the giving tree scranton: Muncy Maggie S. Rymsza and M. Earl Smith with the Muncy Historical Society, Introduction by Bill Poulton, 2018 Nestled along the banks of the Susquehanna River, Muncy first situated itself within the dynamic beginnings of America as the center of action during raids and battles on the frontier. Following the American Revolution, the town prospered as the lumber industry profited from its bountiful mountains and waterway accessibility, leaving Muncy with a competitive legacy of commerce. When the Civil War erupted in America, Muncy became both a key stop on the Underground Railroad and a hotbed for abolitionist activity. This colorful history remains preserved in the architecture of the town, as numerous buildings are listed in the National Register of Historic Places. These houses are not museum properties, rather the buildings serve as integral parts of the community as both homes and businesses. Opened in 1936, the Muncy Historical Society remains a unifying presence in the town, acting as a gatekeeper to the community's history. Today, Muncy serves as a portal between America's revolutionary past and the future of small-town America.

the giving tree scranton: The Tree of Young Dreamers Frank Sousa, 2014-04-10 Brought up in the Depression, Johnny DaSilva is leader of a fun and imaginative gang that lives out their dreams in the Big Tree in which each has a branch that serves as the Lone Ranger's Silver, the race car of Morey Amsterdam, the rocket ship of Buck Rogers, the crow's nest for Black Bart the Pirate. When World War II broke out, they tried every ruse their young imaginations could think of to get into the marines, army, and navy but had to settle for the Boy Scouts. But the faux pas war to end all wars came too soon for the Big Tree Gang. Johnny is best described by an aunt as having the millstone around the neck of having a strict English Episcopalian conscience and bucking bronco Portuguese sexual proclivities. Two girls are in love with him, one wealthy and popular, the other sexually abused and who considered herself a worthless toy, until she met Johnny. Whatever they knew about the facts of life, male and female, were learned pretty much by trial and error.

This tender story, touched with sadness, is a moving parable about the gift of giving and the capacity to love.

Deely, 2010 These two facts taken together --- the general notion of sign as the original initiative of Latin thought, and the use of the Latin language as the principal instrument for the development of speculative (i.e., species-specifically human) thought --- allow us for the first time to see the medieval period as a positively unified whole. This period forms truly and integrally the middle ages, the whole span between the end of ancient philosophy in the Greek language and the beginning of modern philosophy and science in the national languages. --

the giving tree scranton: The Second Wave Philip Scranton, 2001 Though it had helped define the New South era, the first wave of regional industrialization had clearly lost momentum even before the Great Depression. These nine original case studies look at how World War II and its aftermath transformed the economy, culture, and politics of the South. From perspectives grounded in geography, law, history, sociology, and economics, several contributors look at southern industrial sectors old and new: aircraft and defense, cotton textiles, timber and pulp, carpeting, oil refining and petrochemicals, and automobiles. One essay challenges the perception that southern industrial growth was spurred by a disproportionate share of federal investment during and after the war. In covering the variety of technological, managerial, and spatial transitions brought about by the South's second wave of industrialization, the case studies also identify a set of themes crucial to understanding regional dynamics: investment and development; workforce training; planning, cost-containment, and environmental concerns; equal employment opportunities; rural-to-urban shifts and the decay of local economies entrepreneurship; and coordination of supply, service, and manufacturing processes. From boardroom to factory floor, the variety of perspectives in *The Second Wave* will significantly widen our understanding of the dramatic reshaping of the region in the decades after 1940.

the giving tree scranton: Encyclopedia of Consumption and Waste Carl A. Zimring, William L. Rathje, Consulting Editor, 2012-02-27 Archaeologists and anthropologists have long studied artifacts of refuse from the distant past as a portal into ancient civilizations, but examining what we throw away today tells a story in real time and becomes an important and useful tool for academic study. Trash is studied by behavioral scientists who use data compiled from the exploration of dumpsters to better understand our modern society and culture. Why does the average American household send 470 pounds of uneaten food to the garbage can on an annual basis? How do different societies around the world cope with their garbage in these troubled environmental times? How does our trash give insight into our attitudes about gender, class, religion, and art? The Encyclopedia of Consumption and Waste explores the topic across multiple disciplines within the social sciences and ranges further to include business, consumerism, environmentalism, and marketing to comprise an outstanding reference for academic and public libraries.
