**heidi grundetjern: The Gang's All Queer** Vanessa R. Panfil, 2017-08-15 Many people believe that gangs are made up of violent thugs who are in and out of jail, and who are hyper-masculine and heterosexual. Vanessa Panfil introduces us to a different world. Meet gay gang members - sometimes referred to in popular culture as homo thugs - whose gay identity complicates criminology's portrayal and representation of gangs, gang members, and gang life. In vivid detail, Panfil provides an in-depth understanding of how gay gang members construct and negotiate both masculine and gay identities through crime and gang membership. She draws from interviews with over 50 gay gang- and crime-involved young men in Columbus, Ohio, the majority of whom are men of color in their late teens and early twenties, as well as on-the-ground ethnographic fieldwork with men who are in gay, hybrid, and straight gangs. Panfil provides an eye-opening portrait of how even members of straight gangs are connected to a same-sex oriented underground world. Most of these young men still present a traditionally masculine persona and voice deeply-held affection for their fellow gang members. They also fight with their enemies, many of whom are in rival gay gangs. Most come from impoverished, 'rough' neighborhoods, and seek to defy negative stereotypes of gay and Black men as deadbeats, though sometimes through illegal activity. Some are still closeted to their fellow gang members and families, yet others fight to defend members of the gay community, even those who they deem to be fags, despite distaste for these flamboyant members of the community.

**heidi grundetjern: In This Place Called Prison** Rachel Ellis, 2023 In This Place Called Prison offers a vivid and unique examination of religion within prison and argues for its key role among some of society's most vulnerable. Although prison is defined by control--from rules and routines to mandatory labor and monitored visits--for many, religion offers a way out. Religion challenges what it means to be punished and affords community and connection in the face of fear and isolation. Rachel Ellis spent twelve months conducting ethnographic research inside the guarded gates of Mapleside Prison, a US state women's correctional facility, talking with hundreds of incarcerated women, staff, and religious volunteers. Through their stories, Ellis sets the scene of mass incarceration today, detailing how contemporary prisons both reflect and worsen the systemic racial, social, and gender inequalities characteristic of the American landscape of profound stratification. She also offers insight into how religion relates to the carceral system, tracing the role of religious institutions throughout the history of prison punishment. Offering a trenchant account of how religion collides and colludes with the state in an enduring tension between freedom and control, In This Place Called Prison speaks to the human quest for dignity and light in even the darkest of places--

**heidi grundetjern: Understanding Drug Dealing and Illicit Drug Markets** Tammy C. Ayres, Craig Ancrum, 2023-07-31 This book examines the drug dealer in contemporary society from an interdisciplinary perspective and considers the increasingly blurred demarcation between illegitimate and legitimate drug markets. It explores the motives and drivers of those involved in drug supply and dispels common and stereotypical myths and misconceptions surrounding illegal drug markets and those who operate within them. The drug dealer has become one of our foremost contemporary 'folk devils'. Those who trade in substances prohibited by law are the subject of array of inaccurate myths and urban legends. Criminology has tended either to shoehorn drug dealers into neat typologies or portray them as 'victims' of an uncaring, predatory post-modern society. In reality, we know relatively little about the complex and diverse world of drug markets and our concentration inevitably falls on low-end 'retail' dealers who operate in the most visible sectors of the illegal economy. Bringing together an international group of experts, this book considers perspectives from around the world, including UK, USA, South America, Spain, India and Australia. This book will be of interest to students and researchers across criminology, law, sociology, criminal

justice and public health, and will be essential reading for those taking courses on drugs, drug markets and substance misuse.

**heidi grundetjern: Illicit Markets, Organized Crime, and Global Security** Hanna Samir Kassab, Jonathan D. Rosen, 2018-06-26 This book explains the existence of illicit markets throughout human history and provides recommendations to governments. Organized criminal networks increased in strength after the enforcement of prohibition, eventually challenging the authority of the state and its institutions through corruption and violence. Criminal networks now organize under cyber-infrastructure, what we call the Deep or Dark Web. The authors analyze how illicit markets come together, issues of destabilization and international security, the effect of legitimate enterprises crowded out of developing countries, and ultimately, illicit markets' cost to human life.

