## **The "Worst Trade Deal Ever"? Unpacking the Claims and Realities of Problematic Trade Agreements**

### Introduction:

The phrase "worst trade deal ever" is thrown around frequently in political discourse, often with passionate conviction but lacking nuanced analysis. This inflammatory label, however, obscures the complex realities of international trade agreements. While some deals undeniably have negative consequences for certain sectors or populations, labeling any as definitively the "worst" is a gross simplification. This post delves into the criteria used to assess trade agreements, examines some prominent examples often cited as disastrous, and explores the broader context needed for a truly informed perspective. We'll move beyond the hyperbole and analyze the actual impacts, separating factual assessments from politically charged rhetoric. Get ready to unpack the truth behind this loaded phrase and understand the multifaceted nature of international trade deals.

### 1. Defining "Worst": What Metrics Matter?

Before declaring any trade agreement the "worst ever," we need to define our metrics. What constitutes "bad"? Is it:

Job losses in specific sectors? While job displacement is a serious concern, it's crucial to consider job creation in other sectors and the overall economic impact. Trade often leads to a shift in employment, not necessarily a net loss.

Increased imports leading to domestic industry decline? This is a common complaint, but it ignores the potential benefits of cheaper goods for consumers and the possibility of domestic industries adapting and innovating.

Environmental damage? Some agreements might lack sufficient provisions to protect the environment, leading to increased pollution or resource depletion. This is a critical factor often overlooked in purely economic evaluations.

Loss of national sovereignty? Concerns about surrendering control over certain aspects of domestic policy are legitimate, but need to be balanced against the potential economic benefits of international cooperation.

Increased inequality? Trade can exacerbate existing inequalities if its benefits are not distributed fairly, leaving some groups behind while others prosper.

Any assessment of a trade deal's success or failure requires a comprehensive analysis considering these various factors, not just one isolated metric.

### 2. Case Studies: Agreements Often Labeled "Worst"

Several trade agreements have been branded the "worst trade deal ever" by different groups at various times. Let's examine some prominent examples:

NAFTA (North American Free Trade Agreement) and USMCA (United States-Mexico-Canada

Agreement): NAFTA, and its successor USMCA, have been criticized for job losses in the US manufacturing sector and the exploitation of workers in Mexico. However, proponents point to increased trade and economic growth across all three countries. The reality is far more nuanced than a simple "good" or "bad" assessment.

TPP (Trans-Pacific Partnership): This ambitious agreement aimed to liberalize trade across the Asia-Pacific region. Critics raised concerns about intellectual property rights, environmental protections, and the potential erosion of national sovereignty. Opponents successfully blocked its ratification in several countries.

EU-Canada Comprehensive Economic and Trade Agreement (CETA): CETA faced similar criticisms as TPP, with concerns about corporate power and the potential negative impact on certain sectors within the EU. Again, the actual impacts are a subject of ongoing debate.

Analyzing these examples reveals that the "worst trade deal ever" label often reflects specific interests and political agendas rather than an objective evaluation of all the relevant economic and social consequences.

### 3. The Importance of Context and Nuance

The impact of any trade agreement depends heavily on the context in which it operates. Factors such as:

Domestic economic policies: A poorly designed domestic economic policy can exacerbate the negative impacts of a trade deal, even a beneficial one.

Global economic conditions: A global recession can magnify the challenges associated with any trade agreement.

Implementation and enforcement: Effective implementation and enforcement mechanisms are crucial to ensuring that the intended benefits are realized and negative impacts are mitigated.

Ignoring these contextual factors leads to misleading and overly simplistic assessments of trade agreements.

### 4. Beyond the Label: Towards a More Informed Discussion

Instead of resorting to inflammatory labels like "worst trade deal ever," we need a more sophisticated and nuanced approach to evaluating international trade agreements. This requires:

Transparency and data accessibility: Open access to data on trade flows, economic impacts, and social consequences is crucial for informed public debate.

Independent research and analysis: Reliable, independent research is essential to separate factual analysis from political rhetoric.

Stakeholder engagement: Involving all relevant stakeholders—workers, businesses, environmental groups, and consumers—in the design, implementation, and evaluation of trade agreements is essential to ensure fairness and equity.

By moving beyond simplistic labels and adopting a more comprehensive and evidence-based approach, we can have a more productive and constructive discussion about the benefits and drawbacks of international trade agreements.

## Frequently Asked Questions (FAQs):

1. What is the most commonly cited "worst trade deal ever"? Different groups point to different agreements, depending on their perspective, but NAFTA/USMCA is frequently mentioned.
2. How can we objectively measure the success or failure of a trade agreement? There's no single metric; a comprehensive approach considering economic, social, and environmental factors is needed.
3. Do all trade agreements lead to job losses? Not necessarily. Trade can lead to job shifts, with losses in some sectors offset by gains in others.
4. What role do environmental concerns play in assessing trade deals? Environmental sustainability is becoming increasingly important, and agreements need to incorporate strong environmental protections.
5. How can we ensure that the benefits of trade are distributed fairly? Policies that support worker retraining, invest in infrastructure, and address inequality are crucial.
6. What is the impact of trade deals on national sovereignty? This is a complex issue, and concerns need to be balanced against potential economic gains from international cooperation.
7. Are there any examples of successful trade agreements? Many agreements have delivered positive outcomes for participating countries, though their success is often context-dependent.
8. How can the public become more involved in the evaluation of trade agreements? Increased transparency, public consultations, and access to information are vital.
9. What is the future of international trade agreements in the face of rising protectionism? The future is uncertain, but a move towards more sustainable and equitable agreements is essential.

