dutch bros coffee moreno valley: Man and His Symbols Carl G. Jung, 2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just

as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

dutch bros coffee moreno valley: The Norconian Resort Kevin Bash, Brigitte Jouxte, 2007 The Norconian Resort Supreme was a magnificent disaster. A chance discovery of hot sulfur water in 1926 led entrepreneur Rex Clark to construct one of the finest and most comprehensive recreation facilities on the West Coast. Movie stars, Olympic champions, and the richest of the rich flocked to it. Sadly the Norconian debuted just months before the onset of the Great Depression, and very quickly Rex Clark's \$4.5-million dream became known as Rex's Folly. The resort eventually became one of the preeminent naval hospitals in the nation, a top-secret think tank, and a medium-security prison. Miraculously most of the original structures still exist. The old hotel, despite its placement on the National Register of Historic Places, has become a political hot potato and now sits languishing in the middle of the California Rehabilitation Center--abandoned yet stunning, with fabulous chandeliers, tile work, and breathtaking paintings still intact.

dutch bros coffee moreno valley: The Races of Man: An Outline of Anthropology and Ethnography Joseph Deniker, 2020-09-28 THE innumerable groups of mankind, massed together or scattered, according to the varying nature of the earth's surface, are far from presenting a homogeneous picture. Every country has its own variety of physical type, language, manners, and customs. Thus, in order to exhibit a systematic view of all the peoples of the earth, it is necessary to observe a certain order in the study of these varieties, and to define carefully what is meant by such and such a descriptive term, having reference either to the physical type or to the social life of men. This we shall do in the subsequent chapters as we proceed to develop this slight sketch of the chief general facts of the physical and psychical life of man, and of the most striking social phenomena of the groups of mankind. But there are some general terms which are of more importance than others, and their meaning should be clearly understood from the first. I refer to expressions like "people," "nation," "tribe," "race," "species," in short, all the designations of the different groupings, real or theoretic, of human beings. Having defined them, we shall by so doing define the object of our studies. Since ethnography and anthropology began to exist as sciences, an attempt has been made to determine and establish the great groups amongst which humanity might be divided. A considerable diversity of opinion, however, exists among leading scientific men not only as to the number of these groups, of these "primordial divisions" of the human race, but, above all, as to the very nature of these groups. Their significance, most frequently, is very vaguely indicated. In

zoology, when we proceed to classify, we have to do with beings which, in spite of slight individual differences, are easily grouped around a certain number of types, with well-defined characters, called "species." An animal can always be found which will represent the "type" of its species. In all the great zoological collections there exist these "species-types," to which individuals may be compared in order to decide if they belong to the supposed species. We have then in zoology a real substratum for the determination of species, those primordial units which are grouped afterwards in genera, families, orders, etc.

dutch bros coffee moreno valley: *Bioterrorism and Biocrimes* W. Seth Carus, Center for Counterproliferation Research, 2002 The working paper is divided into two main parts. The first part is a descriptive analysis of the illicit use of biological agents by criminals and terrorists. It draws on a series of case studies documented in the second part. The case studies describe every instance identifiable in open source materials in which a perpetrator used, acquired, or threatened to use a biological agent. While the inventory of cases is clearly incomplete, it provides an empirical basis for addressing a number of important questions relating to both biocrimes and bioterrorism. This material should enable policymakers concerned with bioterrorism to make more informed decisions. In the course of this project, the author has researched over 270 alleged cases involving biological agents. This includes all incidents found in open sources that allegedly occurred during the 20th Century. While the list is certainly not complete, it provides the most comprehensive existing unclassified coverage of instances of illicit use of biological agents.

dutch bros coffee moreno valley: *Cultural Parks and National Heritage Areas* Pablo Alonso González, 2013-11-13 The number of cultural parks has been steadily increasing in recent years throughout the world. But what is a cultural park? This book provides a detailed answer to this question and sets out the basis for an academic debate that moves beyond the technical narratives that have prevailed to date. It is important to open up the topic to academic scrutiny given that cultural parks are becoming widespread devices being employed by different institutions and social groups to manage and enhance cultural and natural heritage assets and landscapes. The main problem in dealing with this topic is the predominant lack of theory-grounded, critical reflection in the literature about cultural parks. These remain largely conceived as technical instruments deployed by institutions in order to solve an array of problems they must deal with. As cultural parks are generally regarded as positive and constructive tools whose performance is associated with the preservation of heritage, the overcoming of the nature/culture divide, the reinforcing of identity and memory and the strengthening of social cohesion and economic development, this book critically explores these issues through the analysis of the literature on cultural parks. In addition, it provides a novel theoretical conceptualization of cultural parks that is connected with, and underpins, a tentative methodology developed for their empirical analysis.

