## **Unleash Your Inner Artist: A Deep Dive into SNHU's Photography Degree**

Are you passionate about capturing the world through your lens? Do you dream of transforming your artistic vision into a thriving career? Then Southern New Hampshire University's (SNHU) photography degree might be the perfect path for you. This comprehensive guide will explore everything you need to know about SNHU's photography program, from its curriculum and learning style to career prospects and financial aid options. We'll delve into the details, providing you with the information you need to make an informed decision about your future in photography.

### **Understanding SNHU's Photography Program: A Closer Look**

SNHU's Bachelor of Arts in Photography is a fully online program, offering flexibility and accessibility to aspiring photographers nationwide. This isn't just a collection of online tutorials; it's a dynamic learning experience designed to nurture your creative talent while equipping you with the technical skills and business acumen necessary to succeed in the competitive photography industry.

#### **#### Curriculum Highlights: More Than Just Snapshots**

The curriculum is meticulously crafted to provide a well-rounded education encompassing both the artistic and technical aspects of photography. Students will learn:

**Fundamentals of Photography:** Mastering exposure, composition, lighting, and other core photographic principles. This foundational knowledge forms the bedrock of your skills.

**Digital Imaging and Post-Production:** Gain proficiency in using industry-standard software like Adobe Photoshop and Lightroom to edit and enhance your images. Learning to master these tools is crucial for professional work.

**Specialized Photography Techniques:** Explore diverse photographic genres, including portraiture, landscape, photojournalism, and fine art photography. Experimentation and specialization are key to finding your niche.

**Photography Business and Entrepreneurship:** Develop crucial business skills, such as marketing, branding, client management, and portfolio building. This is vital for turning your passion into a profitable career.

**Art History and Theory:** Understanding the historical context and theoretical underpinnings of photography enhances your artistic vision and critical thinking skills. This broader perspective enriches your creative output.

#### **#### Flexible Learning Environment: Tailored to Your Lifestyle**

SNHU's online learning environment is designed for flexibility. The program accommodates various learning styles and schedules, making it ideal for working professionals, parents, and anyone

seeking a non-traditional educational path. You'll have access to online resources, instructor support, and a vibrant online community of fellow students. This collaborative environment fosters learning and professional networking.

### #### Career Opportunities: Where Your Passion Meets Profession

A degree in photography from SNHU opens doors to a wide array of career paths. Graduates can pursue roles as:

**Freelance Photographer:** Building a successful freelance career, offering services to clients across various industries.

**Photojournalist:** Documenting events and telling stories through compelling imagery.

**Commercial Photographer:** Creating images for advertising, marketing, and corporate clients.

**Fine Art Photographer:** Exhibiting and selling your artwork in galleries and online platforms.

**Wedding Photographer:** Capturing precious memories for couples on their special day.

**Portrait Photographer:** Specializing in capturing evocative portraits of individuals and families.

### #### Financial Aid and Scholarships: Investing in Your Future

SNHU offers a range of financial aid options, including scholarships, grants, and loans, to make the program accessible to a broader range of students. Exploring these options can significantly reduce the financial burden of pursuing your degree. Their financial aid office provides comprehensive guidance throughout the process.

**snhu photography degree: You Can Do Anything** George Anders, 2017-08-08 In a tech-dominated world, the most needed degrees are the most surprising: the liberal arts. Did you take the right classes in college? Will your major help you get the right job offers? For more than a decade, the national spotlight has focused on science and engineering as the only reliable choice for finding a successful post-grad career. Our destinies have been reduced to a caricature: learn to write computer code or end up behind a counter, pouring coffee. Quietly, though, a different path to success has been taking shape. In *You Can Do Anything*, George Anders explains the remarkable power of a liberal arts education - and the ways it can open the door to thousands of cutting-edge jobs every week. The key insight: curiosity, creativity, and empathy aren't unruly traits that must be reined in. You can be yourself, as an English major, and thrive in sales. You can segue from anthropology into the booming new field of user research; from classics into management consulting, and from philosophy into high-stakes investing. At any stage of your career, you can bring a humanist's grace to our rapidly evolving high-tech future. And if you know how to attack the