**worst trade deal ever: Trumped up and Dumbed Down in the U.S.A.** Dave Ferrari, 2018-02-12 He insulted immigrants, the disabled, women, prisoners of war, fellow politicians and their wives and fathers. He even threatened allies while embracing enemies. Despite all that, Donald Trump is now the president of the United States of America. Dave Ferrari, who served two terms as Wyoming's state auditor and on the transition teams for three Wyoming governors, examines the 2016 presidential campaign and the consequences of the election. He zeroes in on the Trump campaign's possible collusion with the Russians, the president's personal and financial ties to the Kremlin and Russian oligarchs, and the role that the media plays in the election process, including the growing power of conservative radio and cable TV. Whether its fake news, alternative facts, or the deliberate undermining of the free press, Ferrari offers a critical analysis of Trump's presidency, comparing it to previous administrations. Join the author as he frankly assesses our commander-in-chief and the implications of his policies and demeanor on America and its people in *TRUMPED Up and DUMBED Down in the U.S.A.*

**worst trade deal ever: NAFTA and Democracy in Mexico** Pablo Calderón Martínez, 2018-09-05 After describing NAFTA as 'the worst trade deal maybe ever signed anywhere', Donald Trump's election seemed to represent the final nail in the coffin for North American economic integration. Following a decade of stagnation, however, Trump's victory presents a timely opportunity to reconsider North American integration and evaluate NAFTA's democratic track record in Mexico. In this book, Pablo Calderón Martínez presents a detailed analysis of NAFTA's influence as a political tool for democracy in Mexico. Extending beyond a mere economic or social exploration of the consequences of NAFTA, Calderón Martínez uses a three-tiered analysis based on causality mechanisms to explain how the interactions between internationalisation and democratisation unfolded in Mexico. Calderón Martínez's analysis demonstrates that Mexico's internationalisation project under the framework of NAFTA gave shape to, if not made, Mexico's democratisation process. An original and timely resource for scholars and students interested in understanding how – in cases like Mexico where transitions to democracy are characterised by a finely poised balance of power – small influences from abroad can make significant long-lasting differences domestically.

**worst trade deal ever: Trade Wins or Trade Wars** Bogna Gawrońska-Nowak, Piotr Lis, Joanna Konieczna-Sałamatin, 2021-07-10 This book tackles the disconnect between social perceptions and expert knowledge regarding trade policy decisions. Using a Polish language internet database, the authors shed light on areas that need to be addressed when considering the adoption of particular

trade policies by applying content and statistical analysis to produce an easy to deploy measure of populism in digital media, the "Media Populism Ratio". Defining a mismatch between social perception and expert knowledge may contribute to a better understanding of the controversies on free trade, as well as properly defining possible sources of populism and social conflicts – therefore also revealing some potential weaknesses in the trade policy implementation level which are at times neglected or underestimated. The book will be relevant to students and researchers interested in economic policy, economic narratives and cultural economics.

**worst trade deal ever:** Shaking the Gates of Hell Sharon Delgado, 2020-01-07 Shaking the Gates of Hell: Faith-Led Resistance to Corporate Globalization breaks new ground by describing the global economy and its effects from the perspective of an integrated theology of the earth as primary revelation and the institutional powers of this world. It reaches the conclusion that hope lies in nonviolent resistance and ecological and social responsibility based on God's action in Jesus and in the triumph of God over the powers. This book describes today's interrelated social, economic, and ecological crises and makes the case that we face a living hell on earth if we do not address them. It provides an overview of the global economic system and offers a comprehensive theological analysis of the network of primary institutions that make up what Walter Wink calls the Domination System. It points readers in the direction of hope based on following the way of Jesus, who lived in nonviolent resistance to the powers of his day. This new, revised edition continues the powerful story of the original, extending the analysis of the global economy from the 2008 collapse and recession to its alleged recovery. It addresses the Obama administration's policies on economics, trade, and the environment, and provides further reflections on American foreign and military policy in this so-called New American Century.

**worst trade deal ever:** The Presidency and Domestic Policy Michael A. Genovese, Todd L. Belt, William W. Lammers, 2024-04-15 This book systematically examines the first terms of every president from FDR to Joe Biden and assesses the leadership style and policy agenda of each. Success in bringing about policy change is shown to hinge on the leadership style and skill in managing a variety of institutional and public relationships. Presidents are evaluated based on the level of opportunity they faced. The third edition of this timely book adds chapters on Donald Trump and Joe Biden and focuses on the significant domestic policy challenges of their respective times. For students of presidential history, leadership, and public policy, The Presidency and Domestic Policy provides unique insights into contemporary presidential leadership in a highly partisan age. New to the Third Edition Two new chapters focusing on Trump and Biden, showing its policy similarities as well as differences from earlier administrations A reassessment of the domestic policy legacies of Bill Clinton (especially in regard to crime and the financial services industries) A sharper focus on racial politics resulting from both the Clinton and Obama eras An exploration of administrative approaches to governing domestically and unilateral decision making—normally reserved for the foreign policy arena but now applied on the domestic side as well (e.g., executive orders) The increasing linkage between domestic and foreign policy issue arenas, particularly in the areas of immigration, trade, and environmental policy An assessment of judicial politics in the framework of the four leadership dimensions presidents bring to office, and also in terms of the impact on domestic policy outputs

