## **The Best Joe Rogan Podcasts About History: A Deep Dive into Fascinating Discussions**

Introduction:

Are you a history buff captivated by Joe Rogan's eclectic podcast conversations? Do you crave insightful discussions that blend historical narratives with compelling perspectives? Then you've come to the right place! This comprehensive guide dives deep into the Joe Rogan Experience (JRE) archives, uncovering the absolute best episodes focused on history. We'll analyze what makes these podcasts stand out, highlight key takeaways, and equip you with the knowledge to find your next captivating historical deep dive. Whether you're a seasoned Rogan listener or a curious newcomer, prepare to be transported through time and enlightened by these fascinating conversations.

### **Uncovering History's Hidden Gems: The Best JRE Historical Episodes**

This post isn't just a list; it's a curated selection of Joe Rogan podcasts that go beyond surface-level discussions. We've meticulously analyzed episodes, considering the depth of historical analysis, the guest's expertise, and the overall engagement of the conversation. We'll cover a diverse range of historical periods and subjects, offering something for every history enthusiast.

#### **1. Ancient Civilizations and Lost Histories:**

Many JRE episodes delve into the mysteries surrounding ancient civilizations. These often involve discussions of archaeology, anthropology, and the interpretation of ancient texts. Often, the discussions venture into speculative territory, exploring alternative theories and challenging established narratives. The key is to identify episodes where credible experts present their research and evidence in a compelling manner. Look for podcasts featuring historians, archaeologists, and linguists specializing in ancient cultures. The conversational nature of the JRE allows for a fascinating exploration of both accepted history and more controversial theories, encouraging critical thinking and further research.

#### **2. Military History and Strategic Warfare:**

From ancient battles to modern conflicts, Joe Rogan has hosted numerous guests who offer insightful analyses of military history and strategic warfare. These podcasts provide valuable perspectives on pivotal moments in history, analyzing the motivations, strategies, and consequences of major conflicts. The focus often extends beyond mere chronological recounting, exploring the geopolitical context, technological advancements, and the human cost of war. These episodes can be particularly engaging for listeners interested in geopolitical strategy, military technology, and the impact of warfare on societies.

### 3. The Cold War and the Nuclear Age:

The Cold War era remains a fascinating and complex period in history, filled with political intrigue, technological advancements, and the ever-present threat of nuclear annihilation. JRE episodes focusing on this era often feature experts who offer firsthand accounts or in-depth analyses of Cold War events, policies, and personalities. These conversations provide a nuanced understanding of this period, challenging simplified narratives and offering a more comprehensive view of this pivotal era.

### 4. The History of Specific Technologies and Innovations:

Several JRE podcasts explore the history of specific technological advancements, tracing their origins, evolution, and societal impact. These conversations often involve inventors, engineers, and historians of technology, providing valuable insight into the innovation process and its influence on human civilization. This approach offers a unique perspective on history, illustrating how technological progress has shaped societies and continues to drive global change.

### 5. Biographical Deep Dives into Historical Figures:

Some JRE episodes focus on the lives and legacies of significant historical figures. These conversations often delve into the personal lives, motivations, and accomplishments of these individuals, providing a more human and relatable perspective on their contributions to history. The guests are often experts in biography, providing detailed analysis and primary source material that enriches the understanding of these historical figures. These episodes can be particularly captivating, offering a personal connection to historical events and personalities.

## **Example Podcast Outline: "The Rise and Fall of the Roman Empire" (Hypothetical Episode)**

**Introduction:** A brief overview of the Roman Empire's vast influence and enduring legacy, setting the stage for a deep dive into its history.

#### **Main Chapters:**

**The Early Republic:** Exploring the origins of Rome, its early struggles, and the establishment of its republican system of government.

**The Rise of the Empire:** Analyzing the factors that contributed to Rome's expansion, its military prowess, and its political machinations.

**The Pax Romana:** Discussing the period of relative peace and prosperity under the Empire, highlighting its significant cultural and infrastructural achievements.

**The Crisis of the Third Century:** Examining the internal conflicts and external pressures that led to the Empire's decline and instability.

**The Division and Fall:** Exploring the eventual split of the Empire into East and West, and the factors contributing to the ultimate collapse of the Western Roman Empire.

**The Legacy of Rome:** Considering the lasting impact of the Roman Empire on law, language, architecture, and political systems across Europe and beyond.

**Conclusion:** Summarizing the key takeaways from the discussion, highlighting the complexities and

nuances of the Roman Empire's rise and fall and its enduring legacy.

## **Detailed Explanation of Outline Points:**

Each main chapter would involve a detailed exploration of the specific historical period, employing primary and secondary source materials, maps, and visual aids to enhance the listener's understanding. The conversational style of the JRE would allow for a lively exchange of ideas, challenging assumptions and exploring different perspectives on historical events and their interpretations. The episode would aim to provide a comprehensive, yet accessible, understanding of a complex and influential historical period, encouraging further exploration and research.

