dynamo magician uk: Here Is Real Magic Nate Staniforth, 2018-01-16 An extraordinary memoir about finding wonder in everyday life, from magician Nate Staniforth. Nate Staniforth has spent most of his life and all of his professional career trying to understand wonder--what it is, where to find it, and how to share it with others. He became a magician because he learned at a young age that magic tricks don't have to be frivolous. Magic doesn't have to be about sequins and smoke machines--rather, it can create a moment of genuine astonishment. But after years on the road as a professional magician, crisscrossing the country and performing four or five nights a week, every week, Nate was disillusioned, burned out, and ready to quit. Instead, he went to India in search of magic. *Here Is Real Magic* follows Nate Staniforth's evolution from an obsessed young magician to a broken wanderer and back again. It tells the story of his rediscovery of astonishment--and the importance of wonder in everyday life--during his trip to the slums of India, where he infiltrated a three-thousand-year-old clan of street magicians. *Here Is Real Magic* is a call to all of us--to welcome awe back into our lives, to marvel in the everyday, and to seek magic all around us.

dynamo magician uk: *Secular Magic and the Moving Image* Max Sexton, 2017-12-14 The power of the moving image to conjure marvelous worlds has usually been to understand it in terms of 'move magic'. On film, a fascination for enchantment and wonder has transmuted older beliefs in the supernatural into secular attractions. But this study is not about the history of special effects or a history of magic. Rather, it attempts to determine the influence and status of secular magic on television within complex modes of delivery before discovering interstices with film. Historically, the overriding concern on television has been for secular magic that informs and empowers rather than a fairytale effect that deceives and mystifies. Yet, shifting notions of the real and the uncertainty associated with the contemporary world has led to television developing many different modes that have become capable of constant hybridization. The dynamic interplay between certainty and indeterminacy is the key to understanding secular magic on television and film and exploring the interstices between them. Sexton ranges from the real-time magic of street performers, such as David Blaine, Criss Angel, and Dynamo, to Penn and Teller's comedy magic, to the hypnotic acts of Derren Brown, before finally visiting the 2006 films *The Illusionist* and *The Prestige*. Each example charts how the lack of clear distinctions between reality and illusion in modes of representation and presentation disrupt older theoretical oppositions. *Secular Magic and the Moving Image* not only re-evaluates questions about modes and styles but raises further questions about entertainment and how the relations between the program maker and the audience resemble those between the conjuror and spectator. By re-thinking these overlapping practices and tensions and the marking of the indeterminacy of reality on media screens, it becomes possible to revise our understanding of inter-medial relations.

Spencer Reece weaves the poetry he loves into how he has lived, the poetry as solace and relief, as confirmation and rescue, as redemption. —Colm Toibín *The Secret Gospel of Mark* is a powerful dynamo of a story that delicately weaves the author's experiences with an appreciation for seven great literary touchstones: Elizabeth Bishop, Sylvia Plath, Emily Dickinson, James Merrill, Mark Strand, George Herbert, and Gerard Manley Hopkins. In speaking to the beauty these poets' works inspire in him, Reece finds the beauty of his own life's journey, a path that runs from coming of age as a gay teenager in the 1980s, Yale, alcoholism, a long stint as a Brooks Brothers salesman, Harvard Divinity School, and leads finally to hard-won success as a poet, reconciliation with his family, and the fulfillment of finding his life's work as an Episcopal priest. dynamo magician uk: House of Commons - Culture, Media and Sport Committee: Supporting The Creative Economy - Volume I: HC 674 Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2013-09-26 This report warns that the extraordinary success of the UK's creative industries may be jeopardised by any dilution of intellectual property rights and the failure to tackle online piracy. The Committee also strongly condemns the failure of Google in particular to tackle access of copyright infringing websites through its search engine. Such illegal piracy, combined with proposals arising from the Hargreaves review to introduce copyright exceptions, and a failure to strengthen copyright enforcement as envisaged by the Digital Economy Act 2010, together threaten the livelihoods of the individuals and industries that contribute over £36 billion annually to the UK economy. Also, the Olympics No Marketing Rights scheme is excessively restrictive and is preventing British creative companies from realising the benefits they deserve from the Olympic legacy. The Committee calls for: a central champion of Intellectual Property in Government to promote and protect the interests of UK intellectual property; the maximum penalty for serious online IP theft to be increased to 10 years imprisonment, in line with the punishment for such offences in the physical world; more evidence and scrutiny before any exceptions to copyright such as those suggested by Hargreaves are applied; redoubled efforts to ensure that the video games tax credit is approved by the European Commission and introduced as soon as possible; reforms to the income tax and tax reliefs systems to recognise adequately the freelance nature of much creative work; greater recognition of the importance of arts subjects in the curriculum.

dynamo magician uk: Hey Presto! , 2014-11-12 The world's greatest and most celebrated magicians, conjurors and illusionists can make us believe the unbelievable, the impossible possible. But, of course, just like everybody else these conjurors had to start at a beginning. They too had to learn the simple (but effective) card tricks, the easy (but imaginative) coin tricks and the basic (but still mindboggling) sleight of hand tricks before advancing to more innovative and radical skills and techniques. *Hey Presto!* is a book full to the rafters with simple magic tricks, the perfect companion for a beginner as well as a wonderful gift book for those wishing to get into magic and are not sure how. The book contains over 40 card, coin and magic tricks for the beginner. If you want the ultimate introduction into the world of magic then, *Hey Presto!*, here it is!