**worst trade deal ever:** From Washington and Adams to Hillary and Trump: The Stories behind the Story of Every Presidential Election Dr. Everett E. Murdock, 2016-11-10 This book, written by Dr. Everett E. Murdock, a college professor, tells the stories behind the story of every presidential election in U.S. history, with a special focus on the volatile 2016 election. Dr. Murdock is a widely-published novelist, a storyteller, and his stories about our presidential elections provide fascinating details about behind-the-scenes events that lead to one candidate becoming president and the other being relegated to the lonely halls of history. He explores, in depth, the complex Electoral College System by which we elect our presidents, and he describes the role that slavery played in how the Congress and the Electoral College were originally designed. In his last chapter, Professor Murdock provides a detailed description of the events that unfolded day-by-day in the

volatile election of 2016 that pitted the first woman candidate, Hillary Clinton, against, Donald Trump, one of the most unusual candidates in U.S. history. The author provides real insight into what led to one of the most dramatic upsets in U.S. presidential election history, helping you to understand why, once again, the candidate that won the general election didn't get to be president.

**worst trade deal ever:** *Understanding Global Migration* James F. Hollifield, Neil Foley, 2022-03-01 *Understanding Global Migration* offers scholars a groundbreaking account of emerging migration states around the globe, especially in the Global South. Leading scholars of migration have collaborated to provide a birds-eye view of migration interdependence. *Understanding Global Migration* proposes a new typology of migration states, identifying multiple ideal types beyond the classical liberal type. Much of the world's migration has been to countries in Asia, Africa, the Middle East, and South America. The authors assembled here account for diverse histories of colonialism, development, and identity in shaping migration policy. This book provides a truly global look at the dilemmas of migration governance: Will migration be destabilizing, or will it lead to greater openness and human development? The answer depends on the capacity of states to manage migration, especially their willingness to respect the rights of the ever-growing portion of the world's population that is on the move.

**worst trade deal ever:** *Regulatory Reform from Nixon to Biden* John D. Graham, 2024-10-03 This book examines the development of regulatory policy since the 1960s, focusing on how each president, from Nixon to Biden, stimulated reform. Highlighting the increasingly dominant role of the president in the modern administrative state, John D. Graham presents a regulatory reform agenda for Congress, the executive branch, and the judiciary.

**worst trade deal ever:** *Braver Canada* Derek H. Burney, Fen Osler Hampson, 2020-03-12 The world is changing - geopolitically and economically - at an alarmingly fast pace. Populism, protectionism, and authoritarianism are on the rise. *Braver Canada* analyzes these and many other global shifts, offering provocative prescriptions for both the public and the private sectors. Reviewing the foreign policy challenges, achievements, and missteps of the Justin Trudeau government, Derek Burney and Fen Hampson argue that the country's leadership must craft a new approach to global affairs based on a solid grasp of current and emerging global political and economic realities. They focus on competitiveness, trade, energy, environment, and immigration and refugee issues, also discussing a recalibration of relations with China and India. Expanding on the ideas and policy recommendations in their previous book, *Brave New Canada*, which called for Canada to diversify its economic ties outside the United States, they note how the global and regional environment has shifted dramatically in recent years. A timely and compelling analysis, *Braver Canada* lays out the challenges for Canada in a rapidly changing, turbulent world and the strategies required for future prosperity.

**worst trade deal ever:** *Globalization and Its Discontents Revisited: Anti-Globalization in the Era of Trump* Joseph E. Stiglitz, 2017-11-28 An International Bestseller Accessible, provocative, and highly readable. —Alan Cowell, *New York Times* In this crucial expansion and update of his landmark bestseller, renowned economist and Nobel Prize winner Joseph E. Stiglitz addresses globalization's new discontents in the United States and Europe. Immediately upon publication, *Globalization and Its Discontents* became a touchstone in the globalization debate by demonstrating how the International Monetary Fund, other major institutions like the World Bank, and global trade agreements have often harmed the developing nations they are supposedly helping. Yet globalization today continues to be mismanaged, and now the harms—exemplified by the rampant inequality to which it has contributed—have come home to roost in the United States and the rest of the developed world as well, reflected in growing political unrest. With a new introduction, major new chapters on the new discontents, the rise of Donald Trump, and the new protectionist movement, as well as a new afterword on the course of globalization since the book first appeared, Stiglitz's powerful and prescient messages remain essential reading.

**worst trade deal ever:** *Canadian Culture in a Globalized World* Garry Neil, 2019-04-30 Since the first trade deal with the US in 1984, Canada has insisted on a cultural exemption to ensure that

governments were free to protect Canadian culture and to restrict foreign ownership and limit foreign content in the media. Negotiators and government ministers considered the cultural exemption key to reassuring Canadians that the deal did not undermine our cultural sovereignty. In every trade deal since, culture has been a contentious issue. Media giants and foreign governments have pushed for unlimited access to Canada. Ottawa has worked with cultural industries to maintain the cultural exemption. Garry Neil has been close to every one of these negotiations, and has been a key advisor to cultural groups on trade deals. He has been part of the international initiative to assert the importance of cultural diversity in the world, and to create effective measures to guarantee it. This book reflects his experience trying to ensure that the reality matches the rhetoric when it comes to culture. As he sees it, in spite of the claims, Canadian cultural policies and programs have been steadily restricted by successive trade deals. He explains how this has happened, and what needs to be done for Canada to maintain our cultural sovereignty and creative life in the face of multinational corporations and their government supporters who are promoting a world monoculture.

