SF Chronicle 2022 Endorsements: A Comprehensive Guide to the Paper's Choices

Introduction:

The San Francisco Chronicle, a leading news source for the Bay Area, wields significant influence during election season. Their endorsements carry weight, shaping public opinion and potentially impacting election outcomes. This comprehensive guide meticulously examines the SF Chronicle 2022 endorsements, providing a detailed analysis of their choices across various races and offering insights into the newspaper's editorial reasoning. We'll delve into the key races, the candidates endorsed, the rationale behind the endorsements, and the broader implications for San Francisco's political landscape. This in-depth analysis is your one-stop shop for understanding the SF Chronicle's 2022 endorsement strategy and its potential impact.

I. Mayor's Race: London Breed's Re-election Bid

The SF Chronicle's endorsement of London Breed for Mayor in 2022 was a significant moment. The paper highlighted Breed's experience and her handling of critical issues facing the city, including homelessness, public safety, and economic recovery post-pandemic. However, the endorsement wasn't without its critics. Some argued that the Chronicle overlooked Breed's shortcomings in addressing inequality and the city's ongoing challenges. Analyzing the endorsement reveals the paper's prioritization of experience and perceived effectiveness over certain progressive policy goals. This section will dissect the arguments for and against the endorsement, offering a balanced perspective on the Chronicle's decision.

II. District Attorney's Race: A Close Examination of the Endorsement

The District Attorney's race in 2022 was highly contested, and the Chronicle's endorsement played a crucial role. This section examines the candidate they chose, focusing on the rationale behind their selection. We will analyze the candidate's platform, their experience, and the Chronicle's assessment of their suitability for the office. The analysis will delve into the specific criteria used by the Chronicle to evaluate the candidates and the potential impact of their endorsement on the election's outcome. This involves considering alternative candidates and their platforms, as well as examining the Chronicle's potential biases or blind spots.

III. Supervisorial Races: A District-by-District Breakdown

San Francisco's supervisorial races are critical for local governance. This section offers a detailed overview of the SF Chronicle's endorsements in each district. We will provide a summary of each endorsed candidate, outlining their platforms and the Chronicle's reasoning for their support. The analysis will also consider the competitive dynamics within each district and the potential impact of the Chronicle's endorsements on the overall makeup of the Board of Supervisors. This requires

looking beyond simple endorsements and examining the broader political landscape in each district.

IV. Proposition and Ballot Measure Endorsements: Analyzing the Chronicle's Positions

Beyond the candidate endorsements, the SF Chronicle weighed in on various propositions and ballot measures. This section explores their positions on these initiatives, providing context for their recommendations. We will dissect the arguments supporting each endorsement, offering a critical examination of the Chronicle's analysis and the potential consequences of the measures' passage or failure. This goes beyond a simple list of endorsements and delves into the deeper reasons and potential impacts of each stance.

V. The Broader Context: Understanding the SF Chronicle's Editorial Stance

The Chronicle's endorsements are not made in isolation. This concluding section explores the overall editorial philosophy and political leanings that underpinned their 2022 choices. We'll examine the Chronicle's historical endorsement patterns and analyze the consistency or inconsistencies in their selections across various races. This allows readers to understand the overarching framework within which the individual endorsements should be interpreted.

sf chronicle 2022 endorsements: Presidential Elections Nelson W. Polsby, Aaron Wildavsky, Steven E. Schier, David A. Hopkins, 2023-07-18 Polsby and Wildavsky's classic text, now updated by Stephen Schier and David Hopkins, argues that the institutional rules of the presidential nomination and election processes, in combination with the behavior of the mass electorate,

structure the strategic choices faced by politicians in powerful and foreseeable ways. We can make sense of the decisions made by different political actors—incumbents, challengers, Democrats, Republicans, consultants, party officials, activists, delegates, journalists, and voters—by understanding the ways in which their world is organized by incentives, regulations, events, resources, customs, and opportunities. Thoroughly revised and updated, this Sixteenth Edition provides everything students need to know about presidential elections going into the 2024 cycle.

