Navigating the Health Declaration Form Nigeria: A Comprehensive Guide

Introduction:

Are you planning a trip to Nigeria or transiting through its airports? Understanding and correctly completing the health declaration form is crucial for a smooth and hassle-free journey. This comprehensive guide will delve into every aspect of the Nigerian health declaration form, providing clear explanations, practical advice, and frequently asked questions to ensure you're fully prepared. We'll break down the form's requirements, explain potential pitfalls, and offer tips for accurate and efficient completion, saving you time and stress. This isn't just another generic travel form guide; it's your passport to understanding the specifics of the Nigerian health declaration process.

Understanding the Importance of the Health Declaration Form Nigeria

Nigeria, like many countries worldwide, implements health screenings at its borders to prevent the spread of infectious diseases. The health declaration form is a critical tool in this process. It allows health officials to quickly identify individuals who may pose a public health risk, enabling swift intervention and preventing potential outbreaks. Failing to complete the form accurately or omitting crucial information can lead to delays, fines, and even denial of entry. This isn't just a formality; it's a vital component of Nigeria's public health strategy.

What Information is Typically Required on the Health Declaration Form Nigeria?

The Nigerian health declaration form typically requires detailed personal information, travel history, and health status. While the exact questions may vary slightly depending on the point of entry and the current health situation, expect to provide information such as:

Personal Details: Full name, passport number, nationality, date of birth, contact information.

Travel History: Details of your recent travel itinerary, including dates, destinations, and duration of stay in each location. This is especially crucial if you've been in areas with known outbreaks of infectious diseases.

Health Status: Questions about your current health, including any symptoms you may be experiencing (fever, cough, diarrhea, etc.), recent illnesses, and any contact with individuals who have been diagnosed with infectious diseases.

Vaccination Status: Information on any vaccinations you have received, particularly those relevant to diseases prevalent in Nigeria or areas you've recently visited.

Common Mistakes to Avoid When Filling Out the Health Declaration Form Nigeria

Many travelers make avoidable mistakes when completing the health declaration form. These errors can lead to unnecessary delays and complications. Here are some crucial points to keep in mind:

Inaccurate Information: Providing false or incomplete information is a serious offense and can result in significant penalties. Be meticulous and truthful in your responses.

Illegible Handwriting: Ensure your handwriting is clear and legible to avoid any confusion or misinterpretations by health officials. If possible, use a printed form and fill it out using a computer.

Missing Information: Double-check that you have answered all the questions completely and accurately. Omitting information can lead to delays and questioning at the border.

Ignoring Symptoms: Don't downplay any symptoms you might be experiencing. Be honest and transparent about your health status, even if you feel it's minor.

Where to Find and How to Fill Out the Health Declaration Form Nigeria

The health declaration form is usually available at various points:

Airlines: Many airlines provide the form during the online check-in process or as part of their pre-flight documentation.

Nigerian Embassies and Consulates: You can often obtain the form from Nigerian diplomatic missions in your country.

Upon Arrival: The form may be available at the airport upon arrival, but obtaining it beforehand will save you valuable time.

After Completing the Form: What to Expect at the Airport

Upon arrival in Nigeria, be prepared to present your completed health declaration form to immigration and health officials. They may ask follow-up questions based on your answers. Be prepared to answer calmly and truthfully. If you declare any symptoms, you may be subject to further health screenings, including temperature checks and potentially more detailed medical assessments.