**worst trade deal ever:** Greening through Trade Sikina Jinnah, Jean-Frederic Morin, 2020-03-03 How the environmental provisions in US preferential trade agreements affect both the environmental policies of trading partners and the effectiveness of multilateral environmental agreements. As trade negotiations within the World Trade Organization seem permanently stalled, countries turn increasingly to preferential trade agreements (PTAs) between smaller groups of nations. Many of these PTAs incorporate environmental provisions, some of which require trading partners to enact new domestic environmental laws, and use the enforcement mechanisms available within trade agreements as tools for environmental protection. In *Greening through Trade*, Sikina Jinnah and Jean-Frédéric Morin provide the first detailed examination of how the environmental provisions in US preferential trade agreements affect both the environmental policies of trading partners and the effectiveness of multilateral environmental agreements. They do so through a combination of in-depth qualitative case studies and quantitative analysis of an original dataset of 688 global PTAs. Jinnah and Morin explore the effects of linkages between PTAs and environmental treaties and the diffusion of environmental norms and policy through PTAs. Centrally, they argue that US trade agreements can serve as mechanisms both to export environmental policies to trading partner nations and third-party countries and to enhance the effectiveness of multilateral environmental agreements by strengthening their enforcement capacity. They caution that PTAs are not a panacea for environmental governance; deeper problems of unsustainable consumption and differential power dynamics between trading partners must be carefully navigated in deploying trade agreements for environmental protection.

**worst trade deal ever:** **The United States-Mexico-Canada Agreement (USMCA)** Leslie Alan Glick, 2020-10-19 On July 1, 2020, after much expectation and delay, the new United States-Mexico-Canada Agreement (USMCA)—a greatly revised version of the North American Free Trade Agreement (NAFTA) of 1994—came into effect. This timely book by the author of the preeminent guide to NAFTA and an active participant and private sector advocate in the USMCA negotiation and legislative process provides a chapter-by-chapter analysis of the new agreement, clearly describing what has changed from the earlier agreement and what is new. After a concise but expertly calibrated summary of NAFTA, the author proceeds systematically through a practical analysis of each USMCA provision, emphasizing such crucial new elements as the following: new rules on intellectual property rights; stricter rules of origin within the automotive industry; major reforms in Mexican labor laws and their enforceability; opening of Canada's agricultural and dairy sector to more U.S. competition; entirely new chapter on digital trade; new dispute mechanisms; requirement of an increased minimum wage in auto plants; and a new chapter on environmental standards. Changes in such important aspects of trade as textiles and apparel, ownership of hydrocarbons, cross-border trade in services, and anticorruption measures are also fully described. The USMCA is a response to a United States initiative to renegotiate NAFTA. As a key regional trade agreement with vast global ramifications, familiarity with its content and rules is essential for all

business, legal, policymaking, and academic parties concerned with international trade. This useful practical guide will be a welcome addition to private and corporate libraries, including corporate counsel, customs brokers, freight forwarders, logistics and import-export managers, government officials, and academics who need a thorough understanding of the new agreement.

**worst trade deal ever: Words That Win: How to win the debates that matter** Lewis Iwu, 2019-03-01 An insider's guide for students and teachers on how to debate, ranging from how to deliver speeches confidently in a large room to how to respond to arguments effectively. The final section of the book will argue why this activity is important for every child to take part - for social mobility, democratic and economic reasons. Throughout the book, Lewis (a former world university debating champion and a world championship winning coach with England) will draw from examples from his 10 years of experience coaching debates in over 11 countries

**worst trade deal ever: Pro Truth** Gleb Tsipursky, Tim Ward, 2020-05-29 How can we turn back the tide of post-truth politics, fake news, and misinformation that is damaging our democracy? First, by empowering citizens to recognize and resist political lies and deceptions: Using cutting-edge neuroscience research, we show you the tricks post-truth politicians use to exploit our mental blindspots and cognitive biases. We then share with you strategies to protect yourself and others from these threats. Second, by addressing the damage caused by the spread of fake news on social media: We provide you with effective techniques for fighting digital misinformation. Third, by exerting pressure on politicians, media, and other public figures: Doing so involves creating new incentives for telling the truth, new penalties for lying, and new ways of communicating across the partisan divide. To put this plan into action requires the rise of a Pro-Truth Movement - a movement which has already begun, and is making a tangible impact. If you believe truth matters, and want to protect our democracy, please read this book, and join us. Dr. Gleb Tsipursky and Tim Ward have teamed up to help citizens learn to protect themselves from lies, and empower them to put truth back into politics.

**worst trade deal ever: Foreign Perceptions of the United States under Donald Trump** Gregory S. Mahler, 2021-09-20 Donald Trump and the Trump administration radically altered a number of international policies and behaviors of the United States, and changed the position of the United States on many international agreements, including environmental agreements, trade agreements, military agreements, and human rights agreements. This book studies the effect of those actions, and Trump's style of behavior, on the standing of the United States in the global community. In eighteen individual case studies the authors examine traditional relationships between their countries and the United States prior to the Trump election, including areas of tension and traditional areas of agreement and cooperation. They address expectations about what the outcome of the 2016 American election would be, and the immediate reaction to the election's outcome. They explore how responses to American policies varied in their country, and whether any American initiatives were especially controversial. And they explore how the relations between their nation and the United States changed over the Trump years. The authors reflect on whether anything was permanently lost or gained by the end of the Trump years, and speculate on the lasting consequences of Trump foreign policies and international behavior for America's standing overseas.