**heidi grundetjern: The Oxford Handbook of Ethnographies of Crime and Criminal Justice** Sandra M. Bucerius, Kevin D. Haggerty, Luca Berardi, 2022 Despite ethnography's long and distinguished history in the social sciences, its use in criminology is still relatively rare. Over the years, however, ethnographers in the United States and abroad have amassed an impressive body of work on core criminological topics and groups, including gang members, sex workers, drug dealers, and drug users. Ethnographies on criminal justice institutions have also flourished, with studies on police, courts, and prisons providing deep insights into how these organizations operate and shape the lives of people who encounter them. The Oxford Handbook of Ethnographies of Crime and Criminal Justice provides critical and current reviews of key research topics, issues, and debates that crime ethnographers have been grappling with for over a century. This volume brings together an outstanding group of ethnographers to discuss various research traditions, the ethical and pragmatic challenges associated with conducting crime-related fieldwork, relevant policy recommendations for practitioners in the field, and areas of future research for crime ethnographers. In addition to exhaustive overview essays, the handbook also presents case studies that serve as exemplars for how ethnographic inquiry can contribute to our understanding of crime and criminal justice-related topics.

**heidi grundetjern: Jacked Up and Unjust** Katherine Irwin, Karen Umemoto, 2016-08-23 In the context of two hundred years of American colonial control in the Pacific, Katherine Irwin and Karen Umemoto shed light on the experiences of today's inner city and rural girls and boys in Hawai'i who face racism, sexism, poverty, and political neglect. Basing their book on nine years of ethnographic research, the authors highlight how legacies of injustice endure, prompting teens to fight for dignity and the chance to thrive in America, a nation that the youth describe as inherently "jacked up"—rigged—and "unjust." While the story begins with the youth battling multiple contingencies, it ends on a hopeful note with many of the teens overcoming numerous hardships, often with the guidance of steadfast, caring adults.

**heidi grundetjern: Crime and Justice, Volume 51** Michael Tonry, Sandra Bucerius, 2023-01-04 Volume 51 is a thematic volume on Prisons and Prisoners. Since 1979, the Crime and Justice series has presented a review of the latest international research, providing expertise to enhance the work of sociologists, psychologists, criminal lawyers, justice scholars, and political scientists. The series explores a full range of issues concerning crime, its causes, and its cures. In both the review and the occasional thematic volumes, Crime and Justice offers an interdisciplinary

approach to address core issues in criminology. Volume 51 of *Crime and Justice* is the first to reprise a predecessor, *Prisons* (Volume 26, 1999), edited by series editor Michael Tonry and the late Joan Petersilia. In *Prisons and Prisoners*, editors Michael Tonry and Sandra Bucerius revisit the subject for several reasons. In 1999, most scholarly research concerned developments in Britain and the United States and was published in English. Much of that was sociological, focused on inmate subcultures, or psychological, focused on how prisoners coped with and adapted to prison life. Some, principally by economists and statisticians, sought to measure the crime-preventive effects of imprisonment generally and the deterrent effects of punishments of greater and lesser severity. In 2022, serious scholarly research on prisoners, prisons, and the effects of imprisonment has been published and is underway in many countries. That greater cosmopolitanism is reflected in the pages of this volume. Several essays concern developments in places other than Britain and the United States. Several are primarily comparative and cover developments in many countries. Those primarily concerned with American research draw on work done elsewhere. The subjects of prison research have also changed. Work on inmate subcultures and coping and adaptation has largely fallen by the wayside. Little is being done on imprisonment's crime-preventive effects, largely because they are at best modest and often perverse. An essay in Volume 50 of *Crime and Justice*, examining the 116 studies then published on the effects of imprisonment on subsequent offending, concluded that serving a prison term makes ex-prisoners on average more, not less, likely to reoffend. In 1999, little research had been done on the effects of imprisonment on prisoners' families, children, or communities, or even—except for recidivism—on ex-prisoners' later lives: family life, employment, housing, physical and mental health, or achievement of a conventional, law-abiding life. The first comprehensive survey of what was then known was published in the earlier *Crime and Justice: Prisons* volume. An enormous literature has since emerged, as essays in this volume demonstrate. Comparatively little work had been done by 1999 on the distinctive prison experiences of women and members of non-White minority groups. That too has changed, as several of the essays make clear. What is not clear is the future of imprisonment. Through more contemporary and global lenses, the essays featured in this volume not only reframe where we are in 2022 but offer informed insights into where we might be heading.

