### **Introduction: Unlocking Potential at Phillip O. Berry Academy of Technology**

The Phillip O. Berry Academy of Technology (POBAT) is more than just a school; it's a launchpad for young minds eager to explore the exciting world of technology. Located in the heart of Charlotte, NC, POBAT stands out for its rigorous curriculum, innovative teaching methods, and commitment to fostering a culture of creativity and collaboration. This article will serve as your ultimate resource, covering everything from its academic programs and student life to the admissions process and its overall impact on students' futures.

### **1. Academic Excellence: A Deep Dive into POBAT's Curriculum**

POBAT's strength lies in its specialized, technology-focused curriculum. Students are not just passively learning about technology; they're actively creating and innovating. The academy boasts a wide range of programs catering to various interests within the STEM field. This includes:

**Engineering Pathways:** Students can explore various engineering disciplines like mechanical, electrical, civil, and software engineering through hands-on projects and real-world applications. They may even participate in robotics competitions and design challenges.

**Computer Science Pathways:** From coding fundamentals to advanced programming languages and cybersecurity, this pathway equips students with the in-demand skills needed for success in the tech industry.

**Biomedical Science Pathways:** Students delve into the fascinating world of biology, medicine, and biotechnology, gaining a strong foundation for careers in healthcare and related fields.

**Digital Arts & Design Pathways:** This pathway fosters creativity and innovation through courses in graphic design, animation, video production, and other digital media.

The curriculum isn't just theoretical; it emphasizes practical application through projects, internships, and collaborations with local businesses and universities. This experiential learning approach ensures students graduate with not just knowledge, but valuable real-world skills.

### **2. Extracurricular Activities & Student Life: Beyond the Classroom**

POBAT fosters a vibrant and engaging student life beyond academics. Numerous clubs and organizations cater to diverse interests, promoting teamwork, leadership, and personal growth. These include:

**Robotics Clubs:** Students participate in regional and national robotics competitions, showcasing their engineering and problem-solving skills.

**Coding Clubs:** These clubs provide opportunities for students to collaborate on projects, learn new languages, and participate in hackathons.

**Debate Teams:** Developing critical thinking and communication skills, these teams compete in local and statewide tournaments.

**Art & Design Clubs:** Students showcase their creativity through various mediums, participating in art exhibitions and competitions.

The school also emphasizes community service, encouraging students to give back to the Charlotte community through various volunteer initiatives.

### 3. The Admission Process: Securing Your Place at POBAT

Admission to POBAT is competitive, reflecting its high academic standards. The application process usually involves:

**Submitting an application:** This typically includes filling out an online form and providing necessary information.

**Providing transcripts:** Academic records from the applicant's current school are required to assess their academic performance.

**Taking entrance exams:** Depending on the grade level, applicants may need to take standardized tests to evaluate their abilities.

**Attendance at an information session (often required):** This allows prospective students and families to learn more about the academy and ask questions.

### 4. Resources and Support: A Supportive Learning Environment

POBAT is committed to providing students with the resources and support they need to thrive. This includes:

**Experienced and dedicated teachers:** The faculty is comprised of highly qualified professionals passionate about STEM education.

**State-of-the-art facilities:** The academy boasts modern labs, workshops, and technology resources to support hands-on learning.

**Counseling and guidance services:** Students have access to counselors who provide academic, career, and personal guidance.

### 5. Career Pathways and Post-Graduation Success: Preparing for the Future

POBAT's curriculum is designed to prepare students for successful careers in the technology sector and beyond. The academy actively works to connect students with internships, apprenticeships, and college opportunities. Many graduates go on to attend prestigious universities and colleges, pursuing advanced degrees in STEM fields.