sf chronicle 2022 endorsements: California's Recall Election of Gavin Newsom Larry N. Gerston, Mary Currin-Percival, Garrick L. Percival, 2022-08-02 California went through a political earthquake of sorts when the state recalled Governor Gray Davis in 2003. In 2021, the state faced another political turning point with the threatened recall of Governor Gavin Newsom. Less than two years after Newsom's overwhelming election victory, more than two million Californians signed on to the recall effort, hoping to expel him from office in a special election. How could such a monumental turnabout be possible? Normally, the political headwinds would be much too strong for a movement to oust a governor who had decisively vanquished his opponent. But--with the COVID-19 pandemic dominating every aspect of society, including politics--these weren't normal times. Organizing a recall election is a demanding enterprise: it takes abundant political energy, tremendous amounts of anger with the status quo, and mounds of money. Yet, for the second time in less than two decades, such wheels were set in motion. What is it that makes California so dynamic yet so fragile? This book explains that paradox and, in the process, enlightens readers about the recall process, the challenges of federalism, and the pitfalls of direct democracy. It examines the underlying conditions that expose a state with poorly linked institutions, a bitterly divided society, and a governor who had to act under nearly impossible conditions, demonstrating his strengths and vulnerabilities along the way. It's a story that could happen only in California, a state with a history of only stories. Designed to be useful in a variety of college courses, this book is the first to unveil the Newsom backstory and will appeal to pundits and politicians as well as interested general readers.

Lawrence, Jeff Cummins, 2023-08-15 California: The Politics of Diversity examines the diverse and hyperpluralistic nature of California and its people. No other textbook on California politics offers as much coverage and in-depth analysis of the state's political development, institutions, and public policies that have shaped the Golden State into what it is today.

sf chronicle 2022 endorsements: The California Field Atlas Obi Kaufmann, 2017-09 [A] gorgeously illustrated compendium.--Sunset This lavishly illustrated atlas takes readers off the beaten path and outside normal conceptions of California, revealing its myriad ecologies, topographies, and histories in exquisite maps and trail paintings. Based on decades of exploring the backcountry of the Golden State, artist-adventurer Obi Kaufmann blends science and art to illuminate the multifaceted array of living, connected systems like no book has done before. Kaufmann depicts layer after layer of the natural world, delighting in the grand scale and details alike. The effect is staggeringly beautiful: presented alongside California divided into its fifty-eight counties, for example, we consider California made up of dancing tectonic plates, of watersheds, of wildflower gardens. Maps are enhanced by spirited illustrations of wildlife, keys that explain natural phenomena, and a clear-sighted but reverential text. Full of character and color, a bit larger than life, The California Field Atlas is the ultimate road trip companion and love letter to a place.

sf chronicle 2022 endorsements: What's the Score? Bonnie J. Morris, 2022-06-07 Who is the

first female athlete you admired? Were male and female athletes treated differently in your high school? Is there a natural limit to women's athletic ability? How has Title IX opened up opportunities for women athletes? Every semester since 1996, Bonnie Morris has encouraged students to confront questions like these in one of the most provocative college courses in America: Athletics and Gender, *A History of Women's Sports. What's the Score?*, Morris's energetic teaching memoir, is a peek inside that class and features a decades-long dialogue with student athletes about the greater opportunities for women—on the playing field, as coaches, and in sports media. From corsets to segregated schoolyards to the WNBA, we find women athletes the world over conquering unique barriers to success. *What's the Score?* is not only an insider's look at sports education but also an engaging guide to turning points in women's sports history that everyone should know.

sf chronicle 2022 endorsements: *Persuasion in Society* Jean G. Jones, Andi McClanahan, Joseph Sery, 2022-03-28 This fully-updated fourth edition introduces readers to the rich tapestry of persuasive technique and scholarship, interweaving perspectives from rhetoric, critical theory, and social science and applying their insights to practical political, social, and business contexts. This text examines current and classical theory through the lens of contemporary culture, encouraging readers to explore the nature of persuasion and to understand its impact in their lives. Employing a contemporary approach, it draws from popular culture, mass media, social media, advertising, political campaigns, and social movements to help readers become informed creators and consumers of persuasive messages. Case studies show how and why people fall for persuasive messages, demonstrating how persuasion works at a cognitive level. This new edition includes extended treatment of the ethics of persuasion, including opposing views on handling controversial issues in the college classroom; a new chapter on propaganda and ideology; and a greater focus on digital contexts and social media. Discussion questions, exercises, and key terms are provided for each chapter. This textbook will be a valuable tool for students of communication, media studies, politics, psychology, and business and advertising. Online resources for instructors include PowerPoint slides and test bank.

sf chronicle 2022 endorsements: *The Coasts of California* Obi Kaufmann, 2022-04-17 An epic, gloriously illustrated journey up and down California's shoreline California's coastline is world famous, an endless source of fascination and fantasy, but there is no book about it like this one. Obi Kaufmann, author-illustrator of *The California Field Atlas* and *The Forests of California*, now turns his attention to the 1,200 miles of the Golden State where the land meets the ocean. Bursting with color, *The Coasts of California* is in Kaufmann's signature style, fusing science with art and pure poetic reverie. And much more than a survey of tourist spots, *Coasts* is a full immersion into the astonishingly varied natural worlds that hug California's shoreline. With hundreds of gorgeous watercolor maps and illustrations, Kaufmann explores the rhythms of the tides, the lives of sea creatures, the shifting of rocks and sand, and the special habitats found on California's islands. At the book's core is an expansive, detailed walk down the California Coastal Trail, including maps of parks along the way—a wealth of knowledge for any coast-lover. *The Coasts of California* is a geographic epic, an odyssey in nature, a grand and glorious book for a grand and glorious part of the world.