dutch bros coffee moreno valley: *Cultures and Globalization* Helmut K Anheier, Yudhishtir Raj Isar, 2007-03-27 In the age of globalization we are no longer home alone. Migration brings other worlds into our own just as the global reach of the media transmits our world into the hearts and minds of others. Often incommensurate values are crammed together in the same public square. Increasingly we all today live in the kind of 'edge cultures' we used to see only on the frontiers of civilizations in places like Hong Kong or Istanbul. The resulting frictions and fusions are shaping the soul of the coming world order. I can think of no other project with the ambitious scope of defining this emergent reality than The Cultures and Globalization project. I can think of no more capable minds than Raj Isar and Helmut Anheier who can pull it off. - Nathan Gardels, Editor-in-Chief, NPQ, Global Services, Los Angeles Times Syndicate/Tribune Media This series represents an innovative approach to the central issues of globalization, that phenomenon of such undefined contours. - Lupwishi Mbuyumba, Director of the Observatory of Cultural Policies in Africa The world's cultures and their forms of creation, presentation, and preservation are deeply affected by globalization in ways that are inadequately documented and understood. The Cultures and Globalization Series is designed to fill this void in our knowledge. Analyzing the relationship between globalization and cultures is the aim of the Series. In each volume, leading experts as well

as young scholars will track cultural trends connected to globalization throughout the world, covering issues ranging from the role of cultural difference in politics and governance to the evolution of the cultural economy and the changing patterns of creativity and artistic expression. Each volume will also include an innovative presentation of newly developed 'indicator suites' on cultures and globalization that will be presented in a user-friendly form with a high graphics content to facilitate accessibility and understanding. Like so many phenomena linked to globalization, conflicts over and within the cultural realms crystallize great anxieties and illusions, through misplaced assumptions, inadequate concepts, unwarranted simplifications and instrumental readings. The aim here is to marshal evidence from different disciplines and perspectives about the culture, conflict and globalization relationships in conceptually sensitive ways.

dutch bros coffee moreno valley: *Post Memes* Daniel Bristow, Alfie Bown, 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of

conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. POST MEMES: SEIZING THE MEMES OF PRODUCTION takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. ABOUT THE EDITORS ALFIE BOWN is the author of several books including *The Playstation Dreamworld* (Polity, 2017) and *In the Event of Laughter: Psychoanalysis, Literature and Comedy* (Bloomsbury, 2018). dutch bros coffee moreno valley: Soil and Culture Edward R. Landa, Christian Feller, 2010-01-28 SOIL: beneath our feet / food and fiber / ashes to ashes, dust to dust / dirt! Soil has been called the final frontier of environmental research. The critical role of soil in biogeochemical processes is tied to its properties and place—porous, structured, and spatially variable, it serves as a conduit, buffer, and transformer of water, solutes and gases. Yet what is complex, life-giving, and sacred to some, is ordinary, even ugly, to others. This is the enigma that is soil. *Soil and Culture* explores the perception of soil in ancient, traditional, and modern societies. It looks at the visual arts (painting, textiles, sculpture, architecture, film, comics and stamps), prose & poetry, religion, philosophy, anthropology, archaeology, wine production, health & diet, and disease & warfare. *Soil and Culture* explores high culture and popular culture—from the paintings of Hieronymus Bosch to the films of Steve McQueen. It looks at ancient societies and contemporary artists. Contributors from a variety of disciplines delve into the mind of Carl Jung and the bellies of soil eaters, and explore Chinese paintings, African mud cloths, Mayan rituals, Japanese films, French comic strips, and Russian poetry.

dutch bros coffee moreno valley: Building Victory, 2013-10-17 World War II was the greatest

airborne clash of arms in history. America's aircraft manufacturers went from a near standing start in the late 1930s to producing tens of thousands of planes per year. By the end of the war, they built a phenomenal 300,000 planes, a feat that most (including the German high command) thought impossible. They manufactured more aircraft in one year than had been produced in all the pre-war years since the Wright brothers invented the airplane. The Los Angeles area was the center of this remarkable effort, being the headquarters for Douglas Aircraft, Hughes, Lockheed, North American Aviation, Northrop and Vultee, as well as countless subcontractors. Thousands of aircraft workers enlisted or were drafted, leaving manufacturers with huge orders and few experienced employees. They responded by hiring women, students, disabled people and others who might not otherwise have been considered for production positions. Housewives and others with little mechanical experience rolled up their sleeves, learned fast, and brought forth an industrial achievement that ranks among America's greatest accomplishments. Aircraft manufacturers, museums and libraries have generously opened their special collections of photographs to the author for use in this volume. Many have never been published before.

