

Questions To Ask Oncologist On First Visit

Questions to Ask Your Oncologist on Your First Visit: A Comprehensive Guide

A cancer diagnosis is life-altering. The whirlwind of emotions – fear, uncertainty, and anger – can make it difficult to process information, let alone formulate the right questions for your oncologist. Your first appointment is crucial; it sets the stage for your treatment journey. This comprehensive guide provides a structured list of essential questions to ask your oncologist during your initial consultation, empowering you to take control and make informed decisions about your health. We'll cover everything from understanding your diagnosis and treatment options to managing side effects and exploring support resources. This isn't just about asking questions; it's about building a strong doctor-patient relationship built on trust and open communication.

Understanding Your Diagnosis

What type of cancer do I have, and what stage is it? This is the foundational question. Understanding the specific type of cancer and its stage (I-IV) will help you grasp the severity and potential treatment approaches. Don't hesitate to ask for clarification if the medical terminology is confusing. Ask for a written explanation if needed.

Can you explain the diagnosis in simple terms? Medical jargon can be overwhelming. Ask your oncologist to explain everything in a way you can understand, using analogies or everyday language if necessary. It's your right to receive clear and concise information.

What tests were conducted to reach this diagnosis, and what were the results? Review the results of your biopsies, imaging scans (CT, MRI, PET), blood tests, and any other diagnostic procedures. Understanding the evidence behind your diagnosis builds confidence in the treatment plan.

What are the possible causes of my cancer? While not always possible to pinpoint a single cause, understanding potential risk factors can help you make lifestyle changes to prevent future issues.

Exploring Treatment Options

What are my treatment options, and what are the pros and cons of each? This is a crucial question. Get a detailed explanation of each option, including surgery, chemotherapy, radiation therapy, targeted therapy, immunotherapy, or a combination of these. Discuss potential benefits, risks, and side effects.

What is the expected success rate of each treatment option for my specific case? Success rates vary

depending on the type and stage of cancer. Understanding these statistics will help you weigh the risks and benefits of each approach. Don't be afraid to ask for specific data related to your situation.

What are the potential long-term side effects of each treatment? Be prepared to discuss potential side effects, both short-term and long-term, of each treatment option. This is essential for managing your expectations and making informed decisions.

What is the likely duration of treatment? Understanding the timeline of your treatment will help you plan your life accordingly. This includes the frequency and duration of appointments, hospital stays, and recovery periods.

Will I need additional specialists involved in my care? Cancer treatment often involves a multidisciplinary team. This might include surgeons, radiologists, pathologists, nurses, and other healthcare professionals. Knowing who is involved will provide a comprehensive picture of your care.

Managing Side Effects and Quality of Life

What are the common side effects of the recommended treatment, and how can they be managed? Discuss potential side effects and the strategies to mitigate them. This might involve medication, lifestyle changes, or supportive care.

What support services are available to help me cope with the treatment and its side effects? Inquire about available resources such as support groups, counseling, physical therapy, and nutrition counseling. Managing the emotional and physical challenges of cancer treatment requires a comprehensive approach.

How will my treatment impact my daily life and activities? Discuss how the treatment will affect your work, social life, and overall quality of life. This will help you plan accordingly and make appropriate adjustments.

What are the warning signs I should watch for during and after treatment? Knowing what to look for can help you identify potential complications early on and seek prompt medical attention.

Long-Term Care and Follow-Up

What is the long-term outlook for my cancer? While predicting the future is impossible, discussing the prognosis and potential long-term effects will provide valuable insight into your health journey.

What kind of follow-up care will I need after treatment is completed? Understand the frequency and nature of your post-treatment appointments and monitoring. This will ensure you receive timely detection of any recurrences or complications.

Where can I find reliable information and resources about my type of cancer? Your oncologist can

direct you to reputable websites, support groups, and research organizations that offer valuable information and support.

Building a Strong Doctor-Patient Relationship

Remember, your oncologist is your partner in this journey. Don't hesitate to ask clarifying questions, express your concerns, and advocate for your needs. Building a strong, trusting relationship with your oncologist is essential for effective treatment and optimal outcomes. Write down your questions beforehand, bring a friend or family member for support, and don't be afraid to ask for a second opinion if you feel uncertain. Your health is paramount, and you have the right to be fully informed and actively involved in your cancer care.

Ebook Outline: "Navigating Your Cancer Journey: Essential Questions for Your Oncologist"

Name: Navigating Your Cancer Journey: Essential Questions for Your Oncologist

Contents:

Introduction: The importance of asking questions, the power of patient advocacy, and setting expectations for the consultation.

Chapter 1: Understanding Your Diagnosis: Questions about cancer type, stage, test results, and potential causes.

Chapter 2: Exploring Treatment Options: Questions about available treatments, their pros and cons, success rates, side effects, and duration.