sf chronicle 2022 endorsements: *The State of Water* Obi Kaufmann, 2019 Obi Kaufmann, author of the best-selling *California Field Atlas*, turns his artful yet analytical attention to the Golden State's single most complex and controversial resource: water. In this new book, full-color maps unravel the braided knot of California's water infrastructure and ecosystems, exposing a history of unlimited growth in spite of finite natural resources—a history that has led to its current precarious circumstances. Yet this built world depends upon the biosphere, and in *The State of Water* Kaufmann argues that environmental conservation and restoration efforts are necessary not only for ethical reasons but also as a matter of human survival. Offering nine perspectives to illustrate the most pressing challenges facing California's water infrastructure, from dams to species revitalization, Kaufmann reveals pragmatic yet inspiring solutions to how water in the West can continue to support agriculture, municipalities, and the environment. Interspersed throughout with

trail paintings of animals that might yet survive under a caring and careful water ethic, Kaufmann shows how California can usher in a new era of responsible water conservation, and--perhaps most importantly--how we may do so together.

sf chronicle 2022 endorsements: I've Got Some Lovin' to Do Julia Park Tracey, 2012-08 It is July of 1925 when, on a whim, fifteen-year-old Doris Bailey decides to keep a diary-a place where she can openly confide her dreams, hopes, and ambitions. Doris is flirtatious, untamed, and romantic, imagining herself in and out of love with each passing day. In this first volume of *The Doris Diaries*, her great-niece, Julia Park Tracey, shares Doris's journals capturing a year in the life of a precocious teenager in the rapidly changing world of the mid-1920s. Doris chats on the telephone and dances to records on the Victrola. Not only does she flirt, kiss, and ride in cars with boys, but she also sneaks out, cuts school, and chops off her hair. While Doris constantly pushes the boundaries of acceptable behavior for a young girl, she retells juicy gossip from St. Helen's Hall, a military academy dance, and an Oregon dude ranch-sharing an unforgettable glimpse into a treasure trove of authentic American life in the Northwest. *I've Got Some Lovin' to Do*, with commentary, footnotes, and photographs, presents an entertaining portrayal of an American girl brimming with curiosity, a zest for life, and a hunger to experience love for the first time. http://www.youtube.com/watch?v=NeuoA73i_nM>

sf chronicle 2022 endorsements: Service above Self Erika Cornelius Smith, 2022-08-04 The 2018 midterm elections were both record-breaking and pathbreaking. Americans elected four women to the Senate along with twenty-four women to the House. At the same time, nearly two hundred veterans were on ballots across the country, including a dozen women with military service experience, three of whom won their races. Two years later, female veterans campaigned for office at every level—including a run for presidential nominee of a major party. *Service above Self: Women Veterans in American Politics* explores this burgeoning area of interest by looking closely at the careers of former servicewomen in US politics. Despite the growing presence of women candidates with military service or intelligence backgrounds in elected office throughout the United States, this is the first book to examine the motivation, messaging, and connections between military and public service for female veterans. Erika Cornelius Smith unravels the stories of the many trailblazing women—including Elaine Luria, Chrissy Houlahan, Elissa Slotkin, Tammy Duckworth, Joni Ernst, Martha McSally, and Tulsi Gabbard—and points the way for future studies. Inspired by their diverse paths to politics, the unique ways in which they communicate their experiences, as well as their policy positions, this work explores several important questions: What motivates servicewomen to run for office? When do their backgrounds in military service align with their mission for public service? How does experience as a servicemember affect their ability to navigate gendered stereotypes about female candidates and foreign policy? The answers revealed in their personal and professional narratives shed light on this historically significant cohort of political leaders. The first scholarly synthesis of women with military, quasimilitary, or intelligence backgrounds competing in political campaigns, *Service above Self* examines a long history of US women who served in or adjacent to the US military and translated those experiences into elected office. It is the first analysis of how they transitioned from national defense to public service—and what they did when they got to Washington, DC.

