elle daily capricorn horoscope: How to Murder Your Life Cat Marnell, 2017-01-31 From the New York Times bestselling author and former beauty editor Cat Marnell, a "vivid, maddening, heartbreaking, very funny, chaotic" (The New York Times) memoir of prescription drug addiction

and self-sabotage, set in the glamorous world of fashion magazines and downtown nightclubs. At twenty-six, Cat Marnell was an associate beauty editor at Lucky, one of the top fashion magazines in America—and that's all most people knew about her. But she hid a secret life. She was a prescription drug addict. She was also a "doctor shopper" who manipulated Upper East Side psychiatrists for pills, pills, and more pills; a lonely bulimic who spent hundreds of dollars a week on binge foods; a promiscuous party girl who danced barefoot on banquets; a weepy and hallucination-prone insomniac who would take anything—anything—to sleep. This is a tale of self-loathing, self-sabotage, and yes, self-tanner. It begins at a posh New England prep school—and with a prescription for the Attention Deficit Disorder medication Ritalin. It continues to New York, where we follow Marnell's amphetamine-fueled rise from intern to editor through the beauty departments of NYLON, Teen Vogue, Glamour, and Lucky. We see her fight between ambition and addiction and how, inevitably, her disease threatens everything she worked so hard to achieve. From the Condé Nast building to seedy nightclubs, from doctors' offices and mental hospitals, Marnell "treads a knife edge between glamorizing her own despair and rendering it with savage honesty....with the skill of a pulp novelist" (The New York Times Book Review) what it is like to live in the wild, chaotic, often sinister world of a young female addict who can't say no. Combining "all the intoxicating intrigue of a thriller and yet all the sobering pathos of a gifted writer's true-life journey to recover her former health, happiness, ambitions, and identity" (Harper's Bazaar), *How to Murder Your Life* is mesmerizing, revelatory, and necessary.

elle daily capricorn horoscope: Hang the Moon Alexandria Bellefleur, 2021-05-25 In a delightful follow-up to *Written in the Stars*, Alexandria Bellefleur delivers another queer rom-com about a hopeless romantic who vows to show his childhood crush that romance isn't dead by recreating iconic dates from his favorite films... *Brendon Lowell loves love*. It's why he created a dating app to help people find their one true pairing and why he's convinced "the one" is out there, even if he hasn't met her yet. Or... has he? When his sister's best friend turns up in Seattle unexpectedly, *Brendon* jumps at the chance to hang out with her. He's crushed on Annie since they

were kids, and the stars have finally aligned, putting them in the same city at the same time. Annie booked a spur-of-the-moment trip to Seattle to spend time with friends before moving across the globe. She's not looking for love, especially with her best friend's brother. Annie remembers Brendon as a sweet, dorky kid. Except, the 6-foot-4 man who shows up at her door is a certified Hot Nerd and Annie... wants him? Oh yes. Getting involved would be a terrible idea—her stay is temporary and he wants forever—but when Brendon learns Annie has given up on dating, he's determined to prove that romance is real. Taking cues from his favorite rom-coms, Brendon plans to woo her with elaborate dates straight out of Nora Ephron's playbook. The clock is ticking on Annie's time in Seattle, and Brendon's starting to realize romance isn't just flowers and chocolate. But maybe real love doesn't need to be as perfect as the movies... as long as you think your partner hung the moon.

elle daily capricorn horoscope: Friendship Emily Gould, 2014-07-01 A Wall Street Journal Favorite Book of the Year · A New York Times Book Review Editors' Choice · Named a Best Book of the Year by Vol. 1 Brooklyn and The Globe and Mail (Canada) Emily Gould's debut novel is a searching examination of a best friendship that is at once profoundly recognizable and impossible to put down. Bev Tunney and Amy Schein have been best friends for years, but now, at thirty, they're at a crossroads. Bev is a hardworking Midwesterner still mourning a years-old romantic catastrophe that derailed her career. Amy is an East Coast princess, whose luck and charm have, so far, allowed her to skate through life. Bev is stuck in a seemingly endless cycle of temping, drowning in student loan debt, and (still) living with roommates. Amy is riding the tailwinds of her early success, but her habit of burning bridges is finally catching up to her. And now Bev is pregnant. As the two are dragged, kicking and screaming, into real adulthood, they are confronted with the possibility that growing up might also mean growing apart.