Chapter 3: Managing Side Effects and Quality of Life: Questions about side effect management, support services, impact on daily life, and warning signs.

Chapter 4: Long-Term Care and Follow-Up: Questions about long-term outlook, follow-up care, and finding reliable resources.

Chapter 5: Building a Strong Doctor-Patient Relationship: Tips for effective communication, seeking second opinions, and advocating for your needs.

Conclusion: Recap of key takeaways and encouragement for proactive patient participation.

(The detailed explanation of each chapter is provided in the article above.)

FAQs

1. What if I forget to ask a question during my appointment? Schedule a follow-up appointment to address any unanswered questions. You can also contact your oncologist's office by phone or email.

2. Is it okay to bring a friend or family member to my appointment? Absolutely! Having someone else present can help you remember important details and process information more effectively.
3. Should I write down my questions beforehand? Yes, writing down your questions will help ensure you don't forget anything important.
4. How much time should I allot for my first appointment? Plan for at least an hour, potentially more, to allow ample time for discussion.
5. What if I don't understand something my oncologist says? Don't hesitate to ask for clarification. It's crucial that you understand your diagnosis and treatment plan.
6. Can I record my appointment? It's best to check with your oncologist's office about their policy regarding recording appointments.
7. Is it okay to seek a second opinion? Absolutely! Getting a second opinion is a common and acceptable practice.
8. How do I find reliable information about my type of cancer? Your oncologist can provide you with reliable resources. Also, look for information from reputable organizations like the National Cancer Institute (NCI) and the American Cancer Society (ACS).
9. What if I feel overwhelmed or anxious? Don't hesitate to seek support from friends, family, support groups, or mental health professionals.

questions to ask oncologist on first visit: Communication in Cancer Care F. Stiefel, 2006-09-13 This book covers all the relevant aspects of communication in cancer care, such as communication in cancer prevention and genetic counseling, communication at different stages of disease and communication with the family and children. In addition, more general topics are discussed, such as the benefits and evidence of communication skills training and the challenges of interdisciplinary and cross-cultural communication.

questions to ask oncologist on first visit: Chris Beat Cancer Chris Wark, 2021-01-05 Now in paperback, the Wall Street Journal best-selling guide to charting a path from cancer to wellness through a toxin-free diet, lifestyle, and therapy--created by a colon cancer survivor. Millions of readers have followed Chris Wark's journey on his blog and podcast Chris Beat Cancer, and in his debut work, he dives deep into the reasoning and scientific foundation behind the approach and strategies that he used to successfully heal his body from stage-3 colon cancer. Drawing from the most up-to-date and rigorous research, as well as his deep faith, Wark provides clear guidance and continuous encouragement for his healing strategies, including his Beat Cancer Mindset; radical diet, and lifestyle changes; and means for mental, emotional, and spiritual healing. Packed with both intense personal insight and extensive healing solutions, the Wall Street Journal best-selling Chris Beat Cancer will inspire and guide you on your own journey toward wellness.

questions to ask oncologist on first visit: Introduction to Lymphoma , 2023

questions to ask oncologist on first visit: Taking Charge of Cancer David Palma, 2017-07-01 A critical resource for anyone with a cancer diagnosis. Written by a radiation oncologist and cancer researcher, Taking Charge of Cancer offers an insider's guide to understanding and receiving the best treatment options, choosing the right medical team, and approaching this difficult time with knowledge and hope. Receiving a cancer diagnosis can be terrifying, and the first thing you probably want to know is: How am I going to survive this? Cancer care requires decisions from numerous professionals, delivering treatments that are potentially life-saving, but also potentially dangerous and life-threatening. The chances of cure and survival for any given patient depend on the expertise of the cancer team, and whether procedures are in place to ensure that cancer care is delivered properly. So, how can you make sure you choose the right treatment team and ensure the best chances of survival and long-term health after being diagnosed with cancer? Taking Charge of Cancer is a different type of book for cancer patients—one that goes beyond the cancer information that is currently available, allowing you to truly take control of your cancer treatment. You'll learn how to obtain and understand medical records, and why these records are critical to your care. You'll also find the tools you'll need to determine if the recommendations made by doctors are in keeping with accepted treatment guidelines. You'll discover how doctors use evidence to decide which treatments are best, as well as how doctors can become biased in their recommendations. And, most importantly, you'll be able to evaluate whether surgery, radiation, or chemotherapy make the most sense in your specific case—and whether or not these serious treatments are being delivered effectively and safely according to the highest standards. Now that you've received a cancer diagnosis, it's time to set a plan in motion for your recovery. This book will help you do just that—every step of the way.