health declaration form nigeria: *Universality of the Rule of Law* Elmarie Fourie, Jerca Kramberger Škerl, 2022-01-25 The book is the result of a recent but intensive cooperation between the faculties of law of the universities of Ljubljana and Johannesburg. As is often the case in life, the starting point of this project was a friendship. A friendship between two law professors who, at the same point in time, became deans of their respective law schools – Prof Letlhokwa Mpedi (now Deputy Vice-Chancellor: Academic (UJ)) in Johannesburg and Prof Grega Strban in Ljubljana. They decided to connect their institutions in a formal way by establishing a cooperation that would outlive their mandates as deans and provide a professional platform for legal scholars of both universities to get first-hand insight into a very different legal system, thus widening their legal horizons and inspiring a different view and new solutions for their own national law. This noble endeavour has so far been a great success. What might have seemed an unlikely alliance proved to be an extremely valuable and inspiring experience both on a professional and personal level. The idea of this book was born after a joint conference held in Johannesburg in 2019. Here, experts from both institutions presented current relevant issues in different legal areas and discussed how both countries dealt with them. After insightful debates, it was decided that they should, on the one hand, be written down, and, on the other hand, that the written texts should not only reflect those debates but should broaden and deepen the research. It should not merely be a collection of conference papers, but a true scientific monograph, destined to legal scholars and practitioners, researching, teaching and practicing in national and international environments. health declaration form nigeria: *Litigating the Right to Health in Africa* Ebenezer Durojaye, 2016-03-09 Health rights litigation is still an emerging phenomenon in Africa, despite the constitutions of many African countries having provisions to advance the right to health. Litigation can provide a powerful tool not only to hold governments accountable for failure to realise the right to health, but also to empower the people to seek redress for the violation of this essential right. With contributions from activists and scholars across Africa, the collection includes a diverse range of case studies throughout the region, demonstrating that even in jurisdictions where the right to health has not been explicitly guaranteed, attempts have been made to litigate on this right. The collection focusses on understanding the legal framework for the recognition of the right to health, the challenges people encounter in litigating health rights issues and prospects of litigating future health rights cases in Africa. The book also takes a comparative approach to litigating the right to health before regional human rights bodies. This book will be valuable reading to scholars, researchers, policymakers, activists and students interested in the right to health.

health declaration form nigeria: *Disease Control Priorities, Third Edition (Volume 6)* King K. Holmes, Stefano Bertozzi, Barry R. Bloom, Prabhat Jha, 2017-11-06 Infectious diseases are the leading cause of death globally, particularly among children and young adults. The spread of new pathogens and the threat of antimicrobial resistance pose particular challenges in combating these diseases. Major Infectious Diseases identifies feasible, cost-effective packages of interventions and strategies across delivery platforms to prevent and treat HIV/AIDS, other sexually transmitted infections, tuberculosis, malaria, adult febrile illness, viral hepatitis, and neglected tropical diseases. The volume emphasizes the need to effectively address emerging antimicrobial resistance, strengthen health systems, and increase access to care. The attainable goals are to reduce incidence, develop innovative approaches, and optimize existing tools in resource-constrained settings.

health declaration form nigeria: Nigeria in the Fourth Republic E. Ike Udogu, 2022-04-14 Nigeria is a bellwether, in an enormous continent, endowed with natural resources and human capital, whose development and greatness have been marred by political instability since gaining home-rule from Britain in 1960. The contemporary political, economic, and social quandaries that have stultified Nigeria's growth project flows from difficulties in cultivating patriotic leaders with pluck to enact efficacious policies that will catapult the country to greater heights developmentally. Nigeria in the Fourth Republic: Confronting the Contemporary Political, Economic, and Social Dilemmas, edited by E. Ike Udogu, examines some of the vital issues responsible for the current political malaise and recommends strategies for exculpating the country from her current political quagmires. The contributors to this book argue, inter alia, for the avoidance of false starts reminiscent of the military interventions that aborted the democracy project and advocates the enactment of effective policies to supersede decision dictated by politics. This volume proposes national healthcare strategies to address the country's healthcare needs and for dialogue to extinguish combustible inter-religious conflicts. The book recommends ways to assuage police highway malfeasance and explains why human rights observance is critical to further national cohesion while creating space for the subalterns to have their voices heard in discourses on how to advance peaceful coexistence.

