robert pattinson dating history: *The Vampire* Nick Groom, 2018-10-30 An authoritative new history of the vampire, two hundred years after it first appeared on the literary scene Published to mark the bicentenary of John Polidori's publication of *The Vampyre*, Nick Groom's detailed new account illuminates the complex history of the iconic creature. The vampire first came to public prominence in the early eighteenth century, when Enlightenment science collided with Eastern European folklore and apparently verified outbreaks of vampirism, capturing the attention of medical researchers, political commentators, social theorists, theologians, and philosophers. Groom accordingly traces the vampire from its role as a monster embodying humankind's fears, to that of an unlikely hero for the marginalized and excluded in the twenty-first century. Drawing on literary and artistic representations, as well as medical, forensic, empirical, and sociopolitical perspectives, this rich and eerie history presents the vampire as a strikingly complex being that has been used to express the traumas and contradictions of the human condition.

robert pattinson dating history: The Heavenly Table Donald Ray Pollock, 2016-07-12 From Donald Ray Pollock, author of the highly acclaimed *The Devil All the Time* and *Knockemstiff*, comes a dark, gritty, electrifying (and, disturbingly, weirdly funny) new novel that will solidify his place among the best contemporary American authors. It is 1917, in that sliver of border land that divides Georgia from Alabama. Dispossessed farmer Pearl Jewett ekes out a hardscrabble existence with his three young sons: Cane (the eldest; handsome; intelligent); Cob (short; heavy set; a bit slow); and Chimney (the youngest; thin; ill-tempered). Several hundred miles away in southern Ohio, a farmer by the name of Ellsworth Fiddler lives with his son, Eddie, and his wife, Eula. After Ellsworth is swindled out of his family's entire fortune, his life is put on a surprising, unforgettable, and violent trajectory that will directly lead him to cross paths with the Jewetts. No good can come of it. Or can it? In the gothic tradition of Flannery O'Connor and Cormac McCarthy with a healthy dose of cinematic violence reminiscent of Sam Peckinpah, Quentin Tarantino and the Coen Brothers, the Jewetts and the Fiddlers will find their lives colliding in increasingly dark and horrific ways, placing Donald Ray Pollock firmly in the company of the genre's literary masters.

robert pattinson dating history: Mammalian Evolution, Diversity and Systematics Frank Zachos, Robert Asher, 2018-10-22 There are nearly 6,000 mammalian species, among them our own. The present volume combines up-to-date reviews on mammalian phylogenetics with paleontological, taxonomic and evolutionary chapters and also summarizes the historical development of our insights in mammalian relationships, and thus our own place in the Tree of Life. Our book places the present biodiversity crisis in context, with one in four mammal species threatened by extinction, and reviews the distribution and conservation of mammalian diversity across the globe. This volume is the introductory tome to the new Mammalia series of the Handbook of Zoology and will be essential reading for mammalogists, zoologists and conservationists alike.

robert pattinson dating history: *Conspiracy Culture* Dr Peter Knight, Peter Knight, 2013-04-15 Conspiracy theories are everywhere in post-war American culture. From postmodern novels to *The X-Files* and from gangsta rap to feminist polemic, there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny, our minds, and even our bodies. Conspiracy explanations can no longer be dismissed as the paranoid delusions of far-right crackpots. Indeed, they have become a necessary response to a risky and increasingly globalized world, in which everything is connected but nothing adds up. Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture, from 1960s' countercultural suspicions about the authorities to the 1990s, where a paranoid attitude is both routine and ironic. *Conspiracy Culture* analyses conspiracy narratives about familiar topics like the Kennedy assassination, alien abduction, body horror, AIDS, crack cocaine, the New World Order, as well as more unusual ones like the conspiracies of patriarchy and white supremacy. *Conspiracy Culture* shows how Americans have come to distrust not only the narratives of the authorities, but even the authority of narrative itself to explain What Is Really Going On. From the complexities of Thomas Pynchon's novels to the endless mysteries of *The X-Files*, Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion. Trust no one, because we have met the enemy and it is us.

robert pattinson dating history: *Open Book* Jessica Simpson, 2020-02-04 The #1 New York Times Bestseller Jessica reveals for the first time her inner monologue and most intimate struggles. Guided by the journals she's kept since age fifteen, and brimming with her unique humor and down-to-earth humanity, *Open Book* is as inspiring as it is entertaining. This was supposed to be a very different book. Five years ago, Jessica Simpson was approached to write a motivational guide to living your best life. She walked away from the offer, and nobody understood why. The truth is that she didn't want to lie. Jessica couldn't be authentic with her readers if she wasn't fully honest with herself first. Now America's Sweetheart, preacher's daughter, pop phenomenon, reality tv pioneer, and the billion-dollar fashion mogul invites readers on a remarkable journey, examining a life that blessed her with the compassion to help others, but also burdened her with an almost crippling need to please. *Open Book* is Jessica Simpson using her voice, heart, soul, and humor to share things she's never shared before. First celebrated for her voice, she became one of the most talked-about women in the world, whether for music and fashion, her relationship struggles, or as a walking blonde joke. But now, instead of being talked about, Jessica is doing the talking. Her book shares the wisdom and inspirations she's learned and shows the real woman behind all the pop-culture clichés — "chicken or fish," "Daisy Duke," football jinx, "mom jeans," "sexual napalm..." and more. *Open Book* is an opportunity to laugh and cry with a close friend, one that will inspire you to live your best, most authentic life, now that she is finally living hers.