questions to ask oncologist on first visit: The American Cancer Society's Principles of Oncology The American Cancer Society, 2018-03-20 Developed by the American Cancer Society this new textbook designed for a wide range of learners and practitioners is a comprehensive reference covering the diagnosis of cancer, and a range of related issues that are key to a multidisciplinary approach to cancer and critical to cancer control and may be used in conjunction with the book, The American Cancer Society's Oncology in Practice: Clinical Management. Edited by leading clinicians in the field and a stellar contributor list from the US and Europe, this book is written in an easy to understand style by multidisciplinary teams of medical oncologists, radiation oncologists and other specialists, reflecting day-to-day decision-making and clinical practice. Input from pathologists, surgeons, radiologists, and other specialists is included wherever relevant and comprehensive treatment guidelines are provided by expert contributors where there is no standard recognized treatment. This book is an ideal resource for anyone seeking a deeper understanding of cancer prevention, screening, and follow-up, which are central to the ACS's worldwide mission on cancer control.

questions to ask oncologist on first visit: The Cancer Journey Chadi Nabhan, 2024-09-24 This work is a guide to everything cancer from A to Z, simplifying ALL cancer concepts for patients, families, and the non-oncologist--

questions to ask oncologist on first visit: Multiple Myeloma Morie A. Gertz, S. Vincent Rajkumar, 2013-10-01 This is a comprehensive, state-of-the-art guide to the diagnosis, treatment, and biology of multiple myeloma and related plasma disorders. Edited and written by a multidisciplinary group of recognized authorities from the Mayo Clinic, it presents clear guidelines on diagnosis and therapy and covers all aspects of multiple myeloma, from molecular classification and diagnosis, to risk stratification and therapy. Closely related plasma cell disorders such as solitary plasmacytoma, Waldenstrom macroglobulinemia, and light chain amyloidosis are discussed in detail as well. The book addresses often overlooked topics, including the role of radiation therapy, vertebral augmentation, and supportive care. Our understanding of this group of disorders is developing at an unprecedented rate, and Multiple Myeloma meets the need among oncologists and hematologists for a clear, timely, and authoritative resource on their biology, diagnosis, and treatment.

questions to ask oncologist on first visit: *The Cancer Handbook* Malcolm Alison, 2002 Provides a comprehensive overview of all major areas of cancer research and oncology. Bridging the gap between the molecular biology of cancer and clinical diagnosis and treatment, this online reference work provides a resource for medical and life sciences students, as well as all scientists, clinicians and researchers working in the cancer field and related biomedical areas.

questions to ask oncologist on first visit: Cancer and Cancer Care Debbie Wyatt, Nicholas Hulbert-Williams, 2014-11-30 'This book creates new ground for all health professionals working in cancer care to read, enjoy, look at and question their practice.' Caroline Adcock, Clinical Practice Educator - Haematology and Oncology, Royal Shrewsbury Hospital Cancer and Cancer Care is a complete study of cancer, the care of people with the disease and its impact on everyday life. Addressing the physical and psychosocial aspects of the illness in detail, it covers all fundamental aspects of cancer diagnosis, treatment, survival and aspects of psychosocial support for all those affected by cancer: patients, their families, and their healthcare providers. Chapters include: - A review of the latest theory and evidence on over 30 separate topic areas - Reflective questions which challenge readers to reappraise what they have learned - Chapter overviews and chapter summaries which highlight the key points The book is essential reading for all those on cancer care courses at undergraduate and postgraduate level. It will be valuable reading for nurses, oncologists, psychologists, social workers and all healthcare practitioners and researchers working with people affected by cancer.

questions to ask oncologist on first visit: *Patient Safety Handbook* Barbara J. Youngberg, 2013 Examines the newest scientific advances in the science of safety.

questions to ask oncologist on first visit: *The New Generation Breast Cancer Book* Dr. Elisa Port, 2015-09-22 From an expert in the field comes the definitive guide to managing breast cancer in the information age—a comprehensive resource for diagnosis, treatment, and peace of mind. The breast cancer cure rate is at an all-time high, and so is the information, to say nothing of the misinformation, available to patients and their families. Online searches can lead to unreliable sources, leaving even the most resilient patient feeling uneasy and uncertain about her diagnosis, treatment options, doctors, side effects, and recovery. Adding to a patient's anxiety is input from well-meaning friends and family, with stories, worries, and opinions to share, sometimes without knowing the details of her particular case, when in reality breast cancer treatment has gone well beyond a "one size fits all" approach. Elisa Port, MD, FACS, chief of breast surgery at The Mount Sinai Hospital and co-director of the Dubin Breast Center in Manhattan, offers an optimistic antidote to the ocean of Web data on screening, diagnosis, prognosis, and treatment. Inside you'll discover • the various scenarios when mammograms indicate the need for a biopsy • the questions to ask about surgery, chemotherapy, radiation, and breast reconstruction • the important things to look for when deciding where to get care • the key to deciphering complicated pathology reports and avoiding confusion • the facts on genetic testing and the breast cancer genes: BRCA-1 and BRCA-2 • the best resources and advice for those supporting someone with breast cancer From innovations in breast cancer screening and evaluating results to post-treatment medications and living as a breast cancer