health declaration form nigeria: Ten years in public health 2007-2017 Margaret Chan, 2018-04-27 Ten years in public health 2007-2017 chronicles the evolution of global public health over the decade that Margaret Chan served as Director-General at the World Health Organization. This series of chapters evaluates successes setbacks and enduring challenges during the decade. They show what needs to be done when progress stalls or new threats emerge. The chapters show how WHO technical leadership can get multiple partners working together in tandem under coherent strategies. The importance of country leadership and community engagement is stressed repeatedly throughout the chapters. Together we have made tremendous progress. Health and life expectancy have improved nearly everywhere. Millions of lives have been saved. The number of people dying from malaria and HIV has been cut in half. WHO efforts to stop TB saved 49 million lives since the start of this century. In 2015 the number of child deaths dropped below 6 million for the first time a 50% decrease in annual deaths since 1990. Every day 19 000 fewer children die. We are able to count these numbers because of the culture of measurement and accountability instilled in WHO. These chapters tell a powerful story of global challenges and how they have been overcome. In a world facing considerable uncertainty international health development is a unifying - and uplifting - force for the good of humanity.

health declaration form nigeria: Family Law in Nigeria. Nwogugu, E.I., 2014-05-08 This is

the third edition of an established and leading book on family law in Nigeria. Since the last edition in 1990 significant judicial and statutory enactments have taken place in the area of study. The new edition incorporates these changes and explains their implications. The chapters have been comprehensively re-written to reflect the changes in the law and to update all relevant information including the Same Sex Bill and the Nigerian Law Reform Commissions draft Marriage Act. New chapters have been included on domestic violence and widowhood respectively to reflect the continuing developments in Nigerian family law. The new Child's Right Act of 2003 and the similar state legislations have been analysed in the three new chapters. The non-customary law rules in the intestate succession have been extensively recast to reflect the provisions of the Marriage act as contained in the Lawa of the Federation of Nigeria 2004. This edition has devoted considerable attention to the applicable customary laws on the family and provides extensive treatment of Islamic Law Rules and their interpretations and application by the superior court. Familu law in Nigeria presents a fresh view not only on the applicable rules on Nigerian family law but also suggest new directions and underlines the socio-economic implications.

health declaration form nigeria: Human Rights, Public Values, and Leadership in Healthcare Policy Eneanya, Augustine Nduka, 2018-11-23 The legitimacy of any national health system depends on how it serves the interest of the poorest and most vulnerable people. As such, a commitment to equity should be at the heart of human rights discussions regarding universal health coverage. Human Rights, Public Values, and Leadership in Healthcare Policy is an essential reference source on the importance of access to timely, quality, and affordable healthcare, and how overt or implicit discrimination in the delivery of health services violates fundamental human rights and can have serious health consequences. This publication covers current health-policy debates and reforms that focus on extending universal health coverage, decreasing the growth of costs through improved efficiency, and expanding prevention and wellness of programs. While highlighting topics such as authority hierarchy, HIV/AIDS experiences, and veterans' mental health, this publication is ideally designed for health practitioners/professionals, scholars, researchers, institutions, students, consultants, and policymakers.

health declaration form nigeria: Patent Games in the Global South Amaka Vanni, 2020-02-06 In this thought-provoking analysis, the author takes three examples of emerging markets (Brazil, India, and Nigeria) and tells their stories of pharmaceutical patent law-making. Adopting historiographical and socio-legal approaches, focus is drawn to the role of history, social networks and how relationships between a variety of actors shape the framing of, and subsequently the responses to, national implementation of international patent law. In doing so, the book reveals why the experience of Nigeria - a country active in opposing the inclusion of IP to the WTO framework during the Uruguay Rounds - is so different from that of Brazil and India. This book makes an original and useful contribution to the further understanding of how both states and non-state actors conceptualise, establish and interpret pharmaceutical patents law, and its domestic implications on medicines access, public health and development. Patent Games in the Global South was awarded the 2018 SIEL-Hart Prize in International Economic Law.

health declaration form nigeria: Global Ageing in the Twenty-First Century Zachary Zimmer, 2016-04-22 Population ageing - a growth in the proportion of a population that is in older age - is now occurring in every region and nearly every country of the world. Indeed, the growth of older populations is among the important global phenomena of the twenty-first century. It poses both opportunities and challenges for societies and policy makers, but these are far from uniform worldwide. Dynamic factors are at work impacting on how ageing will influence people, places and policies and there are large variations in the rate and timing of population ageing across countries, owing to differing social, health and economic circumstances and a variety of policy options from which to choose. Given this variation in the context of global ageing as a backdrop, this edited book focuses on three overarching themes that are among the most critical to understand if societies are to age successfully in the twenty-first century and beyond: Healthy ageing and health care; the ageing workforce, retirement and the provision of pensions; shifting intergenerational relations. These three themes are cross-cut by other dimensions that are intertwined with the dynamic processes of ageing, such as immigration/emigration, contrasting policy regimes and global and national economic forces. This ground-breaking book will be of interest to all scholars, students and policy-makers working within this area of study.