job market, your opportunities will be vast. In this book, you will learn why resume-writing is fading in importance and why telling your story is taking its place. You will learn how to create jobs that don't exist yet, and to translate your campus achievements into a new style of expression that will make employers' eyes light up. You will discover why people who start in eccentric first jobs - and then make their own luck - so often race ahead of peers whose post-college hunt focuses only on security and starting pay. You will be ready for anything.

**snhu photography degree: Forensic Science and the Administration of Justice** Kevin J. Strom, Matthew J. Hickman, 2014-04-04 Uniting forensics, law, and social science in meaningful and relevant ways, *Forensic Science and the Administration of Justice*, by Kevin J. Strom and Matthew J. Hickman, is structured around current research on how forensic evidence is being used and how it is impacting the justice system. This unique book—written by nationally known scholars in the field—includes five sections that explore the demand for forensic services, the quality of forensic services, the utility of forensic services, post-conviction forensic issues, and the future role of forensic science in the administration of justice. The authors offer policy-relevant directions for both the criminal justice and forensic fields and demonstrate how the role of the crime laboratory in the American justice system is evolving in concert with technological advances as well as changing demands and competing pressures for laboratory resources.

**snhu photography degree: *Coyote Songs*** Gabino Iglesias, 2024-07-23 The sophomore novel from one of the most electrifying voices in contemporary crime fiction, Gabino Iglesias, *Coyote Songs* follows several, lost, desperate folk in the heart of the southwest. In this mosaic horror/crime novel, ghosts and old gods guide the hands of those caught up in a violent struggle to save the soul of the American southwest. A man tasked with shuttling children over the border believes the Virgin Mary is guiding him towards final justice. A woman offers colonizer blood to the Mother of Chaos. A boy joins corpse destroyers to seek vengeance for the death of his father. These stories intertwine with those of a vengeful spirit and a hungry creature to paint a timely, compelling, pulpy portrait of revenge, family, and hope.

**snhu photography degree: *The Rhetoric of Rebel Women*** Kimberly Harrison, 2013-09-30 During the American Civil War, southern white women found themselves speaking and acting in unfamiliar and tumultuous circumstances. With the war at their doorstep, women who supported the war effort took part in defining what it meant to be, and to behave as, a Confederate through their verbal and nonverbal rhetorics. Though most did not speak from the podium, they viewed themselves as participants in the war effort, indicating that what they did or did not say could matter. Drawing on the rich evidence in women's Civil War diaries, *The Rhetoric of Rebel Women* recognizes women's persuasive activities as contributions to the creation and maintenance of Confederate identity and culture. Informed by more than one hundred diaries, this study provides insight into how women cultivated rhetorical agency, challenging traditional gender expectations while also upholding a cultural status quo. Author Kimberly Harrison analyzes the rhetorical choices these women made and valued in wartime and postwar interactions with Union officers and soldiers, slaves and former slaves, local community members, and even their God. In their intimate accounts of everyday war, these diarists discussed rhetorical strategies that could impact their safety, their livelihoods, and those of their families. As they faced Union soldiers in attempts to protect their homes and property, diarists saw their actions as not only having local, immediate impact on their well-being but also as reflecting upon their cause and the character of the southern people as a whole. They instructed themselves through their personal writing, allowing insight into how southern women prepared themselves to speak and act in new and contested contexts. *The Rhetoric of Rebel Women* highlights the contributions of privileged white southern women in the development of the Confederate national identity, presenting them not as passive observers but as active participants in the war effort.