**worst trade deal ever: The Convergence of Traditionalism and Populism in American Politics: From Bannon to Trump** Cheek, Adrian David, 2024-03-05 In the tumultuous landscape of contemporary American politics, the intricate dance between traditionalism, populism, and the influential alliance of Donald Trump and Steve Bannon poses a pressing challenge. As these ideologies shape the very fabric of society, scholars and academics grapple with the need for a comprehensive understanding of their historical roots, philosophical foundations, and consequential impact on issues such as immigration, globalization, and nationalism. The rise of the Trump-Bannon duo further intensifies the complexity, giving rise to controversies, challenges, and myriad unanswered questions about their lasting influence on American democracy. *The Convergence of Traditionalism and Populism in American Politics: From Bannon to Trump* address the gaps in understanding the relationship between traditionalism, populism, and the Trump-Bannon era.

Offering a nuanced exploration, the author defines these ideologies and traces their roots, delves into their historical evolution, and examines their impact on American politics. The reader is guided through the ideological underpinnings of Trump and Bannon, gaining a profound insight into their political strategy and the challenges that defined their era.

**worst trade deal ever: Foreign Policy Issues for America** Richard W. Mansbach, James M. McCormick, 2019-03-11 As America's first president never to have served in government or the military, Donald Trump entered the White House with an unformed foreign policy position. Yet he was confronted by a wide range of developing issues; the rise of China, Russian-United States relations, the resurgence of nationalism in Europe, U.S. Foreign Policy in Latin America, environmental challenges, terrorism, security challenges of failing states, cyber security threats, and challenges in international political economy. This volume focuses on these sensitive foreign policy issues that determine the prospects for American decline or continued hegemony. Contributions are divided into 'regional' and 'functional' issues, exploring the nature and significance of the challenge, the previous response, and President Trump's policies and their consequences. Topics have been selected to address political, military, economic, and social factors in global politics and the book will appeal to undergraduates and scholars of U.S. foreign policy at all levels.

**worst trade deal ever: NAFTA 2.0** Gilbert Gagné, Michèle Rioux, 2021-12-15 The renegotiation and possible termination of the North American Free Trade Agreement (NAFTA) sparked a lot of interest and concern in light of the United States' declared objective to "rebalance the benefits" of the agreement. This edited book provides an overview of the changes brought to the NAFTA by the United States-Mexico-Canada Agreement (USMCA) or NAFTA 2.0. Grouping leading academics and experts from the three countries, the book covers the major topics in the transition from the NAFTA to the USMCA. The book also sheds light on the evolution of North American economic integration within the past three decades and reflects on the significance of the regional integration model represented by the NAFTA and now the USMCA. The book is aimed at scholars, students, officials, professionals and interested citizens concerned by the big issues surrounding North American integration and economic globalization.

**worst trade deal ever: International Negotiation and Political Narratives** Fen Osler Hampson, Amrita Narlikar, 2022-02-14 This book shows that political narratives can promote or thwart the prospects for international cooperation and are major factors in international negotiation processes in the 21st century. In a world that is experiencing waves of right-wing and left-wing populism, international cooperation has become increasingly difficult. This volume focuses on how the intersubjective identities of political parties and narratives shape their respective values, interests and negotiating behaviors and strategies. Through a series of comparative case studies, the book explains how and why narratives contribute to negotiation failure or deadlock in some circumstances and why, in others, they do not because a new narrative that garners public and political support has emerged through the process of negotiation. The book also examines how narratives interact with negotiation principles, and alter the bargaining range of a negotiation, including the ability to make

concessions. This book will be of much interest to students of international negotiation, economics, security studies and international relations.

**worst trade deal ever: Donald Trump and His Assault on Truth** The Washington Post Fact Checker Staff, 2020-06-02 A NATIONAL BESTSELLER In perilous times, facts, expertise, and truth are indispensable. President Trump's flagrant disregard for the truth and his self-aggrandizing exaggerations, specious misstatements, and bald-faced lies have been rigorously documented and debunked since the first day of his presidency by The Washington Post's Fact Checker staff. Donald Trump and His Assault on Truth is based on the only comprehensive compilation and analysis of the more than 16,000 fallacious statements that Trump has uttered since the day of his inauguration. He has repeated many of his most outrageous claims dozens or even hundreds of times as he has sought to bend reality to his political fantasy and personal whim. Drawing on Trump's tweets, press conferences, political rallies, and TV appearances, The Washington Post identifies his most frequently used misstatements, biggest whoppers, and most dangerous deceptions. This book unpacks his errant statements about the economy, immigration, the impeachment hearings, foreign policy, and, of critical concern now, the coronavirus crisis as it unfolded. Fascinating, startling, and even grimly funny, Donald Trump and His Assault on Truth by The Washington Post is the essential, authoritative record of Trump's shocking disregard for facts.