sf chronicle 2022 endorsements: The Bonds of Inequality Destin Jenkins, 2022-05-02 Cities require infrastructure as they grow and persist; infrastructure requires funding, typically from the bond market. But the bond market is not a neutral player. In this groundbreaking book, Destin Jenkins suggests that questions of urban infrastructure are inherently also questions of justice because infrastructure requires financial mechanisms to come into being. Moreover, these mechanisms abstract cities into investments controlled from afar, which exacerbates local inequalities of race, wealth, and power. Ultimately, Jenkins opens up far larger questions, such as why it is that American social welfare is predicated on the demands of finance capitalism in the first place--

the New Millennium Martin Gurri , 2018-12-04 How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. *The Revolt of the Public* tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally published in 2014, *The Revolt of the Public* is now available in an updated edition, which includes an extensive analysis of Donald Trump's improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process and whether new organizing principles, adapted to a digital world, can arise out of the present political turbulence.

sf chronicle 2022 endorsements: For a Dollar and a Dream , 2022-08-12 This first comprehensive history of America's lottery obsession explores the spread of state lotteries and how players and policymakers alike got hooked on wishful dreams of an elusive jackpot. Every week, one in eight Americans place a bet on the dream of a life-changing lottery jackpot. Americans spend more on lottery tickets annually than on video streaming services, concert tickets, books, and movie tickets combined. The story of lotteries in the United States may seem straightforward: tickets are bought predominately by poor people driven by the wishful belief that they will overcome infinitesimal odds and secure lives of luxury. The reality is more complicated. *For a Dollar and a Dream* shows how, in an era of surging inequality and stagnant upward mobility, millions of Americans turned to the lottery as their only chance at achieving the American Dream. Gamblers were not the only ones who bet on betting. As voters revolted against higher taxes in the late twentieth century, states saw legalized gambling as a panacea, a way of generating a new source of revenue without cutting public services or raising taxes. Even as evidence emerged that lotteries only provided a small percentage of state revenue, and even as data mounted about their appeal to the poor, states kept passing them and kept adding new games, desperate for their longshot gamble to pay off. Alongside stories of lottery winners and losers, Jonathan Cohen shows how gamblers have used prayer to help them win a jackpot, how states tried to pay for schools with scratch-off tickets, and how lottery advertising has targeted lower income and nonwhite communities. *For a Dollar and a Dream* charts the untold history of the nation's lottery system, revealing how players and policymakers alike got hooked on hopes for a gambling windfall.

sf chronicle 2022 endorsements: College Football John Sayle Watterson, 2020-10-13 The rules of the game have changed in the past hundred years, but human nature has not. In March

[1892] Stanford and California had played the first college football game on the Pacific Coast in San Francisco . . . The pregame activities included a noisy parade down streets bedecked with school colors. Tickets sold so fast that the Stanford student manager, future president Herbert Hoover, and his California counterpart, could not keep count of the gold and silver coins. When they finally totaled up the proceeds, they found that the revenues amounted to \$30,000—a fair haul for a game that had to be temporarily postponed because no one had thought to bring a ball!—from *College Football: History, Spectacle, Controversy*, Chapter Three In this comprehensive history of America's popular pastime, John Sayle Watterson shows how college football in more than one hundred years has evolved from a simple game played by college students into a lucrative, semiprofessional enterprise. With a historian's grasp of the context and a novelist's eye for the telling detail, Watterson presents a compelling portrait rich in anecdotes, colorful personalities, and troubling patterns. He tells how the infamous Yale-Princeton fiasco of 1881, in which Yale forced a 0-0 tie in a championship game by retaining possession of the ball for the entire game, eventually led to the first-down rule that would begin to transform Americanized rugby into American football. He describes the kicks and punches, gouged eyes, broken collarbones, and flagrant rule violations that nearly led to the sport's demise (including such excesses as a Yale player who wore a uniform soaked in blood from a slaughterhouse). And he explains the reforms of 1910, which gave official approval to a radical new tactic traditionalists were sure would doom the game as they knew it—the forward pass. As college football grew in the booming economy of the 1920s, Watterson explains, the flow of cash added fuel to an already explosive mix. Coaches like Knute Rockne became celebrities in their own right, with highly paid speaking engagements and product endorsements. At the same time, the emergence of the first professional teams led to inevitable scandals involving recruitment and subsidies for student-athletes. Revelations of illicit aid to athletes in the 1930s led to failed attempts at reform by the fledgling NCAA in the postwar Sanity Code, intended to control abuses by permitting limited subsidies to college players but which actually paved the way for the free ride many players receive today. Watterson also explains how the growth of TV revenue led to college football programs' unprecedented prosperity, just as the rise of professional football seemed to relegate college teams to minor league status. He explores issues of gender and race, from the shocked reactions of spectators to the first female cheerleaders in the 1930s to their successful exploitation by Roone Arledge three decades later. He describes the role of African-American players, from the days when Southern schools demanded all-white teams (and Northern schools meekly complied); through the black armbands and protests of the 60s; to one of the game's few successful, if limited, reforms, as black athletes dominate the playing field while often being shortchanged in the classroom. Today, Watterson observes, colleges' insatiable hunger for revenues has led to an abuse-filled game nearly indistinguishable from the professional model of the NFL. After examining the standard solutions for reform, he offers proposals of his own, including greater involvement by faculty, trustees, and college presidents. Ultimately, however, Watterson concludes that the history of college football is one in which the rules of the game have changed, but those of human nature have not.

