hero world challenge leaderboard 2022: Indigenous Toronto Denise Bolduc, Mnawaate Gordon-Corbiere, Rebeka Tabobondung, Brian Wright-McLeod, 2021-04-27 WINNER OF THE HERITAGE TORONTO 2022 BOOK AWARD Rich and diverse narratives of Indigenous Toronto, past and present Beneath many major North American cities rests a deep foundation of Indigenous history that has been colonized, paved over, and, too often, silenced. Few of its current inhabitants know that Toronto has seen twelve thousand years of uninterrupted Indigenous presence and nationhood in this region, along with a vibrant culture and history that thrives to this day. With contributions by Indigenous Elders, scholars, journalists, artists, and historians, this unique anthology explores the poles of cultural continuity and settler colonialism that have come to define Toronto as a significant cultural hub and intersection that was also known as a Meeting Place long before European settlers arrived. This book is a reflection of endurance and a helpful corrective to settler fantasies. It tells a more balanced account of our communities, then and now. It offers the space for us to reclaim our ancestors' language and legacy, rewriting ourselves back into a landscape from which non Indigenous historians have worked hard to erase us. But we are there in the skyline and throughout the GTA, along the coast and in all directions. -- from the introduction by Hayden King

hero world challenge leaderboard 2022: *Unconscious Putting* Dave Stockton, Matthew Rudy, 2011-09-15 The Pro Tours' Hottest Coach (Golf Digest) reveals the secrets that helped Phil Mickelson win the 2010 Masters and can utterly transform every player's game. When a resurgent Phil Mickelson won the Tour Championship in September 2009, he was quick to credit a series of simple putting lessons from veteran golf champion and instructor Dave Stockton. As a top coach, Stockton has taught a long list of pro players—including Annika Sorenstam, Yani Tseng (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion), and Morgan Pressel (World Ladies Championship of Japan winner)—the putting strategies that finessed their game. Stockton's breakthrough concept is that every player has their own Signature Stroke, which is unconscious. Good putting comes from the mind, Stockton says, not from a series of stiff mechanical positions. With visualization, the right frame of mind, an efficient pre-putt routine, and connection to the individual internal stroke signature, any player can make far more putts. Putting has always been taught as an offshoot to the full swing, when in reality it is far different—almost a different game. *Unconscious Putting* will help players get out of the rigid, mechanical, overthinking trap. In *Unconscious Putting*, Stockton shows how players at every handicap level—from pros to weekend golfers—can putt effortlessly and with confidence by integrating a new mental approach with a few simple physical routines that will keep them locked on target. Readers will also gain invaluable advice on reading greens and equipment. Illustrated throughout and filled with anecdotes about how Stockton's lessons have helped today's leading players, *Unconscious Putting* is a must-have golf book and a category classic-in-the-making.

hero world challenge leaderboard 2022: Social Capital Online Kane X. Faucher, 2018-06-14 What is 'social capital'? The enormous positivity surrounding it conceals the instrumental economic rationality underpinning the notion as corporations silently sell consumer data for profit. Status chasing is just one aspect of a process of transforming qualitative aspects of social interactions into quantifiable metrics for easier processing, prediction, and behavioural shaping. A work of critical media studies, Social Capital Online examines the idea within the new 'network spectacle' of digital capitalism via the ideas of Marx, Veblen, Debord, Baudrillard and Deleuze. Explaining how such phenomena as online narcissism and aggression arise, Faucher offers a new theoretical understanding of how the spectacularisation of online activity perfectly aligns with the value system of neoliberalism and its data worship. Even so, at the centre of all, lie familiar ideas - alienation and accumulation - new conceptions of which he argues are vital for understanding today's digital society.

hero world challenge leaderboard 2022: The First, the Few, the Only Deepa Purushothaman, 2022-03-01 A deeply personal call to action for women of color to find power from within and to join together in community, advocating for a new corporate environment where we all belong—and are accepted—on our own terms. Women of color comprise one of the fastest-growing segments in the corporate workforce, yet often we are underrepresented—among the first, few, or only ones in a department or company. For too long, corporate structures, social zeitgeist, and cultural conditioning have left us feeling exhausted and downtrodden, believing that in order to “fit in” and be successful, we must hide or change who we are. As a former senior partner at a large global services firm, Deepa Purushothaman experienced these feelings of isolation and burnout. She met with hundreds of other women of color across industries and cultural backgrounds, eager to hear about their unique and shared experiences. In doing so, she has come to understand our collective setbacks—and the path forward in achieving our goals. Business must evolve—and women of color have the potential to lead that transformation. We must begin by pushing back against toxic messaging—including the things we tell ourselves—while embracing the valuable cultural viewpoints and experiences that give us unique perspectives at work. By fully realizing our own strengths, we can build collective power and use it to confront microaggressions, outdated norms, and workplace misconceptions; create cultures where belonging is never conditional; and rework corporations to be genuinely inclusive to all. The First, the Few, the Only is a road map for us to make a profound impact within and outside our organizations while ensuring that our words are heard, our lived experiences are respected, and our contributions are finally valued.

