rbc wealth management online: *The Measure of My Powers* Jackie Kai Ellis, 2018-03-06

INSTANT NATIONAL BESTSELLER AND SHORTLISTED FOR THE 2019 TASTE CANADA AWARDS AND THE RAKUTEN KOBO EMERGING WRITER PRIZE. For fans of *Eat Pray Love*, *Wild*, and *H is for Hawk*, *The Measure of My Powers* is the story of one woman's search for self-love, experienced through food and travel. With searing vulnerability and unflinching honesty, Jackie Kai Ellis takes us on an intense and immersive journey from her darkest moments to the redemption she finds through her love of food, Paris, and ultimately, herself. --Jen Waite, bestselling author of *A Beautiful, Terrible Thing* On the surface, Jackie Kai Ellis's life was the one that she and every woman wanted. She was in her late twenties and married to a handsome man, she had a successful career as a designer, and she had a beautiful home. But instead of feeling fulfilled, happy, and loved, each morning she'd wake up dreading the day ahead, searching for a way out. Depression clouded every moment, the feelings of inadequacy that had begun in childhood now consumed her, and her marriage was slowly transforming into one between strangers--unfamiliar, childless, and empty. In the darkness, she could only find one source of light: the kitchen. It was the place where Jackie escaped, finding peace, comfort, and acceptance. This is the story of one woman's journey to find herself. Armed with nothing but a love of food and the words of the 20th-century food writer M.F.K. Fisher, she travels from France to Italy, then the Congo, and back again. Along the way, she goes to pastry school in Paris, eats the most perfect apricots over the Tuscan hills, watches a family of gorillas grazing deep in the Congolese brush, has her heart broken one last time on a bridge in Lyon, and, ultimately, finds a path to life and joy. Told with insight and intimacy, and radiating with warmth and humor, *The Measure of My Powers* is an inspiring memoir, and an unforgettable experience of the senses.

rbc wealth management online: Planet Canada John Stackhouse, 2020-10-06 A leading thinker on Canada's place in the world contends that our country's greatest untapped resource may be the three million Canadians who don't live here. Entrepreneurs, educators, humanitarians: an entire province's worth of Canadian citizens live outside Canada. Some will return, others won't. But what they all share is the ability, and often the desire, to export Canadian values to a world sorely in need of them. And to act as ambassadors for Canada in industries and societies where diplomatic efforts find little traction. Surely a country with people as diverse as Canada's ought to plug itself into every corner of the globe. We don't, and sometimes not even when our expats are eager to help. Failing to put this desire to work, contends bestselling author and longtime foreign correspondent John Stackhouse, is a grave error for a small country whose voice is getting lost behind developing nations of rapidly increasing influence. The soft power we once boasted is getting softer, but we have an unparalleled resource, if we choose to use it. To ensure Canada's place in the world, Stackhouse argues in *Planet Canada*, we need this exceptional province of expats and their special claim on the twenty-first century.

rbc wealth management online: Bush Runner Mark Bourrie, 2019-04-02 WINNER OF THE 2020 RBC TAYLOR PRIZE • Readers might well wonder if Jonathan Swift at his edgiest has been at work.—RBC Taylor Prize Jury Citation • A remarkable biography of an even more remarkable 17th-century individual ... Beautifully written and endlessly thought-provoking.—Maclean's Murderer. Salesman. Pirate. Adventurer. Cannibal. Co-founder of the Hudson's Bay Company. Known to some as the first European to explore the upper Mississippi, and widely as the namesake of ships and hotel chains, Pierre-Esprit Radisson is perhaps best described, writes Mark Bourrie, as "an eager hustler with no known scruples." Kidnapped by Mohawk warriors at the age of fifteen, Radisson assimilated and was adopted by a powerful family, only to escape to New York City after less than a year. After being recaptured, he defected from a raiding party to the Dutch and crossed the Atlantic to Holland—thus beginning a lifetime of seized opportunities and frustrated ambitions. A guest among First Nations communities, French fur traders, and royal courts; witness to London's Great Plague and Great Fire; and unwitting agent of the Jesuits' corporate espionage, Radisson double-crossed the English, French, Dutch, and his adoptive Mohawk family alike, found himself marooned by pirates in Spain, and lived through shipwreck on the reefs of Venezuela. His most lasting venture as an Arctic fur trader led to the founding of the Hudson's Bay Company, which operates today, 350 years later, as North America's oldest corporation. Sourced from Radisson's journals, which are the best first-hand accounts of 17th century Canada, Bush Runner tells the extraordinary true story of this protean 17th-century figure, a man more trading partner than colonizer, a peddler of goods and not worldview—and with it offers a fresh perspective on the world in which he lived.