survivor, Dr. Elisa Port describes every possible test and every type of doctor visit, providing a comprehensive, empathetic guide that every newly diagnosed woman (and her family) will want to have at her side. Praise for The New Generation Breast Cancer Book “One book you need . . . If you’re considering your options for treatment or know someone who is, this step-by-step guide, The New Generation Breast Cancer Book, is essential reading.”—InStyle “Elisa Port, M.D., is the doctor every patient deserves: brilliant and compassionate. Her book will be a sanity saver and, quite possibly, a life saver.”—Geraldyn Lucas, author of Why I Wore Lipstick to My Mastectomy “As up-to-date as one can get, with lots to offer people facing a cancer diagnosis or hoping to support someone with the disease.”—Library Journal (starred review) “The New Generation Breast Cancer Book helps you sort through all the information you’ve gathered, clarify the terminology, consider the options, and make the right decisions for your unique case.”—Edie Falco “A lifeline for many women in need of today’s most up-to-date choices for treatment . . . Everyone should read this book for themselves, their mothers, grandmothers, daughters, and friends.”—Kara DioGuardi, Grammy-nominated songwriter, music executive, and Arthouse Entertainment co-founder “The book is teeming with easy-to-understand medical explanations, tips, takeaways, and pro-and-con discussions of various courses of action. Port also includes two extremely useful appendices that respectively take on common myths and answer questions frequently asked by friends and family. This is a vital read that will empower men and women alike.”—Publishers Weekly

questions to ask oncologist on first visit: Palliative Care in Oncology Berndt Alt-Epping, Friedemann Nauck, 2015-03-26 Palliative care provides comprehensive support for severely affected patients with any life-limiting or life-threatening diagnosis. To do this effectively, it requires a disease-specific approach as the patients’ needs and clinical context will vary depending on the underlying diagnosis. Experts in the field of palliative care and oncology describe in detail the needs of patients with advanced cancer in comparison to those with non-cancer disease and also identify the requirements of patients with different cancer entities. Basic principles of symptom control are explained, with careful attention to therapy for pain associated with either the cancer or its treatment and to symptom-guided antineoplastic therapy. Complex therapeutic strategies for palliative cancer patients are highlighted that involve both cancer- and symptom-directed options and address a range of therapeutic aims. Issues relating to drug use in palliative cancer care are fully explored, and a separate section is devoted to care in the final phase. A range of organizational and policy issues are also discussed, and the book concludes by considering likely future developments in palliative care for cancer patients. Palliative Care in Oncology will be of particular interest to palliative care physicians who are interested in broadening the scope of their disease-specific knowledge, as well as to oncologists who wish to learn more about modern palliative care concepts relevant to their day-to-day work with cancer patients.

questions to ask oncologist on first visit: When Someone You Love Has Advanced Cancer: Support for Caregivers National Cancer Institute (U.S.), 2018-07-18 When Someone You Love Has Advanced Cancer is a booklet for friends and family members taking care of a person with advanced cancer. This booklet covers making new decisions about care, how to discuss issues and changes with the health care team, getting support and asking for help, life planning and advance directives, talking with family and friends, talking with children and teens about advanced cancer, communicating with your loved one who has cancer, and tips on caring for both your physical and emotional self. questions to ask oncologist on first visit: *Mohs Micrographic Surgery* Stephen N. Snow, George R. Mikhail, 2004 Mohs Micrographic Surgery, an advanced treatment procedure for skin cancer, offers the highest potential for recovery--even if the skin cancer has been previously treated. This procedure is a state-of-the-art treatment in which the physician serves as surgeon, pathologist, and reconstructive surgeon. It relies on the accuracy of a microscope to trace and ensure removal of skin cancer down to its roots. This procedure allows dermatologists trained in Mohs Surgery to see beyond the visible disease and to precisely identify and remove the entire tumor, leaving healthy tissue unharmed. This procedure is most often used in treating two of the most common forms of skin cancer: basal cell carcinoma and squamous cell carcinoma. The cure rate for Mohs Micrographic Surgery is the highest of all treatments for skin cancer--up to 99 percent even if other forms of treatment have failed. This procedure, the most exact and precise method of tumor removal, minimizes the chance of regrowth and lessens the potential for scarring or disfigurement

questions to ask oncologist on first visit: *Handbook of Psychooncology* Jimmie C. Holland, Julia Howe Rowland, 1989