**snhu photography degree: *Going All City*** Stefano Bloch, 2019-11-14 "We could have been called a lot of things: brazen vandals, scared kids, threats to social order, self-obsessed egomaniacs, marginalized youth, outsider artists, trend setters, and thrill seekers. But, to me, we were just

regular kids growing up hard in America and making the city our own. Being 'writers' gave us something to live for and 'going all city' gave us something to strive for; and for some of my friends it was something to die for." In the age of commissioned wall murals and trendy street art, it's easy to forget graffiti's complicated and often violent past in the United States. Though graffiti has become one of the most influential art forms of the twenty-first century, cities across the United States waged a war against it from the late 1970s to the early 2000s, complete with brutal police task forces. Who were the vilified taggers they targeted? Teenagers, usually, from low-income neighborhoods with little to their names except a few spray cans and a desperate need to be seen—to mark their presence on city walls and buildings even as their cities turned a blind eye to them. *Going All City* is the mesmerizing and painful story of these young graffiti writers, told by one of their own. Prolific LA writer Stefano Bloch came of age in the late 1990s amid constant violence, poverty, and vulnerability. He recounts vicious interactions with police; debating whether to take friends with gunshot wounds to the hospital; coping with his mother's heroin addiction; instability and homelessness; and his dread that his stepfather would get out of jail and tip his unstable life into full-blown chaos. But he also recalls moments of peace and exhilaration: marking a fresh tag; the thrill of running with his crew at night; exploring the secret landscape of LA; the dream and success of going all city. Bloch holds nothing back in this fierce, poignant memoir. *Going All City* is an unflinching portrait of a deeply maligned subculture and an unforgettable account of what writing on city walls means to the most vulnerable people living within them.

**snhu photography degree: Long Life Learning** Michelle R. Weise, 2020-11-10 A visionary guide for the future of learning and work *Long Life Learning: Preparing for Jobs That Don't Even Exist Yet* offers readers a fascinating glimpse into a near-future where careers last 100 years, and education lasts a lifetime. The book makes the case that learners of the future are going to repeatedly seek out educational opportunities throughout the course of their working lives — which will no longer have a beginning, middle, and end. *Long Life Learning* focuses on the disruptive and burgeoning innovations that are laying the foundation for a new learning model that includes clear navigation, wraparound and funding supports, targeted education, and clear connections to more transparent hiring processes. Written by the former chief innovation officer of Strada Education Network's Institute for the Future of Work, the book examines: How will a dramatically extended lifespan affect our careers? How will more time in the workforce shape our educational demands? Will a four-year degree earned at the start of a 100-year career adequately prepare us for the challenges ahead? Perfect for anyone with an interest in the future of education and Clayton Christensen's theories of disruptive innovation, *Long Life Learning* provides an invaluable glimpse into a future that many of us have not even begun to imagine.

**snhu photography degree: The Year of the Gator** Lawrence W. Schnell, 2017-07-18 Adrian Wright's *Year of the Gator* begins when he buys *Bubba's by the Lake*. Betting on lakefront property in Florida seems a sure thing. Adrian Wright hopes his purchase of *Bubba's by the Lake* near Gainesville will finally make him money, maybe enough to live his sailing dream. Wright is quickly recruited by powerful business leaders working with the University of Florida to develop a massive sports complex on conservation land near his restaurant and marina. Activist Parker Greenberg is determined to stop the project and expose the land speculators hiding behind a lucrative blind trust. Wright joins the opposition and finds himself in the sights of powerful business leaders, a corrupt newspaper, a politically connected pastor, and the law. Greenberg warns him of the dangers of vindictive girlfriends, unruly clients, trafficking, and other temptations that have ruined previous owners of *Bubba's by the Lake*. As the business slides, Adrian embraces them all. In a tangle of politics, money, and women, Adrian's feeble facade of financial success crumbles and he faces consequences far worse than Florida concrete and asphalt. Love, friendship, deception, and tragedy are the finale of this Florida tale.