## **FAQs:**

1. Are all Joe Rogan podcasts historically accurate? Not necessarily. While many guests are experts, the conversational format allows for speculation and differing interpretations. Critical thinking is essential.
2. Where can I find these podcasts? They are available on Spotify, YouTube, and other podcast platforms. Search for "Joe Rogan Experience" and browse the episode list.
3. What makes a JRE history podcast "best"? We consider depth of discussion, guest expertise, engagement, and the overall contribution to understanding historical context.
4. Are these podcasts suitable for all ages? Some discussions may contain mature themes or language. Parental discretion is advised.
5. Do these podcasts require prior historical knowledge? While helpful, it's not strictly necessary. The conversational style often explains key concepts clearly.
6. Can I find transcripts of these podcasts? Not always. However, YouTube videos often provide closed captions.
7. Are there any specific historical periods heavily featured? The range is broad, but ancient civilizations, military history, and the Cold War are frequent topics.
8. How can I contribute to the conversation? Engage in discussions online, conduct your own research, and share your thoughts with others.
9. What if I disagree with a guest's perspective? Critical thinking is vital. Use multiple sources to form your own informed opinion.

**best joe rogan podcasts about history:** Area 51 Annie Jacobsen, 2011-05-17 This compellingly hard-hitting bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible

to make.

**best joe rogan podcasts about history:** Fingerprints of the Gods Graham Hancock, 2012-09-19 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in Ancient Apocalypse, a Netflix original docuseries. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In Fingerprints of the Gods, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, Fingerprints of the Gods contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And Fingerprints of God tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK)

**best joe rogan podcasts about history:** Magicians of the Gods Graham Hancock, 2015-09-10 TV presenter Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...

**best joe rogan podcasts about history:** Empire of the Summer Moon S. C. Gwynne, 2010-05-25 \*Finalist for the Pulitzer Prize and the National Book Critics Circle Award\* \*A New York Times Notable Book\* \*Winner of the Texas Book Award and the Oklahoma Book Award\* This New

York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West “is nothing short of a revelation...will leave dust and blood on your jeans” (The New York Times Book Review). *Empire of the Summer Moon* spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne’s exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne’s account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. *Empire of the Summer Moon* announces him as a major new writer of American history.

**best joe rogan podcasts about history: Free Speech** Jonathan Zimmerman, Signe Wilkinson, 2021-05-01 In America we like to think we live in a land of liberty, where everyone can say whatever they want. Throughout our history, however, we have also been quick to censor people who offend or frighten us. We talk a good game about freedom of speech, then we turn around and deny it to others. In this brief but bracing book, historian Jonathan Zimmerman and Pulitzer Prize-winning cartoonist Signe Wilkinson tell the story of free speech in America: who established it, who has denounced it, and who has risen to its defense. They also make the case for why we should care about it today, when free speech is once again under attack. Across the political spectrum, Americans have demanded the suppression of ideas and images that allegedly threaten our nation. But the biggest danger to America comes not from speech but from censorship, which prevents us from freely governing ourselves. Free speech allows us to criticize our leaders. It lets us consume the art, film, and literature we prefer. And, perhaps most importantly, it allows minorities to challenge the oppression they suffer. While any of us are censored, none of us are free.

**best joe rogan podcasts about history: Whistlestop** John Dickerson, 2016-08-02 From *Face the Nation* moderator and contributing editor for *The Atlantic* John Dickerson come the stories behind the stories of the most memorable moments in American presidential campaign history. The stakes are high. The characters full of striving and ego. Presidential campaigns are a contest for control of power in the most powerful country on earth. The battle of ideas has a clear end, with winners and losers, and along the way there are sharp turning points—primaries, debates, conventions, and scandals that squeeze candidates into emergency action, frantic grasping, and heroic gambles. As Mike Murphy the political strategist put it, Campaigns are like war without bullets. *Whistlestop* tells the human story of nervous gambits hatched in first-floor hotel rooms, failures of will before the microphone, and the cross-country crack-ups of long-planned stratagems. At the bar at the end of a campaign day, these are the stories reporters rehash for themselves and embellish for newcomers. In addition to the familiar tales, *Whistlestop* also remembers the forgotten stories about the bruising and reckless campaigns of the nineteenth century when the combatants believed the consequences included the fate of the republic itself. Some of the most modern-feeling elements of the American presidential campaign were born before the roads were paved and electric lights lit the convention halls—or there were convention halls at all. *Whistlestop* is a ride through the

American campaign history with one of its most enthusiastic conductors guiding you through the landmarks along the way.

**best joe rogan podcasts about history: *The Immortality Key*** Brian C. Muraresku, 2020-09-29 THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience! A groundbreaking dive into the role psychedelics have played in the origins of Western civilization, and the real-life quest for the Holy Grail that could shake the Church to its foundations. The most influential religious historian of the 20th century, Huston Smith, once referred to it as the best-kept secret in history. Did the Ancient Greeks use drugs to find God? And did the earliest Christians inherit the same, secret tradition? A profound knowledge of visionary plants, herbs and fungi passed from one generation to the next, ever since the Stone Age? There is zero archaeological evidence for the original Eucharist – the sacred wine said to guarantee life after death for those who drink the blood of Jesus. The Holy Grail and its miraculous contents have never been found. In the absence of any hard data, whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians. In an unprecedented search for answers, *The Immortality Key* examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet. Religion and science converge to paint a radical picture of Christianity's founding event. And after centuries of debate, to solve history's greatest puzzle. Before the birth of Jesus, the Ancient Greeks found salvation in their own sacraments. Sacred beverages were routinely consumed as part of the so-called Ancient Mysteries – elaborate rites that led initiates to the brink of death. The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis, where a holy beer unleashed heavenly visions for two thousand years. Others drank the holy wine of Dionysus to become one with the god. In the 1970s, renegade scholars claimed this beer and wine – the original sacraments of Western civilization – were spiked with mind-altering drugs. In recent years, vindication for the disgraced theory has been quietly mounting in the laboratory. The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity. And with a single dose of psilocybin, the psychopharmacologists at Johns Hopkins and NYU are now turning self-proclaimed atheists into instant believers. But the smoking gun remains elusive. If these sacraments survived for thousands of years in our remote prehistory, from the Stone Age to the Ancient Greeks, did they also survive into the age of Jesus? Was the Eucharist of the earliest Christians, in fact, a psychedelic Eucharist? With an unquenchable thirst for evidence, Muraresku takes the reader on his twelve-year global hunt for proof. He tours the ruins of Greece with its government archaeologists. He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine. He unravels the Ancient Greek of the New Testament with the world's most controversial priest. He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments. He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English. And with leads from the archaeological chemists at UPenn and MIT, he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity. *The Immortality Key* reconstructs the suppressed history of women consecrating a forbidden, drugged Eucharist that was later banned by the Church Fathers. Women who were then targeted as witches during the Inquisition, when Europe's sacred pharmacology largely disappeared. If the scientists of today have resurrected this technology, then Christianity is in crisis. Unless it returns to its roots. Featuring a Foreword by Graham Hancock, the NYT bestselling author of *America Before*.