questions to ask oncologist on first visit: *The Breast Reconstruction Guidebook* Kathy Steligo, 2012-11-01 This guide helps women decide whether to have a breast reconstruction procedure after mastectomy—and, if so, which one. For a decade *The Breast Reconstruction Guidebook* has been the best resource on this topic for women who have had a mastectomy. Equal parts science and support, it is filled with stories that illustrate the emotional and physical components of breast reconstruction. Readers will find advice about choosing a doctor and a procedure, insurance and payment issues, how to prepare for surgery, and what to expect during recovery. Expert commentary by physicians and insights from patients inform this book, as does the exhaustive research by the author, a two-time breast cancer survivor who has twice had reconstructive surgery. New in this edition are discussions of • the pros and cons of saline and silicone implants • solutions for post-lumpectomy cosmetic problems • new immediate-delayed reconstruction when post-mastectomy radiation may be required • the benefits and limitations of nipple-sparing mastectomy • considerations for direct-to-implant reconstruction • newly developed tissue flap procedures • who can best apply nipple and areola tattoos and why tattoos may not last • enriching fat with stem cells so it stays in the breast • patient-controlled tissue expansion • how insurance and health care reform affect reconstruction

questions to ask oncologist on first visit: *Everyone's Guide to Cancer Therapy* Malin Dollinger, Ernest H. Rosenbaum, Greg Cable, 1991 Provides information on how cancer is diagnosed, treated, and managed day to day.

questions to ask oncologist on first visit: *Cancer Nursing* Connie Yarbro, Debra Wujcik, Barbara Holmes Gobel, 2011 A new and revised version of this best-selling reference! For over eighteen years, best-selling *Cancer Nursing: Principles and Practice* has provided oncology nurses with the latest information on new trends in the rapidly changing science of oncology. Now, in its Seventh Edition, *Cancer Nursing* has been completely revised and updated to reflect key new developments. New topics covered include targeted therapy, hypersensitivity reactions, mucositis, and family and caregiver issues. With 27 new chapters featuring insights from key authors, the Seventh Edition is a must-have resource for every oncology nurse.

questions to ask oncologist on first visit: *100 Questions & Answers About Lung Cancer* Karen Parles, Joan H. Schiller, Amy Cipau, 2012-05-16 EMPOWER YOURSELF! No one with lung

cancer needs to be alone in their fight against this disease. *100 Questions & Answers About Lung Cancer, Second Edition* enables patients and their families to seek out the best treatment possible for early detection of lung cancer. Providing both the doctor's and patient's point of view, this book is a complete guide to understanding treatment options, post-treatment quality of life, sources of support, and much more. Through *100 Questions & Answers About Lung Cancer, Second Edition*, expert authors use their experiences with patients to provide support and hope to the tens of thousands of people coping with this disease.

questions to ask oncologist on first visit: *Establishing Effective Patient Navigation Programs in Oncology* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, National Cancer Policy Forum, 2018-08-13 Delivering high-quality cancer care to all patients presents numerous challenges, including difficulties with care coordination and access. Patient navigation is a community-based service delivery intervention designed to promote access to timely diagnosis and treatment of cancer and other chronic diseases by eliminating barriers to care, and has often been proposed and implemented to address these challenges. However, unresolved questions include where patient navigation programs should be deployed, and which patients should be prioritized to receive navigation services when resources are limited. To address these issues and facilitate discussion on how to improve navigation services for patients with cancer, the National Cancer Policy Forum of the National Academies of Sciences, Engineering, and Medicine held a workshop on November 13 and 14, 2017. At this workshop, a broad range of experts and stakeholders, including clinicians, navigators, researchers, and patients, explored which patients need navigation and who should serve as navigators, and the benefits of navigation and current gaps in the evidence base.

questions to ask oncologist on first visit: *Stereotactic Body Radiation Therapy* Simon S. Lo, Bin S. Teh, Jiade J. Lu, Tracey E. Schefter, 2012-08-28 Stereotactic body radiation therapy (SBRT) has emerged as an important innovative treatment for various primary and metastatic cancers. This book provides a comprehensive and up-to-date account of the physical/technological, biological, and clinical aspects of SBRT. It will serve as a detailed resource for this rapidly developing treatment modality. The organ sites covered include lung, liver, spine, pancreas, prostate, adrenal, head and neck, and female reproductive tract. Retrospective studies and prospective clinical trials on SBRT for various organ sites from around the world are examined, and toxicities and normal tissue constraints are discussed. This book features unique insights from world-renowned experts in SBRT from North America, Asia, and Europe. It will be necessary reading for radiation oncologists, radiation oncology residents and fellows, medical physicists, medical physics residents, medical oncologists, surgical oncologists, and cancer scientists.