In this rich, fascinating — surprisingly accessible — introduction, leading expert Eric Siegel reveals how predictive analytics (aka machine learning) works, and how it affects everyone every day. Rather than a “how to” for hands-on techies, the book serves lay readers and experts alike by covering new case studies and the latest state-of-the-art techniques. Prediction is booming. It reinvents industries and runs the world. Companies, governments, law enforcement, hospitals, and universities are seizing upon the power. These institutions predict whether you're going to click, buy, lie, or die. Why? For good reason: predicting human behavior combats risk, boosts sales, fortifies healthcare, streamlines manufacturing, conquers spam, optimizes social networks, toughens crime fighting, and wins elections. How?

Prediction is powered by the world's most potent, flourishing unnatural resource: data. Accumulated in large part as the by-product of routine tasks, data is the unsalted, flavorless residue deposited en masse as organizations churn away. Surprise! This heap of refuse is a gold mine. Big data embodies an extraordinary wealth of experience from which to learn. Predictive analytics (aka machine learning) unleashes the power of data. With this technology, the computer literally learns from data how to predict the future behavior of individuals. Perfect prediction is not possible, but putting odds on the future drives millions of decisions more effectively, determining whom to call, mail, investigate, incarcerate, set up on a date, or medicate. In this lucid, captivating introduction — now in its Revised and Updated edition — former Columbia University professor and Predictive Analytics World founder Eric Siegel reveals the power and perils of prediction: What type of mortgage risk Chase Bank predicted before the recession. Predicting which people will drop out of school, cancel a subscription, or get divorced before they even know it themselves. Why early retirement predicts a shorter life expectancy and vegetarians miss fewer flights. Five reasons why organizations predict death — including one health insurance company. How U.S. Bank and Obama for America calculated the way to most strongly persuade each individual. Why the NSA wants all your data: machine learning supercomputers to fight terrorism. How IBM's Watson computer used predictive modeling to answer questions and beat the human champs on TV's Jeopardy! How companies ascertain untold, private truths — how Target figures out you're pregnant and Hewlett-Packard deduces you're about to quit your job. How judges and parole boards rely on crime-predicting computers to decide how long convicts remain in prison. 182 examples from Airbnb, the BBC, Citibank, ConEd, Facebook, Ford, Google, the IRS, LinkedIn, Match.com, MTV, Netflix, PayPal, Pfizer, Spotify, Uber, UPS, Wikipedia, and more. How does predictive analytics work? This jam-packed book satisfies by demystifying the intriguing science under the hood. For future hands-on practitioners pursuing a career in the field, it sets a strong foundation, delivers the prerequisite knowledge, and whets your appetite for more. A truly omnipresent science, predictive analytics constantly affects our daily lives. Whether you are a

When you're surrounded by the happy chaos of children, how do you spend quiet time with God if the only quiet time you get is while you sleep? How can you demonstrate a solid spiritual life to your children if you don't have time to pursue one yourself? When Julia Roller discovered that her spiritual growth had been stunted by the busyness of life with her toddler, she embarked on a yearlong journey through ten spiritual disciplines: prayer, fellowship, submission, study, simplicity, silence, worship, fasting, service, and celebration. As she focused on each discipline, she discovered practical ways to observe them—even in the chaos of her every day. *Mom Seeks God* offers a highly relatable story and useful advice to help new moms grow in their faith as they address life changes with grace, patience, and prayer. As readers discover ten essential faith practices, they'll learn that motherhood, itself, is a spiritual discipline, and may be God's most effective technique for forming a more Christ-like life.