rbc wealth management online: A-List Angels Zack O'Malley Greenburg, 2020-03-10 How Hollywood cashed in on the latest tech boom-and changed the face of Silicon Valley. When Ashton Kutcher first heard about 50 Cent's nine-figure Vitaminwater windfall in 2007, the actor realized he'd been missing out. He soon followed the rapper's formula-seeking equity instead of cash for endorsement deals-but with a twist: as the first person to top 1 million Twitter followers, Kutcher leveraged his social reach to accumulate stakes in a vast range of user-hungry tech startups. A decade later, Kutcher is perhaps the brightest in a firmament of star investors from Beyoncé and Jay-Z to Jennifer Lopez and Alex Rodriguez. Bartering credibility and connections in exchange for early (and often discounted) access to the world's most coveted investment opportunities, this diverse group changed the face of venture capital while amassing portfolios packed with companies

like Airbnb, Spotify, and Uber. But how did two once-dissonant universes-Silicon Valley and Hollywood-become intertwined? Forbes senior editor Zack O'Malley Greenburg told the first chapter of Kutcher's transformation for the magazine's cover story in 2016. Now he offers a lively, page-turning account of how this motley crew of talent managers, venture capitalists, and celebrities helped the creative class forge a brand-new blueprint for generational wealth. Through extensive reporting and exclusive interviews with more than 100 key players-including Shaq, Nas, Joe Montana, Sophia Bush, Steve Aoki, Tony Gonzalez, and dozens of behind-the-scenes power brokers-Greenburg sheds light on the unlikely group that fundamentally transformed the value of fame.

rbc wealth management online: Women Driven to Success Jane S. Goldner, 2013-09-16 Women today are being told by successful businesswomen that the key to 'having it all' is leaning in. Dr. Jane Goldner, on the other hand, believes that success is not a one size fits all concept. She states that women can have it all, but poses the question: What does 'it all' really mean? Throughout the book, Dr. Goldner provides the answer that it all is different for each person, and discusses the paths women have taken to go from homemakers to doing dishes, diapers, and million-dollar deals, with many choices in-between. A critical lesson is that before a woman leans in, she needs to figure out her all. Based on her own life experiences and those of 14 other highly successful senior-level professional women, WOMEN DRIVEN TO SUCCESS provides examples of role models as well as a tool kit to help women define and live THEIR ALL. Among the many topics that Dr. Goldner covers in her book are: The need for each woman to define her own CORE, her 'North Star'; Why being 'everything to everybody' is NOT the answer; Learning the skills of negotiation and confrontation; The important difference between taking personal time to stay healthy, and having to take time to be sick. Dr. Goldner is a business consultant with nearly 30 years experience. She's worked with multiple Fortune 500 companies, the US Military and with some of the foremost executive leaders in the country. In addition, Dr. Goldner is both an adjunct professor at the Coles School of Business Kennesaw State University and in the Leadership and Organization Development Master's Degree program at PCOM.

rbc wealth management online: Re-Imagining Capitalism Dominic Barton, Dezső Horváth, Matthias Kipping, 2016-08-26 Capitalism has been an unprecedented engine of wealth creation for many centuries, leading to sustained productivity gains and long-term growth and lifting an increasing proportion of humanity out of poverty. But its effects, and hence its future, have come increasingly under question: Is capitalism still improving wealth and well-being for the many? Or, is long-term value creation being sacrificed to the pressures of short-termism, with potentially far-reaching consequences for society, the natural environment, prosperity, and global order? Building on a collaboration between the Schulich School of Business and global management consultancy McKinsey & Company, this volume reflects both the urgency of the needed action and the tremendous opportunity to forge consensus and catalyze a lasting movement toward a more responsible, long-term, and sustainable model of capitalism. This unique volume brings together many of the leading proponents for a reformed, re-imagined capitalism from the fields of academia, business, and NGOs. Its contributors have been at the forefront of thought and action in regard to the future of capitalism. Both individually and collectively, they provide powerful suggestions of what such a long-term oriented model of capitalism should look like and how it can be achieved. Drawing on their research and professional experience, they write in an accessible style aiming to reach the broad audiences required to turn a re-imagined capitalism into a reality.