questions to ask oncologist on first visit: *100 Questions and Answers About Cancer Symptoms and Cancer Treatment Side Effects* Joanne Frankel Kelvin, Leslie Tyson, 2010-02-15 *100 Questions & Answers About Cancer Symptoms and Cancer Treatment Side Effects, Second Edition* provides authoritative answers to the most commonly asked questions about cancer symptoms and treatments. Written by cancer professionals and featuring comments from actual patients, this handy guide gives you the information you need to understand the disease and manage treatment side effects. This completely revised and updated version includes topics on cancer treatment options such as surgeries, targeted therapy, biologic therapies, alternative treatments; sexuality, fertility, pregnancy issues, pain and fatigue management, and more! Accessible, informative, compact, *100 Questions & Answers About Cancer Symptoms and Cancer Treatment Side Effects, Second Edition* is a unique resource for anyone coping with the physical and emotion turmoil of cancer.

questions to ask oncologist on first visit: *Campbell Walsh Wein Urology* Alan W. Partin, Craig A. Peters, Louis R. Kavoussi, Alan J. Wein, Roger R. Dmochowski, 2020-03-02 From the basic science underpinnings to the most recent developments in medical and surgical care, *Campbell-Walsh-Wein Urology* offers a depth and breadth of coverage you won't find in any other urology reference. Now in three manageable volumes, the revised 12th Edition is a must-have text

for students, residents, and seasoned practitioners, with authoritative, up-to-date content in an intuitively organized, easy-to-read format featuring key points, quick-reference tables, and handy algorithms throughout. Features shorter, more practical chapters that help you find key information quickly. Includes new chapters on Urinary Tract Imaging: Basic Principles of Nuclear Medicine · Ethics and Informed Consent · Incisions and Access · Complications of Urologic Surgery · Urologic Considerations in Pregnancy · Intraoperative Consultation · Special Urologic Considerations in Transgender Individuals · and more. Covers hot topics such as minimally invasive and robotic surgery; advancements in urologic oncology, including innovative therapeutics for personalized medicine; new approaches to male infertility; technological advances for the treatment of stones; and advances in imaging modalities. Incorporates current AUA/EAU guidelines in each chapter as appropriate. Updates all chapters with new content, new advances, and current references and best practices. Extensively updated chapters include Urological Immunotherapy, Minimally Invasive Urinary Diversion, and Updated Focal Therapy for Prostate Cancer. Features more than 175 video clips, including all-new videos on perineal ultrasound, abdominoplasty in prune belly syndrome, partial penectomy, low dose rate brachytherapy, and many more. Written and edited by key opinion leaders, reflecting essential changes and controversies in the field. Expert Consult eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, and references from the book on a variety of devices.

questions to ask oncologist on first visit: "My Ta-Tas Were Fine. I Had Cancer Down There." Judy McKay, 2013-03-19 My ta-tas are fine. I had cancer down there. This inspiring book was written to give hope to the over 50,000 women diagnosed with Endometrial/Uterine Cancer each year. Although, cancer definitely detours your life it isn't an automatic death sentence. This is a happy book about a serious subject. It is a cliff note version of Judy's cancer journey. It includes tips, lessons learned and even humor as she mentions the value of farts and shares wisdom learned from Larry the Cable Guy and Forrest Gump. Much has been written about breast, colon and prostate cancers. Little has been written about gynecological cancers. Unfortunately, cancer comes in a rainbow of colors. Being diagnosed with cancer is actually a bad news, good news day. Once the cancer has been detected, you can begin the battle to conquer it. Undetected your chances diminish. Keep in mind that none of the tips or suggestions contained in this book are meant to replace the advice of your doctor. Beyond the tips and humor this book empowers and instills hope.

questions to ask oncologist on first visit: Ticking Off Breast Cancer Sara Liyanage, 2019-09-26 Sara is a married forty-something mother of two and part-time lawyer in London, Sara managed her life by to-do list after to-do list. However, when breast cancer appeared on her list, Sara's life as she previously knew it, was thrown upside down. Ticking Off Breast Cancer is a chronological narrative of Sara's life from the day of her diagnosis and throughout treatment. It follows her as she deals with the physical, emotional and mental challenges thrown at her by cancer and provides an honest insight into the treatment given to a breast cancer patient together with the impact that this has on someone's life. By sharing many of her to-do lists in the form of checklists at the end of each chapter, Ticking Off Breast Cancer provides thoughtful, helpful advice for every step of the way.