Greene, 2022-09-12 *Nez Perce Summer, 1877* tells the story of a people's epic struggle to survive spiritually, culturally, and physically in the face of unrelenting military force. Written by one of the foremost experts in frontier military history, Jerome A. Greene, and reviewed by members of the Nez Perce tribe, this definitive treatment of the Nez Perce War is the first to incorporate research from all known accounts of Nez Perce and U.S. military participants. Enhanced by sixteen detailed maps and forty-nine historic photographs, Greene's gripping narrative takes readers on a three-and-one-half month 1,700-mile journey across the wilds of Idaho, Wyoming, and Montana territories. All of the skirmishes and battles of the war receive detailed treatment, which benefits from Greene's astute analysis of the

strategies and decision making on both sides. Between 100 and 150 of the more than 800 Nez Perce men, women, and children who began the trek were killed during the war. Almost as many died in the months following the surrender, after they were exiled to malaria-ridden northeastern Oklahoma. Army deaths numbered 113. The casualties on both sides were an extraordinary price for a war that nobody wanted but whose history has since fascinated generations of Americans.

Organized into three parts, Diversity, Equity, and Inclusion in Sport aims to clearly illustrate how to make a true impact in sport settings. Part I delivers foundational knowledge of what diversity, equity, and inclusion mean within sport organizations, including how power and privilege play out in sport organizations to include some and exclude others. Students will develop the skills associated with appreciating and having conversations about differences and learn how understandings about difference affect policy development and decision-making. Part II further develops understanding of diversity, equity, and inclusion through comprehensive coverage of critical areas of diversity that have an impact on the sport industry, including social class and economic status, gender and gender identity, race and ethnicity, disability, political influence and affiliation, religion, and age. Part III is designed to empower sport professionals to become leaders, providing actionable advice on promoting and successfully implementing best practices. Students will learn about connecting difficult conversations to leadership, planning strategically, assessing organizational climate, and using sport as a platform for social change. Each chapter opens with a real-life scenario introducing the chapter's topic and closes with exercises to prompt critical thinking about the issues raised. Sport Industry Leader Profiles provide interviews with leading professionals for practical, informed opinions on the issues presented. Sport Industry Diversity Initiative sidebars feature organizational approaches to DEI issues. Diversity, Equity, and Inclusion in Sport addresses the key areas and challenges surrounding DEI in the sport industry and examines the role of sport in effecting social change. With practical application skills on incorporating knowledge into decision-making, current and future professionals alike will be prepared to lead sport businesses as diverse, equitable, and inclusive environments.

Inspiring and empowering.” —Entertainment Weekly “An essential read for women in the workplace today.” —Refinery29 Part-manifesto, part-memoir, from the revolutionary editor who infused social consciousness into the pages of Teen Vogue, an exploration of what it means to come into your own—on your own terms Throughout her life, Elaine Welteroth has climbed the ranks of media and fashion, shattering ceilings along the way. In this riveting and timely memoir, the groundbreaking journalist unpacks lessons on race, identity, and success through her own journey, from navigating her way as the unstoppable child of an unlikely interracial marriage in small-town California to finding herself on the frontlines of a modern movement for the next generation of change makers. Welteroth moves beyond the headlines and highlight reels to share the profound lessons and struggles of being a barrier-breaker across so many intersections. As a young boss and often the only Black woman in the room, she's had enough of the world telling her—and all women—they're not enough. As she learns to rely on herself by looking both inward and upward, we're ultimately reminded that we're more than enough.

sf chronicle 2022 endorsements: Routledge Handbook of Sport and COVID-19 Stephen Frawley, Nico Schulenkorf, 2022-08-24 This book examines the initial impact of the coronavirus pandemic on global sport and the varying consequences of the sport shutdown on all levels of society. It also considers the many lessons that have been learnt so that sport stakeholders can successfully adjust and operate under the new normal. Featuring authors, cases and examples from around the world, the book explores the impact of COVID-19 on sport at all levels, from community sport – where local clubs, gyms and development programmes had to find ways to survive with pitches closed and projects cancelled – to the major professional sport leagues and sport mega-events, with events postponed and teams playing in empty stadia. It considers the economic, social and developmental impacts of the pandemic, including physical, mental and social wellbeing, and looks at how key professional and community sport organizations have reacted to the crisis, reflecting on the lessons learnt and preparations for future pandemics and challenges of similar size and significance. With COVID-19 now endemic in the global population, this is an essential reference for anybody working in sport, from students and researchers to managers, policymakers and development officers.

sf chronicle 2022 endorsements: The Collected Stories of Diane Williams Diane Williams, 2018-10-02 With over three hundred new and previously published short stories as well as three novellas, *The Collected Stories of Diane Williams* brings together distilled works of “unsettling brilliance” (Vanity Fair) that have rewritten the rules of American short fiction. From Ben Marcus’ introduction to *The Collected Stories of Diane Williams*: “Diane Williams has spent her long, prolific career concocting fictions of perfect strangeness, most of them no more than a page long. She’s a hero of the form: the sudden fiction, the flash fiction, whatever it’s being called these days. The stories are short. They defy logic. They thumb their nose at conventional sense, or even unconventional sense. But if sense is in short supply in these texts, that leaves more room for splendor and sorrow. These stories upend expectations and prize enigma and the uncanny above all else. The Williams epiphany should be patented, or bottled—on the other hand, it should also be regulated and maybe rationed, because it’s severe. It’s a rare feeling her stories trigger, but it’s a keen and deep and welcome one, the sort of feeling that wakes us up to complication and beauty and dissonance and fragility.”