**best joe rogan podcasts about history: *Why We Sleep*** Matthew Walker, 2017-10-03 Sleep is one of the most important but least understood aspects of our life, wellness, and longevity ... An explosion of scientific discoveries in the last twenty years has shed new light on this fundamental aspect of our lives. Now ... neuroscientist and sleep expert Matthew Walker gives us a new understanding of the vital importance of sleep and dreaming--Amazon.com.

**best joe rogan podcasts about history: *A Renegade History of the United States*** Thaddeus Russell, 2011-07-05 From the Publisher: In this groundbreaking book, noted historian Thaddeus Russell tells a new and surprising story about the origins of American freedom. Rather than

crediting the standard textbook icons, Russell demonstrates that it was those on the fringes of society whose subversive lifestyles helped legitimize the taboo and made America the land of the free. In vivid portraits of renegades and their respectable adversaries, Russell shows that the nation's history has been driven by clashes between those interested in preserving social order and those more interested in pursuing their own desires - insiders versus outsiders, good citizens versus bad. The more these accidental revolutionaries existed, resisted, and persevered, the more receptive society became to change. Russell brilliantly and vibrantly argues that it was history's iconoclasts who established many of our most cherished liberties. Russell finds these pioneers of personal freedom in the places that usually go unexamined - saloons and speakeasies, brothels and gambling halls, and even behind the Iron Curtain. He introduces a fascinating array of antiheroes: drunken workers who created the weekend; prostitutes who set the precedent for women's liberation, including Diamond Jessie Hayman, a madam who owned her own land, used her own guns, provided her employees with clothes on the cutting-edge of fashion, and gave food and shelter to the thousands left homeless by the 1906 San Francisco earthquake; there are also the criminals who pioneered racial integration, unassimilated immigrants who gave us birth control, and brazen homosexuals who broke open America's sexual culture. Among Russell's most controversial points is his argument that the enemies of the renegade freedoms we now hold dear are the very heroes of our history books - he not only takes on traditional idols like John Adams, Thomas Jefferson, Andrew Carnegie, John Rockefeller, Thomas Edison, Franklin Roosevelt, and John F. Kennedy, but he also shows that some of the most famous and revered abolitionists, progressive activists, and leaders of the feminist, civil rights, and gay rights movements worked to suppress the vibrant energies of working-class women, immigrants, African Americans, and the drag queens who founded Gay Liberation. This is not history that can be found in textbooks - it is a highly original and provocative portrayal of the American past as it has never been written before.

**best joe rogan podcasts about history: Stuff You Should Know** Josh Clark, Chuck Bryant, 2020-11-24 From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless whys and hows from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

**best joe rogan podcasts about history: The Storm Before the Storm** Mike Duncan, 2017-10-24 The creator of the award-winning podcast series The History of Rome and Revolutions brings to life the bloody battles, political machinations, and human drama that set the stage for the fall of the Roman Republic. The Roman Republic was one of the most remarkable achievements in the history of civilization. Beginning as a small city-state in central Italy, Rome gradually expanded into a wider world filled with petty tyrants, barbarian chieftains, and despotic kings. Through the centuries, Rome's model of cooperative and participatory government remained remarkably durable and unmatched in the history of the ancient world. In 146 BC, Rome finally emerged as the strongest power in the Mediterranean. But the very success of the Republic proved to be its undoing. The

republican system was unable to cope with the vast empire Rome now ruled: rising economic inequality disrupted traditional ways of life, endemic social and ethnic prejudice led to clashes over citizenship and voting rights, and rampant corruption and ruthless ambition sparked violent political clashes that cracked the once indestructible foundations of the Republic. Chronicling the years 146-78 BC, *The Storm Before the Storm* dives headlong into the first generation to face this treacherous new political environment. Abandoning the ancient principles of their forbearers, men like Marius, Sulla, and the Gracchi brothers set dangerous new precedents that would start the Republic on the road to destruction and provide a stark warning about what can happen to a civilization that has lost its way.

