**gusto peo: Startup CXO** Matt Blumberg, 2021-06-09 One of the greatest challenges for startup teams is scaling because usually there's not a blueprint to follow, people are learning their function

as they go, and everyone is wearing multiple hats. There can be lots of trial and error, lots of missteps, and lots of valuable time and money squandered as companies scale. Matt Blumberg and his team understand the scaling challenges—they've been there, and it took them nearly 20 years to scale and achieve a successful exit. Along the way they learned what worked and what didn't work, and they share their lessons learned in *Startup CXO*. Unlike other business books, *Startup CXO* is designed to help each functional leader understand how their function scales, what to anticipate as they scale, and what things to avoid. Beyond providing function-specific advice, tools, and tactics, *Startup CXO* is a resource for each team member to learn about the other functions, understand other functional challenges, and get greater clarity on how to collaborate effectively with the other functional leads. CEOs, Board members, and investors have a book they can consult to pinpoint areas of weakness and learn how to turn those into strengths. *Startup CXO* has in-depth chapters covering the nine most common functions in startups: finance, people, marketing, sales, customers, business development, product, operations, and privacy. Each functional section has a CEO to CEO Advice summary from Blumberg on what great looks like for that CXO, signs your CXO isn't scaling, and how to engage with your CXO. *Startup CXO* also has a section on the future of executive work, fractional and interim roles. Written by leading practitioners in the newly emergent fractional executive world, each function is covered with useful tips on how to be a successful fractional executive as well as what to look for and how to manage fractional executives. *Startup CXO* is an amazing resource for CEOs but also for functional leaders and professionals at any stage of their career. —Scott Dorsey, Managing Partner, High Alpha

**gusto peo: Views from Inside** Joy Egbert, Gisela Ernst-Slavit, 2017-12-01 The goal of this text is to help teachers in diverse classrooms understand the importance of students' culture, languages, and schooling experiences to curriculum, assessment, and student achievement. Readers will learn about aspects of specific cultures and languages that are important to their understanding of their students, and they will discover that cultures that are often considered similar may not be so (and why they aren't). Finally, the text focuses on how teachers can integrate languages and cultures into classrooms and how to account for students' backgrounds and funds of knowledge when devising tasks. The text starts with an introduction to language and culture that presents a research-based explanation of why these concepts are important for teachers to understand (Chapter 1). Then, the middle 28 chapters each address one country/culture. Each chapter starts with a school scenario in the US. Part 2 of each chapter includes evidence-based demographic and background data on the country, including historical events that may have an impact on our students and their families. Part 3 includes a look at education, schooling, and culture, including famous people, contributions to the world, personal characteristics, important religious information, focal customs, and other aspects that are important to cultural insiders. Part 4 is about language and literacy traditions and how they relate to the culture, a number of words that teachers can learn (e.g., yes, no, thank you, please, hello), how the language is different from and similar to English, and what those differences and similarities might mean for English language learners from that culture. Part 5 comprises advice, resources, and ideas for teachers (for example, if it is an oral culture, the teacher might consider working with students on oral storytelling before transitioning to written stories, or incorporate both using technology). Each chapter also contains recommended readings and resources and short exercises that extend the chapter information. The final chapter presents parting notes for teachers and additional suggestions for addressing diversity.

**gusto peo: Our Voices** James Ruppert, John W. Bernet, 2001-01-01 Storytelling is an important, vibrant tradition among the Native peoples of the Far North, especially in the Athabaskan communities of interior Alaska and the Yukon Territory. Here for the first time is an anthology of the best stories that Athabaskan speakers tell about themselves, their communities, and the cold, beautiful world of the Far North. Showcased are twenty accomplished Native storytellers, recognized as masters by their people, who come from the Deg Hit'an, Koyukon, Gwich'in, Northern and Southern Tutchone, Kaska, Tagish, Upper and Lower Tanana, Tanacross, Upper Kuskokwim, Dena'ina, Ahtna, and Eyak communities. Men and women, young and old, recount popular tales of legendary times, such as how Raven Shaped the World. They also share meaningful, sometimes intimate, stories about their own lives, their families, or the history of their people. These evocative, wonderfully crafted stories are a literary treasure trove; entertaining, enchanting, and offering an unforgettable glimpse of the Native peoples who live under the bright lights of the Far North.

**gusto peo: Clio's Southern Sisters** Constance B. Schulz, Elizabeth Hayes Turner, 2004 It is no accident that the Southern Association for Women Historians enjoys the founding date of 1970. After extended and often bitter engagement with entrenched sexism in the decades following World War II, women historians found their voices and crafted a means by which to be heard. The years between 1970 and 1980 represented a decade of optimism for women who sought equality in the workplace. Professional women, professors of history most especially, found hope in organizations such as the SAWH, created to address issues of visibility, legitimacy, and equality in historical associations and in employment. In Clio's Southern Sisters, Constance B. Schulz and Elizabeth Hayes Turner collect the stories of the women who helped to found and lead the organization during its first twenty years. These women give evidence, in strong and effective language, of the experiences that shaped their entree into the profession. They describe the point at which they experienced the shift in their lives and in the lives of those around them that led toward a new day for women in the history profession. --Book Jacket.