health declaration form nigeria: Disease Control Priorities, Third Edition (Volume 2) Robert Black, Ramanan Laxminarayan, Marleen Temmerman, Neff Walker, 2016-04-11 The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

health declaration form nigeria: Foodborne Parasites Ynes R. Ortega, 2006-11-22 This book examines the two major parasite groups that are transmitted via water or foods: the single-celled protozoa, and the helminths: cestodes (tapeworms), nematodes (round worms), and trematodes (flukes). Each chapter covers the biology, mechanisms of pathogenesis, epidemiology, treatment, and inactivation of these parasites. This important new text offers a better understanding of the biology and control of parasitic infections necessary to reduce or eliminate future outbreaks in the U.S. and elsewhere.

health declaration form nigeria: Insights in Public Mental Health: 2022 Wulf Rössler, 2024-02-20

health declaration form nigeria: *Psychiatry of Pandemics* Damir Huremović, 2019-05-15 This book focuses on how to formulate a mental health response with respect to the unique elements of pandemic outbreaks. Unlike other disaster psychiatry books that isolate aspects of an emergency, this book unifies the clinical aspects of disaster and psychosomatic psychiatry with infectious disease responses at the various levels, making it an excellent resource for tackling each stage of a crisis quickly and thoroughly. The book begins by contextualizing the issues with a historical and infectious disease overview of pandemics ranging from the Spanish flu of 1918, the HIV epidemic, Ebola, Zika, and many other outbreaks. The text acknowledges the new infectious disease challenges presented by climate changes and considers how to implement systems to prepare for these issues from an infection and social psyche perspective. The text then delves into the mental health aspects of these crises, including community and cultural responses, emotional epidemiology, and mental health concerns in the aftermath of a disaster. Finally, the text considers medical responses to situation-specific trauma, including quarantine and isolation-associated trauma, the mental health aspects of immunization and vaccination, survivor mental health, and support for healthcare personnel, thereby providing guidance for some of the most alarming trends facing the medical community. Written by experts in the field, *Psychiatry of Pandemics* is an excellent resource for infectious disease specialists, psychiatrists, psychologists, immunologists, hospitalists, public health officials, nurses, and medical professionals who may work patients in an infectious disease outbreak.

health declaration form nigeria: *COVID-19 and the Right to Health in Africa* Ebenezer Durojaye, Roopanand Mahadew, 2024-05-28 This collection draws upon a range of thematic and regional case studies and uses the right to health as a normative framework to explore the devastating impact of the COVID-19 pandemic in Africa. Drawing lessons from across the continent, the book discusses the challenges faced by African states seeking to ensure the availability, accessibility, and quality of health care in the context of the COVID-19 pandemic. In particular, the

volume explores the impact of the pandemic on the right to health of vulnerable and marginalized groups, such as women, children, elderly persons with disabilities, refugees and asylum seekers, and people from disadvantaged communities. Due to the poor funding of the healthcare systems, access to health-related services was limited to these groups in many African countries, thereby leading to avoidable COVID-19-related deaths through shortages of vital supplies, including diagnostic tests, ventilators, and oxygen cylinders. Chapters in the volume also explore the contentious issues of vaccine mandates, equity, resource allocation, and the rights of healthcare providers during the pandemic. This collection will be of interest to students of public health, human rights, and the social sciences, as well as to academics and policymakers with an interest in the nexus between the COVID-19 pandemic and public health policy in Africa.