**best joe rogan podcasts about history: Permanent Record** Edward Snowden, 2019-09-17  
NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

**best joe rogan podcasts about history: American Serengeti** Dan Flores, 2017-01-16  
America's Great Plains once possessed one of the grandest wildlife spectacles of the world, equaled only by such places as the Serengeti, the Masai Mara, or the veld of South Africa. Pronghorn antelope, gray wolves, bison, coyotes, wild horses, and grizzly bears: less than two hundred years ago these creatures existed in such abundance that John James Audubon was moved to write, it is impossible to describe or even conceive the vast multitudes of these animals. In a work that is at once a lyrical evocation of that lost splendor and a detailed natural history of these charismatic species of the historic Great Plains, veteran naturalist and outdoorsman Dan Flores draws a vivid portrait of each of these animals in their glory—and tells the harrowing story of what happened to them at the hands of market hunters and ranchers and ultimately a federal killing program in the nineteenth and twentieth centuries. The Great Plains with its wildlife intact dazzled Americans and Europeans alike, prompting numerous literary tributes. *American Serengeti* takes its place alongside these celebratory works, showing us the grazers and predators of the plains against the vast opalescent distances, the blue mountains shimmering on the horizon, the great rippling tracts of yellowed grasslands. Far from the empty flyover country of recent times, this landscape is alive with a complex ecology at least 20,000 years old—a continental patrimony whose wonders may not be entirely lost, as recent efforts hold out hope of partial restoration of these historic species. Written by an author who has done breakthrough work on the histories of several of these animals—including bison, wild horses, and coyotes—*American Serengeti* is as rigorous in its research as it is intimate in its sense of wonder—the most deeply informed, closely observed view we have of the Great Plains' wild heritage.

**best joe rogan podcasts about history: The Devil's Hand** Jack Carr, 2021-11-30 It's been twenty years since 9/11, two decades since the United States was attacked on home soil and set out to make the guilty pay with their lives. In the shadows, the enemy has been patient-learning, and adapting. And the enemy is ready to strike again. A new president offers hope to a country weary of conflict. He's a young, popular, self-made visionary...but he's also a man with a secret. Halfway across the globe a regional superpower struggles with sanctions imposed by the United States and her European allies, a country whose ancient religion spawned a group of ruthless assassins. Faced

with internal dissent and extrajudicial targeted killings by the United States and Israel, the Supreme Leader puts a plan in motion to defeat the most powerful nation on earth. Meanwhile, a young PhD student has gained access to a bioweapon thought to be confined to a classified military laboratory known only to a select number of officials. A second-generation agent, he has been assigned a mission that will bring his adopted homeland to its knees.--Back cover.

**best joe rogan podcasts about history:** *The End Is Always Near* Dan Carlin, 2019-10-29 Now a New York Times Bestseller. The creator of the wildly popular award-winning podcast Hardcore History looks at some of the apocalyptic moments from the past as a way to frame the challenges of the future. Do tough times create tougher people? Can humanity handle the power of its weapons without destroying itself? Will human technology or capabilities ever peak or regress? No one knows the answers to such questions, but no one asks them in a more interesting way than Dan Carlin. In *The End is Always Near*, Dan Carlin looks at questions and historical events that force us to consider what sounds like fantasy; that we might suffer the same fate that all previous eras did. Will our world ever become a ruin for future archaeologists to dig up and explore? The questions themselves are both philosophical and like something out of *The Twilight Zone*. Combining his trademark mix of storytelling, history and weirdness Dan Carlin connects the past and future in fascinating and colorful ways. At the same time the questions he asks us to consider involve the most important issue imaginable: human survival. From the collapse of the Bronze Age to the challenges of the nuclear era the issue has hung over humanity like a persistent Sword of Damocles. Inspired by his podcast, *The End is Always Near* challenges the way we look at the past and ourselves. In this absorbing compendium, Carlin embarks on a whole new set of stories and major cliffhangers that will keep readers enthralled. Idiosyncratic and erudite, offbeat yet profound, *The End is Always Near* examines issues that are rarely presented, and makes the past immediately relevant to our very turbulent present.

**best joe rogan podcasts about history:** *The Business Secrets of Drug Dealing* Matt Taibbi, Reggie Harris, 2022-10-04 *The Business Secrets of Drug Dealing* tells the story of a hyper-observant, politically-minded, but humorously pragmatic weed dealer who has spent a working life compiling rules for how to a) make money and b) avoid prison. Each rule shapes a chapter of this fast-paced outlaw tale, all delivered in Huey Carmichael's deliciously trenchant argot. Here are a few of them: No guns but keep shooters. Stay behind the white guy. Don't snitch. Always have a job. Be multi-sourced. Get your money and get out. Part edge-of-the-seat suspense story, part how-to manual in the tradition of *The Anarchist Cookbook*, *The Business Secrets of Drug Dealing* is as scintillating as it is subversive. Just reading it feels illegal.

**best joe rogan podcasts about history:** *Stuff They Don't Want You to Know* Ben Bowlin, Matt Frederick, Noel Brown, 2022-10-11 "Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence."—Booklist A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world.—Kirkus Reviews The co-hosts of the hit podcast *Stuff They Don't Want You to Know*, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, *Stuff They Don't Want You To Know*. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, *Stuff They Don't Want You to Know* is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

**best joe rogan podcasts about history:** *Coyote America* Dan Flores, 2016-06-07 The New

York Times best-selling account of how coyotes--long the target of an extermination policy--spread to every corner of the United States Finalist for the PEN/E.O. Wilson Literary Science Writing Award A masterly synthesis of scientific research and personal observation. -Wall Street Journal Legends don't come close to capturing the incredible story of the coyote. In the face of centuries of campaigns of annihilation employing gases, helicopters, and engineered epidemics, coyotes didn't just survive, they thrived, expanding across the continent from Alaska to New York. In the war between humans and coyotes, coyotes have won, hands-down. Coyote America is the illuminating five-million-year biography of this extraordinary animal, from its origins to its apotheosis. It is one of the great epics of our time.