Sobo explains some of the more complex issues of medical anthropology in a clear and accessible fashion and shows how gender and kinship tensions are expressed through culturally constructed syndromes. The book explores the ways in which the body serves as a medium for the expression of ideas about the social and moral order. Childhood socializations and ideas about gender relations, kinship, social obligations, sorcery, and deceit are investigated in association with beliefs about nutrition, procreation, sexuality, cleanliness, bodily flow, and sickness.

**gusto peo:** *Sandino* Augusto C. Sandino, 2014-07-14 Washington is called the father of his country; the same may be said of Bolívar and Hidalgo; but I am only a bandit, according to the yardstick by which the strong and the weak are measured.--Augusto C. Sandino. For the first time in English, here are the impassioned words of the remarkable Nicaraguan hero and martyr Augusto C. Sandino, for whom the recent revolutionary regime was named. From 1927 until 1933 American Marines fought a bitter jungle war in Nicaragua, with Sandino as their guerrilla foe. This artisan and farmer turned soldier was an unexpectedly formidable military threat to one of the succession of regimes that the United States had imposed on that country beginning in 1909. He was also the creator of a deeply patriotic language of protest--eloquent, often naive, sometimes cruel, and always

defiant. The documents in this volume, presented chronologically, constitute a spontaneous autobiography, a record not only of Sandino's adventurous life but also of a crucial and often overlooked aspect of the relationship between Nicaragua and the United States. Emblematic of the deep-rooted U.S. entanglement in Nicaraguan affairs is the fact that Anastasio Somoza, who assassinated Sandino in 1934, was the father of the Somoza overthrown by the Sandinistas in 1979. By 1933 Sandino's guerrilla army had at last forced the departure of the American Marines from Nicaragua, and in that same year he had negotiated a peace agreement with the new president, Juan Bautista Sacasa. Sacasa granted Sandino and a hundred followers a large tract of government land to establish an agricultural cooperative, and Sandino agreed to partial disarmament of his men. But a year later he was seized near the presidential mansion by soldiers of Somoza's National Guard and assassinated with two of his generals. The National Guard then attacked and destroyed his cooperative. Both before and after Sandino's brutal assassination, Somoza tried to discredit the idiosyncratic blend of political, religious, and theosophical ideas through which Sandino inspired his soldiers. Included among the documents here are expressions not only of Sandino's military preoccupations and of his philosophy but also of his practical concerns about worker organization and legislation, the rights of women and children, the protection and development of Nicaragua's Indians, Central American unification, construction of a Nicaraguan canal for the benefit of Nicaraguans and the world in general, Indo-Hispanic cooperation, and land reform. This work, which is based on the two-volume Spanish edition compiled by Sergio Ramirez, includes an introduction by Robert Conrad setting Sandino's life in historical context. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**gusto peo:** *The Long War* Judy Kutulas, 1995 In the early 1930s, the American Communist Party attracted support from a wide range of liberal and radical intellectuals, partly in response to domestic politics, and also in opposition to the growing power of fascism abroad. The Long War, a social history of these intellectuals and their political institutions, tells the story of the rift that developed among the groups loosely organized under the umbrella of the Party--representing communist supporters of the People's Front and those who would become anti-Stalinists--and the evolution of that rift into a generational divide that would culminate in the liberal anti-communism of the post-World War II era. Judy Kutulas takes us into the debates and outright fights between and within the ranks of organizations such as the League of American Writers, the John Reed Clubs, the Committee for Cultural Freedom, the American Civil Liberties Union, and the National Committee for the Defense of Political Prisoners. Showing how extremist views about the nature and value of communism triumphed over more moderate ones, she traces the transfer of the left's leadership from one generation to the next. She describes how supporters of the People's Front were discredited by the time of the Nazi-Soviet Pact and how this opened the way for a new generation of leaders better known as the New York intellectuals. In this shift, Kutulas identifies the beginnings of the liberal anti-communism that would follow World War II. A book for students and scholars of the intersection of politics and culture, *The Long War* offers a new, informed perspective on the intellectual maneuvers of the American left of the 1930s and leads to a reinterpretation of the time and its complex legacy.

Rechtslehrer Gratian (gestorben vor 1160) schuf um 1140 das *Decretum Gratiani*, eine systematische Sammlung kirchlicher Rechtstexte, die in der katholischen Kirche bis 1918 Gültigkeit behalten sollte. Dieses Exemplar des *Decretum Gratiani* mit der Glosse des Johannes Teutonicus in der Bearbeitung des Bartholomäus Brixiensis wurde 1479 in Italien gedruckt und dort auch illuminiert. Dabei erhielt es neben Deckfarbeninitialen eine einzige gerahmte Widmungsminiatur, die sich über zwei Textspalten (Folio 2 recto) ausdehnt: Der zentral thronende Papst empfängt im Beisein dreier Kardinäle aus der Hand des knienden Gratian das Buch. Der Miniator dieser Szene war Antonio Maria da Villafora, der seit seiner Heirat 1469 in Padua dokumentiert ist und dort bis 1511 arbeitete. Die Illumination dieses Exemplars fällt in seine frühe Schaffensphase, deren karge Reduziertheit ebenso charakteristisch für den Künstler ist wie seine teils sehr verspielten Hauptwerke.