**heidi grundetjern: I Know What I'm Doing** Magda Frišaufová, 2016-01-01 Ženy jako uživatelky drog jsou v hledáčku sociologů již několik desetiletí. Výzkumníci publikovali mnohé o specifičnosti jejich situace, zvláště v souvislosti s genderovou nerovností. Psali o výraznější stigmatizaci žen nebo o obtížnějším přístupu k léčbě a sociálním službám. Naopak málo pozornosti věnovali strategiím, pomocí nichž se uživatelky drog snaží své situaci vzdorovat, nebo těžkostem, se kterými se potýkají v každodenním životě. A právě tento neobvyklý pohled nabízí autorka knihy *Vím, co dělám*. Prostřednictvím narativní analýzy opakovaných hloubkových rozhovorů a fokusních skupin se sedmi ženami, které mají zkušenost s dlouhodobým užíváním metamfetaminu/pervitinu, zkoumá nejen problémy, jimž ženy čelí, ale také sílu k jednání, kterou používají, aby mohly opět převzít kontrolu nad svým životem a prosadit své potřeby a zájmy v okolním světě.

**heidi grundetjern: Feminist Responses to Injustices of the State and Its Institutions** Kym Atkinson, Úna Barr, Helen Monk, Katie Tucker, 2024-05-14 From the denial of abortion rights in Northern Ireland to sexual violence in South Asian communities, this book offers a counter narrative to the criminal justice system's failures towards women, mapping a feminist criminology for the 21st century.

**heidi grundetjern: Drugs, Identity and Stigma** Michelle Addison, William McGovern, Ruth McGovern, 2022-07-13 This book calls attention to the impact of stigma experienced by people who use illicit drugs. Stigma is powerful: it can do untold harm to a person and place with longstanding effects. Through an exploration of themes of inequality, power, and feeling 'out of place' in neoliberal times, this collection focuses on how stigma is negotiated, resisted and absorbed by people who use drugs. How does stigma get under the skin? Drawing on a range of theoretical frameworks and empirical data, this book draws attention to the damaging effects stigma can have on identity, recovery, mental health, desistance from crime, and social inclusion. By connecting drug

use, stigma and identity, the authors in this collection share insights into the everyday experiences of people who use drugs and add to debate focused on an agenda for social justice in drug use policy and practice.

**heidi grundetjern: *Women's Drug Use in Everyday Life*** Emma Eleonorasdotter, 2023-12-21 This open access book explores the increasing role of psychoactive substances in contemporary everyday life, focussing on women's use. Drawing on an ethnographic study in Sweden, it uses cultural studies and queer phenomenology to analyse the women's narratives of drug use relating to themes that encompass social, legal, cultural, embodied and gendered perspectives on drugs in the contemporary Western world. It examines topics such as stigma, happiness, children, the body, gifts, the drug market, medication, sickness and health and also the orientation of themselves towards others, to social and cultural norms, to drug laws and to the substances. **heidi grundetjern: *Wheeling and Dealing*** Patricia A. Adler, 1993 *Wheeling and Dealing* is a vivid account of the world inhabited by wholesale illicit drug traffickers. Based on six years of participant observation, fieldwork, and extensive interviews in an elite Southern California community of dealers, the book gives a rare glimpse into the decadent yet fascinating subculture of drug trafficking and unending partying, mixed with occasional cloak-and-dagger subterfuge. This second edition brings the story up to date by revealing the fate of several of Adler's key informants. By tracing their lives over a fifteen-year span, Adler offers a unique longitudinal perspective on deviant careers and the reintegration of dealers into conventional society. She also analyzes the