**best joe rogan podcasts about history: The Butchering Art** Lindsey Fitzharris, 2017-10-17 Winner, 2018 PEN/E.O. Wilson Prize for Literary Science Writing Short-listed for the 2018 Wellcome Book Prize A Top 10 Science Book of Fall 2017, Publishers Weekly A Best History Book of 2017, The Guardian Warning: She spares no detail! —Erik Larson, bestselling author of *Dead Wake In The Butchering Art*, the historian Lindsey Fitzharris reveals the shocking world of nineteenth-century surgery and shows how it was transformed by advances made in germ theory and antiseptics between 1860 and 1875. She conjures up early operating theaters—no place for the squeamish—and surgeons, who, working before anesthesia, were lauded for their speed and brute strength. These pioneers knew that the aftermath of surgery was often more dangerous than patients' afflictions, and they were baffled by the persistent infections that kept mortality rates stubbornly high. At a time when surgery couldn't have been more hazardous, an unlikely figure stepped forward: a young, melancholy Quaker surgeon named Joseph Lister, who would solve the riddle and change the course of history. Fitzharris dramatically reconstructs Lister's career path to his audacious claim that germs were the source of all infection and could be countered by a sterilizing agent applied to wounds. She introduces us to Lister's contemporaries—some of them brilliant, some outright criminal—and leads us through the grimy schools and squalid hospitals where they learned their art, the dead houses where they studied, and the cemeteries they ransacked for cadavers. Eerie and illuminating, *The Butchering Art* celebrates the triumph of a visionary surgeon whose quest to unite science and medicine delivered us into the modern world.

**best joe rogan podcasts about history: The Cruelty Is the Point** Adam Serwer, 2021-06-29 NEW YORK TIMES BESTSELLER • From an award-winning journalist at The Atlantic, these searing essays make a powerful case that “real hope lies not in a sunny nostalgia for American greatness but in seeing this history plain—in all of its brutality, unadorned by euphemism” (The New York Times). NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • “No writer better demonstrates how American dreams are so often sabotaged by American history. Adam Serwer is essential.”—Ta-Nehisi Coates To many, our most shocking political crises appear unprecedented—un-American, even. But they are not, writes The Atlantic's Adam Serwer in this prescient essay collection, which dissects the most devastating moments in recent memory to reveal deeply entrenched dynamics, patterns as old as the country itself. The January 6 insurrection, anti-immigrant sentiment, and American authoritarianism all have historic roots that explain their continued power with or without President Donald Trump—a fact borne out by what has happened since his departure from the White House. Serwer argues that Trump is not the cause, he is a symptom. Serwer's phrase “the cruelty is the point” became among the most-used descriptions of Trump's era, but as this book demonstrates, it resonates across centuries. The essays here combine revelatory reporting, searing analysis, and a clarity that's bracing. In this new, expanded version of his bestselling debut, Serwer elegantly dissects white supremacy's profound influence on our political system, looking at the persistence of the Lost Cause, the past and present of police unions, the mythology of migration, and the many faces of anti-Semitism. In so doing, he offers abundant proof that our past is present and demonstrates the devastating costs of continuing to pretend it's not. *The Cruelty Is the Point* dares us, the reader, to not look away.

**best joe rogan podcasts about history: Irreversible Damage** Abigail Shrier, 2020-06-30 NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY

THE TIMES AND THE SUNDAY TIMES Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts. —Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one’s biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.” Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and “gender-affirming” educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls’ social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier’s essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

**best joe rogan podcasts about history:** *Fight Club* Chuck Palahniuk, 2011-11-30 'Hypnotic, pitiless and told brilliantly' Bret Easton Ellis Every weekend, in basements and parking lots across America, young men with good white-collar jobs and absent fathers take off their shoes and shirts and fight each other. Then they go back to those jobs with blackened eyes and loosened teeth and the sense that they can handle anything. *Fight Club* is the invention of Tyler Durden, projectionist, waiter and dark, anarchic genius. And it's only the beginning of his plans for revenge on a world where cancer support groups have the corner on human warmth. Read the subversive, savagely funny novel that defined a generation.

**best joe rogan podcasts about history:** *War Nerd* Gary Brecher, 2009-03-01 “[A] raucous, offensive, and sometimes amusing CliffsNotes compilation of wars both well-known and ignored.” —Utne Reader Self-described war nerd Gary Brecher knows he’s not alone, that there’s a legion of fat, lonely Americans, stuck in stupid, paper-pushing desk jobs, who get off on reading about war because they hate their lives. But Brecher writes about war, too. *War Nerd* collects his most opinionated, enraging, enlightening, and entertaining pieces. Part war commentator, part angry humorist à la Bill Hicks, Brecher inveighs against pieties of all stripes—Liberian generals, Dick Cheney, U.N. peacekeepers, the neo-cons—and the massive incompetence of military powers. A provocative free thinker, he finds much to admire in the most unlikely places, and not always for the most pacifistic reasons: the Tamil Tigers, the Lebanese Hezbollah, the Danes of 1,000 years ago, and so on, across the globe and through the centuries. Crude, scatological, un-P.C., yet deeply informed, Brecher provides a radically different, completely unvarnished perspective on the nature of warfare. “Military columnist Gary Brecher’s look at contemporary war is both offensive and illuminating. His book, *War Nerd* . . . aims to explain why the best-equipped armies in the world continue to lose battles to peasants armed with rocks . . . Brecher’s unrefined voice adds something essential to the conversation.” —Mother Jones “It’s international news coverage with a soul and acne, not to mention a deeply contrarian point of view.” —The Millions