questions to ask oncologist on first visit: Radical Acceptance Andrea Miller, 2017-05-02 "If you're at the end of your relationship rope, reach for Radical Acceptance." —Elle A refreshing new approach to romantic partnerships, grounded in the importance of unconditional love that shows how "prioritizing your partner [creates] true happiness in your relationship" (John Gray, PhD, author of *Men Are From Mars, Women Are From Venus*). Loving the lovable parts of your partner is easy. He's funny, charming, smart, successful, and kind. He's perfect. Except for when he is not. Like when he is late. Or short-tempered. Or lazy. Or he's incorrectly loaded the dishwasher (again). Maybe he feels like the most frustrating person on the planet. Or maybe you're simply not feeling heard or seen. Or loved enough. It's these proverbial unlovable parts that make loving all of him so tough. But imagine if you let go of your itch to fix, judge, improve, or control your partner. Imagine if you replaced judgement with compassion and empathy. Tremendous empowerment and liberation

come from loving someone—and being loved—for who we really are. This practice is called Radical Acceptance. Whether you're looking for Mr. Right or are already with him, this is your powerful five-step guide to attaining life's ultimate prize: unconditional love. You'll learn how to increase your emotional resilience, feel more confident, determine whether you're settling, quiet those doubt-filled voices in your head, get out of that endless cycle of dead-end dates, reduce conflict, and build a deeply fulfilling, affirming relationship—all through highly actionable advice. Best of all, you will discover how amazing it feels to have your heart expanded by an abundance of love and compassion for your partner and yourself. Featuring compelling stories for real-life couples and insights from the foremost thought leaders and researchers in brain science, sexuality, psychotherapy, and neurobiology, Radical Acceptance illustrates that embracing your partner for exactly who they are will lead to a more harmonious relationship—and provide an unexpected path to your own personal transformation.

questions to ask oncologist on first visit: The Complete Guide to Breast Cancer Trisha

Greenhalgh, Liz O'Riordan, 2018-09-20 The book you can trust to support you at every stage of your treatment - and beyond Winner of best 'Popular Medicine' book, BMA Medical Book Awards 2019 Professor Trisha Greenhalgh, an academic GP, and Dr Liz O'Riordan, a Consultant Breast Cancer Surgeon, are not only outstanding doctors, but they have also experienced breast cancer first-hand. The Complete Guide to Breast Cancer brings together all the knowledge they have gathered as patients and as doctors to give you and your family a trusted, thorough and up-to-date source of information. Designed to empower you during your breast cancer treatment, it covers: -Simple explanations of every breast cancer treatment -Coping with the emotional burden of breast cancer -Frank advice about sex and relationships -Staying healthy during and after treatment -Dealing with the fear of recurrence -Living with secondary breast cancer Packed full of all the things the authors wished they'd known when they were diagnosed, and tips on how to cope with surgery, radiotherapy, chemotherapy and beyond, this is the only book you need to read to guide you through your breast cancer diagnosis. 'A much needed guide which is both humane and based on robust evidence.' - Macmillan Cancer Support

questions to ask oncologist on first visit: *After You Hear It's Cancer* John Leifer, 2017-10-25

After You Hear It's Cancer offers a step-by-step guide for recently diagnosed patients and their families as they embark on this arduous journey. The authors integrate cutting-edge research with the perspectives of numerous cancer patients to provide an empathic, but pragmatic handbook that should be required reading for every cancer patient.

questions to ask oncologist on first visit: Cancer Care for the Whole Patient Institute of

Medicine, Board on Health Care Services, Committee on Psychosocial Services to Cancer Patients/Families in a Community Setting, 2008-03-19 Cancer care today often provides state-of-the-science biomedical treatment, but fails to address the psychological and social (psychosocial) problems associated with the illness. This failure can compromise the effectiveness of health care and thereby adversely affect the health of cancer patients. Psychological and social problems created or exacerbated by cancer—including depression and other emotional problems; lack of information or skills needed to manage the illness; lack of transportation or other resources; and disruptions in work, school, and family life—cause additional suffering, weaken adherence to prescribed treatments, and threaten patients' return to health. Today, it is not possible to deliver high-quality cancer care without using existing approaches, tools, and resources to address patients' psychosocial health needs. All patients with cancer and their families should expect and receive cancer care that ensures the provision of appropriate psychosocial health services. Cancer Care for the Whole Patient recommends actions that oncology providers, health policy makers, educators, health insurers, health planners, researchers and research sponsors, and consumer advocates should undertake to ensure that this standard is met.

questions to ask oncologist on first visit: Johns Hopkins Patients' Guide to Ovarian Cancer Ritu Salani, Salani, Robert Bristow, 2009-11-04 The Johns Hopkins Patients' Guide to Ovarian Cancer is a concise, easy-to-follow "how to" guide that puts you on a path to wellness by explaining ovarian cancer treatments from start to finish. It guides you through the overwhelming maze of treatment decisions, simplifies the complicated schedule that lies ahead, and provides valuable tools to help you to put together your plan of care. Empower yourself with accurate, understandable information that will give you the ability to confidently participate in the decision making about your care and treatment.