unintended consequences of the federal government's war on drugs, tying it to the increasing violence and organizational sophistication of drug traffickers and the rise of international cartels.

**heidi grundetjern: The Social Meaning of Children and Fertility Change in Europe** Anne Lise Ellingsaeter, An-Magritt Jensen, Merete Lie, 2013-03-05 Low fertility in Europe has given rise to the notion of a 'fertility crisis'. This book shifts the attention from fertility decline to why people do have children, asking what children mean to them. It investigates what role children play in how young adults plan their lives, and why and how young adults make the choices they do. The book aims to expand our comprehension of the complex structures and cultures that influence reproductive choice, and explores three key aspects of fertility choices: the processes towards having (or not having) children, and how they are underpinned by negotiations and ambivalences how family policies, labour markets and personal relations interact in young adults' fertility choices social differentiation in fertility choice: how fertility rationales and reasoning may differ among women and men, and across social classes Based on empirical studies from six nations - France, Scandinavia, Denmark, Norway, Sweden, Germany and Italy (representing the high and low end of European variation in fertility rates) - the book shows how different economic, political and cultural contexts interact in young adults' fertility rationales. It will be of interest to students and scholars of sociology, anthropology, demography and gender studies.

**heidi grundetjern: Women on Ice** Miriam Boeri, 2013-01-15 Methamphetamine (ice, speed, crystal, shard) has been called epidemic in the United States. Yet few communities were ready for increased use of methamphetamine by suburban women. *Women on Ice* is the first book to study exclusively the lives of women who use the drug and its effects on their families. In-depth interviews with women in the suburban counties of one of the largest metropolitan areas in the U.S. chronicle the details of their initiation into methamphetamine, the turning points into problematic drug use, and for a few, their escape from lives veering out of control. Their life course and drug careers are analyzed in relation to the intersecting influences of social roles, relationships, social/political structures, and political trends. Examining the effects of punitive drug policy, inadequate social services, and looming public health risks, including HIV/AIDS and hepatitis C, the book gives voice to women silenced by shame. Boeri introduces new and developing concepts in the field of addiction studies and proposes policy changes to more broadly implement initiatives that address the problems these women face. She asserts that if we are concerned that the war on drugs is a war on drug users, this book will alert us that it is also a war on suburban families.

**heidi grundetjern: Between Good and Ghetto** Nikki Jones, 2009-10-20 With an outward gaze focused on a better future, *Between Good and Ghetto* reflects the social world of inner city African American girls and how they manage threats of personal violence. Drawing on personal encounters, traditions of urban ethnography, Black feminist thought, gender studies, and feminist criminology, Nikki Jones gives readers a richly descriptive and compassionate account of how African American girls negotiate schools and neighborhoods governed by the so-called code of the street—the form of street justice that governs violence in distressed urban areas. She reveals the multiple strategies they use to navigate interpersonal and gender-specific violence and how they reconcile the gendered dilemmas of their adolescence. Illuminating struggles for survival within this group, *Between Good and Ghetto* encourages others to move African American girls toward the center of discussions of the crisis in poor, urban neighborhoods.

**heidi grundetjern: Fathering** Annie Devault, Gilles Forget, Diane Dubeau, 2015-01-01 Includes some material previously published in French under title: La paternit  au XXI e s ecle. Qu bec: Presses de l'Universit  Laval, 2009.