**best joe rogan podcasts about history:** *The New Right* Michael Malice, 2019-05-14 The definitive firsthand account of the movement that permanently broke the American political consensus. What do internet trolls, economic populists, white nationalists, techno-anarchists and Alex Jones have in common? Nothing, except for an unrelenting hatred of evangelical progressivism and the so-called “Cathedral” from whence it pours forth. Contrary to the dissembling explanations from the corporate press, this movement did not emerge overnight—nor are its varied subgroups in

any sense interchangeable with one another. As united by their opposition as they are divided by their goals, the members of the New Right are willfully suspicious of those in the mainstream who would seek to tell their story. Fortunately, author Michael Malice was there from the very inception, and in *The New Right* recounts their tale from the beginning. Malice provides an authoritative and unbiased portrait of the New Right as a movement of ideas—ideas that he traces to surprisingly diverse ideological roots. From the heterodox right wing of the 1940s to the Buchanan/Rothbard alliance of 1992 and all the way through to what he witnessed personally in Charlottesville, *The New Right* is a thorough firsthand accounting of the concepts, characters and chronology of this widely misunderstood sociopolitical phenomenon. Today's fringe is tomorrow's orthodoxy. As entertaining as it is informative, *The New Right* is required reading for every American across the spectrum who would like to learn more about the past, present and future of our divided political culture.

**best joe rogan podcasts about history: *Surprise, Kill, Vanish*** Annie Jacobsen, 2019-05-14 From Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. *Surprise* . . . your target. *Kill* . . . your enemy. *Vanish* . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments populated with killers, connivers, and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

**best joe rogan podcasts about history: *Chaos*** Tom O'Neill, 2019-06-25 A journalist's twenty-year fascination with the Manson murders leads to gobsmacking (The Ringer) new revelations about the FBI's involvement in this kaleidoscopic (The New York Times) reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the official story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop

him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, Chaos mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

**best joe rogan podcasts about history: *Operation Paperclip*** Annie Jacobsen, 2014-02-11 The "remarkable" story of America's secret post-WWII science programs (The Boston Globe), from the New York Times bestselling author of Area 51. In the chaos following World War II, the U.S. government faced many difficult decisions, including what to do with the Third Reich's scientific minds. These were the brains behind the Nazis' once-indomitable war machine. So began Operation Paperclip, a decades-long, covert project to bring Hitler's scientists and their families to the United States. Many of these men were accused of war crimes, and others had stood trial at Nuremberg; one was convicted of mass murder and slavery. They were also directly responsible for major advances in rocketry, medical treatments, and the U.S. space program. Was Operation Paperclip a moral outrage, or did it help America win the Cold War? Drawing on exclusive interviews with dozens of Paperclip family members, colleagues, and interrogators, and with access to German archival documents (including previously unseen papers made available by direct descendants of the Third Reich's ranking members), files obtained through the Freedom of Information Act, and dossiers discovered in government archives and at Harvard University, Annie Jacobsen follows more than a dozen German scientists through their postwar lives and into a startling, complex, nefarious, and jealously guarded government secret of the twentieth century. In this definitive, controversial look at one of America's most strategic, and disturbing, government programs, Jacobsen shows just how dark government can get in the name of national security. Harrowing...How Dr. Strangelove came to America and thrived, told in graphic detail. —Kirkus Reviews

**best joe rogan podcasts about history: *America Before*** Graham Hancock, 2019-04-23 The Instant New York Times Bestseller! Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age? Graham Hancock, the internationally bestselling author, has made it his life's work to find out--and in *America Before*, he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion. We've been taught that North and South America were empty of humans until around 13,000 years ago - amongst the last great landmasses on earth to have been settled by our ancestors. But new discoveries have radically reshaped this long-established picture and we know now that the Americas were first peopled more than 130,000 years ago - many tens of thousands of years before human settlements became established elsewhere. Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs. In the process, from the Mississippi Valley to the Amazon rainforest, he reveals that ancient New World cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected Old World cultures. Have archaeologists focused for too long only on the Old World in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the New World? *America Before: The Key to Earth's Lost Civilization* is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades, namely a mind-dilating exploration of the mysteries of the past, amazing archaeological discoveries and profound implications for how we lead our lives today.

**best joe rogan podcasts about history: *The Curious Ape*** Sean R Stuart, 2020-08-28

**best joe rogan podcasts about history: *Nonviolence*** Mark Kurlansky, 2009-01-21 In this timely, highly original, and controversial narrative, New York Times bestselling author Mark Kurlansky discusses nonviolence as a distinct entity, a course of action, rather than a mere state of mind. Nonviolence can and should be a technique for overcoming social injustice and ending wars,

he asserts, which is why it is the preferred method of those who speak truth to power. Nonviolence is a sweeping yet concise history that moves from ancient Hindu times to present-day conflicts raging in the Middle East and elsewhere. Kurlansky also brings into focus just why nonviolence is a “dangerous” idea, and asks such provocative questions as: Is there such a thing as a “just war”? Could nonviolence have worked against even the most evil regimes in history? Kurlansky draws from history twenty-five provocative lessons on the subject that we can use to effect change today. He shows how, time and again, violence is used to suppress nonviolence and its practitioners—Gandhi and Martin Luther King, for example; that the stated deterrence value of standing national armies and huge weapons arsenals is, at best, negligible; and, encouragingly, that much of the hard work necessary to begin a movement to end war is already complete. It simply needs to be embraced and accelerated. Engaging, scholarly, and brilliantly reasoned, *Nonviolence* is a work that compels readers to look at history in an entirely new way. This is not just a manifesto for our times but a trailblazing book whose time has come.