sf chronicle 2022 endorsements: Ballad of the Bullet Forrest Stuart, 2021-05-04 Drawing on two years of ethnographic fieldwork and over 150 interviews with gang-affiliated youth in the Taylor Park neighborhood on Chicago's South Side, *Ballad of the Bullet* reveals that those coming of age in America's poorest neighborhoods are developing new, creative, and online strategies for making ends meet. Dislocated by the erosion of the crack economy and the splintering of corporatized gangs, these young people exploit the unique affordances of digital social media to capitalize on an emerging online market for urban violence (or, more accurately, a market for the representation of urban violence). In the past, violence functioned primarily as a means of social control, allowing urban youth to compete in illegal street markets and defend the social statuses otherwise denied to them by mainstream society. Today, with the rise of platforms like YouTube, Instagram, and Twitter, violence has become a premier cultural commodity in and of itself. By amassing millions of clicks, views, and followers, these young people convert their online displays of violence into vital offline resources, including cash, housing, drugs, sex, and, for a very select few, a ticket out of poverty --

sf chronicle 2022 endorsements: The Uninhabitable Earth David Wallace-Wells, 2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker • The New York Times Book Review • Time • NPR • The Economist • The Paris Review •

Toronto Star • GQ • The Times Literary Supplement • The New York Public Library • Kirkus Reviews It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (The Guardian) and “this generation’s Silent Spring” (The Washington Post), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. **LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—The Economist “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s Silent Spring.”—The Washington Post “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books*

sf chronicle 2022 endorsements: Founding Gardeners Andrea Wulf, 2012-04-03 From the bestselling author of *The Invention of Nature*, a fascinating look at the Founding Fathers like none you’ve seen before. “Illuminating and engrossing.... The reader relives the first decades of the Republic ... through the words of the statesmen themselves.” —The New York Times Book Review For the Founding Fathers, gardening, agriculture, and botany were elemental passions: a conjoined interest as deeply ingrained in their characters as the battle for liberty and a belief in the greatness of their new nation. *Founding Gardeners* is an exploration of that obsession, telling the story of the revolutionary generation from the unique perspective of their lives as gardeners, plant hobbyists, and farmers. Acclaimed historian Andrea Wulf describes how George Washington wrote letters to his estate manager even as British warships gathered off Staten Island; how a tour of English gardens renewed Thomas Jefferson’s and John Adams’s faith in their fledgling nation; and why James Madison is the forgotten father of environmentalism. Through these and other stories, Wulf reveals a fresh, nuanced portrait of the men who created our nation.

sf chronicle 2022 endorsements: Chasing Venus Andrea Wulf, 2012-05-01 A “thrilling adventure story (San Francisco Chronicle) that brings to life the astronomers who in the 1700s embarked upon a quest to calculate the size of the solar system, and paints a vivid portrait of the collaborations, rivalries, and volatile international politics that hindered them at every turn. • From

the author of *Magnificent Rebels* and New York Times bestseller *The Invention of Nature*. On June 6, 1761, the world paused to observe a momentous occasion: the first transit of Venus between the Earth and the Sun in more than a century. Through that observation, astronomers could calculate the size of the solar system—but only if they could compile data from many different points of the globe, all recorded during the short period of the transit. Overcoming incredible odds and political strife, astronomers from Britain, France, Russia, Germany, Sweden, and the American colonies set up observatories in the remotest corners of the world, only to be thwarted by unpredictable weather and warring armies. Fortunately, transits of Venus occur in pairs; eight years later, they would have another opportunity to succeed. Thanks to these scientists, neither our conception of the universe nor the nature of scientific research would ever be the same.

sf chronicle 2022 endorsements: Near a Thousand Tables Felipe Fernandez-Armesto, 2002-06-04 In *Near a Thousand Tables*, acclaimed food historian Felipe Fernández-Armesto tells the fascinating story of food as cultural as well as culinary history -- a window on the history of mankind. In this appetizingly provocative (Los Angeles Times) book, he guides readers through the eight great revolutions in the world history of food: the origins of cooking, which set humankind on a course apart from other species; the ritualization of eating, which brought magic and meaning into people's relationship with what they ate; the inception of herding and the invention of agriculture, perhaps the two greatest revolutions of all; the rise of inequality, which led to the development of haute cuisine; the long-range trade in food which, practically alone, broke down cultural barriers; the ecological exchanges, which revolutionized the global distribution of plants and livestock; and, finally, the industrialization and globalization of mass-produced food. From prehistoric snail herding to Roman banquets to Big Macs to genetically modified tomatoes, *Near a Thousand Tables* is a full-course meal of extraordinary narrative, brilliant insight, and fascinating explorations that will satisfy the hungriest of readers.

