case the target group is north Indian girls.

Yet the real-life heartache and loss she came to suffer eclipsed even the rollercoaster troubles of her TV character. After leaving the show, Elaine lost her beloved mother when she took her life under a train. Then later that same year, just two days after her wedding, Elaine lost James, her one-year-old son and only child, to a rare condition. Whatever It Takes is the story of a no-nonsense working-class girl who hit the big time and enjoyed several happy years as one of the nation's favourite soap stars. Things took a downward turn as her heavy drinking and affair with a married man led to her being hounded by the press. Yet Pete would become the love of her life and together they would experience the unfathomable joy of having a child. This flush of happiness was short-lived, though, as Elaine felt the full impact of her mother's death, while her son James battled for life. It wasn't long before family life revolved around the hospital - hoping for the best, but fearing the worst. Full of larger-than-life characters from her boisterous Irish family and close circle of north London friends, Elaine tells her story with heart-wrenching candour. In this life-affirming memoir of overcoming tragedy, we see how Elaine's indomitable spirit and innate humour have carried her through even the bleakest moments, and how one woman's 'sink or swim' approach has ensured her survival.

This process, embodied by the Hollywood

studio system, has been sustained primarily through genres, those popular narrative formulas like the Western, musical and gangster film, which have dominated the screen arts throughout this century.
