**wild country safari park delhi la:** **Zoo Nebraska** Carson Vaughan, 2019 A resonant true story of small-town politics and community perseverance and of decent people and questionable choices, Zoo Nebraska is a timely requiem for a rural America in the throes of extinction. Royal, Nebraska, population eighty-one--where the church, high school, and post office each stand abandoned, monuments to a Great Plains town that never flourished. But for nearly twenty years, they had a zoo, seven acres that rose from local peculiarity to key tourist attraction to devastating tragedy. And it all began with one man's outsize vision. When Dick Haskin's plans to assist primatologist Dian Fossey in Rwanda were cut short by her murder, Dick's devotion to primates didn't die with her. He returned to his hometown with Reuben, an adolescent chimp, in the bed of a pickup truck and transformed a trailer home into the Midwest Primate Center. As the tourist trade multiplied, so did the inhabitants of what would become Zoo Nebraska, the unlikely boon to Royal's economy in generations and, eventually, the source of a power struggle that would lead to the tragic implosion of Dick Haskin's dream.

Pi finds himself alone in a lifeboat, his only companions a hyena, an orangutan, a wounded zebra, and Richard Parker, a 450-pound Bengal tiger. Soon the tiger has dispatched all but Pi, whose fear, knowledge, and cunning allow him to coexist with Richard Parker for 227 days while lost at sea. When they finally reach the coast of Mexico, Richard Parker flees to the jungle, never to be seen again. **wild country safari park delhi la:** *Quantitative Studies in Green and Conservation Criminology* Michael J. Lynch, Stephen F. Pires, 2019-07-17 During the early development and throughout the short history of green/conservation criminology, limited attention has been directed toward quantitative analyses of relevant environmental crime, law and justice concerns. While recognizing the importance of establishing a theory and terminology in the early stages of development, this book redresses this imbalance. The work features contributions that undertake empirical quantitative studies of green/conservation crime and justice issues by both conservation and green criminologists. The collection highlights the shared concerns of these groups within important forms of ecological crime and victimization, and illustrates the ways in which these approaches can be undertaken quantitatively. It includes quantitative conservation/green criminological studies that represent the work of both well-established scholars in these fields, along with studies by scholars whose works are less well-known and who are also contributing to shaping this area of research. The book presents a valuable contribution to the areas of Green and Conservation Criminology. It will appeal to academics and students working in these areas.

For more than 125 years, the world's attention has turned to Louisville for the annual running of the Kentucky Derby on the first Saturday in May. Louisville Slugger bats still reign supreme in major league baseball. The city was also the birthplace of the famed Hot Brown and Benedictine spread, and the cheeseburger made its debut at Kaelin's Restaurant on Newburg Road in 1934. The Happy Birthday had its origins in the Louisville kindergarten class of sisters Mildred Jane Hill and Patty Smith Hill. Named for King Louis XVI of France in appreciation for his assistance during the Revolutionary War, Louisville was founded by George Rogers Clark in 1778. The city has been home to a number of men and women who changed the face of American history. President Zachary Taylor was reared in surrounding Jefferson County, and two U.S. Supreme Court Justices were from the city proper. Second Lt. F. The Action Plan also provides chapters on equid taxonomy, genetics, reproductive biology, and population dynamics. These chapters highlight unsolved issues of taxonomy and genetics. They also provide information and insight into the special demographic and genetic challenges of managing small populations. The