**heidi grundetjern: Workin' Hard for the Money** Ira Brant Sommers, Deborah R. Baskin, Jeffrey Fagan, 2000 This book examines women's participation in the cocaine/crack economy of New York City. All the women are or were long-term drug dealers, not those who casually dealt drugs. In order to be included in the authors' study, a person had to have sold drugs for at least two years. Many of the respondents were involved in drug distribution for considerably longer periods. Thus, the voices heard here are of those who had substantial drug selling careers. The authors' seek to describe the lives of women drug dealers -- not so much from their point of view, as from the women's own. In the research undertaken, they sought to listen to the women and understand the cultural perspectives through which they created their lives. Thus, the women are represented as responsive subjects and present their world as close as possible to how they saw it. Throughout the book, the women describe their experiences through their own vernacular.

**heidi grundetjern: Queering Criminology** Matthew Ball, Thomas Crofts, Angela Dwyer, 2016-01-26 Queer criminological work is at the forefront of critical academic criminology, responding to the exclusion of queer communities from criminology, and the injustices that they experience through the criminal justice system. This volume draws together both theoretical and empirical contributions that develop the growing scholarship being produced at the intersection of 'queer' and 'criminology'. Reflecting the diversity of research that is undertaken at this intersection, the contributions to this volume offer a deeper theoretical and conceptual development of this field alongside empirical research that illustrates the continued relevance and urgency of such scholarship. The contributions consider what it means to be queering criminology in the current political, social, and criminological climate, and chart directions along which this field might develop in order to ensure that greater social and criminal justice for LGBTIQ communities is achieved.

**heidi grundetjern: Global Perspectives on ADHD** Meredith R. Bergey, Angela M. Filipe, Peter Conrad, Ilina Singh, 2018-01-01 Examining ADHD and its social and medical treatments around the world. Attention deficit/hyperactivity disorder (ADHD) has been a common psychiatric diagnosis in both children and adults since the 1980s and 1990s in the United States. But the diagnosis was much less common—even unknown—in other parts of the world. By the end of the twentieth century, this was no longer the case, and ADHD diagnosis and treatment became an increasingly widespread global phenomenon. As the diagnosis was adopted around the world, the definition and treatment of ADHD often changed in the context of different psychiatric professions, medical systems, and cultures. *Global Perspectives on ADHD* is the first book to examine how this expanding public health concern is diagnosed and treated in 16 different countries. In some countries, readers learn, over 10% of school-aged children and adolescents are diagnosed with ADHD; in others, that figure is less than 1%. Some countries focus on medicating children with ADHD; others emphasize parent intervention or child therapy. Showing how a medical diagnosis varies across contexts and time periods, this book explains how those distinctions shape medical interventions and guidelines, filling a much-needed gap by examining ADHD on an international scale. **heidi grundetjern: Confessions of a Dying Thief** Darrell J. Steffensmeier, 2017-07-12

\*Recipient of the American Society of Criminology's 2006 Michael J. Hindelang Award for a book, published within the past three calendar years, that is the most outstanding contribution to research in criminology. \*Nominated for the 2007 Outstanding Book Award of the Academy of Criminal Justice Sciences. Sam Goodman, was a long-time thief, fence, and quasi-legitimate businessman. He had a criminal career that spanned fifty years, beginning in his mid-teens and ending with his death when he was in his mid-sixties. *Confessions of a Dying Thief* is an in-depth ethnographic study of Sam and his world based on continuous contact with him for many years, on multiple interviews with his network of associates in crime and business, and on a series of interviews with him shortly before he died. The book updates and greatly expands the case study of Sam Goodman's fencing activity found in Steffensmeier's award-winning 1986 book *The Fence: In the Shadow of Two Worlds*. It combines Sam's colorful narrative accounts with substantive commentary by the authors to provide a more nuanced portrayal of criminal careers, illegal enterprise, and the broad landscape comprising the entity called crime. To more fully understand pathways into and out of crime as well as the social organization of illegal enterprise, the authors propose an integrative learning-opportunity-commitment framework that combines differential association/social learning theory and an extended conceptualization of criminal opportunity with a three-fold theory of commitment to crime. This framework offers an integrated and more complete way of understanding mechanisms that underlie criminal offending and criminal careers. It also recognizes the complexity and scope of the criminal landscape and its embeddedness in the fabric of the larger society, including its criminal justice system. Sam's illness and death are a sobering backdrop th

