The clinical features and natural history of these lesions are quite unique and variable. While intracranial germ cell tumors have been a fascination to neurooncologists for decades, the relatively small number of patients seen in any single institution has hampered the important clinical investigation that is so needed. This text is complete with detailed information concerning the epidemiology, pathology, oncological biology, clinical findings, radiology, and treatment options including surgical strategy, radiotherapy, and chemotherapy for this heterogeneous group of neoplasms. The ongoing clinical trials concerning the optimization of therapy are efficiently summarized. An important final segment addresses the late sequelae of therapy which is of great significance since the majority suffering from these tumors are young patients. This first and only book on intracranial germ cell tumors includes excellent and comprehensive data sheets, illustrations, and radiograms. It provides a detailed and outstanding reference source for physicians taking care of patients with intracranial germ cell tumors, and will be a very welcome edition to their reference libraries.

wbi casper wy: *Ansiedad Moderna, Mujer Moderna* Lida Prypchan, 2021-01-29 ¿Por qué la ansiedad moderna? La ansiedad siempre ha estado con nosotros, pero ¿qué es la ansiedad en una sociedad tecnológica? Si nuestra tolerancia al estímulo sensorial es finita, ¿cuándo llegamos al punto de ruptura en nuestro mundo frenético con sus medios de comunicación de 24 horas, su ataque visual, su aspiración material incesante? Si la felicidad se encuentra con moderación, ¿qué será de nosotros en un mundo de extremos? Éstos son los hilos que recorren ésta colección, con una mirada ocasional a tiempos más inocentes. Emily Brontë forjó, posiblemente, la novela más apasionada de la literatura a partir de una vida cotidiana ascética inconcebible para la mayoría de nosotros, acostumbrados como estamos a la distracción. Tanto consciente como inconscientemente estamos siendo constantemente estimulados, seducidos y sedados por placeres fáciles de ganar, ¿caso estamos perdiendo la capacidad de alcanzar esa felicidad profunda, la que esta debajo de la superficie, aquella de la que hablan los grandes sabios de la historia? ¿Por qué la mujer moderna?

Éstas piezas se centran en los alcances externos o extremos de la experiencia romántica: amor imposible, amor trágico, decepciones que nos marcan de por vida. ¿Son éstos temas femeninos o simplemente intentan describir la experiencia humana? Indudablemente vemos más material escrito por mujeres y sobre mujeres, pero después de milenios de silencio, donde la experiencia de la mujer fue casi completamente indocumentada y sin contexto, ¿sabemos siquiera qué es una mujer? Eclesiastés dice que no hay nada nuevo bajo el sol, pero quizás es posible dar una nueva perspectiva y es esto precisamente lo que más necesita este mundo psicológicamente abrumado.

The result is both interesting art and new scientific innovations.