hero world challenge leaderboard 2022: Big Hunger Andrew Fisher, 2018-04-13 How to focus anti-hunger efforts not on charity but on the root causes of food insecurity, improving public health, and reducing income inequality. Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the "emergency food system" became an industry. In *Big Hunger*, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a "hunger industrial complex" that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.

hero world challenge leaderboard 2022: Hunter Mercedes Lackey, 2015-09-01 They came after the Diseray. Some were terrors ripped from our collective imaginations, remnants of every mythology across the world. And some were like nothing anyone had ever dreamed up, even in their worst nightmares. Monsters. Long ago, the barriers between our world and the Otherworld were ripped open, and it's taken centuries to bring back civilization in the wake of the catastrophe. Now, the luckiest Cits live in enclosed communities, behind walls that keep them safe from the hideous creatures fighting to break through. Others are not so lucky. To Joyeaux Charmand, who has been a Hunter in her tight-knit mountain community since she was a child, every Cit without magic deserves her protection from dangerous Othersiders. Then she is called to Apex City, where the best Hunters are kept to protect the most important people. Joy soon realizes that the city's powerful leaders care more about luring Cits into a false sense of security than protecting them. More and more monsters are getting through the barriers, and the close calls are becoming too frequent to ignore. Yet the Cits have no sense of how much danger they're in--to them, Joy and her corp of fellow Hunters are just action stars they watch on TV. When an act of sabotage against Joy takes an unbearable toll, Joy uncovers a terrifying conspiracy in the city. There is something much worse than the usual monsters infiltrating Apex. And it may be too late to stop them?

hero world challenge leaderboard 2022: The Champion Taran Matharu, 2021-08-10 In Taran Matharu's *The Champion*, the explosive final book in the Contender trilogy, Cade and his friends wage the ultimate battle for their lives—and the fate of Earth itself—in the Game set by the cruel and mysterious Pantheon... Cade has managed to survive the duel with the Hydra Alpha—barely. But the Games are far from over. By order of their cruel and mysterious overlord, Abaddon, Cade and his friends are sent off to war against the Greys, a humanoid race who have far surpassed humans in technology on their home planet. This attempt to move up the leaderboard, however, leads Cade to a game-changing revelation: The Pantheon—the millennia-old alien masterminds behind the Games—have a weakness. With the right artifacts scavenged from the land of Acies and a heavy dose of courage and luck, Cade has exactly one chance to end their tyranny forever. But if he fails, the lives of his friends—and the survival of Earth itself—will be forfeit.

hero world challenge leaderboard 2022: Gamification in Education and Business Torsten Reiners, Lincoln C. Wood, 2014-11-22 This book is dedicated to applied gamification in the areas of education and business, while also covering pitfalls to avoid and guidelines needed to successfully implement for a project. Using different theoretical backgrounds from various areas including behavioral economics, game theory, and complex adaptive systems, the contributors aim to help readers avoid common problems and difficulties that they could face with poor implementation. The book's contributors are scholars and academics from the many areas where the key theory of gamification typically comes from. Ultimately, the book's goal is to help bring together the theories from these different disciplines to the field of practice in education and business. The book is divided into four parts: Theory, Education, Business, and Use Cases. Part I provides a foundation on the theory of gamification and offers insight into some of the outstanding questions that have yet to be addressed. In Part II, the application and value that gamification can bring within the education sector is examined. The book then changes focus in Part III to spotlight the use of gamification within business environments. The topics also cover educational aspects like improved learning outcomes, motivation, and learning retention at the workplace. Finally Part IV concentrates on the applications and use of gamification through a series of case studies and key elements that are used in real situations to drive real results.

hero world challenge leaderboard 2022: *Halfling Spring* Joanne Arnott, 2013 In *Halfling spring*, a series of notes unfolds the dance of desire versus trust through a long season of actual and

metaphorical springtime. Joanne Arnott is a Mtis/mixed blood mother of six, and in this collection she continues her explorations of love, intimacy, and family, with a focus on electronic connections (internet love). Transiting Canada from Victoria to Iqaluit, and transitioning from virtual to real (fantasy to reality), she inspects the realms of miscegenation and love in a class conscious and cross-cultural context, revealing en route the many ways that our deepest connections unveil the depths of old pain. Optimistic and playful, romantic and mythic, affirming embodiment, this process of poetic revelation shows all the dirty tricks of love.