**best joe rogan podcasts about history:** *Living with the Gods* Neil MacGregor, 2018-09-17 Following the award-winning BBC Radio 4 series, a panoramic exploration of peoples, objects and beliefs from the celebrated author of *A History of the World in 100 Objects* and Germany 'Riveting, extraordinary ... tells the sweeping story of religious belief in all its inventive variety. The emphasis is not on our differences, but on shared spiritual yearnings' Rachel Campbell-Johnston, *The Times*, Books of the Year One of the central facts of human existence is that every society shares a set of beliefs and assumptions - a faith, an ideology, a religion - that goes far beyond the life of the individual. These beliefs are an essential part of a shared identity. They have a unique power to define - and to divide - us, and are a driving force in the politics of much of the world today. Throughout history they have most often been, in the widest sense, religious. Yet this book is not a history of religion, nor an argument in favour of faith. It is about the stories which give shape to our lives, and the different ways in which societies imagine their place in the world. Looking across history and around the globe, it interrogates objects, places and human activities to try to understand what shared beliefs can mean in the public life of a community or a nation, how they shape the relationship between the individual and the state, and how they help give us our sense of who we are. For in deciding how we live with our gods, we also decide how to live with each other. 'The new blockbuster by the museums maestro Neil MacGregor ... The man who chronicles world history through objects is back ... examining a new set of objects to explore the theme of faith in society' *Sunday Times*

**best joe rogan podcasts about history:** *American Cosmic* D.W. Pasulka, 2019-01-23 More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. *American Cosmic* examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like *The X-Files*, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

**best joe rogan podcasts about history:** *Justinian's Flea* William Rosen, 2007-05-03 From the acclaimed author of *Miracle Cure* and *The Third Horseman*, the epic story of the collision between one of nature's smallest organisms and history's mightiest empire During the golden age of the Roman Empire, Emperor Justinian reigned over a territory that stretched from Italy to North Africa. It was the zenith of his achievements and the last of them. In 542 AD, the bubonic plague struck. In weeks, the glorious classical world of Justinian had been plunged into the medieval and modern

Europe was born. At its height, five thousand people died every day in Constantinople. Cities were completely depopulated. It was the first pandemic the world had ever known and it left its indelible mark: when the plague finally ended, more than 25 million people were dead. Weaving together history, microbiology, ecology, jurisprudence, theology, and epidemiology, Justinian's Flea is a unique and sweeping account of the little known event that changed the course of a continent.

**best joe rogan podcasts about history: Losing the Nobel Prize: A Story of Cosmology, Ambition, and the Perils of Science's Highest Honor** Brian Keating, 2018-04-24

Riveting.—Science A Forbes, Physics Today, Science News, and Science Friday Best Science Book Of 2018 Cosmologist and inventor of the BICEP (Background Imaging of Cosmic Extragalactic Polarization) experiment, Brian Keating tells the inside story of the mesmerizing quest to unlock cosmology's biggest mysteries and the human drama that ensued. We follow along on a personal journey of revelation and discovery in the publish-or-perish world of modern science, and learn that the Nobel Prize might hamper—rather than advance—scientific progress. Fortunately, Keating offers practical solutions for reform, providing a vision of a scientific future in which cosmologists may finally be able to see all the way back to the very beginning.

**best joe rogan podcasts about history: Until the End of Time** Brian Greene, 2020-02-18  
NEW YORK TIMES BESTSELLER • A captivating exploration of deep time and humanity's search for purpose, from the world-renowned physicist and best-selling author of The Elegant Universe. Few humans share Greene's mastery of both the latest cosmological science and English prose. —The New York Times Until the End of Time is Brian Greene's breathtaking new exploration of the cosmos and our quest to find meaning in the face of this vast expanse. Greene takes us on a journey from the big bang to the end of time, exploring how lasting structures formed, how life and mind emerged, and how we grapple with our existence through narrative, myth, religion, creative expression, science, the quest for truth, and a deep longing for the eternal. From particles to planets, consciousness to creativity, matter to meaning—Brian Greene allows us all to grasp and appreciate our fleeting but utterly exquisite moment in the cosmos.

**best joe rogan podcasts about history: Unit 731** Hal Gold, 2011-09-13 This is a riveting and disturbing account of the medical atrocities performed in and around Japan during WWII. Some of the cruelest deeds of Japan's war in Asia did not occur on the battlefield, but in quiet, antiseptic medical wards in obscure parts of the continent. Far from front lines and prying eyes, Japanese doctors and their assistants subjected human guinea pigs to gruesome medical experiments. In the first part of Unit 731: Testimony author Hal Gold draws upon a painstakingly accumulated reservoir of sources to construct a portrait of the Imperial Japanese Army's most notorious medical unit, giving an overview of its history and detailing its most shocking activities. The second half of the book consists almost entirely of the words of former unit members themselves, taken from remarks they made at a traveling Unit 731 exhibition held around Japan in 1994-95. These people recount their vivid first-hand memories of what it was like to cut open pregnant women as they lay awake on the vivisection table, inject plague germs into healthy farmers, and carry buckets of fresh blood and organs through corridors to their appropriate destinations. Unit 731: Testimony represents an essential addition to the growing body of literature on the still-unfolding story of one of the most infamous military outfits in modern history. By showing how the ethics of normal men and women, and even an entire profession, can be warped by the fire of war, this important book offers a window on a time of human madness, in the hope that such days will never come again.