**phillip o berry academy of technology charlotte nc: Leading Learning** Rosemarye Taylor, 2010 'Taylor shows how school leadership actions can turn almost any educational challenge into a positive. Her use of current school administrators as examples, the explanatory charts, and the guiding professional analysis make this book a necessary companion to implementing sustained school reform' - Mary Ann Haas, Retired Executive Director of Curriculum and Instruction, Flagler School District, FL There is no single solution to improving learning and closing the gap for disadvantaged children. Rather, improvement is the result of a number of successful practices used together. This valuable resource shows school and district leaders how specific, consistent actions can result in dramatic change and increased student achievement. From stimulating intellectual growth to making decisions based on data, this book provides leader actions and examples of schools where the gap in learning is closing through exceptional leadership, and includes: - Numerous examples from real schools, offering descriptions and analysis of actions that increase achievement - Interviews with successful headteachers that provide a realistic look at the issues involved - A focus on second-order changes, where small improvements can create dramatic rethinking of the organization, the roles of individuals, and the approach to learning - Ample forms, sample notes, templates, and other materials to get you started Based on theory, but grounded in practice, this book shows headteachers the specific actions they need to take to drive high levels of student achievement in their schools.

**phillip o berry academy of technology charlotte nc: Women's Work** Chris Crisman, 2020-03-03 "A beautiful book that provides genuine encouragement and inspiration. Vivid portrait photography and accompanying essays declare that all work is women's work." —Kirkus Reviews (starred review) In this stunning collection, award-winning photographer Chris Crisman documents the women who pioneered work in fields that have long been considered the provinces of men—with accompanying interviews on how these inspiring women have always paved their own ways. Today, young girls are told they can do—and be—anything they want when they grow up. Yet the unique challenges that women face in the workplace, whether in the boardroom or the barnyard, have never been more publicly discussed and scrutinized. With *Women's Work*, Crisman pairs his award-winning, striking portrait photography of women on the job with poignant, powerful interviews of his subjects: women who have carved out unique places for themselves in a workforce often dominated by men, and often dominated by men who have told them no. Through their stories, we see not only the ins and outs of their daily work, but the emotional and physical labors of the jobs they love. *Women's Work* is a necessary snapshot of how far we've come and where we're heading next—their stories are an inspiration as well as a call to action for future generations of women at work. *Women's Work* features more than sixty beautiful photographs, including Alison Goldblum, contractor; Anna Valer Clark, ranch owner; Ayah Bdeir, CEO of littleBits; Beth Beverly, taxidermist; Carla Hall, blacksmith; Cherise Van Hooser, funeral director; Jordan Ainsworth, gold miner; Magen Lowe, correctional officer; Mindy Gabriel, firefighter; Nancy Poli, pig farmer; Katherine Kallinis Berman and Sophie Kallinis LaMontagne, Founders of Georgetown Cupcake; Doris Kearns Goodwin, presidential biographer; Sophi Davis, cowgirl; Abingdon Welch, pilot; Christy Wilhelmi, beekeeper; Connie Chang, chemical engineer; Danielle Perez, comedienne; Indra Nooyi, former CEO of PepsiCo; Lisa Calvo, oyster farmer; Mia Anstine, outdoor guide; Meejin Yoon, architect; Yoky Matsuoka, a tech VP at Google; and many more.

**phillip o berry academy of technology charlotte nc:** Unconscious Bias in Schools Tracey A. Benson, Sarah E. Fiarman, 2020-07-22 In Unconscious Bias in Schools, two seasoned educators describe the phenomenon of unconscious racial bias and how it negatively affects the work of educators and students in schools. "Regardless of the amount of effort, time, and resources education leaders put into improving the academic achievement of students of color," the authors write, "if unconscious racial bias is overlooked, improvement efforts may never achieve their highest potential." In order to address this bias, the authors argue, educators must first be aware of the racialized context in which we live. Through personal anecdotes and real-life scenarios, Unconscious Bias in Schools provides education leaders with an essential roadmap for addressing these issues directly. The authors draw on the literature on change management, leadership, critical race theory, and racial identity development, as well as the growing research on unconscious bias in a variety of fields, to provide guidance for creating the conditions necessary to do this work—awareness, trust, and a "learner's stance." Benson and Fiarman also outline specific steps toward normalizing conversations about race; reducing the influence of bias on decision-making; building empathic relationships; and developing a system of accountability. All too often, conversations about race become mired in questions of attitude or intention—"But I'm not a racist!" This book shows how information about unconscious bias can help shift conversations among educators to a more productive, collegial approach that has the potential to disrupt the patterns of perception that perpetuate racism and institutional injustice. Tracey A. Benson is an assistant professor of educational leadership at the University of North Carolina at Charlotte. Sarah E. Fiarman is the director of leadership development for EL Education, and a former public school teacher, principal, and lecturer at Harvard Graduate School of Education.