rbc wealth management online: The Little Book of Common Sense Investing John C. Bogle, 2017-09-19 The best-selling investing bible offers new information, new insights, and new perspectives The Little Book of Common Sense Investing is the classic guide to getting smart about the market. Legendary mutual fund pioneer John C. Bogle reveals his key to getting more out of investing: low-cost index funds. Bogle describes the simplest and most effective investment strategy for building wealth over the long term: buy and hold, at very low cost, a mutual fund that tracks a broad stock market Index such as the S&P 500. While the stock market has tumbled and then soared since the first edition of Little Book of Common Sense was published in April 2007, Bogle's investment principles have endured and served investors well. This tenth anniversary edition includes updated data and new information but maintains the same long-term perspective as in its predecessor. Bogle has also added two new chapters designed to provide further guidance to investors: one on asset allocation, the other on retirement investing. A portfolio focused on index funds is the only investment that effectively guarantees your fair share of stock market returns. This strategy is favored by Warren Buffett, who said this about Bogle: “If a statue is ever erected to honor the person who has done the most for American investors, the hands-down choice should be Jack Bogle. For decades, Jack has urged investors to invest in ultra-low-cost index funds. . . . Today, however, he has the satisfaction of knowing that he helped millions of investors realize far better returns on their savings than they otherwise would have earned. He is a hero to them and to me.”

Bogle shows you how to make index investing work for you and help you achieve your financial goals, and finds support from some of the world's best financial minds: not only Warren Buffett, but Benjamin Graham, Paul Samuelson, Burton Malkiel, Yale's David Swensen, Cliff Asness of AQR, and many others. This new edition of *The Little Book of Common Sense Investing* offers you the same solid strategy as its predecessor for building your financial future. Build a broadly diversified, low-cost portfolio without the risks of individual stocks, manager selection, or sector rotation. Forget the fads and marketing hype, and focus on what works in the real world. Understand that stock returns are generated by three sources (dividend yield, earnings growth, and change in market valuation) in order to establish rational expectations for stock returns over the coming decade. Recognize that in the long run, business reality trumps market expectations. Learn how to harness the magic of compounding returns while avoiding the tyranny of compounding costs. While index investing allows you to sit back and let the market do the work for you, too many investors trade frantically, turning a winner's game into a loser's game. *The Little Book of Common Sense Investing* is a solid guidebook to your financial future.

Brad and Ted Klontz, a father and son team of pioneers in the emerging field of financial psychology explain, our disordered relationships with money aren't our fault. They don't stem from a lack of knowledge or a failure of will. Instead, they are a product of subconscious beliefs and thought patterns, rooted in our childhoods, that are so deeply ingrained in us, they shape the way we deal with money our entire

adult lives. But we are not powerless. By looking deep into ourselves and our pasts, we can learn to recognize these negative and self-defeating patterns of thinking, and replace them with better, healthier ones. Drawing on their decades of experience helping patients resolve their troubling issues with money, the Klontzes describe the twelve most common “money disorders” - like financial infidelity, money avoidance, compulsive shopping, financial enabling, and more — and explain how we can learn to identify them, understand their root causes, and ultimately overcome them. So whether you want to learn how to make better financial decision, have more open communication with your spouse or kids about the family finances, or simply be better equipped to deal with the challenges of these tough economic times, this book will help you repair your dysfunctional relationship with money and live a healthier financial life.

rbc wealth management online: The First Blade of Sweetgrass Suzanne Greenlaw, Gabriel Frey, 2021-08-10 Selected for the Notable Social Studies 2022 List Named to ALA Notable Children's Books 2022 In this Own Voices Native American picture book story, a modern Wabanaki girl is excited to accompany her grandmother for the first time to harvest sweetgrass for basket making. Musquon must overcome her impatience while learning to distinguish sweetgrass from other salt marsh grasses, but slowly the spirit and peace of her surroundings speak to her, and she gathers sweetgrass as her ancestors have done for centuries, leaving the first blade she sees to grow for future generations. This sweet, authentic story from a Maliseet mother and her Passamaquoddy husband includes backmatter about traditional basket making and a Wabanaki glossary.