**best joe rogan podcasts about history: The Pentagon's Brain** Annie Jacobsen, 2015-09-15 Discover the definitive history of DARPA, the Defense Advanced Research Project Agency, in this Pulitzer Prize finalist from the author of the New York Times bestseller Area 51. No one has ever written the history of the Defense Department's most secret, most powerful, and most controversial military science R&D agency. In the first-ever history about the organization, New York Times bestselling author Annie Jacobsen draws on inside sources, exclusive interviews, private documents, and declassified memos to paint a picture of DARPA, or the Pentagon's brain, from its Cold War inception in 1958 to the present. This is the book on DARPA -- a compelling narrative about this

clandestine intersection of science and the American military and the often frightening results.

**best joe rogan podcasts about history:** *The Wim Hof Method* Wim Hof, 2022-04-14 THE SUNDAY TIMES BESTSELLING PHENOMENON 'I've never felt so alive' JOE WICKS 'The book will change your life' BEN FOGLE My hope is to inspire you to retake control of your body and life by unleashing the immense power of the mind. 'The Iceman' Wim Hof shares his remarkable life story and powerful method for supercharging your strength, health and happiness. Refined over forty years and championed by scientists across the globe, you'll learn how to harness three key elements of Cold, Breathing and Mindset to master mind over matter and achieve the impossible. 'Wim is a legend of the power ice has to heal and empower' BEAR GRYLLS 'Thor-like and potent...Wim has radioactive charisma' RUSSELL BRAND

**best joe rogan podcasts about history:** *Fight for the Forgotten* Justin Wren, 2016-07-05 From notable mixed martial artist and UFC fighter, Justin Wren, comes a personal account of faith, redemption, empowerment, and overwhelming love as one man sets out on an international mission to fight for those who can't fight for themselves. Justin Wren knows what it's like to feel like the world is against you. Like many kids, Justin was bullied as a child, but had a dream that kept him going. Fueled by the anger he felt toward his tormenters, Justin trained hard and propelled his dream of becoming a UFC fighter into reality. But the pain from his childhood didn't dissipate and Justin fell into a spiral of depression and addiction, leading him on a path toward destruction. After getting kicked out of his training community, his career was in shambles and he had nowhere else to go, so Justin attended a men's retreat, and it was there he found God. As Justin began piecing his life back together, he joined several international mission trips that opened his eyes and his heart to a world filled with suffering deep in the jungle of the Democratic Republic of Congo. There he came across the Mbuti Pygmy tribe, a group of people persecuted by neighboring tribes and forced into slavery. His encounter with the Pygmy tribe left him wondering who was there to help them and in that moment Justin stepped out of the ring and into a fight for the forgotten. From cage fighter to freedom fighter, Justin's story is a deeply personal memoir with a bigger message about a quest, justice, and the amazing things that can happen when we relinquish our lives to God--

**best joe rogan podcasts about history:** *Cosmic Queries* Neil deGrasse Tyson, 2021-03-02 In this thought-provoking follow-up to his acclaimed StarTalk book, uber astrophysicist Neil deGrasse Tyson tackles the world's most important philosophical questions about the universe with wit, wisdom, and cutting-edge science. For science geeks, space and physics nerds, and all who want to understand their place in the universe, this enlightening new book from Neil deGrasse Tyson offers a unique take on the mysteries and curiosities of the cosmos, building on rich material from his beloved StarTalk podcast. In these illuminating pages, illustrated with dazzling photos and revealing graphics, Tyson and co-author James Trefil, a renowned physicist and science popularizer, take on the big questions that humanity has been posing for millennia--How did life begin? What is our place in the universe? Are we alone?--and provide answers based on the most current data, observations, and theories. Populated with paradigm-shifting discoveries that help explain the building blocks of astrophysics, this relatable and entertaining book will engage and inspire readers of all ages, bring sophisticated concepts within reach, and offer a window into the complexities of the cosmos. or all who loved National Geographic's StarTalk with Neil deGrasse Tyson, Cosmos: Possible Worlds, and Space Atlas, this new book will take them on more journeys into the wonders of the universe and beyond.

## Best Joe Rogan Podcasts About History Introduction

Best Joe Rogan Podcasts About History Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Best Joe Rogan Podcasts About History Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Best Joe Rogan Podcasts About History : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Best Joe Rogan Podcasts About History : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Best Joe Rogan Podcasts About History Offers a diverse range of free eBooks across various genres. Best Joe Rogan Podcasts About History Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Best Joe Rogan Podcasts About History Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Best Joe Rogan Podcasts About History, especially related to Best Joe Rogan Podcasts About History, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Best Joe Rogan Podcasts About History, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Best Joe Rogan Podcasts About History books or magazines might include. Look for these in online stores or libraries. Remember that while Best Joe Rogan Podcasts About History, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Best Joe Rogan Podcasts About History eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites.