elle daily capricorn horoscope: The Forbidden Worlds of Haruki Murakami Matthew Carl Strecher, 2014-10-01 In an "other world" composed of language—it could be a fathomless Martian well, a labyrinthine hotel or forest—a narrative unfolds, and with it the experiences, memories, and dreams that constitute reality for Haruki Murakami's characters and readers alike. Memories and dreams in turn conjure their magical counterparts—people without names or pasts, fantastic animals, half-animals, and talking machines that traverse the dark psychic underworld of this writer's extraordinary fiction. Fervently acclaimed worldwide, Murakami's wildly imaginative work in many ways remains a mystery, its worlds within worlds uncharted territory. Finally in this book readers will find a map to the strange realm that grounds virtually every aspect of Murakami's writing. A journey through the enigmatic and baffling innermost mind, a metaphysical dimension where Murakami's most bizarre scenes and characters lurk, *The Forbidden Worlds of Haruki Murakami* exposes the psychological and mythological underpinnings of this other world. Matthew Carl Strecher shows how these considerations color Murakami's depictions of the individual and collective soul, which constantly shift between the tangible and intangible but in this literary landscape are undeniably real. Through these otherworldly depths *The Forbidden Worlds of Haruki Murakami* also charts the writer's vivid "inner world," whether unconscious or underworld (what some Japanese critics call *achiragawa*, or "over there"), and its connectivity to language. Strecher covers all of Murakami's work—including his efforts as a literary journalist—and concludes with the first full-length close reading of the writer's newest novel, *Colorless Tsukuru Tazaki and His Years of Pilgrimage*.

elle daily capricorn horoscope: *Celestial Sleuth* Donald W. Olson, 2013-10-02 For a general audience interested in solving mysteries in art, history, and literature using the methods of science, 'forensic astronomy' is a thrilling new field of exploration. Astronomical calculations are the basis of the studies, which have the advantage of bringing to readers both evocative images and a better understanding of the skies. Weather facts, volcano studies, topography, tides, historical letters and diaries, famous paintings, military records, and the friendly assistance of experts in related fields add variety, depth, and interest to the work. The chosen topics are selected for their wide public recognition and intrigue, involving artists such as Vincent van Gogh, Claude Monet, Edvard Munch, and Ansel Adams; historical events such as the Battle of Marathon, the death of Julius Caesar, the American Revolution, and World War II; and literary authors such as Chaucer, Shakespeare, Joyce, and Mary Shelley. This book sets out to answer these mysteries indicated with the means and expertise of astronomy, opening the door to a richer experience of human culture and its relationship with nature. Each subject is carefully analyzed. As an example using the study of sky paintings by Vincent van Gogh, the analytical method would include: - computer calculations of historical skies above France in the 19th century - finding and quoting the clues found in translations of original letters by Van Gogh - making site visits to France to determine the precise locations when Van Gogh set up his easel and what celestial objects are depicted. For each historical event influenced by astronomy, there would be a different kind of mystery to be solved. As an example: - How can the phase of the Moon and time of moonrise help to explain a turning point of the American Civil War - the fatal wounding of Stonewall Jackson at Chancellorsville in 1863? For each literary reference to astronomy, it was determined which celestial objects were being described and making an argument that the author is describing an actual event. For example, what was the date of the moonlit scene when Mary Shelley first had the idea for her novel "Frankenstein?" These and more fun riddles will enchant and delight the fan of art and astronomy.

elle daily capricorn horoscope: Plays Well with Others Eric Barker, 2022-05-10 AN INSTANT USA TODAY and PUBLISHERS WEEKLY BESTSELLER From the author of the Wall Street Journal bestseller *Barking Up the Wrong Tree* comes a cure-all for our increasing emotional distance and loneliness—a smart, surprising, and thoroughly entertaining guide to help build better friendships, reignite love, and get closer to others, whether you're an extrovert or introvert, socially adept or socially anxious. Can you judge a book by its cover? Is a friend in need truly a friend indeed? Does love conquer all? Is no man an island? In *Plays Well with Others*, Eric Barker dives into these age-old maxims drawing on science to reveal the truth beyond the conventional wisdom about human relationships. Combining his compelling storytelling and humor, Barker explains what hostage negotiation techniques and marital arguments have in common, how an expert con-man lied his way into a twenty-year professional soccer career, and why those holding views diametrically opposed to our own actually have the potential to become our closest, most trusted friends. Inside you will learn: The two things essential to making friends – and what Dale Carnegie got wrong. What creates love, reignites love, and sustains love. (There's no Build-A-Bear store for a happy marriage but this is close.) The ethical and effective way to get your partner to change. How social media can actually improve relationships. The antidote to loneliness and why what we usually hear doesn't work. And so much more. The book is packed with high-five-worthy stories about the greatest female detective to ever live, the most successful liar to ever open his mouth, genius horses, thieving hermits, the perils of perfect memories, and placebos. Leveraging the best evidence available—free of platitudes or magical thinking—Barker analyzes multiple sides of an issue before rendering his verdict. What he's uncovered is surprising, counterintuitive, and timely—and will change the way you interact in the world and with those around you just when you need it most.