rbc wealth management online: Peace, Love and Fibre Mairlyn Smith, 2019-05-07 Mairlyn Smith's hilarious approach to all foods nutritious and fibre-filled has made her a daytime television favourite. We live for her tasty recipes, her easy-to-digest prep advice, and, of course, her ability to never take herself too seriously. --Tracy Moore, host of Cityline The world's funniest professional home economist, self-appointed Queen of Fibre, and TikTok creator behind the viral Fart Walk trend is back with a beautiful cookbook and a guide to healthy living! Mairlyn Smith, media personality, professional home economist, and author of six bestselling cookbooks, has made it her mission to bring healthy living and flavourful, fibre-rich eating to the masses. But, living healthfully isn't only about the food—it's about your whole approach to life, from how much you exercise to how you cope with stress and the types of people you surround yourself with. And it's because of Mairlyn's belief in the overall power of mind, body, and spirit that her personal motto is peace, love, and fibre. She invites peace into her life through quiet moments in nature and a practice of gratitude; love comes from family, friends, and a fulfilling career. As for fibre? Well, Mairlyn and fibre go way back. In fact, Mairlyn believes that in order to be on top of your game, you absolutely must have a fibre-rich diet. In her newest cookbook, Mairlyn breaks down exactly what fibre is, and why it is such an important part of a healthy life. In *Fibre 101* or *How to Get an A+ on Your Colonoscopy*, Mairlyn covers all the basics, using her trademark sense of humour and enthusiasm. You'll learn how fibre positively affects your blood sugar levels and gut health, and how it reduces the risk of certain types of cancer. Then, Mairlyn will teach you exactly how to create a more balanced, fibre-rich diet, without going overboard. Moving into the recipes, you'll find a mouthwatering assortment of choices for every meal and occasion, with dishes such as Pumpkin Spice Griddle Cakes, Cheddar Cheese Mini Dinner Biscuits, Lentil & Wheat Berry Salad with Strawberries & Mint, Slow-Cooker Pulled Pork, Chicken & Chickpea Curry, and even desserts like Chocolate Fudge Cake! Each recipe has full nutritional breakdowns and helpful icons to highlight the vegetarian, vegan, lactose-free, and gluten-free dishes. Sprinkled throughout are Mairlyn's musings on life, love, and everything in between. Both a beautiful cookbook and a guide to healthy living, *Peace, Love & Fibre* will have you feeling your best—inside and out—in no time at all.

rbc wealth management online: Artificial Intelligence in Banking Introbooks, 2020-04-07 In these highly competitive times and with so many technological advancements, it is impossible for any industry to remain isolated and untouched by innovations. In this era of digital economy, the banking sector cannot exist and operate without the various digital tools offered by the ever new innovations happening in the field of Artificial Intelligence (AI) and its sub-set technologies. New

technologies have enabled incredible progression in the finance industry. Artificial Intelligence (AI) and Machine Learning (ML) have provided the investors and customers with more innovative tools, new types of financial products and a new potential for growth. According to Cathy Bessant (the Chief Operations and Technology Officer, Bank of America), AI is not just a technology discussion. It is also a discussion about data and how it is used and protected. She says, In a world focused on using AI in new ways, we're focused on using it wisely and responsibly.

rbc wealth management online: Plunkett's Investment & Securities Industry Almanac Jack W. Plunkett, 2008 The investment and securities industry is rebounding from the dismal markets of the early 2000s. Improved corporate profits, low interest rates and efforts to improve corporate governance have led the way, despite recent scandals in the mutual funds industry. Meanwhile, the investment industry is increasingly a global business. This is partly due to the needs of multinational corporations to list their stocks or issue debt in more than one nation. For example, ADRs (American Depositary Receipts) are increasingly popular instruments. Cross-border investments and acquisitions continue at a rapid pace. Discount brokerages are enjoying improved levels of trading, while investment banks are developing new ways to create lucrative fees. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete investments, securities and asset management market research and business intelligence tool -- everything you need to know about the business of investments, including: 1) Investment banking, 2) Stock brokers, 3) Discount brokers, 4) Online brokers, 5) Significant trends in financial information technologies, 6) Asset management, 7) Stock ownership by individuals and households, 8) 401(k)s and pension plans, 9) Mutual funds, 10) ETFs (Exchange traded funds), 11) ECNs (Electronic Communication Networks), 12) Developments at the NYSE and other exchanges. The book includes a complete chapter of vital industry statistics, an industry glossary, a complete list of industry contacts such as industry associations and government agencies, and our in-depth profiles of more than 300 leading firms in the investment and asset management business. A CD-ROM database of these firms is included with the book.

rbc wealth management online: I Thought He Was Dead Ralph Benmergui, 2021-09-28 When Ralph Benmergui discovered he was literally hours away from a deadly heart attack he realized his life had changed. He was entering the autumn of his life, as he saw it, and he was being dragged into it by his heels. What follows this awakening is a funny, profound, and generous look at where he came from--from his childhood as the youngest son of Moroccan immigrants, to his experiences during the early years of Yuk Yuk's, to his long and storied career at CBC, and much more--to where he is now, with stents in his arteries, having survived two bouts of cancer, hosting a much-loved podcast, and with a practice in Hashpa'ah: Jewish Spiritual Direction. Along the way Benmergui looks critically at what it means to grow old in our society and challenges the reader to push against the stereotypes, to find a new purpose, and to claim the title and role of elder in a society that demands we strive to stay forever young.
