portneuf health trust amphitheatre: *Please Please Tell Me Now* Stephen Davis, 2021-06-29
Lifelong fans and interested newcomers will love this stunning biography of Duran Duran by the bestselling author of *Gold Dust Woman* and *Hammer of the Gods*. In *Please Please Tell Me Now*, bestselling rock biographer Stephen Davis tells the story of Duran Duran, the quintessential band of the 1980s. Their pretty boy looks made them the stars of fledgling MTV, but it was their brilliant musicianship that led to a string of number one hits. By the end of the decade, they had sold 60 million albums; today, they've sold over 100 million albums—and counting. Davis traces their roots to the austere 1970s British malaise that spawned both the Sex Pistols and Duran Duran—two seemingly opposite music extremes. Handsome, British, and young, it was Duran Duran that headlined Live Aid, not Bob Dylan or Led Zeppelin. The band moved in the most glamorous circles: Nick Rhodes became close with Andy Warhol, Simon LeBon with Princess Diana, and John Taylor dated quintessential British bad girl Amanda De Cadanet. With timeless hits like *Hungry Like the Wolf*, *Girls on Film*, *Rio*, *Save a Prayer*, and the bestselling James Bond theme in the series' history, *A View to Kill*, Duran Duran has cemented its legacy in the pop pantheon—and with a new album and a worldwide tour on the way, they show no signs of slowing down anytime soon. Featuring exclusive interviews with the band and never-before-published photos from personal archives, *Please Please Tell Me Now* offers a definitive account of one of the last untold sagas in rock and roll history—a treat for diehard fans, new admirers, and music lovers of any age.

portneuf health trust amphitheatre: I Ain't Studdin' Ya Bobby Rush, 2021-06-22 Experience music history with this memoir by one of the last of the genuine old school Blues and R&B legends, the Grammy-winning dynamic showman Bobby Rush. This memoir charts the extraordinary rise to fame of living blues legend, Bobby Rush. Born Emmett Ellis, Jr. in Homer, Louisiana, he adopted the stage name Bobby Rush out of respect for his father, a pastor. As a teenager, Rush acquired his first real guitar and started playing in juke joints in Little Rock, Arkansas, donning a fake mustache to trick club owners into thinking he was old enough to gain entry. He led his first band in Arkansas between Little Rock and Pine Bluff in the 1950s. It was there he first had Elmore James play in his band. Rush later relocated to Chicago to pursue his musical career and started to work with Earl Hooker, Luther Allison, and Freddie King, and sat in with many of his musical heroes, such as Howlin' Wolf, Muddy Waters, Jimmy Reed and Little Walter. Rush eventually began leading his own band in the 1960s, crafting his own distinct style of funky blues, and recording a succession of singles for various labels. It wasn't until the early 1970s that Rush finally scored a hit with Chicken Heads. More recordings followed, including an album which went on to be listed in the Top 10 blues albums of the 1970s by Rolling Stone and a handful of regional jukebox favorites including Sue and I Ain't Studdin' Ya. And Rush's career shows no signs of slowing down now. The man once beloved for performing in local jukejoints is now headlining major music/blues festivals, clubs, and theaters across the U.S. and as far as Japan and Australia. At age eighty-six, he is still on the road for over 200 days a year. His lifelong hectic tour schedule has earned him the affectionate title King of the Chitlin' Circuit, from Rolling Stone. In 2007, he earned the distinction of being the first blues artist to play at the Great Wall of China. His renowned stage act features his famed shake dancers, who personify his funky blues and his ribald sense of humor. He was featured in Martin Scorsese's The Blues docuseries on PBS, a documentary film called Take Me to the River, performed with Dan Aykroyd on The Tonight Show Starring Jimmy Fallon, and most recently had a cameo in the Golden Globe nominated Netflix film, Dolemite Is My Name, starring Eddie Murphy. He was recently given the highest Blues Music Award honor of B.B. King Entertainer of the Year. His songs have also been featured in TV shows and films including HBO's Ballers and major motion pictures like Black Snake Moan, starring Samuel L. Jackson. Considered by many to be the greatest bluesman currently performing, this book will give readers unparalleled access into the man, the myth, the legend: Bobby Rush.

portneuf health trust amphitheatre: Nu Metal Matt Karpe, 2021-07-29 Nu Metal: A Definitive Guide revisits one of the most remarkable eras of heavy music, when mainstream charts, magazines, radio, and TV were all taken over by a host of diverse artists performing their own brands of hard rock and heavy metal. This book features an A-Z run down of the movement's most influential artists, from the main players such as Korn, Limp Bizkit, Linkin Park, Slipknot, and System Of A Down, to the lesser-known acts who may have only released one or two albums yet still made a lasting impact. It also looks at the new breed of bands coming through today who still share nu metal's original aesthetics. The book also includes exclusive interviews with musicians from some of the original movement's most prominent acts (Coal Chamber, Kittie, Staind, Taproot, and more), plus informative essays on its record producers, its collaborations with hip-hop artists, movie soundtracks and a brief history of heavy metal as a genre. Nu Metal: A Definitive Guide is the most in-depth book ever to be released on the most successful period in heavy metal's lengthy history.