**snhu photography degree: Human + Machine** Paul R. Daugherty, H. James Wilson, 2018-03-20 AI is radically transforming business. Are you ready? Look around you. Artificial intelligence is no longer just a futuristic notion. It's here right now—in software that senses what we need, supply chains that think in real time, and robots that respond to changes in their environment. Twenty-first-century pioneer companies are already using AI to innovate and grow fast. The bottom line is this: Businesses that understand how to harness AI can surge ahead. Those that neglect it will

fall behind. Which side are you on? In *Human + Machine*, Accenture leaders Paul R. Daugherty and H. James (Jim) Wilson show that the essence of the AI paradigm shift is the transformation of all business processes within an organization--whether related to breakthrough innovation, everyday customer service, or personal productivity habits. As humans and smart machines collaborate ever more closely, work processes become more fluid and adaptive, enabling companies to change them on the fly--or to completely reimagine them. AI is changing all the rules of how companies operate. Based on the authors' experience and research with 1,500 organizations, the book reveals how companies are using the new rules of AI to leap ahead on innovation and profitability, as well as what you can do to achieve similar results. It describes six entirely new types of hybrid human + machine roles that every company must develop, and it includes a leader's guide with the five crucial principles required to become an AI-fueled business. *Human + Machine* provides the missing and much-needed management playbook for success in our new age of AI. **BOOK PROCEEDS FOR THE AI GENERATION** The authors' goal in publishing *Human + Machine* is to help executives, workers, students and others navigate the changes that AI is making to business and the economy. They believe AI will bring innovations that truly improve the way the world works and lives. However, AI will cause disruption, and many people will need education, training and support to prepare for the newly created jobs. To support this need, the authors are donating the royalties received from the sale of this book to fund education and retraining programs focused on developing fusion skills for the age of artificial intelligence.

**snhu photography degree:** *Time of Our Lives* Emily Wibberley, Austin Siegemund-Broka, 2020-04-21 Emily and Austin have a reputation for delivering heartwarming, provoking, and real contemporary YA novels.--BuzzFeed A reflective, romantic coming-of-age novel that explores life after high school--perfect for fans of Fangirl and Emergency Contact A boy desperate to hold on, a girl ready to let go. Fitz Holton waits in fear for the day his single mother's early-onset Alzheimer's starts stealing her memory. He's vowed to stay close to home to care for her in the years to come--never mind the ridiculous college tour she's forcing him on to visit schools where he knows he'll never go. Juniper Ramirez is counting down the days until she can leave home, a home crowded with five younger siblings and zero privacy. Against the wishes of her tight-knit family, Juniper plans her own college tour of the East Coast with one goal: get out. When Fitz and Juniper cross paths on their first college tour in Boston, they're at odds from the moment they meet-- while Juniper's dying to start a new life apart from her family, Fitz faces the sacrifices he must make for his. Their relationship sparks a deep connection--in each other's eyes, they glimpse alternate possibilities regarding the first big decision of their adult lives. *Time of Our Lives* is a story of home and away, of the wonder and weight of memory, of outgrowing fears and growing into the future.

**snhu photography degree:** *Competing Against Luck* Clayton M. Christensen, Taddy Hall, Karen Dillon, David S. Duncan, 2016-10-04 The foremost authority on innovation and growth presents a path-breaking book every company needs to transform innovation from a game of chance to one in which they develop products and services customers not only want to buy, but are willing to pay premium prices for. How do companies know how to grow? How can they create products that they are sure customers want to buy? Can innovation be more than a game of hit and miss? Harvard Business School professor Clayton Christensen has the answer. A generation ago, Christensen revolutionized business with his groundbreaking theory of disruptive innovation. Now, he goes further, offering powerful new insights. After years of research, Christensen has come to one critical conclusion: our long held maxim—that understanding the customer is the crux of innovation—is wrong. Customers don't buy products or services; they hire them to do a job. Understanding customers does not drive innovation success, he argues. Understanding customer jobs does. The Jobs to Be Done approach can be seen in some of the world's most respected companies and fast-growing startups, including Amazon, Intuit, Uber, Airbnb, and Chobani yogurt, to name just a few. But this book is not about celebrating these successes—it's about predicting new ones. Christensen contends that by understanding what causes customers to hire a product or service, any business can improve its innovation track record, creating products that customers not

only want to hire, but that they'll pay premium prices to bring into their lives. Jobs theory offers new hope for growth to companies frustrated by their hit and miss efforts. This book carefully lays down Christensen's provocative framework, providing a comprehensive explanation of the theory and why it is predictive, how to use it in the real world—and, most importantly, how not to squander the insights it provides.