**phillip o berry academy of technology charlotte nc:** *A Riff of Love* Greg Jarrell, 2018-10-12 Surprising teachers. Tragic losses. Unexpected gifts. Every neighborhood has stories, and ways of singing the stories of their place. Start digging in, and you find all sorts of music. In a neighborhood skilled in improvisation, like Enderly Park, you also discover new ways to sing those songs, and a choir of new kinfolk to sing them with. Since 2005, author and saxophonist Greg Jarrell has been learning the songs of Enderly Park, his Charlotte neighborhood. A Riff of Love explores the riffs and

melodies that comprise the life of the neighborhood and of QC Family Tree, the hospitality house where he lives. Though neighbors there face significant economic and political barriers, they still thrive. Funny, heartbreaking, and challenging in equal measure, these stories and essays about life in Enderly Park will surely inspire new improvisations towards community and neighbor-love for everyone who reads them.

The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

A Program for You leads each of us--newcomer or old-timer--to a deeper understanding of recovery as a way of life. A Program for You clears our way for discovering positive, powerful answers to these questions. In the years since 1939, the Big Book, Alcoholics Anonymous, has guided millions in their search for a design for healthy living free of addictive behaviors. Now, two program old-timers share their years of intensive study of the Big Book, revealing the vitality of its message for those of us reading it today. This celebration of the basic text of Twelve Step recovery breathes new life into the Big Book's timeless wisdom. Thoroughly annotated line and page, written with down-to-earth humor and simplicity, and providing a contemporary context for understanding, A Program for You helps us experience the same path of renewal that Bill W. and the first on hundred AA members did.

**phillip o berry academy of technology charlotte nc: The Untold Story of Women of Color in the League of Women Voters** Carolyn Jefferson-Jenkins, 2020-02-24 The Untold Story of Women of Color in the League of Women Voters explores ways in which these women have been marginalized and recognizes how their contributions will positively influence the organization as it moves into its next 100 years. On February 14, 2020, the League of Women Voters of the United States celebrated the 100th anniversary of its founding. Although women of color have always made significant contributions to women's suffrage and the women's movements, their contributions, particularly as they relate to the League of Women Voters (LWV), have been marginalized and relegated to the footnotes of the organization's history. The Untold Story of Women of Color in the League of Women Voters adds a new dimension to these conversations. The book is structured to show the progression of the relationship between the League of Women Voters and its members of color as manifested in changes to its policies, practices, symbols, and messaging. It begins with the suffrage movement and continues until the celebration of the 100th anniversary of the League and uses actual correspondence, convention minutes, existing League histories, and personal accounts to tell the League story. Chapter titles disclose the philosophical shifts in attitude at each stage of the organization's evolution.

By reconstructing as complete a picture as possible of this group of women, Green and LaDuke reveal insights into the larger scientific and cultural communities in which they lived and worked. The book contains an extended introductory essay, as well as biographical entries for each of the 228 women in the study. The authors examine family backgrounds, education, careers, and other professional activities. They show that there were many more women earning PhD's in mathematics before 1940 than is commonly thought. The material will be of interest to researchers, teachers, and students in mathematics, history of mathematics, history of science, women's studies, and sociology.--BOOK JACKET.