**heidi grundetjern: Family Values** Harry Brighthouse, Adam Swift, 2016-08-02 The family is hotly contested ideological terrain. Some defend the traditional two-parent heterosexual family while others welcome its demise. Opinions vary about how much control parents should have over their children's upbringing. *Family Values* provides a major new theoretical account of the morality and politics of the family, telling us why the family is valuable, who has the right to parent, and what rights parents should—and should not—have over their children. Harry Brighthouse and Adam Swift argue that parent-child relationships produce the familial relationship goods that people need to flourish. Children's healthy development depends on intimate relationships with authoritative adults, while the distinctive joys and challenges of parenting are part of a fulfilling life for adults. Yet the relationships that make these goods possible have little to do with biology, and do not require the extensive rights that parents currently enjoy. Challenging some of our most commonly held beliefs about the family, Brighthouse and Swift explain why a child's interest in autonomy severely limits parents' right to shape their children's values, and why parents have no fundamental right to confer wealth or advantage on their children. *Family Values* reaffirms the vital importance of the family as a social institution while challenging its role in the reproduction of social inequality and carefully balancing the interests of parents and children.

**heidi grundetjern: The Changing American Family and Public Policy** Andrew J. Cherlin, 1988 This book brings social science perspective to bear on family change and family policy; identifies the determinants of change and analyzes the role that government has played and can play in affecting the course of family life.

**heidi grundetjern: Breaking Women** Jill A. McCorkel, 2013-08-05 Since the 1980s, when the War on Drugs kicked into high gear and prison populations soared, the increase in women's rate of incarceration has steadily outpaced that of men. This book draws upon four years of on-the-ground research in a major US women's prison to uncover why tougher drug policies have so greatly affected those incarcerated there, and how the very nature of punishment in women's detention centers has been deeply altered as a result. -- Publisher's description.

**heidi grundetjern: Narrative Criminology** Lois Presser, Sveinung Sandberg, 2018-11-27

Explores the role of stories in criminal culture and justice systems around the world. Stories are much more than a means of communication—stories help us shape our identities, make sense of the world, and mobilize others to action. In *Narrative Criminology*, prominent scholars from across the academy and around the world examine stories that animate offending. From an examination of how criminals understand certain types of crime to be less moral than others, to how violent offenders and drug users each come to understand or resist their identity as 'criminals', to how cultural narratives motivate genocidal action, the case studies in this book cover a wide array of crimes and justice systems throughout the world. The contributors uncover the narratives at the center of their essays through qualitative interviews, ethnographic fieldwork, and written archives, and they scrutinize narrative structure and meaning by analyzing genres, plots, metaphors, and other components of storytelling. In doing so, they reveal the cognitive, ideological, and institutional mechanisms by which narratives promote harmful action. Finally, they consider how offenders' narratives are linked to and emerge from those of conventional society or specific subcultures. Each chapter reveals important insights and elements for the development of a framework of narrative criminology as an important approach for understanding crime and criminal justice. An unprecedented and landmark collection, *Narrative Criminology* opens the door for an exciting new field of study on the role of stories in motivating and legitimizing harm.

**heidi grundetjern: Confronting the Shadow State** Henri Decœur, 2018 In this first comprehensive analysis of state organized crime from the perspective of international law, Decœur discusses how international law can and should be used to tackle state organized crime and argues for the development of international legal mechanisms specifically designed to address this issue.