**worst trade deal ever: Eu and Latin America. A Stronger Partnership?** Antonella Mori, 2018-12-17 Despite a stop-and-go policy, over the past twenty years the European Union, Latin America, and the Caribbean Region have joined forces to scale-up their partnership. Today, the time seems ripe for the EU to give new impetus to bi-regional relations as the US interest in the region appears to be decreasing, and China quickly steps in. The near future will indicate whether the political will to bolster relations between the EU and the region is actually stronger than before: how will the agreements between the EU and Mexico, Chile, and the Caribbean be updated? Will the EU-MERCOSUR Association Agreement be completed? If so, the EU will be able to enact free trade agreements with all the countries in the region, except Bolivia, Venezuela and Cuba. The latter is already involved in its first ever negotiation with the EU to strengthen bilateral cooperation. This volume provides an overview and wide-ranging analyses on the ongoing negotiations, viable options and possible results.

**worst trade deal ever: Introduction to International Politics** Glenn P. Hastedt, William F. Felice, 2019-08-19 Introduction to International Politics makes systematic linkages between theory and policy that do not ignore or slight the conceptual discussion of international relations or simply chase newspaper headlines. Chapters are organized around "Global Challenges and Policy Responses." The challenges are presented as concrete policy problems relevant to the theme of the chapter. The discussion of responses emphasize concrete actions taken or proposed by international organizations, the foreign policies of key states, international agreements, and actions taken by NGOs. Theoretical insights are used to help students understand challenges, think about solutions, and learn from the past. Based on a combined fifty years of classroom teaching, Hastedt and Felice possess the uncanny ability to boil down complex ideas and make them meaningful for students. Written in a style that is direct and accessible, Introduction to International Politics offers a concise foundation for any introductory-level student taking an international relations or world politics course. The text offers students a full suite of pedagogical features and learning aids, including a box program consisting of Policy Spotlights, Theory Spotlights, and Regional Spotlights. Each chapter opens with a Historical Perspective case study of a policy challenge, and closes with a related Contemporary Perspective case study of a similar challenge. Chapter study aids include learning objective at the outset, with a list of key terms and critical thinking questions provided at the end. A full suite of teaching and learning ancillaries include a companion website with self-study quizzes, a test bank, testing software, PowerPoint lecture slides that are WCAG 2.0-compliant, and an E-book with links to the companion website.

**worst trade deal ever: How Do Leaders Make Decisions?** Alex Mintz, Dmitry (Dima) Adamsky, 2019-09-23 Understanding how leaders make foreign policy and national security decisions is of

paramount importance for the policy community and academia. This book explores how leaders such as Trump, Obama, Netanyahu and others make decisions using the Applied Decision Analysis (ADA) method.

**worst trade deal ever: The International Business Environment** Leslie Hamilton, Philip Webster, 2018 The most multi-perspective, succinct, and applied guide to international business environments.

**worst trade deal ever: Presidential Leadership and National Security** Richard S. Conley, 2017-10-31 This book assesses the foreign policy legacy of the Obama administration through the lens of national security and leadership. Timely, accessible chapters authored by leading scholars of presidential and international politics cover White House-Cabinet relations; Congress and War Powers; challenges including the Iran nuclear deal, ISIS, and the closing of Guantanamo Bay; drone strikes; the New Cold War with Russia; and the ways in which the Obama foreign policy legacy shaped the 2016 presidential election. In particular, the book explores the philosophical basis of counter-terrorism strategy in the Obama administration and traces how precepts differed from the administration of George W. Bush. More generally, the book contributes to an understanding of the distinctive interplay between the formal, constitutional powers of the president and the use of informal, executive powers in the quest for peace and security. Finally, the book surveys the challenges that Donald J. Trump faces in the transition to the new presidential administration.

**worst trade deal ever: Rhetorics of Democracy in the Americas** Adriana Angel, Michael L. Butterworth, Nancy R. Gómez, 2021-02-26 Democracy is venerated in US political culture, in part because it is our democracy. As a result, we assume that the government and institutions of the United States represent the true and right form of democracy, needed by all. This volume challenges this commonplace belief by putting US politics in the context of the Americas more broadly. Seeking to cultivate conversations among and between the hemispheres, this collection examines local political rhetorics across the Americas. The contributors—scholars of communication from both North and South America—recognize democratic ideals as irreducible to a single national perspective and reflect on the ways social minorities in the Western Hemisphere engage in unique political discourses. The essays consider current rhetorics in the United States on American exceptionalism, immigration, citizenship, and land rights alongside current cultural and political events in Latin America, such as corruption in Guatemala, women's activism in Ciudad Juárez, representation in Venezuela, and media bias in Brazil. Through a survey of these rhetorics, this volume provides a broad analysis of democracy. It highlights institutional and cultural differences in the Americas and presents a hemispheric democracy that is both more pluralistic and more agonistic than what is believed about the system in the United States. In addition to the editors, the contributors include José Cortez, Lindsay M. Cramer, Pamela Flores, Alberto González, Amy N. Heuman, Christa J. Olson, Carlos Piovezani, Clara Eugenia Rojas Blanco, Abraham Romney, René Agustín de los Santos, and Alejandra Vitale.

**worst trade deal ever: California** David G. Lawrence, Jeff Cummins, 2023-08-15 California: The Politics of Diversity examines the diverse and hyperpluralistic nature of California and its people. No other textbook on California politics offers as much coverage and in-depth analysis of the state's political development, institutions, and public policies that have shaped the Golden State into what it is today.