dutch bros coffee moreno valley: Cabanocey Lillian C. Bourgeois, 1999-04-30 Louisiana has sixty-four parishes, and many of them are as individual and different as the state itself is different from others in the Union. St. James Parish, a small parish of 249 square miles, is not only one of the oldest settlements in the state, but it is different in its population make-up and is important historically. Cabanocey . . . is a splendid history of the Parish of St. James. . . . Lillian C. Bourgeois captured the spirit that animates the population, which is descended from French, Spanish, Acadian, German, and Creole peoples. Bourgeois writes of the population's customs, beliefs, language differences, and folklore. Cabanocey is not a collection of dry facts and dates; rather, it vividly describes how, more than one hundred years ago, the people of St. James Parish lived, who they were, and what they contributed to their parish and their state. Before the Civil War, St. James Parish was the educational center of Louisiana, and Jefferson College was the first important college in the state. Founded in 1830, it had fine buildings, a well-equipped laboratory, and an impressive library. The Convent of the Sacred Heart (1835) for girls was well-known by prominent families in Louisiana, Mexico, and Central America, who sent their daughters there. Cabanocey contains St. James genealogies and thousands of names of early settlers, including the soldiers, taxpayers, officials, prominent families, and the first settlers and their children. From the early censuses and church and court records, descent is traced for many names. The censuses of 1766, 1769, and 1777 are complete and were obtained from the archives in Seville, Spain.

Fierstein's legendary career has transported him from community theater in Brooklyn, to the lights of Broadway, to the absurd excesses of Hollywood and back. He's received accolades and awards for acting in and/or writing an incredible string of hit plays, films, and TV shows: *Hairspray*, *Fiddler on the Roof*, *Mrs. Doubtfire*, *Independence Day*, *Cheers*, *La Cage Aux Folles*, *Torch Song Trilogy*, *Newsies*, and *Kinky Boots*. While he has never shied away from the spotlight, Mr. Fierstein says that even those closest to him have never heard most of the tales—of personal struggles and conflict, of sex and romance, of his fabled career—revealed in these wildly entertaining pages. *I Was Better Last Night* bares the inner life of this eccentric nonconforming child from his roots in 1952 Brooklyn, to the experimental worlds of Andy Warhol and the Theatre of the Ridiculous, to the gay rights movements of the seventies and the tumultuous AIDS crisis of the eighties, through decades of addiction, despair, and ultimate triumph. Mr. Fierstein's candid recollections provide a rich window into downtown New York City life, gay culture, and the evolution of theater (of which he has been a defining figure), as well as a moving account of his family's journey of acceptance. *I Was Better Last Night* is filled with wisdom gained, mistakes made, and stories that come together to describe an astonishingly colorful and meaningful life. Lucky for us all, his unique and recognizable voice is as engaging, outrageously funny, and vulnerable on the page.

dutch bros coffee moreno valley: Algorithms Jeff Erickson, 2019-06-13 Algorithms are the lifeblood of computer science. They are the machines that proofs build and the music that programs play. Their history is as old as mathematics itself. This textbook is a wide-ranging, idiosyncratic treatise on the design and analysis of algorithms, covering several fundamental techniques, with an emphasis on intuition and the problem-solving process. The book includes important classical examples, hundreds of battle-tested exercises, far too many historical digressions, and exactly four typos. Jeff Erickson is a computer science professor at the University of Illinois, Urbana-Champaign; this book is based on algorithms classes he has taught there since 1998.

dutch bros coffee moreno valley: Early Beverly Hills Marc Wanamaker, 2005 Way before Rodeo Drive and the pink palace of the Beverly Hills Hotel were built, way before the namesake hillbillies, its zip code, and Eddie Murphy's detective techniques reaffirmed its place in popular culture, and way before its 1,001 mansions, Beverly Hills was comprised of wild canyons and ranchlands. Burton Green, one of the three original land developers of the Rancho Rodeo de las Aguas, named this place of severe terrain after Beverly Farms, Massachusetts, a 19th-century spa. Since its establishment in 1907, Beverly Hills, California, has been a crossroads for the great movers and shakers of the entertainment industry as well as the tycoons, world leaders, and flotsam and jetsam magnetized by the limelight. The vintage photographs in this provocative volume illustrate Beverly Hills's early transition from cow pastures to Hollywood's extremely illustrious bedroom community.

dutch bros coffee moreno valley: Twelve Angry Men Reginald Rose, 2006-08-29 A landmark American drama that inspired a classic film and a Broadway revival—featuring an introduction by David Mamet A blistering character study and an examination of the American melting pot and the judicial system that keeps it in check, *Twelve Angry Men* holds at its core a deeply patriotic faith in the U.S. legal system. The play centers on Juror Eight, who is at first the sole holdout in an 11-1 guilty vote. Eight sets his sights not on proving the other jurors wrong but rather on getting them to look at the situation in a clear-eyed way not affected by their personal prejudices or biases. Reginald Rose deliberately and carefully peels away the layers of artifice from the men and allows a fuller picture to form of them—and of America, at its best and worst. After the critically acclaimed teleplay aired in 1954, this landmark American drama went on to become a cinematic masterpiece in 1957 starring Henry Fonda, for which Rose wrote the adaptation. More recently, *Twelve Angry Men* had a successful, and award-winning, run on Broadway. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