portneuf health trust amphitheatre: Myfarog Varg Vikernes, 2019-07-24 MYFAROG (Mythic Fantasy Role-playing Game) (3rd edition) is a fantasy role-playing game, with a setting based on European mythology, religion and fairy tales. The rules are very modular, meaning you can play the game rules light or rules heavy, as you please. The rules are designed to make sense, and to give the

players the ability to immerse themselves in Thulê; a highly credible fantasy world similar to Middle-earth and the European Classical Antiquity (some places touching into the Viking Age or the Bronze Age), but yet different. In Thulê, sorcery and the ancient deities are real, and the world is inhabited by not only humans, but also elves, nymphs, dwarves, orcs, gnomes, halflings, ettins and trolls, as well as other creatures. This art-minimalistic 221 page core rule-book (with black-and-white interior) is an all-in-one rule-book, so it contains all the information you need to play the game (and to make your own adventures and campaigns) indefinitely. A digital high resolution map of Thulê can be found here: www.myfarog.org. Because the setting is based on real world locations (Lofoten and Vesterålen in Northern Norway) you can also use online map services, to get highly detailed and realistic maps of the world of Thulê, in any scale you want. NB! You need a set of polyhedral dice to play the game.

portneuf health trust amphitheatre: *Mrs. Simcoe's Diary* Elizabeth Posthuma Simcoe, 2007-12-10 Elizabeth Simcoe's diary, describing Canada from 1791 to 1796, is history written as it was being made. Created largely while she was seated in canoes and bateaux, the diary documents great events in a familiar way and opens our eyes to a side of Canadian history that is too little shown. During her time in Upper Canada (now Ontario), Mrs. Simcoe encountered fascinating figures, such a explorer, Alexander Mackenzie, and Mohawk Chief, Joseph Brant. She took particular interest in the First Nations people, the social customs of the early settlers, and the flora and fauna of a land that contained a mere 10, 000 non-Natives in 1791. The realm she observed so vividly was quite alien to a woman used to a world of ball gowns, servants, and luxury in England, but the lieutenant-governor's wife was made of stern stuff and embraced her new environment with relish, leaving us with an account instilled with excitement and delight at everything she witnessed.

portneuf health trust amphitheatre: *Pulse crops for sustainable farms in sub-Saharan Africa* Food and Agriculture Organization of the United Nations, 2018-05-22 Pulses have a long history in sub-Saharan Africa due to their multiple benefits. Pulses, and legumes in general, can play an important role in agriculture because of their ability to biologically fix atmospheric nitrogen and to enhance the biological turnover of phosphorus; thus they could become the cornerstone of sustainable agriculture in Africa. In this sense, there is a body of literature that points to diversification of existing production systems - particularly legumes species, which provide critical environmental services, including soil erosion control and soil nutrient recapitalization. This publication is a review of some of the promising strategies to support the cultivation and utilization of pulses on smallholder farms in sub-Saharan Africa. The review is part of the legacy of the International Year of Pulses (IYP), which sought to recognize the contribution that pulses make to human well-being and the environment.

portneuf health trust amphitheatre: *The Shawinigan Fox: How Jean Chrétien Defied the Elites and Reshaped Canada* Bob Plamondon, 2017-10-18 Jean Chrétien's critics have said he was a

man with no vision and a short attention span – a small-town hick who stumbled his way to become Canada's 20th prime minister. Whatever credit the Chrétien government deserved was often given to Paul Martin, the heir apparent who was touted to be the brains behind the operation. But while Chretien was the subject of ridicule, he was quietly giving his competitors – both inside and outside of the Liberal party – a master class in politics, leadership and nation-building. His decisions, which often ran counter to elite opinion, fundamentally reshaped and strengthened Canada as it entered the 21st century. Chrétien restored sanity to government finances, kept Canada out of the Iraq war, turned a brain drain into a brain gain, and established clarity over national unity. Relying on new evidence, detailed analysis and exclusive interviews with former cabinet ministers, provincial premiers, political staff, strategists, and high-ranking bureaucrats – many of them speaking publicly for the first time – bestselling author and historian Bob Plamondon tells the surprising inside story of the Chretien years, including: what Chretien would have done if the 1995 referendum had ended in a vote for separation; why Paul Martin secretly threatened to resign in 1995, seven years before he actually quit; who tried to convince Chretien to join the Iraq war and why he could not be intimidated into joining the US-led coalition; why a lifelong Liberal was the most conservative prime minister in Canadian history; the shocking details of the Chretien-Martin feud and the only time an elected Canadian prime minister has been overthrown. Until now, the story of Chretien's time as prime minister has been largely misunderstood. Plamondon sets the record straight and provides compelling lessons about political leadership and problem-solving from a critical chapter in Canadian history.

The database is based on the average values presented in FAO/INFOODS Global Food Composition Database for Pulses (uPulses1.0) – version 1.0 but expressed per 100 g edible portion on dry matter. The majority of data are analytical data complemented by data from other published sources covering data on proximates, minerals, vitamins, phytic acid, amino acids and fatty acids fractions in raw and processed forms.