**snhu photography degree: Careers in Art History** Association of Art Historians, 2013 For prospective undergraduate students of Art History, or professionals looking to develop an existing art history career or move into the field, Careers in Art History groups jobs by theme to show the range of careers available within certain sectors and how they interconnect. This edition has also included more potential careers, including less obvious roles such as advertising, heritage tourism and museum retail, and reflected the changing job market with an extended entry on freelance work. **snhu photography degree: How Far She Went** Mary Hood, 2011-03-15 Mary Hood's fictional world is a world where fear, anger, longing—sometimes worse—lie just below the surface of a pleasant summer afternoon or a Sunday church service. In *A Country Girl*, for example, she creates an idyllic valley where a barefoot girl sings melodies low and private as a lullaby and where you could pick up one of the little early apples from the ground and eat it right then without worrying about pesticide. But something changes this summer afternoon with the arrival at a family reunion of fair and fiery Johnny Calhoun: everybody's kind and nobody's kin, forty in a year or so, and wild in the way that made him worth the trouble he caused. The title story in the collection begins with a visit to clean the graves in a country cemetery and ends with the terrifying pursuit of a young girl and her grandmother by two bikers, one of whom had the invading sort of eyes the woman had spent her lifetime bolting doors against. In the story *Inexorable Process* we see the relentless desperation of Angelina, who hated many things, but Sundays most of all, and in *Solomon's Seal* the ancient anger of the mountain woman who has crowded her husband out of her life and her heart, until the plants she has tended in her rage fill the half-acre. The madder she got, the greener everything grew.

**snhu photography degree: The Future of Nursing** Institute of Medicine, Committee on the Robert Wood Johnson Foundation Initiative on the Future of Nursing, at the Institute of Medicine, 2011-02-08 *The Future of Nursing* explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care

reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles-including limits on nurses' scope of practice-should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

**snhu photography degree: *The Half-Orphan's Handbook*** Joan F. Smith, 2021-04-20 For fans of John Green and Emily X.R. Pan, *The Half-Orphan's Handbook* by Joan F. Smith is a coming-of-age story and an empathetic, authentic exploration of grief with a sharp sense of humor and a big heart. It's been three months since Lila lost her father to suicide. Since then, she's learned to protect herself from pain by following two unbreakable rules: 1. The only people who can truly hurt you are the ones you love. Therefore, love no one. 2. Stay away from liars. Liars are the worst. But when Lila's mother sends her to a summer-long grief camp, it's suddenly harder for Lila to follow these rules. Potential new friends and an unexpected crush threaten to drag her back into life for the first time since her dad's death. On top of everything, there's more about what happened that Lila doesn't know, and facing the truth about her family will be the hardest part of learning how a broken heart can love again. An Imprint Book

**snhu photography degree: *American Nerd*** Benjamin Nugent, 2008-05-13 Most people know a nerd when they see one but can't define just what a nerd is. *American Nerd: The Story of My People* gives us the history of the concept of nerdiness and of the subcultures we consider nerdy. What makes Dr. Frankenstein the archetypal nerd? Where did the modern jock come from? When and how did being a self-described nerd become trendy? As the nerd emerged, vaguely formed, in the nineteenth century, and popped up again and again in college humor journals and sketch comedy, our culture obsessed over the designation. Mixing research and reportage with autobiography, critically acclaimed writer Benjamin Nugent embarks on a fact-finding mission of the most entertaining variety. He seeks the best definition of nerd and illuminates the common ground between nerd subcultures that might seem unrelated: high-school debate team kids and ham radio enthusiasts, medieval reenactors and pro-circuit Halo players. Why do the same people who like to work with computers also enjoy playing *Dungeons & Dragons*? How are those activities similar? This clever, enlightening book will appeal to the nerd (and antinerd) that lives inside all of us.