questions to ask oncologist on first visit: Everyone's Guide to Cancer Therapy Andrew Ko, Malin Dollinger, Ernest H. Rosenbaum, 2011-05-12 "Written by two oncologists . . . this authoritative but readable reference stands out . . . as a uniquely comprehensive, thorough source of up-to-date information" (Library Journal). For more than thirty years, Everyone's Guide to Cancer Therapy has been the definitive resource for anyone confronting a cancer diagnosis. The revised and updated fifth edition draws on the latest research, information, and advice from more than 100 top oncology specialists. Equally informative and accessible, this comprehensive book helps cancer patients and their caregivers navigate through diagnosis, treatment, and supportive care. Topics include: * Information on recently approved targeted therapies for various cancer types * The newest strategies in cancer diagnosis and prevention * Cancer biology: translating scientific discoveries into meaningful advances for patients * Supportive care and complementary approaches

questions to ask oncologist on first visit: Your Cancer Road Map Kim Thiboldeaux, 2021-06-22 No one should have to face cancer alone. Each year, 1.8 million people are diagnosed with cancer in the United States. Upon learning this difficult news, individuals also have a minefield of complex information to navigate regarding treatment plans, insurance coverage, clinical trials, and more. Your Cancer Road Map: Navigating Life with Resilience is a compassionate,

comprehensive guide for cancer patients, their families, and caregivers, designed to take the guesswork out of these crucial decisions every step of the way. For more than 35 years, the Cancer Support Community (CSC) has been a trusted resource, demystifying the emotional, physical, financial, and logistical challenges related to cancer. From CSC CEO Kim Thiboldeaux, *Your Cancer Road Map* is a comprehensive guidebook, providing advice and comfort at every point on the cancer journey, from the moment of diagnosis to survivorship and beyond. *Your Cancer Road Map* covers hard-to-talk-about topics such as treatment options, finances, how cancer can affect your fertility or sexuality, survivor care, hospice care, and end-of-life planning. In the CSC tradition, the book ensures that people impacted by cancer can live their lives to the fullest and enables them to gain a sense of control during what can be an overwhelming and chaotic time. Now more than ever, patients need the tools to participate fully in their healthcare, and communicate their preferences and priorities to their healthcare team so that they can make the best decisions for themselves and their loved ones while living with the highest possible quality of life. Filled with incredible personal stories from people who could be your friends or neighbors, as well as celebrities and influencers, plus workbook pages, checklists, recommended resources, and more, *Your Cancer Road Map* will be a powerful companion for anyone with questions about cancer.

questions to ask oncologist on first visit: *Excellent Care for Cancer Survivors* Kenneth D. Miller M.D., 2011-11-28 A clear, concise, and essential guide providing key information about cancer survivors and their needs—and how those needs can best be met. *Excellent Care for Cancer Survivors: A Guide to Fully Meet Their Needs in Medical Offices and in the Community* is edited by the director of the Lance Armstrong Cancer Survivorship Program at the Dana Farber Cancer Institute and comprised of articles by experts from that prestigious institution, from the Harvard Medical School, and other leading cancer programs. Its goal is simple: to assure that the millions of cancer survivors in the United States get the help they need to live life to its fullest. This timely work, enriched by conversations with cancer survivors themselves, explains the array of challenges that may affect survivors, from physical needs to psychological, spiritual, sexual, and financial issues. Topics such as nutrition and exercise are also addressed, as are risk assessment, rehabilitation, and possible cognitive dysfunction after chemotherapy. A final section explains the nuts and bolts of starting a professional cancer survivorship program, from staffing to fundraising, exploring what can and is being done to help cancer survivors in different settings achieve optimal health and quality of life.

questions to ask oncologist on first visit: *Surgery for Ovarian Cancer* Robert E. Bristow, Beth Y. Karlan, Dennis S. Chi, 2019-02-21 Updated and expanded, the third edition of *Surgery for Ovarian Cancer* focuses on essential techniques for the effective management of ovarian cancer. It reflects the most contemporary science and surgical applications for the management of patients with ovarian cancer and related peritoneal surface malignancies. This new edition takes a step-by-step approach and includes new intraoperative photographs and videos illustrating surgical procedures. It is principally devoted to the technical aspects of cytoreductive surgery, with chapters divided according to anatomic region. The chapters cover relevant anatomical considerations, surgical challenges specific to each region, and operative approaches and techniques favored by the authors. The list of contributing authors has been expanded from the previous edition and includes international and world-renowned experts from the fields of gynecologic oncology and surgical oncology. The topics of minimally invasive surgery, secondary cytoreduction, palliative surgery, and postoperative care are also covered in detail. New to the third edition are chapters on preoperative risk stratification, regional therapeutics and peritonectomy procedures, and quality assurance relating to ovarian cancer surgery. This comprehensive text is essential reading for all practitioners working with patients with ovarian cancers.