**heidi grundetjern: Kenyan Khat** Neil C. M. Carrier, 2007 This detailed ethnography follows trajectories the controversial stimulant khat takes from Kenya's Nyambene Hills to consumers spread throughout the world, and highlights the great economic, social and cultural significance of this transnational commodity for those animating its 'social life'

**heidi grundetjern: Women and the Mafia** Giovanni Fiandaca, 2007-09-04 The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less traditional than researchers used to think. The book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

**heidi grundetjern: Sexed Work** Lisa Maher, 2000 This is the first detailed account of the economic lives of women drug users. It is located at the boundaries of three disciplines - criminology, anthropology, and sociology - and based on three years of in-depth ethnographic fieldwork in New York City. Set in a neighbourhood plagued by drug use and AIDs, the book reveals the economic lives of a group of women whose options have been severely circumscribed, not only by drug use, but also by poverty, racism, violence, and enduring marginality. It is a fascinating account, with Maher drawing extensively on the women's own words, describing how structures and relations of gender, race and class, are articulated by divisions of labour in the street-level drug economy. The book challenges the impoverished set of characterizations which dominate the literature, critiquing both feminist and non-feminist representations that view women lawbreakers as driven by forces beyond their control. It graphically illustrates the role of the drug economy as a site of cultural reproduction by drawing attention to the specific practices by which gender and race dimensions of inequality are constituted and contested in street-level drug markets. This is a rich, nuanced, and theoretically sophisticated study of 'crime as work' which will be compelling reading for all those interested in the ways in which women deal with the intersection of gender, race, and work.

**heidi grundetjern: Offenders on Offending** Wim Bernasco, 2013-01-11 Our knowledge of crime is based on three types of sources: the criminal justice system, victims, and offenders. For technological and other reasons the criminal justice system produces an increasing stream of

information on crime. The rise of the victimization survey has given the victims a much larger role in our study of crime. There is, however, no concomitant development regarding offenders. This is unfortunate because offenders are the experts when it comes to offending. In order to understand criminal behavior, we need their perspective. This is not always a straightforward process, however, and information from offenders is often unreliable. This book is about what we can do to maximise the validity of what offenders tell us about their offending. Renowned experts from various countries present their experiences and insights, with a clear focus on methodological issues of fieldwork among various types of offender populations. Each contribution deals with a few central issues: How can offenders be motivated to participate in research? How can offenders be motivated to tell the truth on their offending? How can the information that offenders provide be checked and validated? What can we learn from offenders that cannot be accessed from other sources? With the aim of obtaining valid and reliable information, how, where and under which conditions should we observe offenders and talk to them?

**heidi grundetjern: Populism in the Civil Sphere** Jeffrey C. Alexander, Peter Kivisto, Giuseppe Sciortino, 2020-12-03 Even as the specter of populism haunts contemporary societies, scholars have not been able to agree about what it is. Except for one thing: a deviation from democracy, the source, it seems, of the precarious position in which so many societies find themselves today. This volume aims to break the Gordian knot of "populism" by bringing a new social theory to bear and, in so doing so, suggesting that normative judgments about this misunderstood phenomenon need to be reconsidered as well. Populism is not a democratic deviation but a naturally occurring dimension of civil sphere dynamics, fatal to democracy only at the extremes. Because populism is highly polarizing, it has the effect of inducing anxiety that civil solidarity is breaking apart. Left populists feel as if civil solidarity is an illusion, that democratic discourse is a fig leaf for private interests, and that the social and cultural differentiation that vouchsafes the independence of the civil sphere merely reflects the hegemony of narrow professional interests or those of a ruling class. Right populists share the same distrust, even repulsion, for the civil sphere. What seems civil to the center and left, like affirmative action or open immigration, they call out as particularistic; honored civil icons, such as Holocaust memorials, they trash. How can the sense of a vital civil center survive such censure from populism on the left and the right? *Populism in the Civil Sphere* provides compelling answers to these fundamental questions. Its contributions are both sophisticated theoretical interventions and deeply researched empirical studies, and it will be of great interest to anyone concerned about the most important political developments of our time.
