It embodies the results of scholarly investigation into the ethnology of Rajputs, their religious and social practices, their festivals and rites, their legal and political institutions and the merits and demerits of their characters. Herein we get a real portrait of the different aspects of Rajput life: their loyalty, devotion, gallantry, chivalry as also the instability of their character, their outbreaks of passion, fears, occasional faithlessness of their chiefs and allies and, above all, their addiction to drugs. The work is divided into three volumes: each volume being sub-divided into books and chapters. Vol I deals mostly with the Geography of Rajasthan, the History of the Rajput tribes and the feudal system of their states. Vol II contains the Annals of Marwar, Bikaner, Jaisalmer and other cities of Rajasthan. Vol III comprises the annals of Amber, Haravati, Bundi and describes Shaikhawat Federation, and contains personal narratives from Udaipur to Kheroda. It has an appendix divided into seven sections and an exhaustive general index. Interspersed with several illustrations, this book is remarkable for its enlightening introduction and exegetical notes.

**vraj camp:** **Krishna: The Beautiful Legend of God**, 2003-12-04 The Purana is one of the two most important and popular Hindu texts, the other being the Ramayana. It is part of the popular tradition, rather than a literary classic like the Upanishads or the Gita. It tells the story of the god Krishna, the supreme godhead of the Hindus and worshipped by them for over two and a half millennia. The most popular stories about him occur in this, the 10th book, which is the climax of the epic. The stories relate to Krishna's childhood and adolescence in the forests of Vrindavan among the herdspeople, delightful tales which lie behind much of Hindu art, appearing in painting, temple sculpture, drama, dance and song.

Allen, 2019-11-07 Bringing together the study of the Greek classics and Indology, Arjuna-Odysseus provides a comparative analysis of the shared heritage of the Mahābhārata and early Greek traditions presented in the texts of Homer and Hesiod. Building on the ethnographic theories of Durkheim, Mauss, and Dumont, the volume explores the convergences and rapprochements between the Mahābhārata and the Greek texts. In exploring the networks of similarities between the two epic traditions, it also reformulates the theory of Georges Dumézil regarding Indo-European cultural comparativism. It includes a detailed comparison between journeys undertaken by the two epic heroes – Odysseus and Arjuna – and more generally, it ranges across the philosophical ideas of these cultures, and the epic traditions, metaphors, and archetypes

that define the cultural ideology of ancient Greece and India. This book will be useful to scholars and researchers of Indo-European comparativism, social and cultural anthropology, classical literature, Indology, cultural and post-colonial studies, philosophy and religion, as well as to those who love the Indian and Greek epics.