robert pattinson dating history: *The Monogamy Gap* Eric Anderson, 2012-03-21 Whether straight or gay, most men start their relationships desiring monogamy. This is rooted in the pervasive notion that monogamy exists as a sign of true love. Yet despite this deeply held cultural ideal, cheating remains rampant. In this accessible book, Eric Anderson investigates why 78% of men he interviewed have cheated despite their desire not to. Combining 120 interviews with research from the fields of sociology, biology, and psychology, Anderson identifies cheating as a product of wanting emotional passion for one's partner, along with a steadily growing desire for emotionally-detached recreational sex with others. Anderson coins the term the monogamy gap to describe this phenomenon. Anderson suggests that monogamy is an irrational ideal because it fails to fulfil a lifetime of sexual desires. Cheating therefore becomes the rational response to an irrational situation. *The Monogamy Gap* draws on a range of concepts, theories, and disciplines to highlight the biological compulsion of our sexual urges, the social construction of the monogamous ideal, and the devastating chasm that lies between them. Whether single or married, monogamous or open, straight or gay, readers will find *The Monogamy Gap* to be an enlightening, intellectually

compelling, and provocative book.

robert pattinson dating history: Light Boxes Shane Jones, 2010-05-25 A poignant and fantastical first novel by a timeless new literary voice. With all the elements of a classic fable, vivid descriptions, and a wholly unique style, this idiosyncratic debut introduces a new and exciting voice to readers of such authors as George Saunders, Kurt Vonnegut, and Yann Martel. In Light Boxes, the inhabitants of one closely-knit town are experiencing perpetual February. It turns out that a god-like spirit who lives in the sky, named February, is punishing the town for flying, and bans flight of all kind, including hot air balloons and even children's kites. It's February who makes the sun nothing but a faint memory, who blankets the ground with snow, who freezes the rivers and the lakes. As endless February continues, children go missing and more and more adults become nearly catatonic with depression. But others find the strength to fight back, waging war on February.

robert pattinson dating history: Desert Queen Janet Wallach, 2015-11-12 The life of Gertrude Bell is now the subject of the major motion picture Queen of the Desert, starring Nicole Kidman, James Franco and Damian Lewis Turning away from privileged Victorian Britain, Gertrude Bell explored, mapped and excavated the world of the Arabs, winning the trust of Arab sheiks and chieftains along the way. When the First World War erupted and the British needed the loyalty of Arab leaders, Gertrude Bell provided the intelligence for T.E. Lawrence's military activities. After the war, she played a major role in creating the modern Middle East, and was generally considered the most powerful woman in the British Empire. In this major reassessment of Bell's life, Janet Wallach reveals a woman whose achievements and independent spirit were especially remarkable for her times, and who brought the same passion and intensity to her explorations as she did to her rich and romantic life.

robert pattinson dating history: Breaking Dawn Stephenie Meyer, 2008-08-02 In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hangs. This astonishing, breathlessly anticipated conclusion to the Twilight Saga illuminates the secrets and mysteries of this spellbinding romantic epic. It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated companion, Midnight Sun: the iconic love story of Bella and Edward told from the vampire's point of view. People do not want to just read Meyer's books; they want to climb inside them and live there. -- Time A literary phenomenon. -- The New York Times

robert pattinson dating history: The Cobrasnake Mark Hunter, 2022-06-07 A love letter to a time before Instagram and the legendary party scenes of the 2000s that brought together the new millennium's rising stars of pop culture. Under the moniker the Cobrasnake, the photographer Mark Hunter captured the party scenes of Los Angeles and New York during the hipster-glam heyday of the 2000s—and in doing so defined the look of a generation. Armed with just a Polaroid and a primitive website, Cobrasnake captured pioneers of youth culture from Kanye West and Steve Aoki to Jeremy Scott, Katy Perry, and Virgil Abloh—icons of the indie pop world in the making. Intimately connected with the people around him and keyed-in to the edgier fringes of the fashion, music, and art worlds, Hunter photographed influencers before they were influencers, in the wild and at play from the streets of LA to NYC and beyond. Collected here for the first time are more than three hundred of Cobrasnake's favorite images alongside ephemera, from concert tickets and backstage passes to outtakes and unseen photographs from his many adventures. These photographs are records of the last generation of partiers to predate the livestreaming of culture afforded by today's social media—capturing the energy and vibrancy of a time before Instagram.

robert pattinson dating history: Investigating Iwo Breanne Robertson, 2019 Investigating Iwo encourages us to explore the connection between American visual culture and World War II, particularly how the image inspired Marines, servicemembers, and civilians to carry on with the war and to remember those who made the ultimate sacrifice to ensure victory over the Axis Powers. Chapters shed light on the processes through which history becomes memory and gains meaning over time. The contributors ask only that we be willing to take a closer look, to remain open to new perspectives that can deepen our understanding of familiar topics related to the flag raising, including Rosenthal's famous picture, that continue to mean so much to us today--

robert pattinson dating history: The Quantum Weirdness of the Almost-Kiss Amy Noelle Parks, 2021-01-05 Now in paperback, a heartfelt YA rom-com about smart girls, love-struck boys, and quantum theory Seventeen-year-old Evie Beckham has never been interested in dating. She's fully occupied by her love of math and her frequent battles with anxiety. Besides, she's always found the idea of kissing to be kind of weird and pretty unsanitary, when you think about it. But with the help of her therapist and her support system, she's feeling braver. Maybe even brave enough to enter a prestigious physics competition or to say yes to the new boy who's been flirting with her. Evie's best friend, Caleb, has always been a little in love with Evie, and though he knows she isn't

ready for romance, he hopes that when she is, she'll choose him. So Caleb is horrified when he is forced to witness Evie's meet-cute with a floppy-haired, mathematically gifted transfer student. In desperation, Caleb decides to use an online forum to capture Evie's interest. When it goes better than he could've wished for, he wonders if it's possible to be jealous of himself. And Evie wonders how she went from eschewing romance to having to choose between two—or is it three?—boys.