**worst trade deal ever: Broken** Ira Shapiro, 2018-01-15 While the hyper-partisanship in Washington that has stunned the world has been building for decades, Ira Shapiro argues that the U.S. Senate has suffered most acutely from the loss of its political center. In *Broken*, Ira Shapiro, a former senior Senate staffer and author of the critically-acclaimed book *The Last Great Senate*, offers an expert's account of some of the most prominent battles of the past decade and lays out what must be done to restore the Senate's lost luster. Shapiro places the Senate at "ground zero for America's political dysfunction"--the institution that has failed the longest and the worst. Because the Senate, at its best, represented the special place where the Democrats and Republicans worked together to transcend ideological and regional differences and find common ground, its decline has

intensified the nation's polarization, by institutionalizing it at the highest level. Shapiro documents this decline and evaluates the prospects of restoration that could provide a way out of the polarized morass that has engulfed Congress. With a narrative that runs right through the first year of the Trump presidency, *Broken* will be essential reading for all concerned about the state of American politics and the future of our country.

**worst trade deal ever:** *Collected Works of Domenico Mario Nuti, Volume II* Saul Estrin, Milica Uvalic, 2023-08-10 This book, the second of two volumes, brings together the work of Domenico Mario Nuti to highlight his significant and varied contribution to economics. Bringing together works from across Nuti's career, his distinctive intellectual framework is exemplified in relation to discussions on the drivers of economic growth and development, the most efficient economic system, the organisation of firms, and how economies should be managed. This volume gives particular attention to Nuti's views about how economic systems evolve, about the possibilities for various forms of economic democracy; and his analysis of East-West integration and globalization. The volume also contains a bibliography of his works.

**worst trade deal ever:** *Trump* Michael Nelson, 2019-01-22 On the first anniversary of Donald Trump's presidency, Michael Nelson, one of our finest and most objective presidential scholars, published *Trump's First Year*, a nonpartisan assessment that was widely hailed as the best account of one of the most unusual years in presidential history. At the midpoint of Trump's term, Nelson has updated his book to include the second year, which if anything has proven to be even more remarkable. Beginning with an examination of the dramatic 2016 election, Nelson's book follows Trump as he takes office under mostly favorable conditions, with relative stability at home and abroad and his party in control of both houses of Congress. Trump leveraged this successfully in some ways, from the confirmation of his nominee Neil Gorsuch to the Supreme Court to the passage of his tax-reform bill. But many more actions were perceived as failures or even threats to a safe, functional democracy, including immigration policies defied by state and local governments, volatile dealings with North Korea, unsuccessful attempts to pass major legislation, and the inability to fill government positions or maintain consistent White House staff. As Nelson demonstrates in a substantial addition to the original book, Trump's effectiveness, or lack thereof, did not change significantly in his second year in office, but his approach often did. With the Mueller investigation and the midterm elections looming, Trump threw off his advisors' restraints and acted more directly on his impulses, reverting to the instincts and rhetoric that had won him the election. While opposition to Trump remained strong in many quarters, resistance among GOP leaders crumbled as they were confronted with their constituents' support of the president. Published on the second anniversary of Trump's inauguration, Nelson's book offers the most complete and up-to-date assessment of this still-unfolding story. Praise for the first edition: Measured, scholarly, and always accessible, this is a cogent analysis of the first year of the Trump presidency.--the Independent *Trump's First Year* won't generate the bombshell headlines of more sensationalist and gossipy books, but it provides context and balance for its conclusions, ones that are consistently at odds with Trump's own assessment of his performance.--Kirkus Reviews Providing one of the earliest objective evaluations of President Donald J. Trump's administration, Nelson demonstrates why he remains a leading figure in the field of presidency studies.--Choice

**worst trade deal ever:** *North American Regionalism* Eric Hershberg, Tom Long, 2023-12-01 *North American Regionalism* problematizes "North America" as an important region in its own right, breaking with the area-studies convention that divides the Global North and Global South portions of the Western Hemisphere at the US-Mexican border. By cutting across this division, the theoretically sophisticated essays in this volume yield new insights about politics, society, and the economy of North America, opening dialogues with the New Regionalism approach and the literature on comparative regional studies. Drawing on a six-year interdisciplinary collaboration among leading scholars from Canadian, Mexican, US, and European universities, the book brings North America back into International Relations' study of regions and regionalism. The book includes robust theoretical and empirical engagement with issues of trade, migration, security, energy and climate,

and the rise of China.

**worst trade deal ever: The Prosperity Paradox** Philip Martin, 2020-11-03 Why do farm workers become more vulnerable as countries get richer? As countries get richer, the share of workers employed in agriculture falls. In richer countries, hired farm workers do ever more of the work on the fewer and larger farms that produce most farm commodities. These hired workers are among the most vulnerable. They include local workers who lack the skills and contacts needed to get nonfarm jobs that usually offer higher wages and more opportunities as well as legal and unauthorized migrants from poorer countries who may not know or exercise their labor-related rights. Government enforcement of labor laws depends on complaints, and vulnerable workers rarely complain. The Prosperity Paradox explains why farm worker problems often worsen as the agricultural sector shrinks, and lays out options to help vulnerable workers. Analysis of farm labor markets in the US, Mexico, and other countries shows that unions and fair trade efforts to protect farm workers cover a very small share of all workers and are unlikely to expand quickly. Most labor-intensive fruits and vegetables are eaten fresh. Unsafe food that sickened consumers led to voluntary industry and later government-mandated food safety programs to ensure that food is safe when it leaves the farm, with protocols enforced by both government inspectors and buyers who refused to buy from non-compliant farms. This food safety model offers the most promise to launch a new era in protective labor policies.