health declaration form nigeria: *Living with Mental Illness in a Globalised World* Ugo Ikwuka, 2021-05-03 *Living with Mental Illness in a Globalised World* systematically examines the manifold contributions to the burdens of living with mental illness in a developing and globalised world. It explores the stigma of mental illness, the burden of which compares to the symptoms of and is sometimes considered more disabling than the illness itself. The book starts by reviewing the socio-psychological and cultural processes that contribute to stigma and providing evidence-based interventions to combat it. Chapters critically investigate the ideological and instrumental barriers to mental healthcare and establish that determining the conceptualisations of mental illness helps to unravel the reasons for the underutilisation of mental health services. A compelling case is made for a complementary healthcare model and bottom-up approach that is sensitive to the spiritual and cultural needs of the people. The text's specific examination of mental healthcare in African countries makes it a timely piece for assisting mental health professionals in understanding the inequities in care that Black Asian and Minority Ethnic groups face and how to improve mental healthcare and delivery to these groups.

health declaration form nigeria: *Routledge Handbook of Global Health Rights* Clayton Ó Néill, Charles Foster, Jonathan Herring, John Tingle, 2021-05-30 This book examines the idea of a fundamental entitlement to health and healthcare from a human rights perspective. The volume is based on a particular conceptual reasoning that balances critical thinking and pragmatism in the context of a universal right to health. Thus, the primary focus of the book is the relationship or contrast between rights-based discourse/jurisprudential arguments and real-life healthcare contexts. The work sets out the constraints that are imposed on a universal right to health by practical realities such as economic hardship in countries, lack of appropriate governance, and lack of support for the implementation of this right through appropriate resource allocation. It queries the degree to which the existence of this legally enshrined right and its application in instruments such as the International Covenant on Economic, Social and Cultural Rights (ICESCR) and the Universal Declaration of Human Rights (UDHR) can be more than an ephemeral aspiration but can, actually, sustain, promote, and instil good practice. It further asks if social reality and the inequalities that present themselves therein impede the implementation of laudable human rights, particularly within marginalised communities and cadres of people. It deliberates on what states and global bodies do, or could do, in practical terms to ensure that such rights are moved beyond the aspirational and become attainable and implementable. Divided into three parts, the first analyses the notion of a universal inalienable right to health(care) from jurisprudential, anthropological, legal, and ethical perspectives. The second part considers the translation of international human rights norms into specific jurisdictional healthcare contexts. With a global perspective it includes countries with very different legal, economic, and social contexts. Finally, the third part summarises the lessons learnt and provides a pathway for future action. The book will be an invaluable resource for students, academics, and policymakers working in the areas of health law and policy, and international human rights law.

health declaration form nigeria: *Half of a Yellow Sun* Chimamanda Ngozi Adichie, 2010-10-29 With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the "21st century daughter" of Chinua Achebe. Now, in her

masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra's impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo's beautiful mistress, Olanna, a sociology teacher, is running away from her parents' world of wealth and excess; Kainene, her urbane twin, is taking over their father's business; and Kainene's English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

health declaration form nigeria: Research Anthology on Public Health Services, Policies, and Education Management Association, Information Resources, 2021-04-16 Public health has become an essential area of focus in terms of the way it operates, the services offered, policies, and more. Maintaining an effective public health system and infrastructure, updated and useful policies, and health literacy are primary concerns. A critical analysis of public healthcare policy and services is critical to accommodate the changing health demands of the global population. Through a deeper understanding of the way public health services are offered, a look into policymaking and current policies in healthcare, and the way health literacy and health education are promoted, the current state and future of public health are acknowledged. The Research Anthology on Public Health Services, Policies, and Education presents a view of public health through an analysis of healthcare services and delivery; policies in terms of policymaking, ethics, and governance; as well as the way society is educated on public health affairs. The chapters will cover a wide range of issues such as healthcare policy, health literacy, healthcare reform, accessibility, public welfare, and more. This book is essential for public health officials, government officials, policymakers, teachers, medical professionals, health agencies and organizations, professionals, researchers, academics, practitioners, and students interested in the current state of public health and the improvement of public health services and policies for the future.

