devon archer tucker: Central to Their Lives Lynne Blackman, 2018-06-20 Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, Art is central to my life. Not being able to make or see art would be a major deprivation. The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised not as notable women artists but as notable artists who happen to be women. In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C. devon archer tucker: Red-Handed Peter Schweizer, 2022-01-25 #1 New York Times Bestseller ?Peter Schweizer says that, in a quarter-century as an investigative journalist, this is the scariest

investigation he has ever conducted. That the Chinese government seeks to infiltrate American institutions is hardly surprising. What is wholly new, however, are the number of American elites who are eager to help the Chinese dictatorship in its quest for global hegemony. Presidential families, Silicon Valley gurus, Wall Street high rollers, Ivy League universities, even professional athletes—all willing to sacrifice American strength and security on the altar of personal enrichment. In *Red-Handed*, six-time New York Times bestselling investigator Peter Schweizer presents his most alarming findings to date by revealing the secret deals wealthy Americans have cut to help China build its military, technological, and economic might. Equally as astonishing, many of these elites quietly believe the Chinese dictatorial regime is superior to American democracy. Schweizer and his team of forensic investigators spent over a year scouring a massive trove of global corporate records and legal filings to expose the hidden transactions China's enablers hoped would never see the light of day. And as Schweizer's past bombshells like *Profiles in Corruption*, *Secret Empires*, and *Clinton Cash* all made clear, there are bad actors on both ends of the political spectrum. Exhaustively researched, crisply told, and chilling, *Red-Handed* will expose the nexus of power between the Chinese government and the American elites who do its bidding.

devon archer tucker: *Clinton Cash* Peter Schweizer, 2016-07-26 The definitive takedown by the #1 New York Times bestselling author of *Secret Empires*. In 2000, Bill and Hillary Clinton owed millions of dollars in legal debt. Since then, they've earned over \$130 million. Where did the money come from? Most people assume that the Clintons amassed their wealth through lucrative book deals and high-six figure fees for speaking gigs. Now, Peter Schweizer shows who is really behind those enormous payments. In his New York Times bestselling books *Extortion* and *Throw Them All Out*, Schweizer detailed patterns of official corruption in Washington that led to congressional resignations and new ethics laws. In *Clinton Cash*, he follows the Clinton money trail, revealing the connection between their personal fortune, their "close personal friends," the Clinton Foundation, foreign nations, and some of the highest ranks of government. Schweizer reveals the Clinton's troubling dealings in Kazakhstan, Colombia, Haiti, and other places at the "wild west" fringe of the global economy. In this blockbuster exposé, Schweizer merely presents the troubling facts he's uncovered. Meticulously researched and scrupulously sourced, filled with headline-making revelations, *Clinton Cash* raises serious questions of judgment, of possible indebtedness to an array of foreign interests, and ultimately, of fitness for high public office.

Because it is a rapidly developing field, the WHO and FAO convened an Expert Consultation to evaluate the current state of knowledge. It had three main tasks: to review the full scope of vitamin and minerals requirements; to draft and adopt a report which would provide recommended nutrient intakes for vitamins A, C, D, E, and K; the B vitamins; calcium; iron; magnesium; zinc; selenium; and iodine; to identify key issues for future research and make preliminary recommendations for the handbook. This report contains the outcome of the Consultation, combined with up-to-date evidence that has since become available.

devon archer tucker: *Secret Empires* Peter Schweizer, 2019-03-26 #1 New York Times Bestseller! Peter Schweizer has been fighting corruption—and winning—for years. In *Throw Them All Out*, he exposed insider trading by members of Congress, leading to the passage of the STOCK Act. In *Extortion*, he uncovered how politicians use mafia-like tactics to enrich themselves. And in *Clinton Cash*, he revealed the Clintons' massive money machine and sparked an FBI investigation. Now he explains how a new corruption has taken hold, involving larger sums of money than ever before. Stuffing tens of thousands of dollars into a freezer has morphed into multibillion-dollar

equity deals done in the dark corners of the world. An American bank opening in China would be prohibited by US law from hiring a slew of family members of top Chinese politicians. However, a Chinese bank opening in America can hire anyone it wants. It can even invite the friends and families of American politicians to invest in can't-lose deals. President Donald Trump's children have made front pages across the world for their dicey transactions. However, the media has barely looked into questionable deals made by those close to Barack Obama, Joe Biden, John Kerry, Mitch McConnell, and lesser-known politicians who have been in the game longer. In many parts of the world, the children of powerful political figures go into business and profit handsomely, not necessarily because they are good at it, but because people want to curry favor with their influential parents. This is a relatively new phenomenon in the United States. But for relatives of some prominent political families, we may already be talking about hundreds of millions of dollars. Deeply researched and packed with shocking revelations, *Secret Empires* identifies public servants who cannot be trusted and provides a path toward a more accountable government.