**snhu photography degree: *The Nashville Way*** Benjamin Houston, 2012 Among Nashville's many slogans, the one that best reflects its emphasis on manners and decorum is the Nashville Way, a phrase coined by boosters to tout what they viewed as the city's amicable race relations. Benjamin Houston offers the first scholarly book on the history of civil rights in Nashville, providing new insights and critiques of this moderate progressivism for which the city has long been credited. Civil rights leaders such as John Lewis, James Bevel, Diane Nash, and James Lawson who came into their own in Nashville were devoted to nonviolent direct action, or what Houston calls the "black Nashville Way." Through the dramatic story of Nashville's 1960 lunch counter sit-ins, Houston shows

how these activists used nonviolence to disrupt the coercive script of day-to-day race relations. Nonviolence brought the threat of its opposite—white violence—into stark contrast, revealing that the Nashville Way was actually built on a complex relationship between etiquette and brute force. Houston goes on to detail how racial etiquette forged in the era of Jim Crow was updated in the civil rights era. Combined with this updated racial etiquette, deeper structural forces of politics and urban renewal dictate racial realities to this day. In *The Nashville Way*, Houston shows that white power was surprisingly adaptable. But the black Nashville Way also proved resilient as it was embraced by thousands of activists who continued to fight battles over schools, highway construction, and economic justice even after most Americans shifted their focus to southern hotspots like Birmingham and Memphis.

**snhu photography degree:** *The Boy Who Met Jesus* Immaculee Ilibagiza, 2012-11-28 It's the greatest story never told: that of a boy who met Jesus and dared to ask Him all the questions that have consumed mankind since the dawn of time. His name was Segatashya. He was a shepherd born into a penniless and illiterate pagan family in the most remote region of Rwanda. He never attended school, never saw a bible, and never set foot in a church. Then one summer day in 1982 while the 15-year-old was resting beneath a shade tree, Jesus Christ paid him a visit. Jesus asked the startled young man if he'd be willing to go on a mission to remind mankind how to live a life that leads to heaven. Segatashya accepted the assignment on one condition: that Jesus answer all his questions—and all the questions of those he met on his travels—about faith, religion, the purpose of life, and the nature of heaven and hell. Jesus agreed to the boy's terms, and Segatashya set off on what would become one of the most miraculous journeys in modern history. Although he was often accused of being a charlatan and beaten as a result, Segatashya's innocent heart and powerful spiritual wisdom quickly won over even the most cynical of critics. Soon, this teenage boy who had never learned to read or write was discussing theology with leading biblical scholars and advising pastors and priests of all denominations. He became so famous in Rwanda that the Catholic Church investigated his story. The doctors and psychiatrists who examined Segatashya all agreed that they were witnessing a miracle. His words and simple truths converted thousands of hearts and souls wherever he went. Before his death during the 1994 Rwandan genocide, Segatashya continued his travels and conversations with Jesus for eight years, asking Him what we all want to know: · Why were we created? · Why must we suffer? · Why do bad things happen to good people? · When will the world end? · Is there life after death? · How do we get to Heaven? The answers to these and many other momentous, life-changing questions are revealed in this riveting book, which is the first full account of Segatashya's remarkable life story. Written with grace, passion, and loving humor by Immaculée Ilibagiza, Segatashya's close friend and a survivor of the Rwandan holocaust herself, this truly inspirational work is certain to move you in profound ways. No matter what your faith or religious beliefs, Segatashya's words will bring you comfort and joy, and prepare your heart for this life . . . and for life everlasting.