health declaration form nigeria: Nigeria's Aborted 3Rd Republic and the June 12 Debacle: Reporters' Account Deba Uwadiae, Emeka Nwosu PhD, Segun Olanipekun PhD, Abiodun Adeniyi PhD, 2022-03-31 Let's be clear. "Nigeria's Aborted 3rd Republic and The June 12 Debacle: Reporters' Account" is by no means a definitive account of the controversial transition to civil rule

programme of General Babangida or for that matter, that of the annulled June 12 presidential election. But it is a fascinating collection that reminds us about the forces that shaped the past and may be responsible for Nigeria's present dilemma.

health declaration form nigeria: The Last Dictator Ned Tony Emeni, 2012-04-20 It is a new dawn for the C-in-C, whose ascension to power is the result of the assassination of the reformist military head of state, General Mutallah Mohammed, who once promised to transfer power to a democratic government and failed. As a handful of military leaders meet in a private guest house, it soon becomes evident there are cracks in the military foundation and that a palace coup is boiling just beneath the surface. The leaders know they must choose who will be the next President of the Federal Republic of Nigeria. But the question remains who? As soon as General Obasanjo becomes the new president, the nation is plunged into chaos. As a revolution brings masses to the streets who destroy and paralyze all government institutions, Obasanjo realizes he must terminate the ruthlessness of the mafia by appointing the no-nonsense, second-in-command military ruler, Brigadier Taju Agbon, to power. But all of Obasanjo's efforts are in vain as more intolerants emerge, the upper class is attacked, and corrupt politicians are robbed of their wealth and properties. In this action-packed tale full of surprising twists and turns, the reign of the last dictator precariously hangs in the balance as he attempts to rule over a nation in jeopardy.

health declaration form nigeria: After Doha: The Changing Attitude and Ideas of the New WTO Round Terence Stewart, 2021-11-15 In a significant move to further the purpose of the World Trade Organization (WTO), a decision was reached at the Ministerial meeting in Doha, Qatar, to launch a new round of trade negotiations. Coming more than seven years after the Uruguay Round, the new round with a much heavier emphasis on issues of interest to developing nations and will include various modifications to existing WTO agreements in the name of addressing implementation issues. The launch of the new round is heralded by many as significant considering the current state of world affairs and the WTO's need to establish credibility after the Seattle debacle. This volume identifies the major elements of the upcoming negotiations and reviews the major decisions taken in Doha. Extensive appendices provide primary source documentation of Ministerial Declarations and Implementation Decisions. Published under the Transnational Publishers imprint.

health declaration form nigeria: Fela Michael Veal, 2000-05-17 Musician, political critic, and hedonist, international superstar Fela Anikulapo-Kuti created a sensation throughout his career. In his own country of Nigeria he was simultaneously adulated and loathed, often by the same people at the same time. His outspoken political views and advocacy of marijuana smoking and sexual promiscuity offended many, even as his musical brilliance enthralled them. In his creation of afrobeat, he melded African traditions with African American and Afro-Caribbean influences to revolutionize world music. Although harassed, beaten, and jailed by Nigerian authorities, he continued his outspoken and derisive criticism of political corruption at home and economic exploitation from abroad. A volatile mixture of personal characteristics -- charisma, musical talent, maverick lifestyle, populist ideology, and persistence in the face of persecution -- made him a legend throughout Africa and the world. Celebrated during the 1970s as a musical innovator and spokesman for the continent's oppressed masses, he enjoyed worldwide celebrity during the 1980s and was recognized in the 1990s as a major pioneer and elder statesman of African music. By the time of his death in 1997 from AIDS-related complications, Fela had become something of a Nigerian institution. In Africa, the idea of transnational alliance, once thought to be outmoded, has gained new currency. In African America, during a period of increasing social conservatism and ethnic polarization, Africa has re-emerged as a symbol of cultural affirmation. At such an historical moment, Fela's music offers a perspective on race, class, and nation on both sides of the Atlantic. As Professor Veal demonstrates, over three decades Fela synthesized a unique musical language while also clearing -- if only temporarily -- a space for popular political dissent and a type of counter-cultural expression rarely seen in West Africa. In the midst of political turmoil in Africa, as well as renewal of pro-African cultural nationalism throughout the diaspora, Fela's political music functions as a post-colonial art form that uses cross-cultural exchange to voice a unique and

powerful African essentialism.