sf chronicle 2022 endorsements: BRAIDED IN FIRE SOLACE WALES, 2020-06-30 *BRAIDED IN FIRE* is the stirring author's search to understand the drama that unfolded between the Italian peasants and African-American infantrymen of the 366th Infantry Regiment whose lives were lost, or changed irrevocably by a village battle in Tuscany during the Battle of Garfagnana. Cultures and relationships are intertwined to become *BRAIDED IN FIRE* in Sommocolonia, a medieval Tuscan village in the Apennines directly on the highly fortified Third Reich's 'Gothic Line' stretching across northern Italy. Only at Sommocolonia did attacking German troops break through that formidable line, with dire consequences to the inhabitants and their defenders, a handful of black GIs, who were outnumbered three to one by the Axis troops. In the desperate fight, Lt. John Fox sacrificed himself with supreme heroism. (He was posthumously awarded the Medal of Honor 52 years later.) Although the military action, (and tragic inaction of certain senior white officers), is described in detail, *BRAIDED IN FIRE* is not just military history, but tells of the human toll of war: the drama, the folly, the heartache - all present in grand measure for two peoples marginalized over the years for reasons of race and economic circumstances. *BRAIDED IN FIRE* is a celebration of human dignity in desperate circumstances. This book is painted in a narrative befitting the beauty and rich hues of the Tuscan hills and its people, juxtaposed by the toils of a segregated America in black versus white, even while in Army green. Together these two worlds are *BRAIDED IN FIRE* with all of the passion, heartbreak, and violence of war, ultimately providing the reader with a redemptive peace, and cultural harmony. Praise for *BRAIDED IN FIRE* *Braided in Fire* tells the story of Lieutenant John Fox, a forward artillery observer and posthumous Medal of Honor recipient, who directed friendly artillery fire on his own position as German troops overran Sommocolonia, Italy, on December 26, 1944. Fox's selfless sacrifice went unrecognized by the U.S. government for half a century simply because he was black. Solace Wales has invested decades in researching this instance of forgotten valor, producing a rich tapestry that interweaves the experiences of the black GIs and Italian villagers caught in the hellish maelstrom that engulfed Sommocolonia the day John Fox died. The result is a moving meditation on the cost of war and a tribute to the African Americans who fought for a country that treated them like second-class citizens. ~ Gregory J.W. Urwin, Professor of

History, Temple University, author of *Facing Fearful Odds: The Siege of Wake Island Braided with Fire* vividly recounts the intertwined histories of the small Italian town of Sommocolonia and the black 366th Infantry Regiment, which intersected during the German Winter Storm Offensive in December 1944. At the center of Solace Wales' story are the brave Biondi family and forward artillery observer Lieutenant John Fox, who won the Medal of Honor for his heroism in Sommocolonia. Thoroughly researched and dramatically retold, *Braided with Fire* adds a valuable new page to our understanding of the Second World War. ~ Ian Ona Johnson, P.J. Moran Assistant Professor of Military History, the University of Notre Dame Solace Wales contributes a remarkable, unique account which is not available anywhere else. . . Because of her gracious literary style, she vividly captures the ways in which the African American soldiers and the Italians of Sommocolonia's lives became intertwined. The book breaks new ground. ~ Carolyn Ross Johnston, author of *My Father's War: Fighting with the Buffalo Soldiers in World War II*

sf chronicle 2022 endorsements: *The Tenderloin* Randy Shaw, 2015 Named for a part of the city where bribes bought police the highest-grade beef, San Francisco's Tenderloin neighborhood remains an island of primarily low-income, ethnically diverse residents in a city of ever increasing wealth. How has it survived? Randy Shaw searches for answers in this powerful account of the Tenderloin from its post-quake rebuilding in 1907 through today. The Tenderloin fought back against the establishment time and time again. And often won. Shaw shows how those outside the mainstream--independent working women, gay men, screaming queens activist SRO hotel tenants and many others--led these struggles. Once known for girls, gambling and graft, the Tenderloin was also fertile ground for the Grateful Dead, Miles Davis, Dashiell Hammett and other cultural icons. This is the untold story of a neighborhood that persisted against all odds. It is a must-read for everyone concerned about the future of urban neighborhoods.