**snhu photography degree: Medieval and Early Modern Representations of Authority in Scotland and the British Isles** Kate Buchanan, Lucinda H.S. Dean, 2016-05-20 What use is it to be given authority over men and lands if others do not know about it? Furthermore, what use is that authority if those who know about it do not respect it or recognise its jurisdiction? And what strategies and 'language' -written and spoken, visual and auditory, material, cultural and political - did those in authority throughout the medieval and early modern era use to project and make known their power? These questions have been crucial since regulations for governance entered society and are found at the core of this volume. In order to address these issues from an historical perspective, this collection of essays considers representations of authority made by a cross-section of society within the British Isles. Arranged in thematic sections, the 14 essays in the collection bridge the divide between medieval and early modern to build up understanding of the developments and continuities that can be followed across the centuries in question. Whether crown or noble, government or church, burgh or merchant; all desired power and influence, but their means of representing authority were very different. These essays encompass a myriad of methods

demonstrating power and disseminating the image of authority, including: material culture, art, literature, architecture and landscapes, saintly cults, speeches and propaganda, martial posturing and strategic alliances, music, liturgy and ceremonial display. Thus, this interdisciplinary collection illuminates the variable forms in which authority was presented by key individuals and institutions in Scotland and the British Isles. By placing these within the context of the European powers with whom they interacted, this volume also underlines the unique relationships developed between the people and those who exercised authority over them.

**snhu photography degree: *The Global Education Movement*** Toni Fuss Kirkwood-Tucker, 2018-01-01 The pages of this book paint a portrait of thirteen scholars and their lifelong professional accomplishments in and contributions to teaching, service, and research in global international education around the world. Their extraordinary work contributed extensively to the development, direction and growth of the global education movement in the United States initiated by James M. Becker as Director of School Services for the Foreign Policy Association, New York City, in the 1960s. These scholars were honored with the Distinguished Global Scholar Award presented by the International Assembly of the National Council for the Social Studies, the largest professional organization for social studies educators in the United States. Their narratives comprise an intriguing mosaic of backgrounds, scholarship, and contexts from which their extraordinary work blossomed in building bridges—not walls—among peoples and nations. The publication is intended to honor the professional achievements in global international education of these scholars who have devoted their professional lives to creating a better world through their work. More importantly, this book exposes globally-minded individuals, educators, scholars, administrators, and policymakers around the world to empowering role models from Africa, Europe, and the United States and opportunity to learn about the multitude of professional activities, teachings, partnerships, exchange programs and research in which they might engage to promote a deeper understanding about the cultural, geographic, economic, social, and technological interconnectedness of the world and its people---the very purpose of global education.

**snhu photography degree: Welcoming Blue-Collar Scholars Into the Ivory Tower** Krista M. Soria, 2015 *Welcoming Blue-Collar Scholars Into the Ivory Tower* is the first volume in a series designed to explore how institutional policies, practices, and cultures shape learning, development, and success for students who have been historically underserved or given limited consideration in the design of higher education contexts. Using the theory of social reproduction as a lens, Krista Soria explores working-class students' access to and experiences in the academic and social spaces of the campus. Chapters focusing on the classroom and social settings offer recommendations for transforming the learning environment to better support students from working-class backgrounds. Strategies for increasing access, including precollege support networks, and creating inclusive campuses are also addressed. This compact, accessible volume provides both the theoretical grounding and the practical strategies educators need to create a welcoming environment for this underserved population.