chapter on disease provides a review of documented equine disease and epidemiology and focuses on priorities for equid conservation health. The final chapter deals with the importance of developing an assessment methodology that explicitly considers the role of equids in ecosystems and the ecological processes that are necessary for ecosystem viability. The approach of combining ecological field studies and ecosystem modeling should prove useful for the scientific management and conservation of wild equids worldwide. **wild country safari park delhi la:** *Primates* Kurt Benirschke, 2012-12-06 This conference represents the first time in my life when I felt it was a misfortune, rather than a major cause of my happiness, that I do conservation work in New Guinea. Yes, it is true that New Guinea is a fascinating microcosm, it has fascinating birds and people, and it has large expanses of undisturbed rainforest. In the course of my work there, helping the Indonesian government and World Wildlife Fund set up a comprehensive national park system, I have been able to study animals in areas without any human population. But New Guinea has one serious drawback: it has no primates, except for humans. Thus, I come to this conference on primate conservation as an underprivileged and emotionally deprived observer, rather than as an involved participant. Nevertheless, it is easy for anyone to become interested in primate conservation. The public cares about primates. More specifically, to state things more realistically, many people care some of the time about some primates. Primates are rivaled only by birds, pandas, and the big cats in their public appeal. For some other groups of animals, the best we can say is that few people care about them, infrequently. For most groups of animals, no one cares about them, ever.

With vivid detail and anecdotes, John Zubrzycki charts the rise of the Nizams to fabulous wealth and prominence in the detritus of the Mughal empire, giving a rich and vibrant portrait of a realm soaked in blood and intrigue. Above all he describes the strange and sometimes tragic life of Mukarram Jah, His Exalted Highness, the last Nizam, the man who left behind the diamonds of Golconda and the palaces of Hyderabad to drive bulldozers in the Australian bush. Meticulously researched, *The Last Nizam* adds a crucial chapter to the history of India, capturing the conspiracies and machinations that kept the Nizams in the news while simultaneously deepening their legend.

In this highly anticipated debut collection, Brian Phillips demonstrates why he’s one of the most iconoclastic journalists of the digital age, beloved for his ambitious, off-kilter, meticulously reported essays that read like novels. The eight essays assembled here—five from Phillips’s Grantland and MTV days, and three new pieces—go beyond simply chronicling some of the modern world’s most uncanny, unbelievable, and spectacular oddities. They explore the interconnectedness of the globalized world, the consequences of history, the power of myth, and the ways people attempt to find meaning. Phillips searches for tigers in India, and uncovers a multigenerational mystery involving an oil tycoon and his niece turned stepdaughter turned wife in the Oklahoma town where he grew up. Dogged and self-aware, Phillips is an exhilarating guide to the confusion and wonder of the world today. If John Jeremiah Sullivan’s *Pulphhead* was the last great collection of New Journalism from the print era, *Impossible Owls* is the first of the digital age.

**wild country safari park delhi la: *Apples and Oranges*** Marie Brenner, 2008-05-13 To be sure, some brothers and sisters have relationships that are easy. But oh, some relationships can be fraught. Confusing, too: How can two people share the same parents and turn out to be entirely different? Marie Brenner's brother, Carl—yin to her yang, red state to her blue state—lived in Texas and in the apple country of Washington state, cultivating his orchards, polishing his guns, and (no doubt causing their grandfather Isidor to turn in his grave) attending church, while Marie, a world-class journalist and bestselling author, led a sophisticated life among the New York libs her brother loathed. From their earliest days there was a gulf between them, well documented in testy letters and telling photos: I am a textbook younger child . . . training as *bête noir* to my brother, Brenner writes. He's barely six years old and has already developed the Carl Look. It's the expression that the rabbit gets in *Watership Down* when it goes thorn, freezes in the light. After many years apart, a medical crisis pushed them back into each other's lives. Marie temporarily abandoned her job at *Vanity Fair* magazine, her friends, and her husband to try to help her brother. Except that Carl fought her every step of the way. I told you to stay away from the apple country, he barked when she showed up. And, Don't tell anyone out here you're from New York City. They'll get the wrong idea. As usual, Marie—a reporter who has exposed big Tobacco scandals and Enron—irritated her brother and ignored his orders. She trained her formidable investigative skills on finding treatments to help her brother medically. And she dug into the past of the brilliant and contentious Brenner family, seeking in that complicated story a cure, too, for what ailed her relationship with Carl. If only they could find common ground, she reasoned, all would be well. Brothers and sisters, *Apples and Oranges*. Marie Brenner has written an extraordinary memoir—one that is heartbreakingly honest, funny and true. It's a book that even her brother could love.