**worst trade deal ever: Foreign Policy in the Age of Globalization, Populism and Nationalism** Fred Aja Agwu, 2021-06-25 This book propounds the thesis that it was the dysfunction of globalization and liberalism that prompted the rise of nationalism and populism. Recent developments in global affairs are challenging assumptions and the basis upon which international relations, as a broad field of specialization, and foreign policy analysis, as a sub-field, rests. In a world that is changing in fundamental and irreversible ways, this book intervenes to enable an improved sense of understanding of these developments and what they mean for people-people, state-state, continent-continent, and global relations, moving forward. The author shows anti-globalization and the growth of nationalism and populism have been particularly necessitated by the failures of liberalism and America's abdication from the world. With reference to Brexit, the pandemic, the US 2020 elections and consequent shifts in power, with a focus on their respective impacts on Africa, and Africa-Sino relations particularly, and developing countries, more broadly, this book situates these discussions within a global context. It effectively illustrates the insufficiency of the West's soft power, especially as it is foisted or supposedly imposed on the rest of the world without regard to the demands of cultural relativity. Relevant to postgraduate students, researchers, and policymakers, this is must-read within the fields of international relations and political economy.

**worst trade deal ever: Bitter Tweet** Alan Cashman, 2021-03-03 He rose as a populist and fell as an insurrectionist. The presidency of Donald J. Trump was built on collusion, bribery, scandal, and lies. Trump is famed for his use of Twitter, a digital machine gun he relished in firing. Over a five-year period, he fully integrated Twitter into the very fabric of his administration, ultimately re-shaping the presidency and the power that came with it. In a presidency like no other, Trump woke up to Twitter, went to bed with it, and took comfort in how much it revolved around him. Bitter Tweet is a chronological story that explores the fascinating presidency of Donald J. Trump, inspired by his own words. A captivating tale of corruption, bribery, collusion, and fascism. By exploring the contexts and consequences of his most infamous tweets, we gain an insight into just how the American political system works..... or in some cases does not.

**worst trade deal ever: Contesting Revisionism** Steve Chan, Huiyun Feng, Kai He, Weixing Hu, 2021 Tension between China and the United States has escalated recently. Are these countries headed for an armed conflict? The answer to this question depends importantly on their respective foreign policy intentions. Does one of them (or both) intend to challenge and overhaul the existing international order or if you will, the rules of the game in conducting international relations? This book seeks to discern these countries' revisionist impulses and discusses the origins, evolution, and implications of past and present countries motivated by these impulses for world peace and stability.

**worst trade deal ever: The Empty Throne** Ivo H. Daalder, James M. Lindsay, 2018-10-16

American diplomacy is in shambles, but beneath the daily chaos is an erosion of the postwar order that is even more dangerous. America emerged from the catastrophe of World War II convinced that global engagement and leadership were essential to prevent another global conflict and further economic devastation. That choice was not inevitable, but its success proved monumental. It brought decades of great power peace, underpinned the rise in global prosperity, and defined what it meant to be an American in the eyes of the rest of the world for generations. It was an historic achievement. Now, America has abdicated this vital leadership role. The Empty Throne is an inside portrait of the greatest lurch in US foreign policy since the decision to retreat back into Fortress America after World War I. The whipsawing of US policy has upended all that America's postwar leadership created—strong security alliances, free and open markets, an unquestioned commitment to democracy and human rights. Impulsive, theatrical, ill-informed, backward-looking, bullying, and reckless are the qualities that the American president brings to the table, when he shows up at all. The world has had to absorb the spectacle of an America unmaking the world it made, and the consequences will be with us for years to come.

**worst trade deal ever: New Economic Statecraft** Zhang Xiaotong, 2023-07-13 This book provides insights on the art of governing a state and managing its external relations from a wealth-power logic. It looks at economic statecraft, which consists of wealth production, wealth mobilization, and wealth-power conversion by a state. This book reconceptualizes what economic statecraft is and proposes a new theory focused on wealth-power conversion. With a long historic perspective, this book goes through the modern history of Western powers practicing economic statecraft since 1500, and presents three case studies, the United States, the European Union, and China, the three biggest users of economic statecraft in the contemporary world. The book serves as an ideal reference for policy makers, businesspeople, and researchers whose work touch upon either wealth creation, power projection, or the combination of both.

**worst trade deal ever: Political Landscapes of Donald Trump** Barney Warf, 2020-10-29 This book delves into the life and work of President Donald Trump, who is arguably the most famous and controversial person in the world today. While his administration has received enormous attention, few have studied the spatial dimensions of his policies. Political Landscapes of Donald Trump explores the geographies of Trump from multiple conceptual standpoints. It contextualizes Donald and his rise to power within the geography of his victory in 2016. Several essays in the book are concerned with his white ethno-nationalist political platform and social bases of support. Others focus on Trump's use of Twitter, his ties to professional wrestling, and his innumerable lies and deceptions. Yet another set delves into the geopolitics of his foreign policies, notably in Cuba, Korea, the Middle East, and China. Finally, it covers how his administration has addressed – or failed to address – climate change and its treatment of undocumented immigrants. This book will be of interest to anyone interested in the Trump administration, as well as social scientists and the informed lay public.