**snhu photography degree: The Future of Nursing 2020-2030** National Academies of Sciences Engineering and Medicine, Committee on the Future of Nursing 2020-2030, 2021-09-30 The decade ahead will test the nation's nearly 4 million nurses in new and complex ways. Nurses live and work at the intersection of health, education, and communities. Nurses work in a wide array of settings and practice at a range of professional levels. They are often the first and most frequent line of contact with people of all backgrounds and experiences seeking care and they represent the largest of the health care professions. A nation cannot fully thrive until everyone - no matter who they are, where they live, or how much money they make - can live their healthiest possible life, and helping people live their healthiest life is and has always been the essential role of nurses. Nurses have a critical role to play in achieving the goal of health equity, but they need robust education, supportive work environments, and autonomy. Accordingly, at the request of the Robert Wood Johnson Foundation, on behalf of the National Academy of Medicine, an ad hoc committee under the auspices of the National Academies of Sciences, Engineering, and Medicine conducted a study aimed at envisioning and charting a path forward for the nursing profession to help reduce inequities in people's ability to achieve their full health potential. The ultimate goal is the achievement of health equity in the United States built on strengthened nursing capacity and expertise. By leveraging these attributes, nursing will help to create and contribute comprehensively to equitable public health and health care systems that are designed to work for everyone. *The Future of Nursing 2020-2030: Charting a Path to Achieve Health Equity* explores how nurses can work to reduce health disparities and promote equity, while keeping costs at bay, utilizing technology, and maintaining patient and family-focused care into 2030. This work builds on the foundation set out by *The Future of Nursing: Leading Change, Advancing Health* (2011) report.

**snhu photography degree: Township Girls** Farai Mpisaunga Mpofu, Wadzanai Garwe, Nomsa Mwamuka, 2019-06-18 This anthology comprises the stories of 31 women who grew up in two countries, Zimbabwe prior to Independence and Zimbabwe post-1980. The contributors reflect on their childhoods with refreshing candour. Many of their memories retain the crystalline clarity of childhood and thus provide insights into worlds that have often remained unexplored. Behind these women stood dedicated, hard-working parents - often teachers, nurses or businessmen and women - determined that their children succeed through education. The commitment of this emerging middle class provides us with a tragic reminder of the negative obduracy of the colonial regime which consistently denied such citizens the vote. Nonetheless, we are repeatedly reminded not of the dark side of an essentially racist regime, but of the joys of a secure childhood when parents and

communities were steadfast in their values, and families consistently offered stability and security. Few will read *Township Girls: The Cross-Over Generation* without feeling that they have learned something new and been invited into a different world.

**snhu photography degree:** *The Neverland Wars* Audrey Greathouse, 2016 Magic can do a lot--give you flight, show you mermaids, help you taste the stars, and... solve the budget crisis? That's what the grown-ups will do with it if they ever make it to Neverland to steal its magic and bring their children home. However, Gwen doesn't know this. She's just a sixteen-year-old girl with a place on the debate team and a powerful crush on Jay, the soon-to-be homecoming king. She doesn't know her little sister could actually run away with Peter Pan, or that she might have to chase after her to bring her home safe. Gwen will find out though--and when she does, she'll discover she's in the middle of a looming war between Neverland and reality. She'll be out of place as a teenager in Neverland, but she won't be the only one. Peter Pan's constant treks back to the mainland have slowly aged him into adolescence as well. Soon, Gwen will have to decide whether she's going to join impish, playful Peter in his fight for eternal youth. .. or if she's going to scramble back to reality in time for the homecoming dance.

**snhu photography degree: Zero Saints** GABINO. IGLESIAS, 2025-05-27 The first novel from one of the most electrifying voices in contemporary crime fiction, Gabino Iglesias, follows Fernando, a drug dealer and enforcer living in Austin whose life takes a lethal turn when an unknown gang with seemingly supernatural abilities arrives on his turf. Enforcer and drug dealer Fernando has seen better days. On his way home from work, some heavily-tattooed gangsters throw him in the back of a car and take him to an abandoned house, where they saw off his friend's head and feed the kid's fingers to...something. Their message is clear: this is their territory, now. But Fernando isn't put down that easily. Using the assistance of a Santeria priestess, an insane Puerto Rican pop sensation, a very human dog, and a Russian hitman, he'll build the courage (and firepower) he'll need to fight a gangbanger who's a bit more than human.

**snhu photography degree: Colleges that Change Lives** Loren Pope, 1996 The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.
